"By denying individual authority and replacing it by the headcount of a transient mob, the democratic principle of majority rule sins against the fundamentally aristocratic design of Nature..."

ADOLF HITLER, *Mein Kampf*, I, 3.

EDITORIAL

One pitfall that lies in the path of our struggling Movement, particularly in those places where the struggle is most difficult, is the temptation to compromise the fundamental principles of National Socialism for reasons of momentary expediency.

We are tempted to make the excuse to ourselves that, under our difficult and harried circumstances, it is permissible to tolerate un-National Socialist behavior in our ranks if that will help get some immediate task at hand accomplished quicker or more easily. There may be extraordinary cases where this is true, but nearly always such a decision is wrong. For it is precisely *now*, when we are with great difficulty and sacrifice laying the foundations on which the future of the Movement must rest, that we must be particularly critical of the material we employ for our purpose and of our standards of workmanship.

As a specific example, consider the leadership principle. This fundamental National Socialist precept must guide every phase of our struggle. It must be applied not only to the large-scale organization of our Movement, but to the lowliest of our everyday activities. There should never be a project undertaken by two or more National Socialists where there is not a project leader who clearly understands that he alone bears the responsibility for the execution of the task at hand, whether that task be a distribution of leaflets in the street, the planning and preparation of a new propaganda pamphlet, or the organization of an election campaign.

This is all too easy a principle to violate, because we live in a liberal-democratic environment which makes a virtue of the avoidance of responsibility and which teaches us to despise the idea of authoritarian leadership. Many of the recruits to our ranks have been conditioned by such morally enervating influences all their lives, so that their whole outlook—their whole way of thinking—is colored by them. It is tempting to adapt

ourselves to people who are thus flawed, so that we can more rapidly increase our numbers. *Yet we must not do this.* Those who would be National Socialists must accept the leadership principle without reservation. For if we fail to accept and apply this principle at every level, we cease being true National Socialists and become instead only members of a club or gang with racist ideas.

INTERNATIONAL

A current issue of which National Socialists all over the world should take full advantage is that of Jewish aggression in the Middle East. No opportunity should be missed to point out to our fellow citizens the true nature of the Jews, as so glaringly revealed in their behavior in all aspects of their conflict with the Arabs.

A particularly fruitful approach to take is to point out the highly biased treatment which the Jew-influenced press gives to the entire Middle Eastern war. Below are two newspaper photographs taken in Rome within a few days of each other.

The one in which the mob of Jews is carrying signs denouncing Iraqis as assassins was used in hundreds of newspapers with articles describing the "indignation" and "outrage" of the Jewish community about the mistreatment of their brethren in Iraq. The other photograph accompanied news stories about the "hate campaign" being conducted against Jews by "bigots" and "hatemongers."

Another example of the same thing is the treatment given by the newspapers to the Arab attack on the El Al airliner at Zurich. Initial stories told of a Jewish guard's heroic defense of the airliner—a defense in which he shot one of the attacking Arabs. Only later did the fact leak out that the Jew had run forward and killed the Arab commando *after* Swiss police had seized and disarmed all the Arabs.

Again, in the Los Angeles trial of Sirhan Sirhan, testimony was given of many blood-chilling atrocities committed by Jews against Sirhan's neighbors during his childhood in Jerusalem. The few newspapers which found room to carry these descriptions relegated them to back pages and dismissed them as "hallucinations."

Many more examples can be found which clearly illustrate the pro-Jewish bias of the news media and strongly suggest Jewish news control.

It's probably not wise to plan on a very profitable alliance with Arab groups at this time, however, because of their insistence on a strictly anti-Zionist, rather than an anti-Jewish approach to their problems. Many Arabs have gone so far, in fact, as to describe Zionism as "Jewish Nazism," and to take an anti-National Socialist attitude.

On April 26th Rudolf Hess will be 75 years old. On May 10th he will complete his 28th year in prison.

Those who wish to send him birthday greetings should address them to:

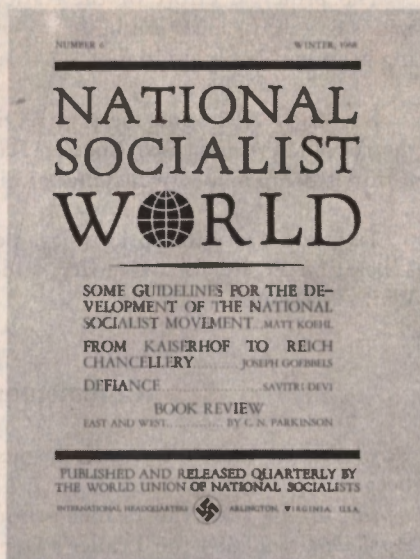

Rudolf Hess
1 Berlin 20
Festung Spandau
GERMANY

A new leaflet protesting the continuing democratic crime of Hess' imprisonment has been printed and is available in bulk quantities from WUNS HQ at \$5 for 500.

The sixth issue of *National Socialist World* has finally been printed and mailed to all subscribers. Copies are still available from WUNS HQ at \$2.50 each.

An article of particular interest in this issue is the one by WUNS Commander Matt Koehl, "Some Guidelines for the Development of the National Socialist Movement." This article should be read very carefully by every National Socialist, as it discusses a number of topics of critical importance.

Also in this issue is the first half of an English translation of Joseph Goebbels' fascinating and action-packed diary entries for the year 1932.

AUSTRALIA

The mailing address of the National Socialist Party of Australia has changed. It is now:

Box 853
Canberra City, A.C.T.
AUSTRALIA

GERMANY

Reports from Germany on the progress of the Bund Deutscher National-Sozialisten (BDNS) continue to be very encouraging. An organizational meeting in Berlin was held on February 23. Previous activity had been restricted to the Hamburg area.

Jews and their democratic German cohorts in the government of the Federal Republic outdid one another in their displays of vindictive rage recently when a German court was unable to find any grounds for punishing Hans-Joachim Rehse, 66, a National Socialist *Volksgericht* judge during the war. Judge Rehse had handed down wartime death sentences against hundreds of the same sort of race traitors who now comprise the Occupation Government.

One such vermin made the world a cleaner place on February 26 by dying. He was the existentialist philosopher, Karl Jaspers, who, in order to curry favor with the Jews and promote his own career after the war, produced a sewer-like stream of anti-National Socialist and anti-German books.

UNITED STATES

The principal effort of the National Socialist White People's Party remains one of organization-building, with particular emphasis on strengthening propaganda capabilities.

Recorded telephone message services have been installed in four more metropolitan areas: Los Angeles, Racine, Chicago, and Cincinnati. Preparation is being made for installations in several other areas.

Two new Party formations have been organized: The National Socialist Liberation Front, for university students; and the National Association of White Policemen.

Commemorative Dates
