## Special Report from Latin America

Franz Pfeiffer, Acting Deputy of the World Union of National Socialists for Latin America, recently submitted a report to Commander Koehl on WUNS activities and developments in his region. The report indicates that although our comrades there are faced with many obstacles, they have been able to make steady progress nonetheless.

Latin America comprises all of South America, Central America, Mexico and the Caribbean area. Although there are many Indians, Indian-White halfbreeds and other mongrels in this region, there are also many White people. These are the ones the Movement seeks to attract and organize.

The present foundation on which the Movement's work rests is the Charter of Villa Ballester. This document, first put into effect in September, 1976 (see WHITE POWER number 75), stipulates that all parties which sign the charter pledge "absolute loyalty to the World Union of National Socialists and its Commander, Matt Koehl." Equally important, the charter also provides for a close working relationship between National Socialists in different Latin American countries. The original signatories to the charter were the WUNS affiliates for Chile (the National Socialist Worker's Party of Chile, led by comrade Pfeiffer) and Argentina (the Argentine National Socialist Front). Since then, National Socialist groups in seven more countries have signed the charter: Bolivia, Ecuador, El Salvador, Mexico, Panama, Peru and Uruguay. Additionally, a group of National Socialist refugees from Communist Cuba living in the United States have also pledged their support to the World Union (see following story).

The report states that the general political conditions under which Latin American National Socialists must work differ from country to country, sometimes dramatically. "While in Bolivia absolute freedom of activity exists, National Socialists in Argentina and Uruguay are outlawed and work underground. Several National Socialists have been murdered in El Salvador, Guatemala, and Chile. One comrade has been imprisoned in Peru and another in Ecuador, while still another comrade in El Salvador was sentenced to a one-year jail term," the report reads.

In many countries in Latin America the Movement is virtually without any financial or material resources to work with, and is largely dependent on the support of comrades elsewhere. Regular dues have been waived throughout Latin America, but Movement officers are expected to donate up to 20 percent of their incomes to the Cause. Comrade Pfeiffer reports that members of the NS Women's Corps have been especially helpful in raising funds for the Movement, by way of special dinners and lotteries.

But despite all the hardships, much progress is still being made.

There has been an increase in Movement activities, for example, and distribution of *El Telex*, a Movement periodical published in Chile, is up 300 percent!

Any comrade wishing to make a donation to Latin American National Socialists should write to the following address. Our comrades are especially in need of propaganda materials and the machinery to produce them with.

## Commander Authorizes Cuban WUNS Affiliate

A new World Union of National Socialists affiliate organization has been authorized by Commander Koehl, for White refugees from Communist Cuba. This organization will work within the Cuban exile communities in the United States and elsewhere, with its ultimate aim being the liberation of Cuba from Communist domination. Towards this long range goal, the new WUNS affiliate is seeking to unify the White elements of the refugee community under National Socialism. At present, the group is waging a campaign against race-mixing, which has reached epidemic proportions among Cubans both in Cuba and (to a lesser degree) in the U.S. Also, a vigorous effort is being made to strengthen the natural anti-Jewish sentiment present in the exile community as a whole, and within the Cuban anti-Communist movement in particular.

The name of this new formation is the Cuban National Socialist Legion (*Legion Nacional-Socialista Cubana*). Those wishing to contact the Legion may do so at the present time by writing to the WUNS address in Arlington:

Legion Nacional-Socialista Cubana  
Box 88  
Arlington, Va. 22210  
U.S.A.

## Party Policy

### Geographical Separation of the Races

In the past, the Party has called for the complete geographical separation of the races as the solution to America's racial problem. That policy is fundamental and remains unchanged.

However, after long and careful consideration, the Commander has decided to adjust Party propaganda to avoid mention of any specific method for implementing that policy of racial separation.

Previously, for example, Party policy has specified *repatriation* to Africa of those Blacks presently residing in the United States as *the* method for the implementation of this policy.

That, of course, is just one method. Another would involve resettlement somewhere in the Western Hemisphere. There are others.

In the future, we do not want to be limited to any particular option. Instead, we prefer to pursue whatever course of action may be deemed most feasible at the time to achieve geographic separation of the races, based on the then-existing realities. To commit ourselves to a specific method now would be to seriously limit our freedom of action when we are actually in a position to do something about the problem.

How we accomplish racial separation is far less important than the basic fact that it *must* be accomplished.

*The important thing is that—unlike in these United States today—there will be no Blacks (or any other non-Aryans) in the Aryan republic which we will establish. There will be a total geographic separation of the Aryan race from all other races. The technical aspect of how this will be done is of secondary importance—but it will be done!*

### A Note from the Corresponding Secretary

The current personnel shortage at National Headquarters puts a heavy burden on all NHQ staff members. Not only must they perform their regularly assigned work, but they must also share the workload of staff positions which are presently unfilled.

In order to partially alleviate this burden, we are asking all comrades to do three things:

1. Until further notice, send only essential correspondence to the Party. Such correspondence would include dues and pledge payments, activity reports, security matters, organizational matters and requests for authorization to speak to the news-media.

## Party to Wage Anti-Draft Campaign

As this NS BULLETIN goes to press President Carter's proposals to draft young men and women to die in the Middle East are stalled in Congress. Regardless of whether or not registration for the draft is passed at this time, it is inevitable that the System will draft young Aryans to die for it sometime in the foreseeable future.

The Party has come out forthrightly against this draft, not because we are against military service in general or because we like to see the U.S. grow militarily weaker while the Communist nations grow militarily stronger. We oppose the draft because the System plans to institute it to obtain Aryan cannon fodder in order to keep its dying capitalist economy going and to make the Middle East safe for the blood-drenched bandit state of Israel.

Since the coming war will not be fought to advance Aryan interests, we see no good reason why Aryans should take part in it. Certainly, no Aryan should shed a drop of his or her blood to defend the oppressive anti-White System which rules us today.

Accordingly, the Commander has instructed that all local units wage an active campaign against the draft. Many units have already reported distributing the new anti-draft leaflet, and some have even held anti-draft protests. Other comrades having reported attending anti-draft protests organized by left-wing and right-wing groups.

Those comrades who take part in the anti-draft movement should be sure to report their activities to National Headquarters.

## FBI Files on Party Total 37,000 Pages!

The Federal Bureau of Investigation has revealed that it presently maintains some 37,000 pages of files on the Party! This staggering figure represents only the file on the Party itself, and does not include personal files on Party leaders and activists.

This information was disclosed by the FBI to Comrade Scott Mosby, who is presently in the process of obtaining a copy of his personal file from the FBI. Comrade Mosby, who is the unit secretary for Milwaukee Unit I, was further told that the file on the Party is broken down into 17 categories, but that it was not indexed.

The FBI charges 10 cents a page for photocopying files, which would mean that the Party may have to pay over \$4,000 in order to find out what information the FBI keeps on us. (The FBI previously admitted that it has 2,500 pages of files on Commander Koehl alone—see NS BULLETIN 263).

In Arlington, meanwhile, letters were received from the FBI acknowledging the Party's request to see the file kept on it, as well as the file kept on George Lincoln Rockwell.

The NS BULLETIN will keep all Party comrades informed on developments of this case as they occur.

Non-essential correspondence includes letters asking questions which are not really urgent, letters filled with chit-chat and gossip and so forth.

2. Even with essential correspondence, keep all letters concise and to the point.

3. Those comrades who desire a quick reply to their letters can speed things up by enclosing a STAMPED SELF-ADDRESSED ENVELOPE with their correspondence.

Your cooperation in following these three guidelines will help make up for the temporary lack of fulltime staffworkers in Arlington.

—Corresponding Secretary

# TWO-YEAR PLAN NOTES

## INSTINCT

Recently, a long-time Movement fighter, who has been with the Party since the early 1960s, voiced his criticism of the Two-Year Plan: "The Plan is all well and good as far as it goes, but it lacks the appeal to our people's racial instincts that previously characterized the Party's propaganda."

In a certain sense this comrade is right: we are no longer appealing to our people in the same manner as we did in the past. It is not true, however, that the Two-Year Plan ignores the important reality of appealing to the *racial soul*, nor does it minimize the necessity of appealing to the natural instincts of our Race.

There are two types of instincts, the noble and the base. The noble instincts find their expression in such values as honor, courage, honesty, self-sacrifice, dignity, service to the community and love of one's people. The baser instincts manifest themselves in such ways as hatred, cowardice, lust, jealousy, revenge, greed, egomania and so forth. We National Socialists refer to the expression of these nobler values collectively as *racial idealism* and to the baser values as *egoism*.

These two types of instincts, the noble and the base, co-exist within every individual (and by extension within the race as a whole) in a state of perpetual tension, occasionally complementing one another, but more often battling for control of the individual's (or the Race's) personality.

This inner battle is the fiercest in the Aryan. In lower forms of humanity, the noble instincts are so puny and underdeveloped that they scarcely stand a chance when pitted against the more powerful baser instincts. By contrast, the nobler instincts make up a very strong component of the Aryan racial soul, so that they are frequently able to dominate the Aryan's personality, both at an individual and racial level.

Yet despite this, it is still easy to bring out the baser side of the Aryan, simply by appealing to it and encouraging it. This, of

course, is what the mass media and the prevalent liberal morality seek to do. Unfortunately, it is also all too easy for racist organizations to attempt to do the same thing in hopes of gaining quick, easy political success and in gathering a relatively large following.

In the past, even the Party has been guilty of this, although certainly not to the same degree as numerous other racist organizations. This tactic has enabled us to attract not only media attention, but also adherents who would not otherwise be receptive to the National Socialist message.

But despite the modest success it has given us, in the long run attempting to raise the racial consciousness of our people primarily through race-hatred is self-defeating. By focusing solely on the baser instincts, we end up in attracting to our banner those persons who have allowed these instincts to dominate their personalities. *This is most definitely not what we are seeking!*

By appealing to the noble, idealistic component of the Aryan soul we focus attention on it, which in turn will help it to blossom. The more our people become true to this side of their personality, the sooner they will realize the vast, unbridgeable spiritual chasm which separates them from all of lesser humanity.

On a practical level, appealing to what is best in our Race will cause us to attract the best of our Race. It is this elite segment which the Movement must bring into its ranks if it is to be successful. Now, when we are laying the first foundation stones for an Aryan New Order, we must *discourage* rather than *encourage* those who find an appeal to the lower instincts attractive.

—Martin Kerr  
Two-Year Plan Coordinator

## ACTIVITIES IN BRIEF

- An anti-draft demonstration was held at the Federal Building in downtown Chicago on 24 February. The National Socialists carried signs reading "Say No to the Draft," "No Arms for Israel" and "Draft Zionist Jews." Anti-draft leaflets were handed out to passersby.

- The San Fernando, Calif., *Valley News* recently ran a seven-part series on different "extremist" groups operating in the Los Angeles suburb. Part three of the series dealt with the Los Angeles Unit of the Party, and featured interviews with Unit Leader Dan Stewart and activist Richard Blomquist.

- North Carolina Organizer John Norman was interviewed by phone over WSTP radio, in Stevenpoint, Wisconsin, on 17 February. The show's moderator was especially interested in the tense political atmosphere in North Carolina following recent confrontations there between the Communists and various White Power groups.

- Literature distributions were reported in February by Chicago Unit I, Chicago Unit II, the Indianapolis Unit, Milwaukee Unit I and Cleveland.

- A lengthy letter from a comrade in the Richard Biederman Unit was printed in the *Shakopee Valley* (Minn.) *News* recently. The unit's address was included at the end of the letter so that interested Whites would be able to contact the Party.

- Comrades from the Portland-Vancouver area report that progress is continually being made in their area. In addition to well attended local meetings, the mere existence of a group of organized National Socialists has antagonized the news media, resulting in some local coverage.

- Comrade R.S. from the Indianapolis Unit donated \$10 to the Cystic Fibrosis foundation in the name of the Party during February. The Party's name was later read off along with the names of other donors over WIBC radio.

## **Southern California Comrades Help Battle Flooding, Flood Damage**

Southern California comrades once again helped battle flooding and flood damage brought on by heavy winter rains. Comrade Orwin Zuiderweg, secretary of the Orange County Unit, reports that Unit Organizer Rick Harp led a small contingent of National Socialists which took part in the anti-flood efforts in the Lake Arrowhead area.

The National Socialists, wearing White Power T-shirts, aided in removing mud from buildings and roadways. They also helped fill and place sandbags in the wake of severe flooding, and in expectation of still further rain. The back-breaking work lasted for hours.

Comrade Harp reports that the White Power T-shirts attracted the attention of other relief workers and resulted in several friendly contacts for the Party.

## **What Every National Socialist Can Do to Help the Party Grow**

Many comrades, especially those new to the Party, often would like to help advance the Movement but just don't know how to go about doing this. One thing every comrade can do to help the Party grow is to distribute literature and other

propaganda materials in his or her area. Here are two examples:

\*Comrade M.F. from New York state reports distributing 50 Party business cards in a local library by putting them in books on National Socialism, Adolf Hitler, racial science and so forth. He also reports placing 50 stickers reading "The Holocaust—6 Million Lies" in the downtown area of his city and putting 50 copies of WHITE POWER under windshield wipers of cars at the local high school.

\*Texas Comrade J.P. reports the following: "I ordered some White Power buttons and Dump Israel bumper stickers from NS Publications and distributed them to people I know who are inclined towards our way of thinking. I also ordered White Power T-shirts for myself and my wife. These have proven to be a very popular item in the Houston area. I have given NSWPP business cards to approximately 30 people who have seen me wearing the T-shirt and want to know where to get one for themselves."

Not every comrade can be a Stormtrooper or work full-time for the Party, but every comrade can help spread the good word!

## **Notes from NS Publications**

1. "Say No to the Draft!" leaflets are now available. Perfect for high schools, colleges, etc. The illustrated side of this leaflet can also be used as a poster. Price: \$2 for 50, \$10 for 300.
