

## DAVID DUKE FOR PRESIDENT

DAVID DUKE has been researching political issues for nearly 20 years. A graduate of Louisiana State University, Duke interrupted his college career to go to Vietnam where he served as an instructor for high-ranking anti-communist Laotian military officers. Duke, who is a widely-published author, has lectured at universities all over the world. He has also appeared on hundreds of radio and television programs during the past decade, both here and abroad, including "Good Morning America," the "Today" show, and the "BBC Tonight" program. Duke has been interviewed by such media figures as Barbara Walters, Larry King, Phil Donahue and Peter Jennings. According to Duke: "I'm the only candidate for president who is saying out loud what the majority of Americans are thinking."

# HERE'S WHERE DAVID DUKE AND THE POPULIST PARTY STAND ON THE ISSUES

*. . . a Ten-Point Program for Keeping America Strong.*

- **RESTRICT IMMIGRATION** to protect employment for American workers, and to preserve the spirit, the heritage and traditional values of our nation.
- **ABOLISH "AFFIRMATIVE ACTION" AND RACIAL QUOTAS** in hiring and education. Return to Thomas Jefferson's principle of "Equal Rights for All; Special Privilege for None." Eliminate forced racial busing and forced racial integration.
- **REFORM THE WELFARE SYSTEM.** Require able-bodied welfare recipients to perform community work in order to receive welfare payments. Enforce family planning among welfare recipients and stop rewarding those who continue to give birth to illegitimate children.
- **CRACK DOWN ON CRIME** by instituting the death penalty for drug dealers, murderers, rapists, and those involved in violent crime. Protect the right of law-abiding citizens to keep and bear arms as guaranteed by our U.S. Constitution.
- **REDUCE FEDERAL INCOME TAXES** on America's middle income wage earners. A recent congressional study demonstrates that even with exempting the poor from taxes, a flat rate of approximately 10 percent would bring in the same revenues as our current graduated system.
- **PROTECT AMERICAN FARMERS AND WORKERS** from slave-labor foreign imports by instituting protective tariffs. Revenues from tariffs would help make up budget deficits and bring in additional federal revenues.
- **PLACE AMERICA'S INTERESTS FIRST** in foreign policy making. Stand behind anti-communist allies such as South Africa and the Nicaraguan "contra" freedom fighters. Stop siding with Israel in its endless Middle East war-mongering.
- **REFORM WALL STREET.** Enforce sweeping revisions of current trading regulations. Support free enterprise, not monopoly capitalism. Protect small business from government regulations that smother competition and prop up the multinational conglomerates. Defend consumers from price-fixing and artificial manipulation of the economy.
- **ESTABLISH THE STRONGEST DEFENSE IN THE WORLD.** Cease shipments of advanced technology and military equipment to enemy nations. Build an invincible national defense by maintaining a posture of armed neutrality.
- **BRING DOWN INTEREST RATES** by abolishing the privately-owned banking monopoly known as the Federal Reserve System. Replace the Fed with a national bank committed strictly to the interests of the nation as a whole.

**WHERE DO YOU STAND?**

## **ARE YOU A POPULIST AND DON'T EVEN KNOW IT?**

You don't have to be a member of the Populist Party to be a populist. In fact, these days lots of Democratic and Republican politicians alike are calling themselves "populists." They know that the principles of populism are as fresh today as they were in the era of America's great populist statesmen like Thomas Jefferson and Andrew Jackson. But there's only one Populist Party, and it's the only political party that remains true to the traditional principles of populism.

Take a look at where the Populist Party and its presidential candidate, David Duke, stand on the issues. Don't you agree with these positions? If you do, you're a populist. And that's why you should support David Duke and the Populist Party in 1988.

Let's face it: Despite all outward appearances, there really isn't, as George Wallace once said, "a dime's worth of difference" between the two major parties. Consider the ten issues in the Populist Party's program for restoring America. On practically all of these issues the Democratic and Republican positions are entirely the same. And completely different from that of the Populist Party.

Don't believe them when they tell you that you're "wasting" your vote if you support a third party presidential candidate. Instead, you're sending a message to the major parties and the powerful special interests that control them that you're fed up with "politics as usual."

Third party candidates can win. Abraham Lincoln did. And in 1988 so can the Populist Party and David Duke, but only with your support.
