One of our most active patriots here in Dallas has come up with a gem of an idea!

All the details have been worked out. All we need now is YOUR help.

As most of you know, the campaign in Virginia is now going better than anyone had dared to hope! Letters from our friends up there just rave about the way most Virginians privately feel about the Commander.

To round up all the votes we can get the first thing the Commander needs is a "camper", a sort of "bus" with facilities for eating and sleeping while stumping the state. Patriots in Michigan have undertaken to try to obtain this campaign vehicle. It now appears that they may be able to do it, with the help of some of the contributions which came in on the Commander's recent confidential report.

But there are a lot of other ungent campaign needs, things which are desperately needed right NOW. Perhaps chief among these is a "Varityper", a machine to "set type" for the "White Virginian" campaign newspaper.

We had been gathering books of trading stamps to help get the camper, and now have 167 books sent in. It is absolutely fantastic what we can do with these stamps in getting the equipment needed up there in Virginia. For instance, if the Michigan patriots do have the camper, we can get the Commander the "Varityper". This very expensive machine has been beyond the reach of the Party for years. We can get it with only 40 more books than we NOW have?

We can also supply the campaign with dozens of other needed items with NO CASH OUTLAY--IF all of us do our small part on these trading stamps! It

was a second of the transfer of

is not necessary that all the stamps be alike.

There are facilities here in Dallas for trading stamps of ANY kind for stamps of a particular kind. We don't care what kind of stamps you have (brown, green, top-value, plaid, etc.). We want them all! If you don't mind sticking them in the book, do it. If you do mind sticking them in the book, don't do it. (We'll do it for you.) Just send us your trading stamps NOW. And, I repeat, in a loud, clear voice, NOW! The needed campaign equipment and supplies can be in Arlington, Virginia, in a matter of a week or ten days after we get the books, if we all get with it! If you are the type and are so inclined, you can get many extra stamps by taking advantage of the extra coupon offers in your daily newspaper. please don't make big plans to send thousands and then wind up giving none. Send what you have now! Then, if you get more stamps later, so much the better. Those who are single (and don't save stamps) can more than likely "con" mother or friends out of one or two books. TRY IT. We need all we can get from everyone. We already have almost 200 books from personal letters I have sent out, and this is the first official notice the Commander has agreed to mail out for us. Send the books by registered mail (they're just like money). Send them to: Mrs. John L. Cook, P.O. Box 3980, Dallas, Texas 75208.

For a White Christian Constitutional Victory in Virginia!

Mrs. John L. Cook
