

the

ARITHMETIC

of

patriotism

With enough money, -with billions of dollars, -almost any well-informed patriot could save White Christian America from the Jew-Communists, Zionists and race mixers.

If you could buy, for instance, a whole TV network, four or five huge newspapers, a motion picture studio, and maintain a national network of paid operators, -like the ADL, it would be easy to shock our people awake by the deadly facts of the Jew-Communist-race-mixing conspiracy.

But no one dedicated patriot has that kind of money. Even Russell Maguire, with his eighty million dollars, ran away when the Jews really blasted him, and he sold out Mercury. H. L. Hunt, with his hundreds of millions, is too timid even to mention "International bankers" like Maguire. The men with the real money, who could laugh at the economic terrorism of the Jews, the starvation and agony which has ruined so many poor patriots, -these men simply are not yet sufficiently aware of the deadly danger and the lateness of the hour to pour out their money the way the Jews do. They continue to "fight" "safely", -as "conservatives", while the Jews march over our necks.

The problem of saving America in TIME, therefore, reduces to the problem; how can POOR men reach the great masses of American with the truth about the Jew-Communist and race-mixing conspiracy to SHOCK them into DOING SOMETHING EFFECTIVE to STOP TREASON?

Even Gerald Smith, with his reported quarter of a million dollars a year income, has been bottled up safely by the Jewish "silent treatment" so that these villains now boast that he has been reduced to "impotency" (Jewish Chronicle, London, 2/24/61).

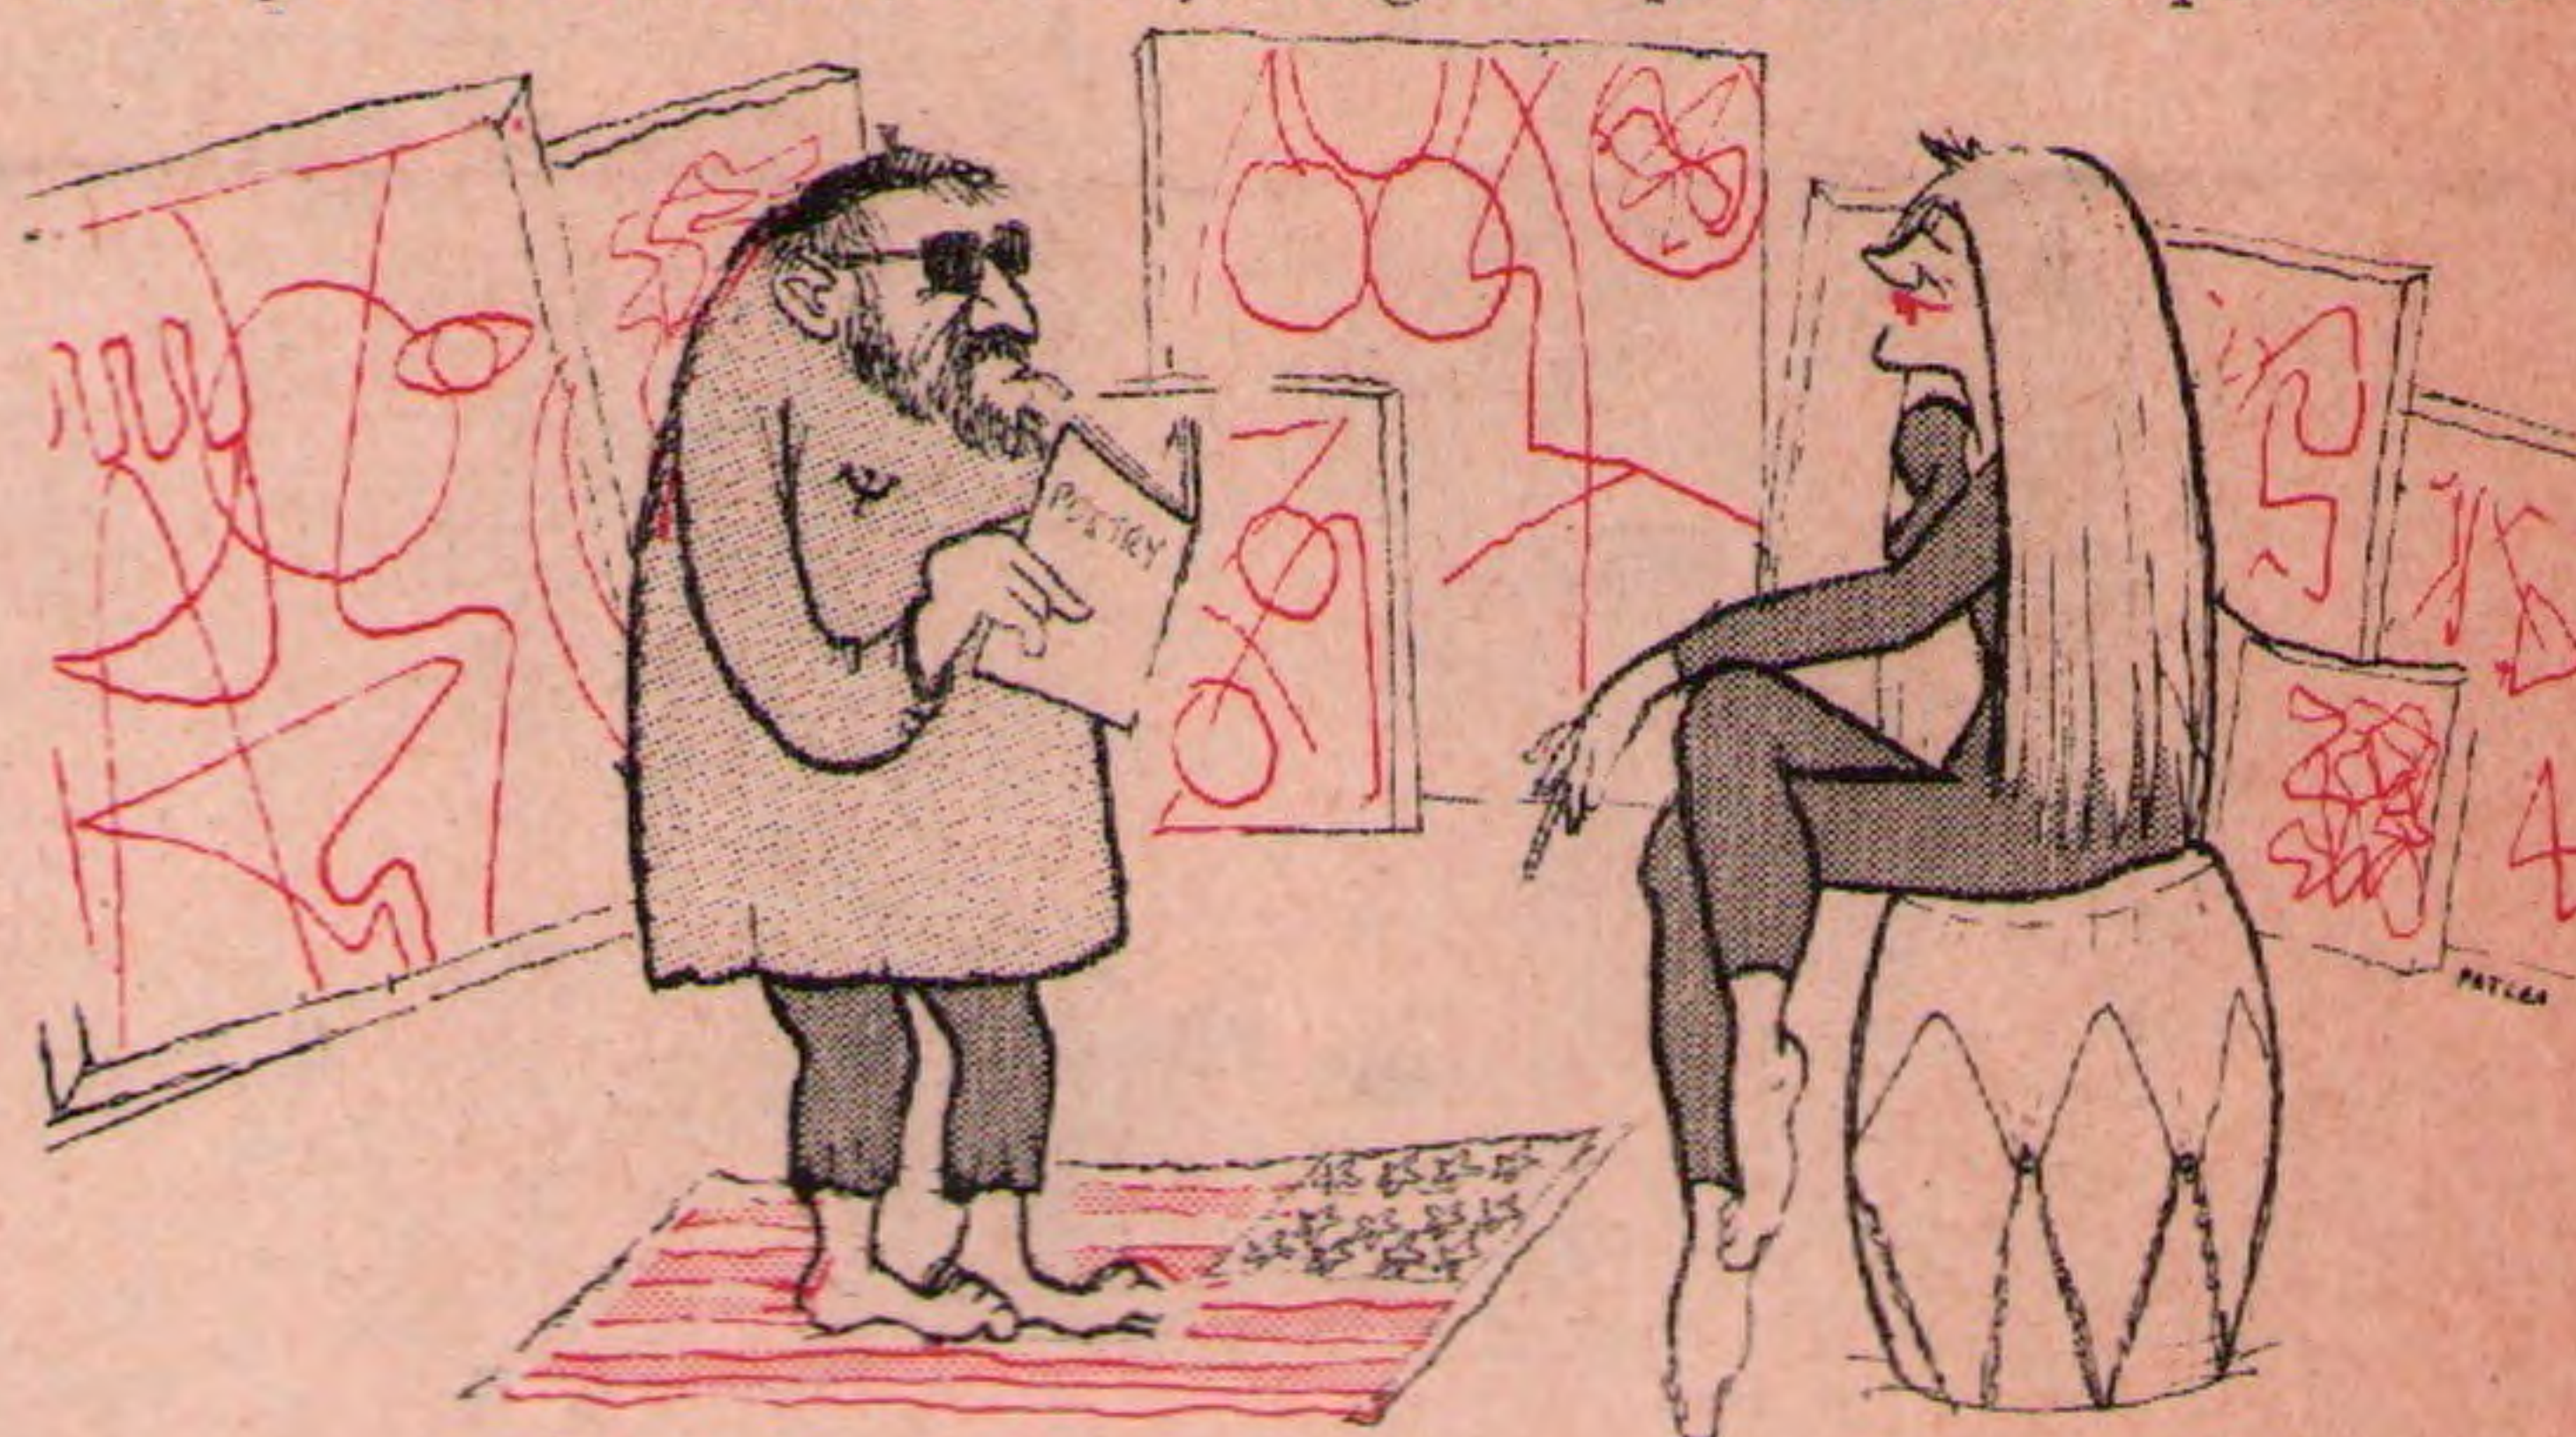

We are at the bottom of the financial pile in this struggle to stir up and wake up America to treason. People are too SCARED to contribute to us, even though thousands wish to do so.

Three years ago I realized all this, and, after five years of apprenticeship working with men like Robert Snowden, Russell Maguire, Harold Arrowsmith, and even Congressmen like Ralph Gwinn and Wint Smith, I also realized that anything less than TOTAL warfare on Jewish treason and subversion only plays into the hands of the Jews by bleeding the "right-wing" to death and keeping it "hoping" --with no real chance of ever winning POWER.

Our side simply can't begin to COMPETE in a "waking up" battle with the Jews, when they can spend literally billions every week on lulling our people to sleep with their TV, press and movies, etc. All we reach is the same old circle of patriots, year after year. The problem is, -how can we BREAK OUT OF THAT "Patriotic circle" and drive our ideas into the masses with hammer blows, --on a budget of pennies?

I remembered something I learned in Psychology at Brown University. In studying the phenomena of human memory, it was proved that the more EMOTIONAL involvement at the time of any observation, the more the mind would retain the impression. While you wouldn't remember the face of a passing stranger in the street even for a moment, you will probably never forget his face if he is suddenly stabbed to death before your eyes, and you see his face in the death agonies!

At the same time, I realized that we had to find some way of USING the Jew-dominated media of information like the press and TV to spread OUR ideas, willy-nilly. Forty years of "patriotic" literature had not stopped the production of a whole generation of "beatniks" and super-liberal, Jew- and-Negro-loving youth, devoid of patriotism or even any abiding faith and belief in anything except their own pleasure.

We had, somehow to FORCE the TV, newspapers and other mass media to put out material which would DRIVE a dramatic EMOTIONAL impression of the real nature of most of the Jews into the empty, brain-washed minds of our trained-seal Jew-loving public. Where our "conservative" and "nice" anti-Jewish material was simply dismissed and thrown in the trash by the unthinking public as "hate" literature, like the forgotten face of the passing stranger in the street, we had to figuratively produce a stabbing in the streets they COULD NOT miss or forget.

I found the answer by offering ourselves as sacrificial victims of the Jewish terror which these lovers of free speech apply to anybody who tries to exercise his constitutional rights in a way the Jews don't like. I surprised the Jews, as did our revolutionary forebears when they adopted the British "hate" term "Yankees", and adopted the name American NAZI Party.

This letter supplies the concrete, arithmetical proof of the miraculous success of this painful but powerful method.

You and I know that most Jews only PRETEND to love "free speech", tolerance, brotherhood and "democracy". All of this sickeningly sweet malarky is to insure the free-speech of Communist traitors and conspirators, tolerance for treason, brotherhood for bandits, and democracy for the sons of the devil. They believe in none of these things for anybody who tries to get a simple, public discussion of Jewish involvement in Communism, treason, race-mixing and moral subversion, etc.

But how can we get good-hearted, Jew-loving Joe Smith who believes all this Jewish malarky and won't THINK about it, to understand how the Jews are conning and laughing at him, even while they are destroying him and his people and his free Republic? How do we get millions of Joe Smiths to understand it, --so they can have NO DOUBTS, and so they can never forget it?

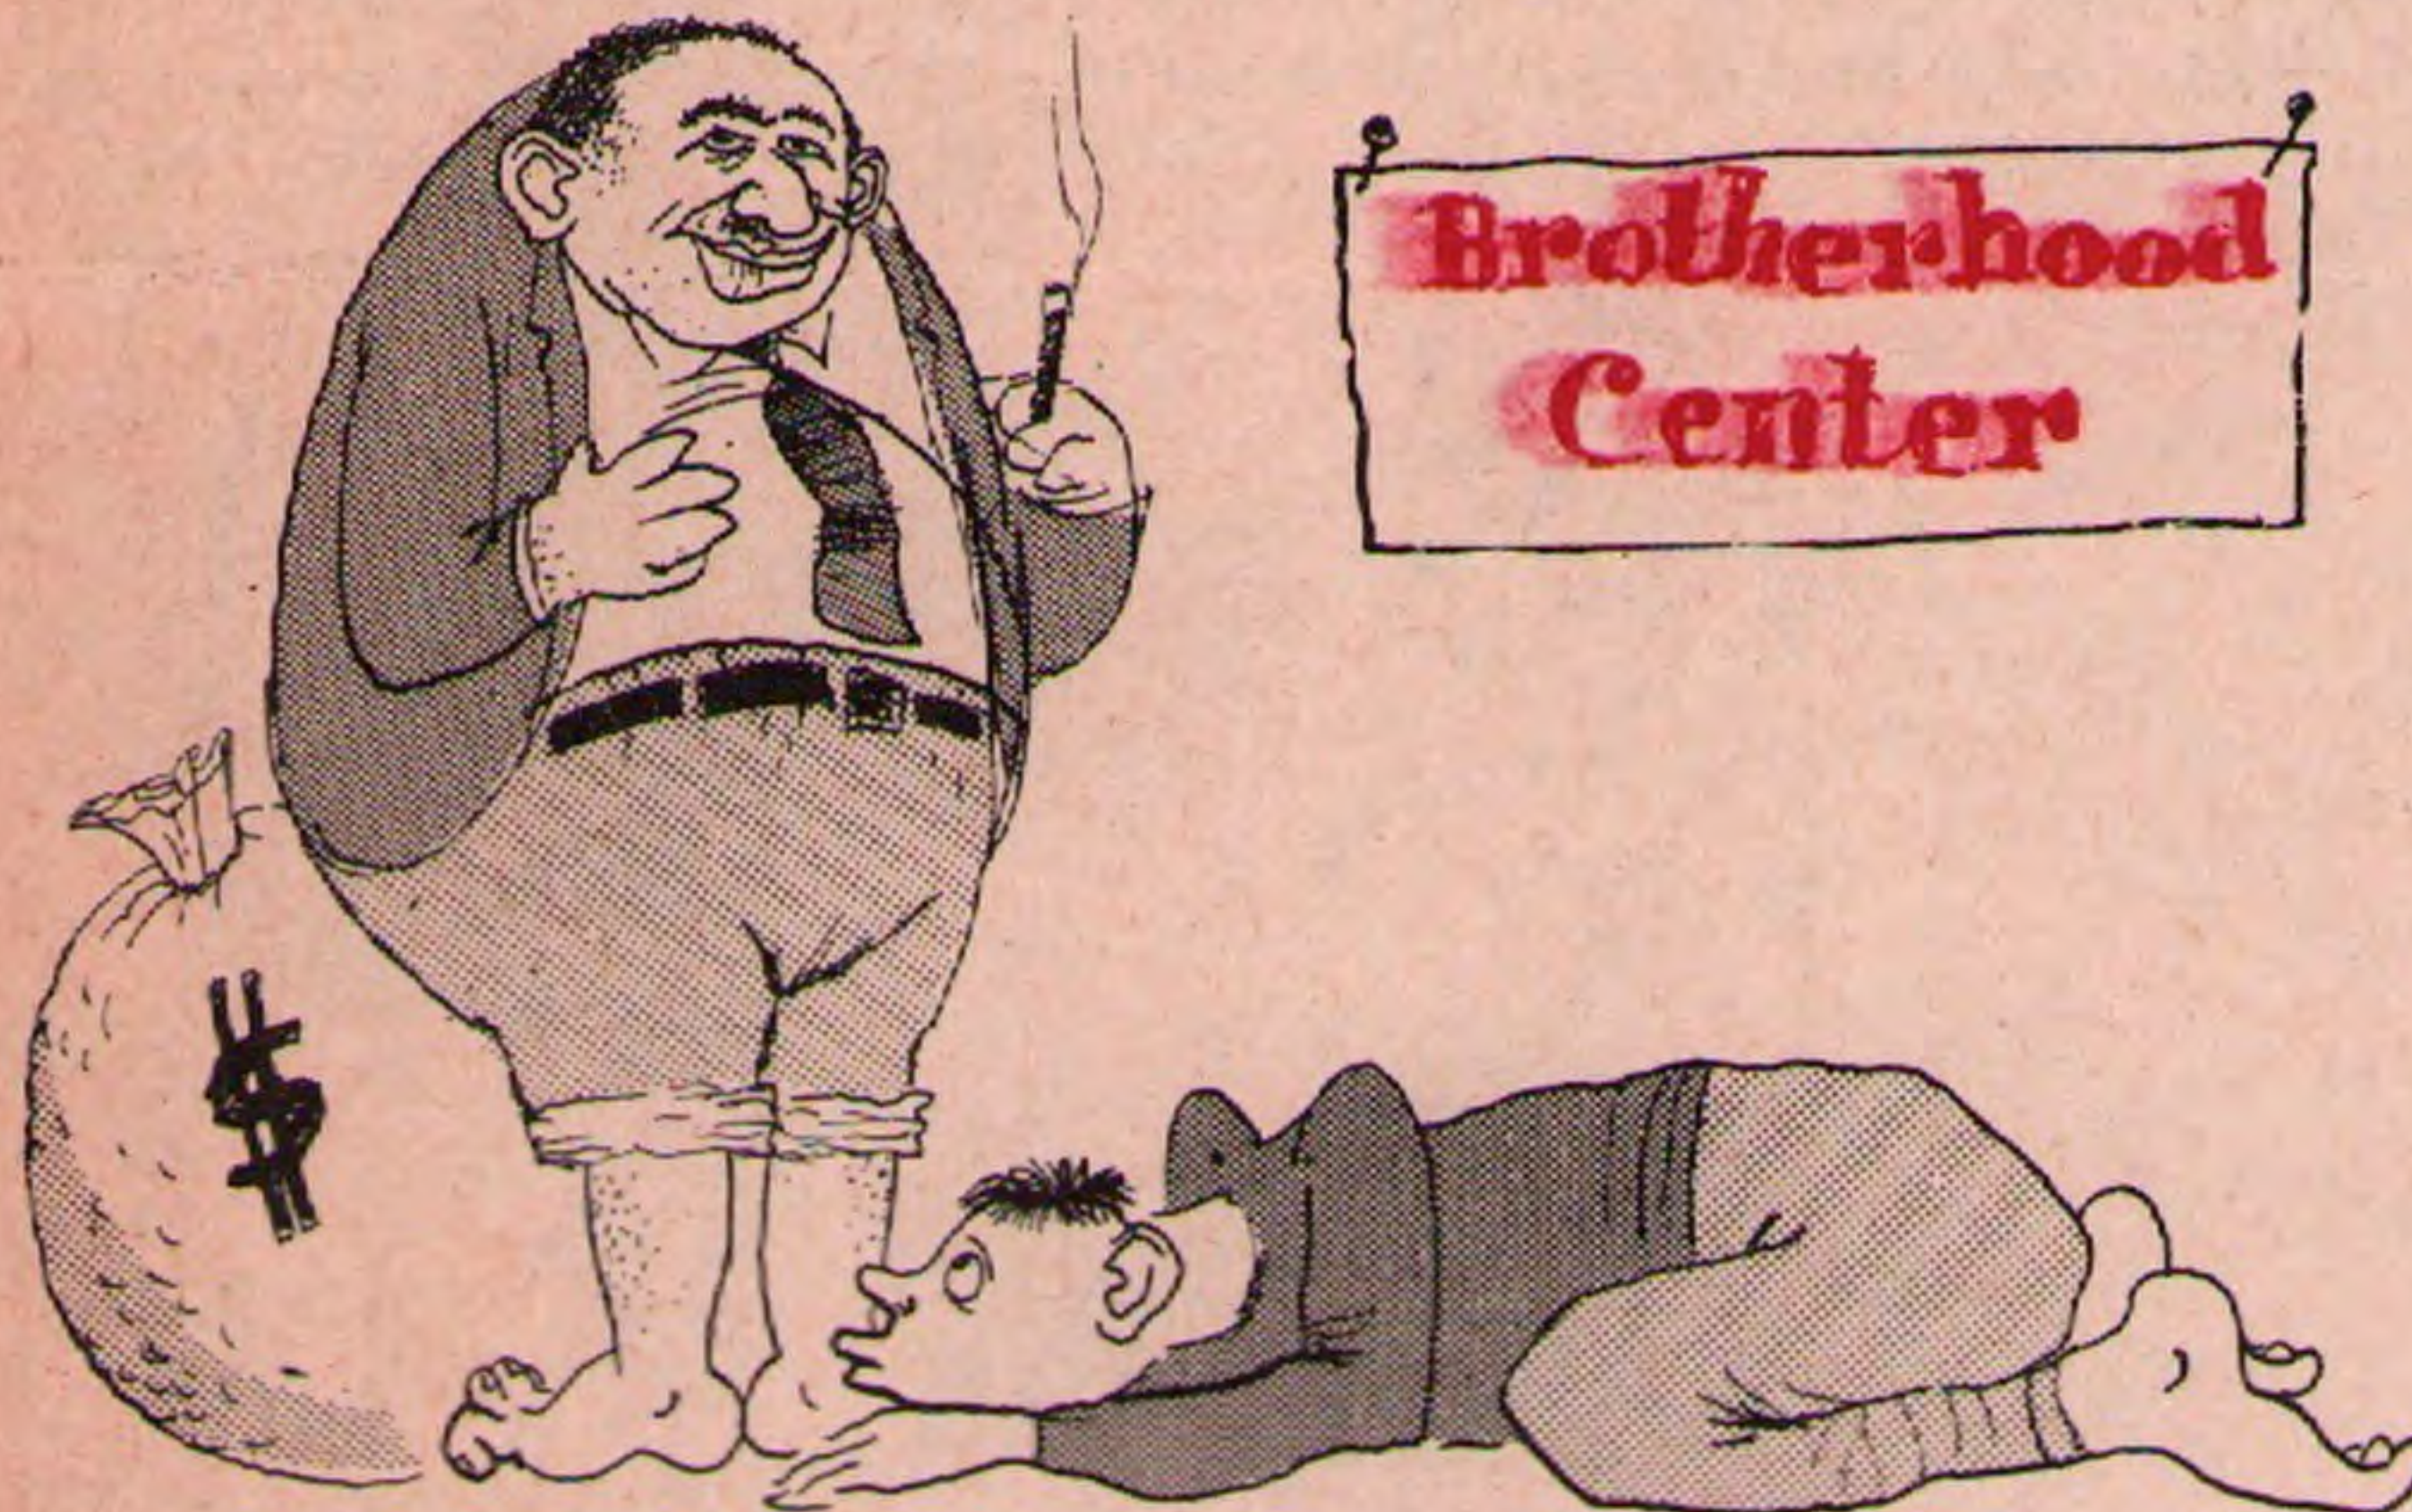

I chose Union Square, New York City, as the ideal place for the psychological stroke. In this human garbage dump in the

middle of our largest city, every kind of scum has been preaching treason and the overthrow of our American Republic by force and violence on behalf of International Communism and of a foreign government, --for YEARS. As you read this, Jew Communists are probably ranting in Union Square right now, on behalf of TREASON! But NO JEW HAS EVER PROTESTED this Communist activity! Even as I write this, the Communists are advertising in the Worker about a monster rally in CARNEGIE HALL, and there is not a peep of protest from the Kikes anywhere. There never has been.

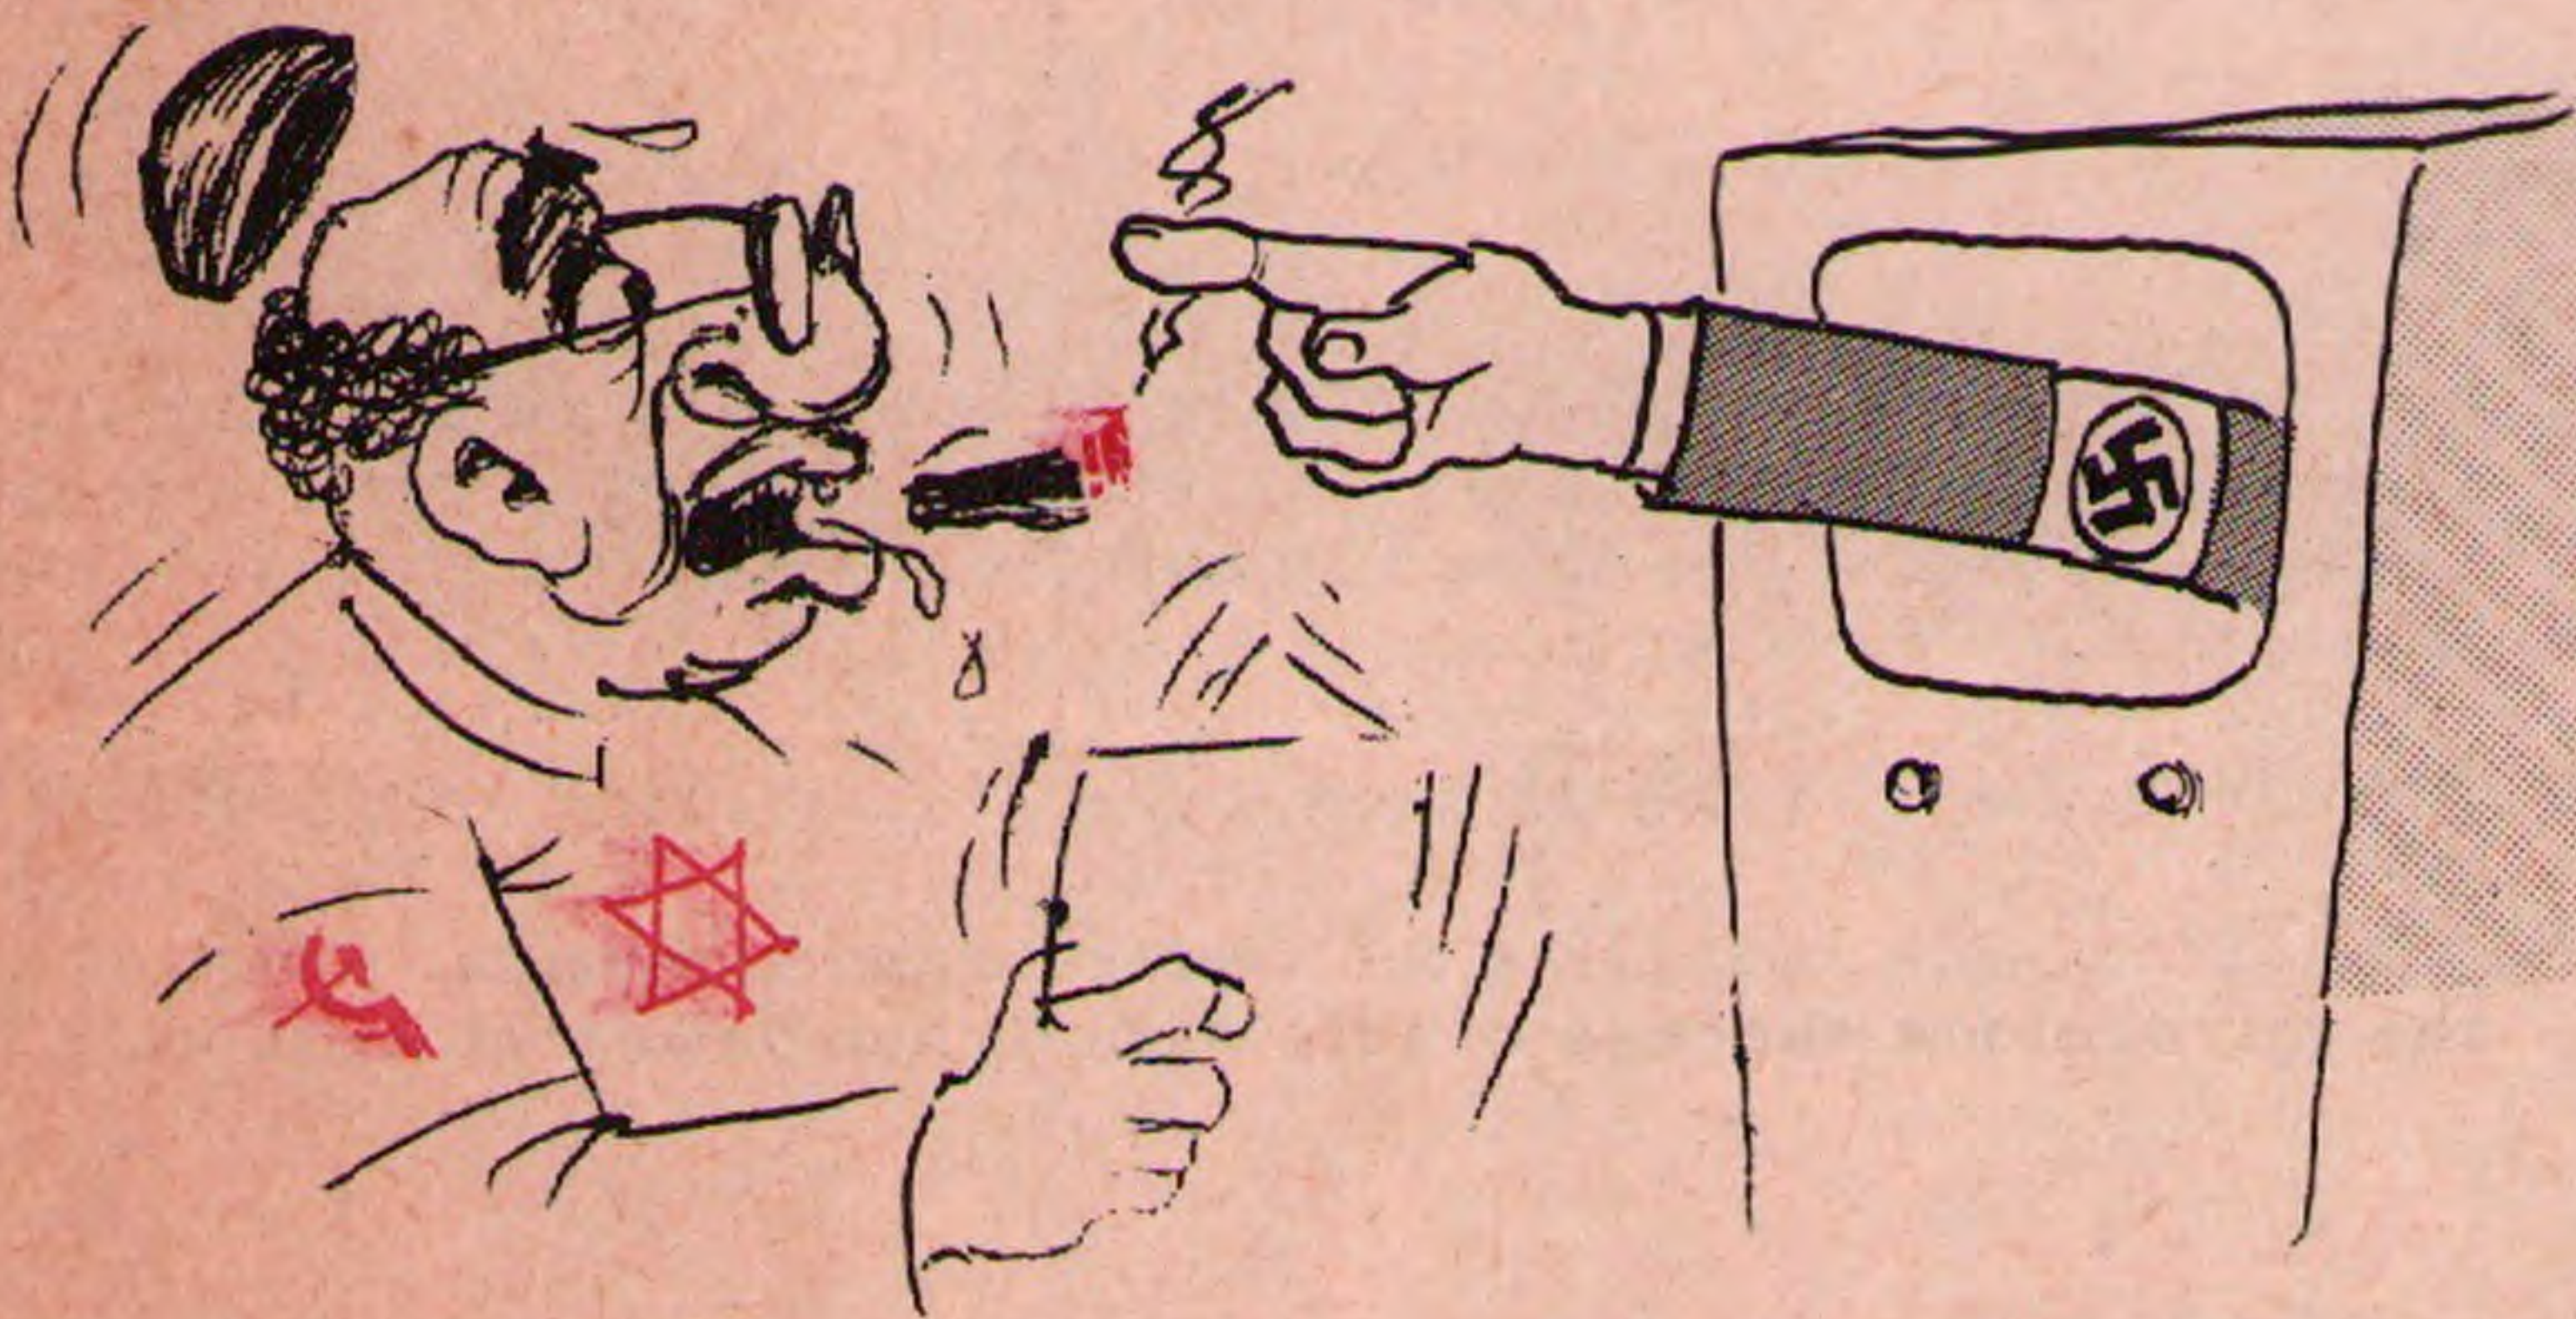

I wrote on Nazi stationery and asked the Park Commissioner of New York City for permission to hold a NAZI rally in Union Square on the Fourth of July, when I would speak in defense of White Christian America and its Constitutional Republic. Then I sat back and waited confidently.

I had spent four cents for a stamp and a few more cents for paper and typewriter ribbon.

The Jews are PATHOLOGICAL haters. Whenever they do not receive the grovelling homage they have come to expect

from all non-Jews; they get hysterical and start screaming "anti-Semitism", "HATE!" etc. But when a NAZI openly declares his intention of GASSING hordes of traitors, the Jews, guilty as they are, go out of their minds with fear of the just punishment many of them know they deserve.

Most people know what followed. Without spending a cent of our almost invisible funds, we soon had both the open Jewish organizations and the Communist Party howling and screaming almost identical, recognizable arguments and threats!!

Half of New York now tried to calm the other half, with the Mayor going on TV. But the super-kikes, frothing-at-the-mouth, exactly as we calculated, rushed into the Jew courts and getting Jew judges to issue injunctions to silence our "free speech", and, finally even warrants against me personally. I went alone into the New York Supreme Court to defend myself as best I could, and when the TV and newsreels were making an interview in the rotunda of the Court, the super-haters lost their minds with rage and attacked insanely, shouting their cure for any argument they can't answer, "Kill him! Kill him!!"

Millions and millions of Americans now saw these scenes of Jewish "brotherhood" and "tolerance" in the sanctity of the Court, as they hit network TV and the front pages all over the Nation. No "literature" we could ever produce, even in the millions, could have had the effect of this ONE demonstration of the REAL nature of the Jews. Even the densest and most brain-washed Goy boob cannot forget the tumultuous riot as the apostles of love and brotherhood tried to tear one lone man to pieces while he was giving a TV interview.

It was exactly like the man being stabbed to death before their eyes; this DRAMATIC demonstration taught a lesson in Jewish terrorism and partiality to Communism, and set it out before millions and millions of Americans in every state in the United States, and all over the world.

The dumb masses would never draw the conclusions instantly, but the seed had been planted in their minds; "These Jews SAY they think everybody, even Communist traitors, should have the right of free speech, and they call every attempt to stop Communist activity 'witch-hunting'. Now why do they try to KILL this one lone man whom they say is just a crack-pot for trying to speak in Communist Union Square? And why does the mayor obey the Communist Party and the Jews, who both put out the same arguments for denying this Rockwell his rights of free speech?"

Thousands of letters like the above have flooded the New York papers, although only the Daily News has courageously printed any of them.

The Civil Liberties Union for years has fanatically defended Communists of the worst stripe, and maintains they do this because of a passionate love of "free speech". So, still at no cost at all, we demanded legal help in the battle to get our permit to speak in Union Square. With the glare of the publicity we forced full on them, they had no choice, and they will win that right, probably in the U. S. Supreme Court. When we finally DO march into Union Square, it will be like the Eichmann trial in reverse. It will be in international cause celebre, and even if I, or several of us are killed, it will be well worth it because it will finally SHOCK our brain-washed people into FIGHTING to win back their heritage, instead of just whispering and passing pamphlets to each other.

So far, the cost of the whole New York affair has been a round trip ticket to New York, some stamps, and a few phone calls, -less than \$200, -for which we have reaped over a billion dollars worth of glaring publicity on Jew terror and suppression of free speech.
