White Victory in Ft. Smith Show Trial

In last month's **Nationalist** we reported on the political trial of 13 racist defendants in Ft. Smith, Arkansas. To the great embarrassment of the Federal government and prosecuting attorney J. Michael Fitzhugh, all 13 have been acquitted by the Ft. Smith jury on charges ranging from sedition to conspiracy to commit murder to transporting stolen money. Charges

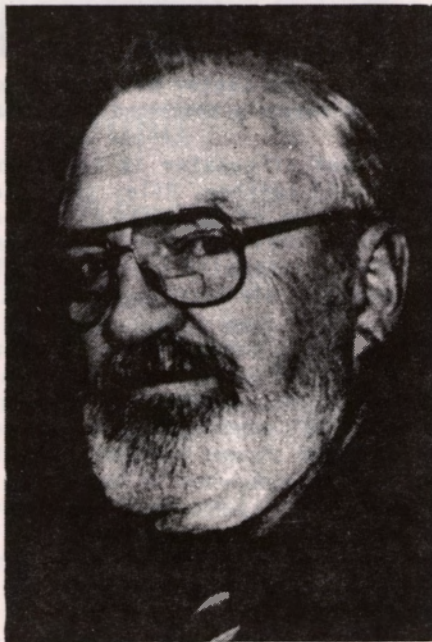

against a fourteenth defendant for illegally selling firearms had been previously dismissed by U.S. District Court Judge Morris Arnold. The judge had threatened to call a mistrial for the entire case several times because of "inflammatory language" used by the prosecutor, but fortunately for the defendants this did not occur.

The prosecution handled the case

strangely from the beginning. Initially, it announced that it was going to call hundreds of witnesses. But this may have only been a ploy to confuse and extend the defense because only a few prosecution witnesses were called, causing the case to finish much sooner than anyone expected. The prosecution apparently thought that the jury would believe James Ellison, former head of the Covenant, Sword and Arm of the Lord (CSA) and Glenn Miller, former leader of the White Patriot Party (WPP), who both claimed that there was a grand conspiracy to overthrow the Federal government and that Richard Butler, Bob Miles and Louis Beam were all involved. Obviously, the jury believed that both Ellison and Miller were lying and that the Federal charges were phony and political in nature.

RICHARD BUTLER

BOB MILES

PRESS NON-COVERAGE

Considering that conspiracy to overthrow the Federal government by force is not your everyday charge, there was what amounted to a virtual blackout of the case by the media. When the trial began there was a mention of it on some media outlets, but by no means on all. When the case ended in White vic-

tory, the reporting was very terse and always used the phrase "an all white jury" when announcing the acquittal. In so doing the media is implying, or rather is admitting, that jury decisions in the land of the free and home of the brave are often racially biased. We would hope that the White jury was standing up for those who would fight to save our Race, but we suspect that the political nature of the case and the weakness of the government's evidence had more to do with the acquittal than racial loyalty.

MORE SHOW TRIALS

There are two other anti-White political show trials going on that deserve our attention - the Howard Beach trial and the Zuendel trial. Seven of the Howard Beach youths will shortly be brought to trial in the second round of that political circus. In the first round an intimidated multiracial jury found three kids guilty in the death of one of the three Black men whom they fought on the streets of Howard Beach on Dec. 20, 1986. One of the kids, Jon Lester, was savagely sentenced to thirty years in prison to please the Black mob and Jewish New York press.

NDF activists in New York have acquired a fact sheet put together by one of the attorneys of the youths already convicted. The sheet lists a stunning array of facts that were not brought out by the press and that can leave no doubt that this is a show trial. For example:

(1) The incident began, not at New Park Pizza, but on a street where the three Black men walked in front of a car, and then surrounded it, instigating an argument with the passengers (three teenage boys and a teenage girl.) One of the Blacks, Cedric Sandiford, stuck his head in the car window and shouted racial epithets, frightening the girl who was in the backseat.

(2) The prosecution based its case primarily on the testimony of Robert Riley, one of alleged participants who sought leniency. Yet, Riley admitted on the stand that **no one was yelling and no one was chasing Michael Griffith at the time he ran onto the highway where he was hit by a car and killed.** The other two Blacks were not in the vicinity when Griffith met his death. (An autopsy found a large

Young Jon Lester of Howard Beach was savagely sentenced to 30 years.

amount of cocaine in Griffith's blood.) Further, Riley testified that two of the Blacks pulled knives during the incident. Both Blacks initially denied this but changed their testimony at trial.

(3) Cedric Sandiford, age 36, was an illegal alien, convicted criminal and drug abuser. He lied in his original statement to the police and then changed his story to jibe with Riley's when he testified in court. The jury heard both versions, yet for some reason chose to ignore the contradiction and accept Sandiford as a credible witness.

(4) Timothy Grimes, a convicted

robber and self-admitted abuser of cocaine, also altered his testimony in court and admitted that he drew a knife and advanced first toward the boys. Grimes outbursts where he shouted obscenities to the entire courtroom and his equally vile physical gestures should have convinced the jury that this was a most violent person - but apparently it didn't.

(5) The conduct of Judge Thomas Demakos during the trial was obviously biased. For example, he arbitrarily changed the law regarding peremptory challenges, he altered the reading of the charges to the jury, he questioned defense witnesses as if he were a prosecuting counsel, and he refused to declare a mistrial when it was discovered that the jury forewoman was taking notes and was attempting to sell her story to the mass media. Demakos even offered the jury evidence during its deliberations that the jury did not request! His outrageous sentences made his bias clear to one and all.

(6) Angry Black spectators were bused in daily and stacked the courtroom demanding retribution. They threatened the city with riots if a guilty verdict were not handed down. Judge Demakos allowed this circus to go on in his courtroom everyday, even though the effect could only be to intimidate the jury.

Because of these abuses it is likely that the defendants can win on appeal if they can gather the financial resources to take the case further. The case will no doubt financially break their families - such is justice in America.

ZUENDEL TRIAL PROGRESSES

On January 18, 1988 the retrial of Ernst Zuendel began in Toronto, Canada. Zuendel is on trial for publishing a pamphlet called **Did Six Million Really Die** which questions the Holocaust. At the insistence of the Jews, he is being tried under a little used 19th century criminal statute which forbids the publishing of "false news" that may cause harm to the general welfare. An appeals court overturned Zuendel's conviction in the first trial on procedural grounds because it was so obviously a kangaroo court marked by astonishing judicial irregularities.

In Zuendel's first trial the Jews sought as much publicity as possible believing that the prosecution would make short work of

Zuendel, but the strategy backfired as night after night the Canadian TV networks had to report startling facts and admissions that undermined the Holocaust tale. This time around, Jewish organizations have asked the media to give the retrial as little coverage as possible and the media masters have complied.

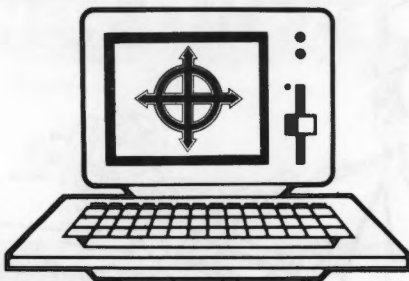

JUDICIAL NOTICE

The retrial opened with a stunning blow to the Zuendel defense team when the judge, Ron Thomas, took judicial notice of the Holocaust, i.e. he found it to be a historical fact that need not be proved. Nevertheless, the prosecuting attorney put historians on the stand to prove that there was a Nazi policy to exterminate Jews and that this was done in "death camps" equipped with gas chambers. This time the prosecution did not put on Jewish "eye-witness" testimony because in the first trial all of the eye-witnesses were discredited on cross-examination, and some even admitted on the stand that their testimony could not be true or was not true. Nor could the prosecutor, John Pearson, get the top Jewish Holocaust historian, Dr. Raul Hilberg, to testify as he admitted that he feared defense attorney Doug Christie's cross-examination. Christie poked so many holes in

Hilberg's testimony in the first trial that the sharp-tongued academic was thoroughly shaken by the experience. So instead, Dr. Hilberg suggested that the prosecution use another historian, Dr. Christopher Browning. Browning had no idea what awaited him.

BROWNING DISCREDITED

On cross-examination Christie got Browning to admit that he had a \$30,000 contract with Yad Vashem, the Israeli Holocaust museum, to write a book for it and that he was being paid **\$150.00** per hour for testifying in the Zuendel case. Christie further got Browning to admit: 1) that he could produce no documentary evidence to support the Holocaust thesis - no order, no plan, no budget, no patent or blueprint for a gas chamber, 2) that Buchenwald, Dachau, Bergen-Belsen and all the other concentration camps in Germany were not extermination camps even though thousands of Jews testified after the war that they were, and even though the German commandants of these camps were executed by the Nuremberg tribunals for operating death camps on the basis of that Jewish testimony (the Holocausters now claim that only the concentration camps in Poland were death camps), and 3) that Browning had never seen a gas chamber. Such admissions stunned both press and public in the first trial which is why the Jews have forced a blackout in the retrial. They are afraid that people will begin the obvious analysis: if there is no evidence of the Holocaust other than Jewish testimony, and if even the Holocaust historians admit that Jewish testimony on Dachau, Buchenwald, etc. was perjured, then why should we believe the Jews about Auschwitz, Treblinka, Sobibor and Belzec?

RED CROSS COVER-UP

The prosecution also got Charles Bieterman, Director of the International Tracing Service based in Arolsen, West Germany, to testify on its behalf. The ITS is now under the control of the Red Cross and is responsible for collecting docu-

From Page 3

ments to determine which Jews qualify for reparation payments from West Germany because they were interned in a Nazi concentration camp. On cross-examination Bieterman was forced to admit that all of the quotes from a 1948 Red Cross report which were cited in *Did Six Million Really Die* were accurate. After much effort at eluding the question, Bieterman also admitted that a 1978 document put out by Bieterman's International Tracing Service placed registered deaths at all concentration camps at a total of just 373,468. Bieterman would have us believe that there were millions of unregistered deaths, but he admitted that the ITS has refused to open its files to researchers and historians since 1978 when it realized that revisionist historian Robert Faurisson was doing research at Arolsen. Why all the secrecy more than 40 years after the event?

THE DEFENSE MAKES ITS CASE

The first witness for the defense was Ditlieb Felderer, a Jew-

ish revisionist historian from Sweden, who testified that he made 30 trips to Poland to examine the so-called extermination camps and what he found convinced him that the Holocaust was a historical lie. For example, he found that the "gas chamber" at Auschwitz was constructed by Communist authorities after the war and that it was a fake with no connecting flue to the outside. For his research Felderer spent three weeks in prison in Poland and ten months in prison in Sweden. The Crown was unable to discredit Felderer's testimony.

Next came Bradley Smith, 58, author of *Cofessions of a Holocaust Revisionist*. Smith is a liberal married to a non-White who explained why he came to disbelieve the Holocaust tale. His genial personality apparently made a very good impression.

Thies Christoffersen, a Wehrmacht officer stationed at Auschwitz throughout 1944, testified that he knew the camp well and that it was an industrial site that produced synthetic rubber and other chemicals and was not an extermination facility. Christoffersen spent a year in jail for "defamation of the state" when he first published his pamphlet *The Auschwitz Myth* in West Germany. He finds it ironic

that under the Third Reich, after he made a joke about Hitler, his commander put him in jail for only three days.

Next for the defense was historian Mark Weber. He testified for five days, reviewing with Doug Christie each paragraph of *Did Six Million Really Die*. He concluded that on the basis of his extensive research that the pamphlet is sound even though there are some errors in it. In this way Christie was able to get the jury to read, or rather to hear read, the entire pamphlet which is exceptionally well written and compelling. The pamphlet was written by Richard Verral under the pseudonym Richard Harwood when Verral was a leader in Britain's National Front.

THE COMING VICTORY

The Zuendel trial is now in recess but will likely continue to the end of May when the defense's main witness, Dr. Robert Faurisson will testify. Faurisson has been invaluable to Doug Christie, especially in preparing cross-examination questions. The jury has already been softened-up and Faurisson's precise testimony and obvious

SHORT BURSTS

Le Pen Surprises

Shortly before France's Presidential election in April, Jean-Marie Le Pen spoke to a rally of 20,000 supporters of his National Front in Marseilles' main soccer stadium saying, "When I am president, foreigners won't demand anything." At that point, the political polls said that Le Pen was supported by 10% of the people, but in the first round of the Presidential elections the next week close to 15% of the electorate voted for the leader of the National Front. The "experts" in France were stunned. At present it is not clear whether Le Pen is a genuine racial nationalist or a conservative sell-out in the making (ala George Wallace), but what is clear is that the French are growing more radical and more nationalistic and that is most encouraging.

Shultz Avoids the Real Holocaust

At the end of April, Secretary

of State George Shultz visited the Soviet Union. When he went to the Ukraine he did not mention the Harvest of Death in which the Soviets intentionally starved to death millions of Ukrainian peasants, he did not mention the extermination of the kulaks or the mass executions of Stalin's enemies, he did not mention the show trials of the 1930's or the mass deportations that caused the deaths of millions in the 1940's, and he did not mention the Katyn massacre in which Communist commissars butchered thousands of Polish officers captured in the invasion of that country in 1939. No, instead Shultz decided to go to Babi Yar to pay homage to the several thousand Jews who were executed by the Germans for supporting a partisan movement in Kiev. The Jewish partisans murdered German soldiers on their way to the front. After a killing they would flee into the Jewish section of the city where they were given safe haven, supplies and support. The Germans ended the problem with the mass

execution of every Jew - man, woman and child - in that section of the city. For Shultz and his capitalist and communist comrades, massacres are crimes only when they are committed by Nazis.

Zuendel

From Page 4

sincerity should clinch a victory for the defense, despite the judge's judicial notice, as the jury must believe that Zuendel knew what he published was a lie in order to convict. Ernst Zuendel will also testify with force and honesty as to his real beliefs. Zuendel has done an excellent job as a leader in organizing and directing an extraordinary team of very strong and brilliant personalities.

The System is now learning that show trials can backfire. If the Zuendel jury does acquit, the effect will be even more beneficial for White Nationalism than even the Ft. Smith acquittal. GG

THE NATIONAL DEMOCRATIC FRONT

New America is the ideological and historical journal of the National Democratic Front. It exposes the half-truths, historical lies and hypocrisies upon which the present plutocratic System is based, and it reveals and explains the eternal principles of nationalism that guide the NDF. Our wisdom is drawn from an historical analysis that follows truth wherever it may lead. History is the foundation of political wisdom and is the training ground of the true political leader. That is why we lead **New America** No.3 with the editorial entitled "Masters of History" and follow with these articles:

- **On Nationalism Part III: Dynamic Order** - Outlines the form of government America will have when the NDF comes to power.

Black Muslims Attack Drug Markets

Mayfair Mansions, a run-down apartment project in a Black section of Washington D.C., became a notorious open-air drug market more than two years ago. Until recently parents were afraid to let their kids play outside and even the police avoided the area. But in April, Louis Farrakhan's Nation of Islam offered help to the management of the project and Mayfair Mansions accepted.

The Black Muslims began to patrol the project, unarmed but in large groups, harassing drug dealers and drug buyers. The first day they disarmed and beat a man with a shotgun who attempted to intimidate them, and then they beat up a WRC-TV Channel 4 newsman who tried to film the beating. All in all it was a very good day even though the Nation of Islam did have to apologize for beating the newsman. The drug dealers immediately left the project to trade next door in Paradise Manor, but they threatened to kill Black Muslims if they did not leave Mayfair Mansions. The threats brought out the police in force and so far there have been no assassinations.

POLITICAL FALLOUT

The residents of Mayfair are ecstatic over what the Muslims have accomplished and this has caused Mayor Marion Barry and Police Chief Maurice Turner (both Black) to come out and openly support the Muslim effort. The residents of the adjacent project through the Paradise Tenant Council Association have now asked the Muslims to patrol Paradise Manor as well. The Nation of Islam has as yet not accepted the offer, perhaps for a lack of manpower - very few locals are involved in the patrols.

The popularity of the Muslim patrols and the open support of the Black D.C. government have put the local media masters - mostly Jews - in a quandary. They do not want to attack this effective Black effort

directly, but they despise and fear Farrakhan's Black Nationalism and anti-Semitism. Instead, they attempt to attack it indirectly, for example the *Washington Post* published an editorial criticizing the Barry Administration for doing such a bad job that the Black Muslim patrols became necessary. This is a clever approach, but ordinary Blacks will most likely see it for what it is as they now thoroughly distrust the Jews and the media.

WHICH WAY FARRAKHAN?

In recent months the Nation of Islam's propaganda has moved away from open racism and the call for a Black Nation to an emphasis on economic, social and religious issues. This transformation can be seen in their newspaper *Final Call*, in their local radio and TV broadcasts, and even in Farrakhan's speeches which were once characterized by the most inflammatory racist rhetoric. This may be a healthy ideological development in the sense that the movement is broadening its intellectual base,

or it may be a sign that Farrakhan is about to abandon Black Nationalism and compromise with the System in order to obtain its perks, privileges and benefits. We hope that Farrakhan does not sell out his people, but from what we have seen already such a move would not surprise us. GG

LETTERS

Dear Gary,

Thanks for **New America** No3. I liked the content very much, and also the generous use of artwork. The article about "White Slaves" was an eye-opener like Matt Malone's earlier article about Thomas Jefferson's racial views. I also liked your articles overall, whose logic and direct style always appeal to me. I might add that our shared military background may have something to do with that. Perhaps others will find your style too blunt and relentless. It always reminds me of an army advancing on a city, then shelling and reducing it, taking no prisoners.

I also enjoyed the March issue of **The Nationalist**. The article "NDF at the Movies" was a welcome innovation. I believe that there are many films which - with appropriate caveats - can be recommended to nationalists.

I am also pleased that you consistently avoid excess negativism. For example, you give the Zulus (in the movie review) their due that they were brave warriors. Also Gordon Gray refused to condemn Amanda Kemp (last page) for protesting the imposition of "Western culture" on non-Whites. And you objected to the negativeness in John Mauro's letter to the editor. Talk about "mud men" and "nauseating Jews" is simply not going to increase love for our Race.... Frankly, I think there is some good done by negative racist publications such as **Instauration** and **The Thunderbolt**, but I believe you are quite right in insisting that the paper of a **Movement** should be primarily about what we are for, and also evince no intrinsic hostility toward other races....

Your friend,
John Newman
Alexandria, Virginia

Sir,

I wish to offer a rebuttal to your reply to my letter printed in the Mar88 **Nationalist**. I am not

possessed of "White hate". I hate all of our enemies, the enemies of the White racist movement regardless of their race. It is a matter of fact that our very worst enemies are White people. It has always been so. Not a single one of our natural racial foes, including the most vicious and cunning - the Jews - could do a single thing against us were it not for the White race traitors that acquiesce to their schemes, actively or passively. From the White mega-capitalist who imports cheap alien, mongrel labor into the West, to the White cop who clubs the White mother to the sidewalk and rips her child from her arms to place on a school bus heading for a Black school in the inner city, to the White federal marshall who assassinates the tax protestor or decent man who does not want his children corrupted in the filth and mire of modern schooling (i.e. John Singer), to the White trash who scream obscenities and hurl rocks at White patriots along with their Jew and mongrel "brethren".

Our most courageous and effective street activist, Tom Metzger of WAR has stated this in different ways on many occasions. One of his top officers of the Aryan left Wyatt Clay Kaldenberg, editor of the **Democratic Socialist** concurs. Our two venerable old warriors undergoing the fire of ZOG's inquisition, Pastors Butler and Miles

feel the same. What is happening is a culling process so to speak. The current and coming tribulations will bring out the best of our people, separating the wheat from the chaff. I believe that this occurs during every historic time cycle - it is God's or nature's, if you will, way of perfecting the species - in this case the Race.

It is true that many more Whites will join the Movement as conditions deteriorate, but the majority will step over the line only after the war is won. The System will bring itself down due to its inherent flaws, contradictions and incapacities. Most White sheep will never revolt against the System as long as their bellies are full, they are clothed and sheltered and the electronic Jew box keeps humming. I am not a complainer, Mr. Gallo, I just wish to emphatically declare that during my brief tenure on this planet, it has been "Whites" who have attacked me most bitterly for my racist beliefs. From all I can discern this is more the rule than the exception for all involved, from the back line supporter to the men on the firing front. I salute you for your brilliant work and dedication with the NDF, an organization whose time has come - the WAR of the east coast.

I remain Respectfully,
John Mauro

SOON WE WILL ALL LOOK LIKE THIS

if we do not act to bring an end to the pollution of our beautiful land. The massive chemical dumping of U.S. industry has already made the water in most areas in the country impossible to clean properly. The chemicals seep from eroding cans in dumps like those above into the ground water supply and then into our bloodstreams. The filtration plants are hopelessly inadequate to deal with all the new chemicals that are now found in our drinking water. Do the capitalists know this? Yes. Do the politicians know this? Yes. So what have they done other than switch to Perrier water?

The answer is nothing much. The Environmental Protection Agency is hopelessly out of its league when it comes to fighting industry. It does not have the resources, organization or cooperation of business that it needs to even clean up the chemical dumps that now exist, let alone prevent new dumps from being established. Illegal chemical dumping where the capitalists work hand in glove with Organized Crime to circumvent government regulation is so widespread that it makes a farce of what little the EPA is doing.

Only the crushing of capitalism can save our precious environment from the ravages of its self-interest ethic. And only the defeat of communism, which is equally materialistic, can save the environment in the rest of the world. We will breathe clean air and drink pure water only when our nation is led by men dedicated to living in harmony with nature. Then the acid rain that destroys our forests and lakes will end, then the redwoods will no longer be cut down, then the condors, eagles, bears and wolves will no longer be threatened with extinction. The White Race can live happily only in a beautiful, clean and natural environment. Nationalists have always understood this and their enemies, the capitalists and communists - those who care for things more than people - never have.
