

THE DIFFERENCE

BETWEEN

NATIONAL SOCIALISM

(AMERICAN NAZI PARTY)

AND

COMMUNISM

(MARXIST SOCIALISM)

National Socialism is primarily the belief in RACE! National Socialists (Nazis) believe that the various races of the earth differ in intelligence and ability to create and invent.

American Nazis believe that White people are the most gifted people and therefore the most superior Race on earth. Civilization, society, economy, etc., succeed or fail according to RACE! American Nazis advocate America for Whites! Africa for Blacks!

Communism DOES NOT recognize Race. Communists (Marxist Socialists) believe in the myth that all Races on earth are the same and are equal.

Communists believe in integration and they push race-mixing.

Communism is rapidly winning the active support of the non-whites of the earth who outnumber White People by seven to one!

RACE

National Socialists believe in the right of private property. American Nazis strongly believe that every man should have the right to own property.

PRIVATE PROPERTY

Communism DOES NOT believe in private property. Communists believe that the State (Government) should own everything, including ALL property.

American Nazis believe in FREE ENTERPRISE - the right to produce and earn all that a man is capable of. National Socialism believes in the right of an individual to own and operate a business.

FREE ENTERPRISE

Communism is against Free Enterprise. Communists believe the state should own and control ALL means of production. Communism DOES NOT permit individual ownership of a business. Life under Communism can be compared to life in an anth-hill or bee-hive.

The American Nazi Party believes in the U.S. Constitution. Nazis seek office through the vote. American Nazis DO NOT believe in dictatorship. Nazis are not subversive because we do not advocate the violent overthrow of the government. All American Nazis are U.S. Citizens.

LAW & ORDER

Communism seeks to overthrow the U.S. system of government. No Communist government was ever elected to power. All Communist systems have come to power by violent means of revolution and have all established dictatorships to maintain their system.

THE KIND OF "SOCIALISM" U.S. NAZIS BELIEVE IN...

Listed above are the BASIC DIFFERENCES between National Socialism and Communism. There are many more differences. Many ill-informed people make the mistake of associating Nazis with Communists. This is a serious mistake, usually the result of not being well informed on the subjects.

Some people believe Nazis and Communists are the same because both use the word "socialist". The kind of "socialism" that the American Nazi Party believes in is very different than the kind of "socialism" that the Communists advocate. American Nazis believe in the kind of "socialism" that is necessary for the survival of society such as the Police Departments, Fire Dept., Army, Public Health Service, etc., which are indeed "SOCIALIST" establishments because they are

owned by all the people and are for the benefit of all the people and can never be owned or entrusted to any one individual.

Without the above types of "socialism", our nation and society as we know it, would cease to exist.

American Nazis also believe in the welfare of the people. We firmly believe that every productive working man and woman, and their children, should be protected from all economic catastrophes which they are unable to control or surmount through no fault of their own.

Any man or woman who has contributed to society through their labor or by other productive means, deserves to be cared for by that society in time of need and in old age when elderly people can no longer care for themselves.

Care of elderly citizens is a form of acknowledgement, or reward, for what an elderly person has contributed to society in their productive years.

The care of our White brothers and sisters in time of need is essential to the survival of our people and our society. ALL White People belong to the same family.
