

NAAWP

Dear Friend,

When you receive this issue, I will be on the campaign trail in New Hampshire and New York. I am getting excellent response in New Hampshire and believe that it will be a dramatic turning point in the campaign and indeed in the political history of the nation. Most polls and pundits don't expect me to do very well until the southern, Super-Tuesday Primaries, but there are many patriots in new Hampshire who are ready to support someone who will stand against the government policies that are taking away our rights and destroying our heritage.

I am filing additional Federal suits against the Democratic Party in Washington, D.C. and in Boston, and I have a number of media appearances scheduled that should be quite exciting. One more push and we will qualify for matching funds which will enable us to produce and air our own TV programs. We will be producing a series of half-hour shows that will be aired in every major American city addressing the real issues facing America. They will be professionally done and I promise you that they will be the most powerful programs ever seen in defense of our heritage and rights.

I will look right into the eyes of millions of Americans and speak as no other candidate would dare. The American people will hear about the violence and educational backwardness created by busing and forced-integration, about the massive anti-white racial discrimination of "affirmative action," about the transforming of America into a Third-world, non-white nation through massive immigration. I will ask them if they are willing to lose both their rights and their precious heritage as America becomes transformed into another Mexico or Haiti. Furthermore, I will speak directly to them about the rip-off of Free Trade, and the depression we are being led into by the Mega-Banks and the International corporations. These programs will be powerful!

The NAAWP continues to grow, day by day. It has now become easily the largest organization in the world openly standing up for the rights and heritage, and the cultural and spiritual advancement of the true minority on the Planet Earth: the White Race. Please support this Movement faithfully during this time of year when it is so easy to forget the peril of our people when there is the great joy of Christmas and the holidays. There is no more meaningful gift than to help this Movement that works so hard for the life and freedoms of those whom you love.

May The Joy of Christmas be with You!

David Duke
