WHITE PRIDE DAY 1978

The first annual White Pride Day was sponsored by the Party on 9 November. Party units and supporters across the country celebrated the occasion in many different ways. Logos Press, the publishing arm of the pro-Party Sword of Christ, supplied many Party units with White Pride Day posters, which were posted near high schools in numerous cities.

Here are just a few of the highlights of White Pride Day 1978. It is to be hoped as the years go by that this annual event will become even more widespread and impressive.

MILWAUKEE—ST men from the Midwest marched on Wisconsin's Waupun prison demanding rights for White prisoners and calling for White prisoners to unite.

MINNEAPOLIS—A White Pride march was held on the north side of Minneapolis by the Richard Biederman Unit. Later, unit members conducted a propaganda blitz of downtown Minneapolis, which included the posting of over 500 red, white and blue bumper stickers reading "Celebrate Nov. 9—White Pride Day!" The bumper stickers had been specially silk-screened for the occasion by local members of the National Socialist Youth Movement.

BALTIMORE—A special White Pride Day celebration was held by the Baltimore Unit, which was well-attended. Unit Organizer Ken Badders gave an address on the need to concentrate on activities of a positive nature. The film Swastika was shown, much to the enjoyment of the assembled National Socialists. The following Saturday, a wreath-laying ceremony and vigil at the Washington Monument was held, also in conjunction with White Pride Day.

Unit organizers and Party activists are urged to begin gathering ideas now for the next White Pride Day. Let it be our goal to make White Pride Day not just a Party holiday, but a holiday White people everywhere can celebrate and enjoy!

'Let's Make Every Christmas a White Christmas'

Continuing what has become a yearly Party tradition in Chicago, members of Chicago Unit I treated the children of their city to a National Socialist Santa Claus on 25 November. The NS Santa was accompanied by Stormtroopers bearing signs which read "Let's Make Every Christmas a White Christmas."

The National Socialists toured both the north and south sides of Chicago, receiving an especially warm welcome on the south side, where the Party has been active for many years. Thousands of holiday shoppers saw the Unit I comrades, and children's storybooks were given as gifts to the many White youngsters. who stopped to chat with Santa. Neither the children nor their parents seemed to be frightened off either by the Swastika on Santa's arm or by the ST men standing next to him.

Anti-Queer Initiative Backed by Party Fails in California

A measure designed to prevent homosexual school teachers from infecting their students with their own abnormal lifestyles was turned down by California voters on 7 November. The measure, known as Proposition Six, would have permitted the firing of openly homosexual school employees as well as those non-homosexuals who presented homosexuality to their students as an "acceptable lifestyle." The Party had publicly endorsed Proposition Six.

Initially, it was predicted that the measure would pass by a wide margin. Less than a month before election day, however, a coalition of politicians (such as California governor Jerry Brown) and Hollywood movie stars began an expensive, high pressure campaign against the initiative. Prior to that, Proposition Six was backed only by the usual motley assortment of queers, Jews and communists.

Because the Party is not strong enough at this stage in its development to mount either an effective media or grass roots campaign on issues such as this, the efforts on behalf of the measure by the Party units in California were limited to issuing press releases and other low-key activities.

Two weeks before the election, the San Francisco Examiner—one of the state's largest and most prestigious newspapers—noted that the Party was the only organization it knew of which had publicly endorsed the measure. This is especially revealing when one considers that although the proposition was defeated, tens of thousands of Californians did vote in favor of it.

This does not mean, of course, that these voters cast their ballots for Prop. Six because the Party endorsed it. What it does mean is that there is vast potential support for the Party among the American people. It is the duty of Party organizers and activists throughout the country to work diligently to turn this *potential* support into actual support.

Some of the media coverage of the Party campaign in behalf of Prop. Six is reproduced here.

□ Nazis support Prop. 6

Maybe we're not on all the mailing lists we should be, but it took until yesterday to get our first piece of mail supporting Proposition 6, the anti-gay teachers initiative, taside from a copy of a mailer sent by state Sen. John Briggs to clergymen asking for money for

This happened to be from the National Socialist White People's Party, otherwise known as the Nazis, direct from its national headquarters in Arlington, Va.

In a prepared statement officially endorsing Prop. 6, the party said: "This measure, designed to prevent sexually degenerate public school teachers from infecting their students with their own perverted sexual and moral value system, is in keeping with the code of values upon which American society is based. At a time when the family unit, the traditional wellspring of moral instruction, is being eroded by the diseased materialism of our age, it is necessary that our public school systems do not become the breeding grounds for further immorality.

Party Business Manager on the Air

Party business manager Rick Cooper gave one television and one radio interview during the month of November. On 18 November, Comrade Cooper was interviewed by the notorious Red priest known as "Father Groppi," Groppi, who spent the 1960s as a civil rights agitator and a spokesman for the movement which called for a U.S. defeat in Vietnam, now hosts a talk show on WRC radio in Washington, D.C. Groppi was extremely hostile to the Party in general and Comrade Cooper in particular, and did everything in his power to prevent Comrade Cooper from giving an accurate explanation of the Party's beliefs and goals. Despite the harassment by Groppi, Comrade Cooper was able to get many good points in during the two hour interview.

During the week of 20-24 November, Comrade Cooper appeared daily on Channel 10 TV in Sacramento, California. Earlier in the month, while in the Northern California area on Party business, he recorded a lengthy interview at the station. This interview was in turn broken up into segments which were aired as part of the evening news. Among the topics discussed by Comrade Cooper were White Pride Day, the crime problem, the economic problem, the "holocaust" and the Party's four phase program for the assumption of power.

ACTIVITIES IN BRIEF

- The Commander recorded a half-hour interview for a Brazilian television network on 16 November. The interview dealt with the aims and objectives of the Party, as well as the ideological and spiritual basis for the World Union of National Socialists.
- The Baltimore Unit distributed 2,200 copies of WHITE POWER during October and 2,400 copies during November, for a record total of 4,600 according to unit organizer Ken Badders.
- Other units which report conducting WHITE POWER distributions during November include Chicago I, Chicago II, Cleveland, Maine, Milwaukee I, Minneapolis, New Jersey, North Carolina and Orange County (Calif.).
- A "No More Jew Wars" picket was held by the Richard Biederman Unit in downtown Minneapolis on 18 November, across the street from a National Guard armory. Favorable comments were heard from guardsmen entering the building.
- A letter from Comrade Ann Vogel of the Maine Unit blasting the "holocaust" hoax was printed in the Lewistown (Maine) Daily Sun on 17 November.

Nazi Germany Defended

To the Editor:

This letter is response to your disgusting article of last Friday on the "German Accept Heritage of Guilt for

Holocaust."

People of America, awake. The article of West Germany accepting the 'guilt' of the death of 6 million Jews in Europe in 1939-45 is a gross fable. The fact that Chancellor Schmidt agreed to accept this nonsense and lies and stained every German of both generations. I am a second generation German, my father served Adolf Hitler in loyal and good faith.

He had no reason to hide his service or to proclaim what the 'Victors of Nuremberg' want him to say. The fact that Herr Schmidt has to proclaim that we are guilty of the death of six million shows how much the government of West Germany is a puppet state of the U.S./Israel block. We here in the U.S. do not mark a ceremony to commemorate the massacre of American Indians, which has led to the virtual elimination of that race ofman from the U.S. shore, over two million of them. No one asks our President to proclaim our guilt at the death of these million.

There are books in print (Hoax of the 20th Century, Myth of the Six

Million, etc.) that were written by men who were guards at Auschwitz. Consider a statement from Thies Christophersen, a guard of Auschwitz in 1944: "There were no secrets in Auschwitz. In Sept. 1944 a Commission of the Red Cross came to inspect the camp. The Red Cross delegate states that the inmates could receive parcels. That the officers with whom he came into contaact were amicable and reticent. That the British Red Cross 'insider' was a member of British Commando and mentioned rumors of gas chambers. The Red Cross delegate after careful inspection, could not verify these rumors.

- ST men from the Cleveland Unit report attending two city council meetings and conducting a paper sale in November. All three activities were in uniform.
- © Comrade Art Jones of the Midwest Regional Headquarters spoke to two classes at Naperville Central High School on 2 November. In addition to Comrade Jones' presentation, each student was given a copy of WHITE POWER and several Party leaflets, and a number of books sold by NS Publications were donated to the school's social studies research center.
- Members of Chicago Unit II conducted a uniformed WHITE POWER sale in Marquette Park on 18 November. Unit Organizer Steve Lynch reports that two noteworthy incidents occurred during the sale: neighborhood youngsters approached the ST men asking what they could do to help out, and an enraged negress threatened the National Socialists with an automatic pistol. There were no casualties and no arrests.
