Commander, Danish Comrade Address Meetings in Chicago and Milwaukee

Commander Koehl conducted an organizational tour of the Midwest and the South in July, accompanied by Comrades Riis-Knudsen and Pedersen of the Danish National Socialist Movement.

The Commander and the Danish comrades spoke to numerous private gatherings during their tour. The most successful meetings were those held on 7 July and 8 July with activists from Chicago and Milwaukee, respectively.

The Commander addressed the audiences on the topic of *revolutionary science*, and discussed how that term related to the National Socialist struggle in America. The first thing it means, the Commander said, is that we must realize that we are in fact revolutionaries. We are not interested in changing or modifying the present System, or patching it up. Nor are we interested in complaining and griping about how bad things are, like a bunch of "right-wing turkeys." Rather, our goal is to completely overthrow the present System and replace it with an Aryan New Order.

We must further realize that revolutions cannot be made merely by good wishes and intentions, or even by spouting some half-baked ideas about what should be done. Revolutions are made according to a very definite process.

In recent months, there has been a significant deterioration of the System. The energy crunch, chronic, unchecked inflation and the truckers' strike all show how sick the old order is. This has resulted in increased popular discontent and complaint among the American people, although the public is hardly in a state of mass ferment at this time.

There are some shortsighted comrades who mistakenly believe that the coming revolution is just around the corner, that it will occur in the next year or two, the Commander noted. Fortunately, that is not the case. If the revolution would occur tomorrow morning, the Party would not be ready for it.

At this time we do not have the trained corps of leaders capable of occupying the essential nerve centers of power and directing the revolutionary process. To build and train this corps of leaders will take years.

We must not only train those comrades who have already been recruited into the Party, but must also recruit others to help us. Some comrades say that the best way to recruit new adherents to the movement is to direct our propaganda toward the White masses.

At this time, however, we are not interested in winning over the masses. We are not interested in just anybody, but rather in a very special type of person.

The type of person we are seeking to draw into the Party is the *idealist*. By idealists, the Commander said, we mean those who are willing to sacrifice themselves for their ideals, for higher goals, and who are prepared to stick with the Movement through thick and thin, regardless of the consequences. Such idealists are only a tiny fraction of the total population.

The Commander went on to note that we are interested in *quality over quantity*, and that we should not waste our limited resources on a public that is not ready for us.

The Commander told the audiences how we are seeking to orient our propaganda to attract this sort of person.

"Take the energy question, for example," the Commander said. "We were recently confronted with having to adopt a formal Party policy on this issue for the paper. We could have placed the blame on the oil companies or on the Jews or on both—and we would have been entirely right as far as we went.

"It would have been very easy for us to expose either one and to make a popular case with that sort of propaganda," he continued.

"But it must be remembered that we are not engaged in a popularity contest, and that there is yet another factor in the current shortage: Americans themselves are guilty of shamelessly squandering energy," the Commander said.

"Although it is not popular to call attention to that fact, we decided to mention it nevertheless, and appeal to whatever spirit of self-sacrifice is still left among Aryans. Because those who respond favorably are precisely the ones we want—they are the idealists, the best of our Race, while the others are not. Before we can build a mass movement, we must mobilize this best element," the Commander concluded.

The Commander went on to discuss the proper recruiting tactics and attitudes which we must adopt if we are to be successful.

"Today we are engaged in a great salvage operation," the Commander noted in the conclusion of his address. "We are not interested in saving every last thing that calls itself 'White,' but simply in saving the very best part of our Race, still capable of hearing the call of the blood."

The full text of the Commander's remarks will appear in the next issue of WHITE POWER.

Southern Comrades Blast the System

Mrs. Nancy Jo Thrift, of Semmes, Ala., as well as a number of local comrades, have been doing a fine job in getting the word out to fellow Alabamans. Mrs. Thrift and area comrades have been calling in regularly on a daily talk-show on WKRG-radio.

They have done such a thorough job in expressing the Party's stand on many issues that the moderator was ordered by his superiors to ban them from the air because a good number of people were sympathetic to Party ideals. Refusing to deny them their right to freedom of speech, the objective moderator was actually fired.

Refusing to be discouraged by denial of their opinion on one radio station, Mrs. Thrift and her area comrades decided to switch to another station (WMOB) to continue their good work in getting out Party ideology to the masses.

The efforts of Mrs. Thrift and area comrades show that not only are radio talk-shows an effective way of getting the word out, but their efforts also prove that there are a number of people in this country who are already sympathetic to the Party who will one day arise to fight for White Power.

Yes, Frank Collin is Jewish

In January of 1978, the Party offered a \$10,000 reward to any person or organization that could offer conclusive proof that one Frank Collin, of Chicago, was not of Jewish ancestry. No reply to this offer was ever received, outside of some whining from Frankie's small band of true believers that the Party's \$10,000 reward was "unfair" and "unkind." Even Frankie himself failed to bring forth any evidence that he was not a Jew.

On 3 July, some 18 months after the reward offer had been made, the "deputy leader" of Collin's "Nazi party" contacted the NSWPP National Headquarters by mail stating that he had seen evidence that proved "beyond a reasonable doubt" that Collin was not a Jew. A check for \$10,000 should be made out at once, payable to Frankie's gang, the letter ended.

Party Business Manager Rick Cooper wrote back saying that the NSWPP would have to see the alleged proof itself before any check could be written.

On 16 July National Headquarters received a second letter from the "deputy leader," announcing that the required proof would NOT be forthcoming. No reason was given in the letter why Frankie & Co. could not come up with the documents in question, nor why Collin would not agree to take a lie detector test.

The reason that couldn't be given, of course, is simply that there is NO WAY to prove that Frank Collin is an Aryan, because Frank Collin is a Jew.

ACTIVITIES IN BRIEF

● During the month of July, Chicago comrades distributed 3,400 WHITE POWER newspapers and an equal number of leaflets.

● Baltimore comrades report that they distributed 1,500 WHITE POWER newspapers, also during July. Also active distributing copies of WHITE POWER were the Richard Biederman Unit and Milwaukee Unit I.

● Joined by NHQ staff personnel, Arlington area comrades conducted weekly WHITE POWER distributions in Washington, D.C., and across Northern Virginia in July. Nearly 650 WHITE POWER newspapers were distributed and some donations were received.

● Massachusetts comrades held a massive leaflet distribution on 26 July in several southeastern Massachusetts communities. In six hours 1,850 leaflets were distributed.

● Milwaukee Units I and II were joined by Chicago comrades on 21 July for a picket at the Waupun State Prison, in Waupun, Wis., in support of White prisoners there.

● The Chicago Unit conducted a picket on 22 July to demonstrate for the White workers (and service veterans) whose jobs are in jeopardy because of the swarms of Vietnamese "Boat People," many of whom are former (?) Viet Cong, who are pouring into the country.

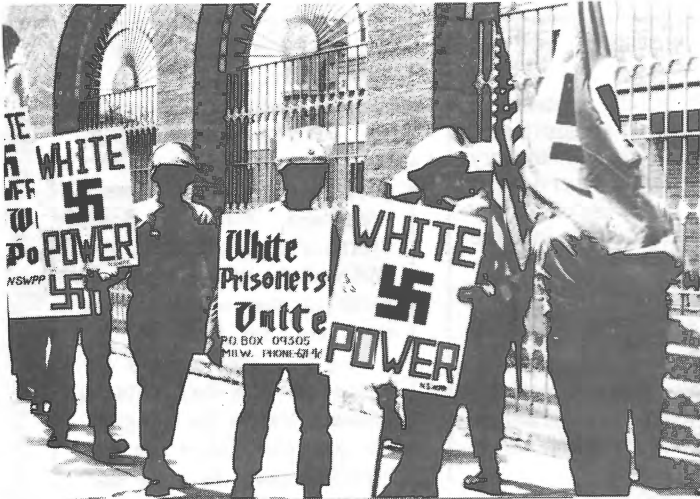

● Los Angeles comrades were also active in July. A picket was held in front of the Federal Building in Los Angeles. And on 24 and 26 July, respectively, Unit Leader Dan Stewart and Comrade Richard Bloomquist were interviewed on KABC-TV.

● Comrade C.L., of Michigan, has been active this past month, distributing a number of leaflets and WHITE POWER newspapers on the campus of the University of Michigan in Ann Arbor. Comrade C.L. also put an advertisement for the Party in a local paper, which is both an inexpensive and simple way to publicize the Party.

● On 10 July, Comrade Martin Kerr spoke on an hour-long talk show on WRC-radio in Washington, D.C. Because NHQ had received telephone threats against Comrade Kerr going on the air, he was accompanied by a uniformed ST escort.

● Comrade Arthur Jones, of the Regional Headquarters in Cicero, spoke on a talk show on WJRC-radio in Joliet, Ill. on 3 July.

● On 23 June, in Minneapolis, Minn., a Progressive Labor Party front group calling itself the International Committee Against Racism held a march. Boasting that they had managed to "contain the Nazi thugs," the Reds stated that they intend to "smash" National Socialism altogether. Maybe the next time that they plan to hit the streets they should contact our Minneapolis area comrades first.

Members of Milwaukee Units I and II, joined by other comrades from Chicago, picket the Waupun State Prison in Waupun, Wis., on 21 July.

A contingent of ST men and NSYM members from the Arlington area march to a WHITE POWER distribution, held at the Smithsonian Institute, in Washington, D.C., on 14 July.

Stormtroops of the Chicago units picketing a pro-"boat people" rally on 22 July.

Minn. March Opposes Nazis

MINNEAPOLIS, MINN., June 23—Over 100 members and friends of InCAR (International Committee Against Racism) and PLP marched today on the northside of Minneapolis, a multi-racial working class neighborhood. Our march claimed victory by bringing anti-racist, anti-fascist and revolutionary ideas to workers facing attacks by their bosses at Honeywell and the phone co., as well as the presence of Nazis in the area.

TODAY, HOWEVER, THE NAZIS DIDN'T DARE show their faces at the corner they claim as their "turf." When the march returned to its starting point, with more people than it began, many people were more sure of the plan for the future in fighting back against racism, impending war and the bosses' move towards open terror. Two high school students made plans to organize against army recruiters in their school in September, and to win students and teachers to build an "anti-racist army" led by the International Committee Against Racism.

What we were able to do today was to "contain" the Nazi thugs; this is not enough. Our goal must be to smash them completely—there is no such thing as "peaceful co-existence" between fascists and anti-

fascists. The 1500 leaflets we distributed, the 200 C-D that PLPers sold, the 15 contacts and the 3 new InCAR

members were a giant step to guarantee the success of our efforts.

Wants to be ally

The people who favor supporting the state of Israel cannot come up with any better answer for doing it except that Israel is an important friendly nation in the Middle East.

Ayatollah Khomeini's all-Islamic government in Iran is anti-communist, free and would like to be an ally of America. However the pro-Zionist, pro-Israel lobby which seems to control our government's policy in the Middle East is making sure that no treaty or alliance is made with Khomeini's Islamic Republic.

Khomeini's Islamic Republic has an abundance of oil with which to help supply America's needs. America has to supply Menachem Begin's Israel with oil. America is now on the brink of implementing a gasoline rationing program because of the political blunders our government has made and is making in the Middle East.

In my opinion America should dump Israel. If the Zionists want to have a Zionist nation then let them go to Israel and fight for it, but leave America out of it. — Richard L. Lundberg, Rockford.

AMERICA ADRIFT

America is adrift. Instead of leaders we have committees. Carter's solution to our energy crisis? Another government committee — more bureaucracy — and more suffering for the common folk.

All the while we are diverting our oil supply to Israel under a 1975 treaty as amended in 1977 and 1978; 850,000 barrels of imported oil from Mexico and Nigeria were diverted to Israel in May. This oil was supposed to go to our people.

No wonder prices are up and supplies are down. Why should we send oil to Israel — causing our citizens unnecessary hardship — and causing Arab hostility and cutback on production?

It's time to dump Israel. We need Arab oil, not more wars.

BAEZ SINGS NEW TUNE

Back during the Vietnam war, Joan Baez sang us a song: The Communists were the nice guys, the Americans were "criminals." She visited North Vietnam and defended the Communists as the true servants of the working class there, etc., etc., etc.

Now Ms. Baez sings a different tune. Now she admits the Communists are the bad guys. The holy red leaders are now "Old Stalinist." Now she said the Communists violate human rights and are guilty of the very things we, "right wing-anti-Communist — war mongers" were trying to be heard on back then.

Maybe there's a lesson here for those who think communism is the answer for the troubles of mankind. However, if we take as long to learn it as Ms. Baez, we may all end up in labor camps under the Red Banner or find ourselves on escape boats with no free land to escape to.

Will we sing songs of Nicaragua next Joan?

New WUNS Address

All Party comrades should note the new address for:

World Union of National Socialists
Box 88
Arlington, Va. 22210

Notes from NS Publications

1. "Dump Israel" and "Save Gas" bumper stickers make great propaganda weapons, especially during these critically gas-short times. Price: only 25 cents each.
2. Color slides (in sets of 20) of the 6th Congress, held in Milwaukee in 1975 are still available. Price: only \$12.
3. Color slides and photos (also in sets of 20) of the 8th Congress, held in Arlington in 1977 are also still available. Price: \$12 for slides, and \$9 for photos.
4. Always remember to add 10 percent for postage and handling!
