

OFFICIAL INTERNAL ORGAN OF THE
National Socialist White Peoples Party AND THE **National Socialist Youth Movement**

Number 258

Special Edition

15 September 1979 YL-91

"For all time the Party will be selecting ground for the political elite. . . Its teachings will be unchangeable; its organization, hard as steel; its tactics, flexible and adaptable."

— Adolf Hitler
10 September 1934

COMMANDER ANNOUNCES TWO — YEAR PLAN

Over the past decade it has become traditional that the Party hold an annual congress over the Labor Day Weekend. Rank and file Party activists, unit leaders and organizers and national Party officers gather at these assemblies to discuss the progress and the problems they have experienced over the past year, and to renew their faith in the movement.

This year, however, no Congress was held. Instead, Commander Koehl convened a special conference of leading Party comrades to thrash out a number of serious problems which have been hindering the Party's growth in recent years.

For two days the Commander listened to suggestions and comments of Party officers and 'old fighters', as they listed first what they thought were the Party's present strengths and weaknesses, and second what they thought should be done to overcome those weaknesses. On the third day of the conference, the Commander announced that the Party would be undertaking a TWO-YEAR PLAN.

PURPOSE AND GOALS OF THE TWO-YEAR PLAN

The purpose of the Two-Year Plan is to consummate the primary Phase Two objective, which is building and training a highly motivated, highly skilled, highly trained cadre of professional National Socialist revolutionaries. In general, it means an overall professionalization of the Party, in both its propaganda and its operating procedures.

The plan will also concern itself with the secondary Phase II objective, which is disabusing the White masses of the false impression they have of National Socialism. In the schools, in the news media and in the entertainment media, the White people of this country have been led to believe that 'Nazis' are some sort of hateful ogres, pathological murderers with nothing on their minds but death and destruction. Our racial brothers and sisters have been taught that the sublime beauties and eternal truth of Adolf Hitler's National Socialism are nothing more than race-hatred and an incitement to commit genocide. We will have to correct this gross perversion of the truth.

In order to carry out these tasks, the Commander has set down four basic goals for the Two-Year Plan:

1. The reorientation of Party propaganda so that it appeals to idealists rather than haters.
2. The thorough ideological training of Party leadership cadres.
3. The training of all Party members and activists in revolutionary skills.
4. The recruiting of capable full-time staff personnel for work in Arlington and Cicero.

cadre (kad-ray) n.—1: a nucleus, especially of trained personnel capable of assuming control and of training others. 2: frame, framework; skeleton.

professional—adj.—1: participating for gain or livelihood in a serious manner in an activity or field of endeavor. 2: the opposite of amateur.

WHY WE NEED IDEALISTS

The overall goal of our propaganda during the course of the Plan will be to attract idealists to the Party. By idealists we mean those who are willing to put what they believe to be right ahead of their own personal good. In particular, we are looking to recruit *racial idealists*: those who are willing to put the good of their race first.

"We wish to attract those who are of good race, who have good instincts, who are reasonably intelligent and who will respond to an appeal to sacrifice," the Commander announced. It should be noted that the

willingness to sacrifice is the hallmark of an idealist.

In the past we have somewhat mistakenly aimed our propaganda at the broad masses of people, often times appealing to their negative feelings about non-Aryans. The result has been that over the years we have recruited a disproportionate number of individuals who are attracted only to the negative side of our program. They are against Blacks, Jews, Communists, Mexicans, homosexuals and so forth — but they are *for* nothing.

The sad fact of the matter is, however, that the problems our Race faces today would not disappear, as if by magic, were all the non-Whites, etc., to vanish from the face of the earth. It is our goal to build a New Order for Aryan Man on this continent. To do that, we need people who are motivated by *positive* goals, not just by the hatred of White race-traitors and the Jews. Hatred is not a sustaining emotion (at least for Aryans), nor is it fundamentally a constructive one.

TRAINING COURSES

Points two and three of the Two-Year Plan goals listed above are concerned with the training of Party cadres. This will be accomplished in several ways.

1. To facilitate ideological training, National Headquarters will be issuing a series of materials over the next two years, including booklets, books and ideological-political journal and possibly cassette recordings.
2. Also to facilitate ideological training, NHQ will be issuing a home-study program on National Socialism while Party comrades may use either individually or in a classroom type situation with other comrades.
3. Similar programs will be developed to train Party activists in practical revolutionary skills, such as propaganda techniques, local organizing and self-defense.
4. A special training course for selected Party comrades will be held immediately prior to the 10th Party Congress, scheduled for Labor Day Weekend, 1980. Party leaders and organizers will receive training both in the theoretical and practical aspects of the National Socialist struggle during this school.

RECRUITING STAFF PERSONNEL

The recruiting of staff personnel will be accomplished mainly by way of personal contact. When NHQ discovers someone it thinks would be a valuable addition to the staff, that person will be approached by a Party officer.

If you feel that you have qualifications which would enable you to work on staff, but have not been contacted yet, write to:

NSWPP
Box 5505
Arlington, Va. 22205
ATTN: Personnel Manager

In the past, full-time staff workers have been paid only a subsistence wage. This has kept many highly qualified individuals with serious financial commitments from joining staff. In order to remedy this, there will be permanent and substantial salary increases to full-time Party workers, as part of the Two-Year Plan.

FUND RAISING

It should be stressed, however, that the Two-Year Plan is not just some sort of fund raising appeal. Unlike the Party's Three-Year Plan (1975-1978), which was primarily an effort to raise the funds needed to provide a material base for the Movement's work, the new Two-Year Plan will include *no* fund-raising. All fund-raising during this period will be done completely outside the Plan.

GEOGRAPHICAL PRIORITIES OF THE PLAN

During the course of the Plan the needs and requirements of National Headquarters and the Midwest Regional Headquarters will take priority over those of other areas of the country. This does *not* mean that the Party is 'abandoning' the rest of the U.S. and Canada. Rather, it means that we will be concentrating our efforts and limited resources on these two locations. Whenever we must make a choice between being shorthanded or low on funds in one area or another, NHQ and RHQ will take priority. The Party simply does not have the resources to be strong everywhere at once.

A MORATORIUM ON 'HATE'

During the course of the Plan there will be a moratorium on 'hate' within the Party. We will focus our attentions and our propaganda on the positive aspects of the National Socialist world view, so as to attract a more idealistic type of individual.

The following are some of the special projects National Headquarters will be undertaking in connection with the Two-Year Plan:

1. Production of a full-color introductory brochure on the Party.
2. Issuance of an elaborate Party Program, in booklet form.
3. Issuance of a book of quotations and aphorisms of Adolf Hitler, compiled by Commander Koehl.
4. Publication of a key National Socialist ideological work.
5. Publication of an ideological-political journal, to be produced under the auspices of the World Union of National Socialists.
6. Implementation of a home-study course on the National Socialist world-view.
7. Implementation of a training program for selected Party comrades, prior to the 10th Party Congress (1980).

This will mean a *complete end* to the use of terms such as nigger, kike, spic and so forth in public — including in Party printed materials and White Power Messages. There will be no propaganda attacks against any non-Aryan group as such, although we will not hesitate to discuss in a rational manner any specific problems caused by such groups.

For example, we will not attack Blacks for being lazy and unintelligent, nor will we attack the Jews for being money-hungry and 'greasy'. But we will still discuss the damage being done to our race by the presence of 35 million Blacks on the North American continent, and we will still expose the Zionist influence in the U.S. government and the Jewish stranglehold on the mass media.

But the focus of our propaganda will be on positive, pro-Aryan ideals — *what we are for, not what we are against*.

NEGATIVE PROPAGANDA

Insofar as there will be any negative (or 'anti') propaganda, it will focus on:

1. The System which governs the U.S. today.
2. White Shortcomings, which have allowed the situation of our Race to deteriorate to the level it has today.
3. Western Decadence and its various manifestations, such as social disintegration, cultural decadence and personal degeneracy, as well as political corruption and economic instability.

THE SYSTEM

By the 'System' we mean the liberal-democratic, finance-capitalist, zionist-dominated network entrenched in New York City and Washington, D.C. This System is a greater and more immediate danger to the welfare of the Aryan Race than the Communists in Moscow and Peking.

REAL NATIONAL SOCIALISTS VS. HOLLYWOOD 'NAZIS'

As mentioned earlier, the Jewish-dominated mass media has produced a grossly distorted caricature of National Socialism. Furthermore, it has succeeded in convincing the public that this caricature is in fact accurate. The erroneous picture that White people have of National Socialism and National Socialists stunts and hinders the Movement's growth in two ways.

Besides turning off decent people who might otherwise be attracted to the Party, this false stereotype has caused all manner of weirdos, oddballs and mental defectives to think that they are National Socialists. All too often, individuals are attracted to the Movement because they *like* the 'Nazi' image projected by Hollywood's kosher film makers. They really want to bully people, spew hate, sneer and swagger and so forth.

The individuals invariably leave the Party at some point — usually as soon as they realize that they are not interested in true National Socialism, but rather only in the grotesque Hollywood portrayal of it. But while they are around, their behavior and attitude constantly repulse many sincere, decent Aryans who might otherwise join in the struggle for a National Socialist America.

This is intolerable. Although it will take time, the only way this problem will be overcome is for the Party — and especially for local Party organizers — to actively prevent objectionable types from joining, while at the same time extending our outreach to the best elements of our Race.

On an individual level, this means that all present Party comrades who desire to remain in the Party will be expected to conduct themselves like real National Socialists — and not like Hollywood 'Nazis'. Those persons whose sole motivation in affiliating with the Movement is to strut about in an ST uniform in order to feel important and blow people's minds are advised to find some other 'Nazi' organization to join. There is no place for them in the NSWPP.

ROLE OF THE PARTY AND THE STORMTROOPS

The proper function of the ST is *not* to make propaganda for the Movement. That role belongs to the Party, along with providing ideological and political direction for the Movement. Rather, the ST is primarily the self-defense

The following alterations will be made in Party publications under the Two-Year Plan, effective 1 January 1979 YL-91:

- WHITE POWER will be reduced in size to eight pages. Articles in the paper will be designed mainly to appeal to people who are not already National Socialists. There will be no regular NS Publications page. There will be increased coverage of Party and WUNS activities.
- The new WUNS journal, in magazine format, will be concerned primarily in providing political and ideological instruction for those who are already National Socialists. Further information on this journal will be forthcoming.
- The NS BULLETIN will become more of an internal and less of an activities newsletter. It will not contain a lot of photographs and reproductions of newspaper articles, nor accounts of routine Party activities. Rather, it will concentrate on noteworthy Party news, announcements, NS Publications updates and practical suggestions and instructions to activists and organizers on propaganda techniques, fund-raising, recruiting and so forth.
- In place of the present NS Publications pages in the Party paper, there will be an NS Publications catalogue, issued yearly. Special items and new products will continue to be advertised in the paper.

arm of the Party. The proper task of the ST is to defend the Party. In the past, the ST has been used as a propaganda weapon far too frequently. During the course of the Two-Year Plan, this will stop.

A PARTIAL MORATORIUM ON UNIFORMED ACTIVITIES

During the course of the Two-Year Plan there will be a partial moratorium on uniformed activities, with the following exceptions:

1. Newspaper sales
2. Legitimate security functions of the ST
3. Demonstrations with 20 or more uniformed personnel, provided NHQ is notified in advance.
4. Demonstrations with less than 20 people will be allowed only in special instances, with the *prior* approval of NHQ.
5. The moratorium does not apply to the wearing of bona fide members of Party auxiliaries at internal functions, if so indicated by local Party leadership.

Outside of these exceptions, there is to be *no* uniformed activity.

The purpose of this moratorium is two-fold:

1. It will encourage local units to develop new, more varied, more effective activities.
2. It will help the Party's image and discourage undesirables from wishing to join.

THE ROLE OF LOCAL LEADERSHIP

It is the responsibility of the local Party leadership to see to it that the goals and methods of operating outlined here are carried out in their areas.

THE ROLE OF NATIONAL HEADQUARTERS

The greatest burden of implementing the Two-Year Plan will fall on National Headquarters. An entirely new line of propaganda materials must be designed and produced, new forms of activities must be devised and a proper political line must be established. Additionally, National Headquarters will have to provide direction to local units and individual activists to assist them in making the transition from former procedures and policies to Two-Year Plan procedure and policies.

FOR THOSE WHO HAVE QUESTIONS

Questions concerning the overall conception of the Two-Year Plan should be addressed to the Commander, at National Headquarters.

Questions regarding the implementation of the Two-Year Plan should be addressed to Director Kerr, also at National Headquarters.

NOTICE OF LOCAL ORGANIZERS AND ACTIVISTS!

All organizers and activists are urged to intensify their work on behalf of the Party during the first months of the Two-Year Plan. It is necessary that every National Socialist — and especially leading Party comrades — show special enthusiasm, energy and determination in carrying the Party and the Two-Year Plan forward.

Just as National Headquarters will be increasing its efforts, we would like to see every local unit and all activists increase their efforts with more paper sales and distributions, more out-of-uniform demonstrations (and demonstrations in uniform where sufficient manpower is available), more public meetings and more poster and sticker actions. In addition, we would like to see the development of new forms of Party activities.

The Commander and National Headquarters will do their part. The rest is up to you!
