THE PROMOTES BLACK PACESM . . .

The civil richts office of the Depertment of Health, Education and Melfare has informed the MAP that Title VI of the HEL blan will force fraternities and sororities to intermete seeinet their mill.

Act in the property of the second

This plan calls for the University to admit unqualified minority members at the expense of qualified whites by lowering SAT minimum standard scores for blacks and other minorities

The University administration has

October 9, 1974

STUDENTS IN FOR MEDONE

Tron more than the farmer needs the milk, the cows need to be milked."

The University student is presently faced with another scheme raised by the same old radical clique to course him in the wallet. Fire (Firte Interest Research Group) is being formed for the umpteenth time. The major difference between this and mest efforts is in the degree of the ripoff. This time, champion con artist Ralph Nader has sent a fulltime taid organizer, "a resource", toward establishing their organization in this Rob Bildner, front man for Nader, is hoping to gain at least \$3 per student. (Vermont gets 36.) They need at least \$100,000 to support staff and projects. Blicher, when quizzed, said that he favored a check off system orezating through the fees assessed by the University because fewer people would be able to get their money back. Under another system, Twe will not get as much money" he said. Noting that this was being copied down, Bildner said: "Please do not take this

Long known of this Title VI madness, and has consistently ignored and played down this aspect of the plan. The furor over the sex discrimination clauses of Title IX has been hartiglly a smokescreen to Araw attention away from this potentially explosive isste

In the state of Louislana, Fovernor Edwin Edwards has called a halt to the HET insamity there, and is rallving the people of the state to resist this federal intervention. The TAP will meet this Thursday with President Fred Davison and will gall him to account for his role in this HEW plan to dismuct University life in all areas, academic and social.

Me will ask Davison to bow to the will of the majority of the people and begin to institute legal resistance against this blatantly illegal encroachment on the rights of the ma forment former.

FIR plans to open lobying facilities in Atlanta. Almost all of the funds raised at UGA would be forwarded to Atlanta to support a paid professional staff to support radical legislation with occasional student oriented interests. When questioned, Fildrer was not interested in helping fight higher rents or other local problems. He was strongly in favor of keeping all the financial power controlled by Nader's Raiders, who are now being imported from Massachusetts to Meet Georgia straight ...

Such minority racism as the HEA plan must be stopped, and resistance can and must begin here and now.

BRATTER AND THE BRASE

Mis. Ruby Hartman, Clarke County Ordinary, recently issued a marriage License to an interracial couple. The reason for issuance of the license was the belief that the law required the Ordinary to comply. Instead of citing an old "miscegenation" law, we would suggest that Mrs. Hartman cite section 26-2004 of the Georgia code in the future.

The Peoples' Chserver reveals (scooping the Red and Flack) that Nader himself will shortly appear in Athens to build support for the netten drive for pric.

We opposed FIR last year and we have seen nothing to change our minds that PIR is a thereworm on the fee system."

The Universes students not to sign the petition. More on FIRS will be forthcoming when Mader comes to campus.

REFERENDUM A MUST

We would like to compliment SGA President, J. Rivers Walsh, for recognizing the need for affirmative action in the areas of Southern Culture (playing of "Dixie," etc.), the day-care center, Title 1X of HEW, as well as other minor considerations. Although The Red and Black has decided there is no reason to hold a referendum, (which is reason enough to hold one), we would like to urge the senate to implement the vote as soon as possible. It has been pointed out that the present student government has very little popular support and base in terms of the total number of students. This makes it all the more important to ascertain the mood of the students in popular referenda. It is not often that the populace is afforded the opportunity to express its sentiments on issues that are so clearly drawn in such "black and white" terms. Could this be the reason that the pompous proponents of "free speech" would be so hesitant in allowing the ultimate decision? The UAP has consistently maintained that only through political hypocrisy, cowardly concessions, and clever misuse of "nice-sounding" programs has the majority student been forced to meekly accept the humiliations of minority racism in the name of equality. Whites have been so intellectually drained and devoid of racial purpose that any opportunity to escape controversy has been locked at as divine relief. For fear of being called "racist," "reactionary," "square" for the first time, the UAP has made or "redneck," the majority student quietly sits in the classroom while the more vocal leftists hammer away at his racial pride and accomplishments in nauseating mockery. Until now, the majority student lacked the chance to find solid ground on which to assert his racial dignity. The proposed referendum issues are clear, and the CHOICE IS YOURS !!! "Dixie": In the wake of social pressure, many students have unquestionably accepted the idea that "Dixie" is a backward expression of bigotry. Not so. Regional pride is the noblest compliment to those qualities which enable us to enjoy the privilege as distinct and culturally productive human beings. Isn't it odd that the social manipulators think it healthy to become "sensitively aware" but balk when Whites become racially and regionally conscious. Whites are exceptionally tolerant of Africanized music displaying elements of black "soul." Why not a little White soul? Are we so ashamed of our ethnic origin that it is considered sophisticated to abandon cultural solidarity?

scum over at the North Avenue Trade Schoel plays "Dixie."

Day Care Center: No issue is more firmly rooted than that children must be properly protected and maintained. However, those who would "bring us together" have so muddied the picture that they would have you believe that the only pratical alternative to a Day Care Center is a barbaric manifestation of child hatred. The UAF recognizes the need for married students attending facilities forchildren during class hours. But we deplore the idea of disposable state hatcheries. Frivately owned and financed childcare centers are available without your money being used in bureaucratic baby-sitting. It has been revealed that the UGA day-care center has cost the students \$18,000 for 35 tots. This is a bit stiff for even the most devoted mothers. It would be appropriate to find a practical. solution. One possibility might be to use married student's tutition to send children into day-care centers in Athens at a much reduced cost per head. Title IX: Title IX will create too much social disruption and unwarranted federal intervention in our Univ. right to autonomous decision-making.

UAP MAKES MISTAKE:

We are always willing to admit when an error has been committed. Now, a mistake! On page one, in the Nader and PIRG article, we referred to the check-off system. Actually, the FIRG crowd opposes the check-off, for the reasons stated, in the article.

FLASH-LAIL NEWS BREAK silvader to be Greaterss At the organizational meeting of PIRG earlier, it was announced that Ralph Nader would be coming to the UGA campus. Concerned students present at the PIRG meeting asked questions about the cost of bringing in such a big name. These fears were poo-pooed by Bildner, who, while spicing up his remarks with derogatory remarks about the South and Georgia, claimed Nader would come for free. We checked into Nader's "magnanimity and discovered that a memof Gov. Carter's staff suggested to the Union that Nader would be available. PIRG worked out final details with the Union and -- you guessed it ---students will foot the bill to the . tume of Sl. 000. Have fun getting those petitions signed, PIRG workers:::

Since students give \$12,000 a year to Roger Dancz and the Deadcoat Narching Band, then it might be time for the students to have some say in what they play at the games. Even the The Union of the American Feople meets every Wednesday night at 7 pm at Nemorial Hall in Conference Room E. "Become Involved, Concerned & Aware!"
