mmular platform, Twe Look forward to the de-Patrickization of SGA. WSA will be one of the first things to go." Terri Rent

"The only real difference between Coalition and Onward is in Allocations."

Priends of OHWARD!

Those who have observed recent political events can not help noticing the complete and total ease with which the ONWARD campaign has been greased by the students. Due to the well-lubricated progress of ONWARD, many persons began to question their campaign expenses. While we hate to give credit to an opponent, the Coalition cronies were first to putematically investigate the disbursements of the ONWARD machine. It has now been revealed by Pasha Patrick, no stranger to lavish expenses himself, that the "progressive and predical" boys have been caught in their own "Watergate." 74 commericals were paid for by "The Friends of Onward," possibly best described by Gen. Alexander Haig as a 'mysterious force' that just zoomed in and paid for all them ONWARD ads without any consulatations with ole Walsh and company, These funds spent for Onward, added to the proposed beer bust on Tuesday evening will put ONWARD over the \$1000 expens limit. Terry Wehunt, one of the top banannas of the Party explained to a sceptical elections committee on Monday afternoon that the regulations only covered money actually spent through an organization's treasury, not the treasury of "Friends" who were beyond Onward's control.

How does Onward expect to control student government if they can not even control their "Friends"?

"FRIENDS OF OWARD"
(also not unknown to Coalition)

Poor little Orphan Onward, no matter how modest and poor they try to be, Old Daddy Warbucks and his "riends" keep trying to smooth the way with their checkbooks. Goling over our total disbursements, the UAF found that OMAD spent more money for paper and radio time tham the UAP did for the whole campaign. On top of that one can add all the kicky little trinkets ONWARD has, such as | buttons, T-shirts, 30 kegs of beer, a movie | | which lists for \$200 (ONWARD claims they only have to pay \$50...we suppose "friends" ironned out the rest), showmobiles, bands, letc. We urge all students to take advantage 3 of our campus edition of the Roman circuses, 33 las this will be one of the few times that 33 OMARD and company will be giving something to you. After they get into power, we can I predict that they will be just as irresponstble with your money as they have been with the elections rules. While we earlier would have called OMWARD the lesser of two evils Thomas Was | When compared to Coalition's disgusting give laways to homos, blacks, cronies, and oddball. leauses, now no difference can be discerned.

While the UAF has been criticized by many people as being "neo-Nazi", "racist", "un-reconstructed Confederates", "sexists", and all the other words that are supposed to make us wither and disappear, we are now proud to be the only party of stature who have not been either dipping into the collective till or defrauding students with phoney election committees designed to make money buy the election. We stand or fall on our platform.

Our candidates have said the same thing before the Black Student Union as any fraterhity or residence hall. Some folks may not like what we say, but at least we're honest——apparently a rare commodity in this election. So, if you are fed up with the outrageous allocations of Coalition and can't bring yourself to vote for the local edition of the CREEP with all of their attendent frauds, vote for the UAP. After all, we're in this for you.
