## U.S. Moves Toward Legal Drugs

The movement to legalize drugs is gaining enormous media momentum. In fact, it appears that the media is beginning a long term campaign for drugs legalization similar to its campaigns for multiracialism and feminism. The idea to legalize drugs is, of course, not new. It began with Jewish leftist leaders in the 1960's. What is new is that the idea is now being embraced by conservative capitalists. The **New York Times** credits Jewish professor Ethan Nadelmann of the Woodrow Wilson School of Public and International Affairs at Princeton University with convincing key public figures that drugs should be legalized. So far the following have endorsed legalization: the conservative columnist William Buckley, the conservative Jewish economist Milton Friedman, the former Secretary of State (and former head of the huge Bechtel Corp.) George Shultz, the liberal Black Mayor of Baltimore Kurt Schmoke, and the liberal Federal Court judge Robert Sweet.

In a speech to the Cosmopolitan Club in New York City, Judge Sweet said, "From Dionysus or Noah's vines on, mind-altering by alcohol has been part of Western culture. Not so marijuana, cocaine, heroin and crack. However, these substances, to a greater or lesser extent,

and in varying degrees, do alter one's consciousness, one's view of the world. Even as alcohol dulls the suppressor and enhance's ones view of oneself, cocaine gives a sense of exhilaration, heroin a glow, a warmth, and marijuana a sense of relaxation and ease. What then is wrong?"

### THE FINAL STAGE

This drugs legalization campaign is further evidence that capitalism has reached its final stage of degeneration - the phase of ultimate individualism and self-interest. Now

not even the conservatives will take a stand against the hedonism that destroys individuals, families and whole societies. Why? Because there is a whole lot of money to be had in opiating the people, and because an opiated populace does not revolt.

The drugs market is estimated at over \$100 billion per year in the U.S. alone. With Madison Avenue advertising and drugs readily available in the supermarkets, the market could be doubled, trebled or more. The System could easily increase our present millions of addicts to tens of millions. What

glorious profits to be made off the misery of the masses! What power can be acquired with such money! The capitalists cannot resist. They envy the Columbian drug lords, and want to take their business from them.

Personal power, prestige and profit are the driving forces of capitalism. In the dog eat dog world of big money, those at the top care not how many millions of families are destroyed by alcoholism and drug abuse. They care not about the lives ruined and wasted to the nation. They care not about the tens of thousands who die on the highways every year from drug and alcohol related accidents. They care not about the incredible numbers of divorces and enormous amount of child abuse that is caused by the self-interest ethic they preach, and its attendant hedonism and irresponsibility. "Look out for number one," they tell us. "Just seek out your own self-interest and everything will work out fine," they say, as the society collapses around us.

ferent from the cutthroat reality of capitalism. We will eradicate the use of drugs and alcohol because they cloud the mind, foul the body, and cause endless misery for millions of our people and their families through addiction. Hedonism will give way to healthy and natural pleasures. Not possible? Did not Prohibition fail even though two-thirds of the people supported it? Yes, Prohibition did fail because the U.S. was almost as corrupt 70 years ago as it is now. But nations led by incorruptible leaders have had very different experiences.

Mohammed wiped out the use of alcohol amongst the Arabs despite thousands of years of traditional alcohol use in the Middle East. China had over 40 million opium addicts when Mao took power in 1949. (The opium trade was run by the British government.) Mao threw the Whites out and cracked down on the domestic dealers. By 1952 drug use was no more in China.

Mussolini gained power in 1922 and by 1930 he had destroyed organized crime (the Mafia) in Italy. Unfortunately, many of the kingpins escaped to the U.S. where the fields of corruption were much more fertile. The Mafia was reestablished in Italy (Sicily) in 1944 by Lucky Luciano under the protection of the U.S. Army as the Mafia opposed both the Fascist establishment and the Communist partisan movement, thus making it the perfect ally for capitalism. FBI Director J. Edgar Hoover met regularly with Mafia leaders in New York City and denied to his death that organized crime existed in America. The FBI fought the communist and nationalist revolutionaries but never took on the Mafia. As recently as the Kennedy Administration, the CIA used Mafia assassins to attack the enemies of the U.S. The U.S. government has

been in bed with organized crime ever since its inception in this country. Such criminal organizations can flourish only with the aid of corrupt judges, lawyers, cops and politicians. And American criminal organizations are the largest, richest, and most powerful in the world - a measure of the extraordinary corruption in the U.S. All it takes to wipe out organized crime is honest, effective government - something beyond the pale for our present System.

### NATIONALIST WAY

It is estimated that there are now more than 20 million alcoholics in the U.S. (The number of drug addicts is unknown, but is certainly in the millions.) The lives of these tens of millions of men and women and the lives of their families are destroyed by their alcoholism. These are not weak people, rather they are genetically disposed to becoming addicted to alcohol, just as the majority of the rest of the community is genetically disposed to becoming addicted to opium, cocaine, and heroin once they begin to use it "recreationally." The approach of an individualist would be to say that this is the problem of the

alcoholic and should in no way affect his right to use alcohol moderately (i.e. to get drunk occasionally.) The same argument applies to drugs.

But the approach of a nationalist is to say that we care for all of our people and that if we can save millions from addiction and the attendant consequences, that we should then sacrifice the use of opiates and ban them from the society for the health of our nation

and the happiness of our people.

In reality, there is no choice. A drug-soaked society lacks will and is ineffective and inept. A real nation seeks to be as creative, productive and competent as it possibly can be. White Nationalists want their people to think clearly and to have the will to act. Capitalists want your heads in a befogged state, stripped of understanding and the will to resist their exploitation. It is up to you. GG

## NDF Holds First Knoxville Meeting

The NDF held its first meeting in Knoxville, TN on December 10th. Dr. Ed Fields, editor of **The Truth at Last** newspaper, and National Democratic Front Director Gary Gallo spoke. What follows is the text of the speech given by Mr. Gallo:

Most of you know little about the National Democratic Front, so I am going to talk to you about what we are, where we are going and how we are going to get there. The NDF is a White Nationalist political party with a complete philosophy of life which we call Democratic Nationalism. It is a philosophy of service and sacrifice - service to our nation and sacrifice for our Race. Our enemy is the capitalist philosophy of self-interest, which is corrupt by its very nature. It tells people to serve themselves and everything works out well in the end, and it does - for the rich capitalists - as they have all the advantages in the game of individualism. The capitalist ideal is characterized by the sick slogan of "look out for number one." A White Nationalist, on the other hand, seeks to develop his individuality so that he might better serve his people and achieve great things for the benefit of his nation as a whole.

### A WAY OF LIFE

The White Nationalist way of life is based on three principles: commitment, honor and honesty. We are committed to our people, and it is this love of our own kind and racial loyalty which gives our life meaning. Our purpose is to protect the chain of life that extends from our ancestors in time immemorial, to our descendants in time in infinity. It is our sacred duty to see to it that that chain goes on unbroken, that our Race survives and achieves greatness in all that we do. For that is the nature of the White Race - we must, and do, seek excellence in all that we endeavor.

Honor is doing the right thing. We use our reason to discover and live in harmony with the laws of nature. White nationalists do not exploit others for their own benefit. We share our good fortune with our racial kinsmen, and we are the first to shoulder the burden of sacrifice when it becomes necessary to do so - and it has become necessary to do so. We come to the aid of any of our kind who needs help regardless of personal risk. We have the moral courage to live honorably, and the physical courage to die honorably. It is this purity that gives us the

strength we need to carry on against great odds and to lead by example.

A White Nationalist speaks honestly to other Whites at all times. He does not dissemble to try to confuse the listener about his real beliefs, but rather he speaks directly, precisely and simply so that he is always understood.

### PILLARS OF IDEOLOGY

We are preaching not only a new spirit and way of life, but a new ideology. Democratic Nationalism explains how the world works, what is wrong with the present way of doing things, and how to create a new ideal nation. White Nationalist ideology is founded upon three pillars: Racial Freedom, Social Justice

See Page 4

and Noble Leadership. And further, we have a program that is designed to put our ideology into action.

By Racial Freedom we mean we are determined to get a pure White nation in which we are free to develop our culture and our civilization according to our nature and our standards. We will be free to be ourselves. The NDF will divide up the U.S. into completely independent nations based on race. This is the only fair solution. For example, the Blacks will get 13% of the soil of America as they make up 13% of the population. There will also be multiracial states for those who want to live as multiracialists. But the bulk of the country will be a pure White nation. All work is honorable - Whites will do their own menial labor and will be well paid for it. Under no circumstances will we bring in non-White workers. We do not want and will not have colored slaves or wage-slaves. And should we need extra stoop labor to pick our fruit, I'm sure our ex-politicians and ex-capitalists will volunteer for the job.

Our object is to create a unified White order where the people live in amity and cooperation. Such unity can only exist in the long term if the society is based on the principles of social justice. We will eliminate class-consciousness by sharing the wealth such that all of our people live well and are financially secure, such that all of our people have work and the dignity it bestows. Moreover, we will share the power that controls the wealth so that the worker has greater freedom in his daily economic life. Our system will be based on real free enterprise and will be run by small entrepreneurs, family farmers, and worker cooperatives. Companies over 100 employees will be turned into worker cooperatives where the workers elect

the board of directors. No longer will rich investors interested in quarterly profits be able to dictate the fate of our large corporations. The workers care about the long term health of their companies and have the information to know what is going on in their firms. They will make sounder decisions than arm-chair capitalist investors.

We need a system that promotes noble leadership, rather than the system we have now which ensures corrupt leadership by its very nature. Our present government of checks and balances is designed to maintain the status quo, to keep power in the hands of the wealthy elites. It is fit only for the distribution of favors to the vested interests who buy politicians through campaign contributions. It frustrates all attempts to act in the national interest where such action may threaten a well-organized special interest. Our present political structure is a prescription for paralysis, and good leaders are not drawn to a system where they can achieve nothing of substance. Only the corrupt are willing to participate in a system of checks and balances.

Under the NDF, our leaders will be given the power to act. The president will be elected for a ten year term by the people, and he will have enormous legislative, executive and judicial powers. Moreover, we will seek out our best young minds and educate them in political academies for top-level positions in the national bureaucracy. These leaders will be drawn from all classes and will rise according to talent rather than connections. Unlike capitalist leaders whose object is to live better than their people and who call on their people to sacrifice while they continue to live in the lap of luxury, nationalist leaders live simply and are the first to shoulder the burden of sacrifice. This is noble leadership.

Gary Gallo (l) and Dr. Ed Fields at Knoxville

### GETTING THERE

How will we achieve the political revolution I have outlined? The System will do most of it for us. Nationalist movements are inherently democratic as they embody the real will of the people and express the heartfelt longings of the ordinary man. That is why so many nationalist revolutions succeed without having to resort to violence. One capitalist government after another turned over the reigns of power to Nationalists in the 1920's and 1930's. We see the same thing happening to one communist government after another now in Eastern Europe. The Eastern Europeans are throwing off the alien grip of the Soviets, and the Soviet Union is being wrenched apart by nationalist movements in the Baltic, the Ukraine, Armenia, and even Russia itself. The communist leaders have lost faith in their corrupt and inept system and so will not defend themselves from the masses, and the same will happen shortly to the leaders of capitalism. A Third Way, the way of White Nationalism, will rise to replace both of these evil twins. Already in America the people are fed up with the System.

Capitalism is the antithesis of free enterprise because it seeks mono-

poly. Under Capitalism a tiny economic elite controls both the economic and political systems, and the people see this. The U.S. is a plutocracy not a democracy. It is a system run by the rich for the rich, not by the people for the people. Our people understand that they are being exploited by their so-called "leaders" and that is why less than 38% of them vote in Congressional elections. Capitalism is social injustice institutionalized. It is a divisive force, not a unifying force. And the people want to be unified-- they are tired of internal strife and endless conflict between the races and between the classes.

Our people are not blind. They know that their incompetent government cannot protect them on the streets, that it cannot save their children from drug dealers, or even educate their kids properly. They know that millions of Whites go unemployed while the capitalists continue to import millions of

coloreds every year for a steady supply of cheap labor. They know that the owners of Big Business would rather resettle factories abroad than pay the White worker a decent wage. They know that millions of Whites live in poverty, and the System does not care. Oh yes, it will give the poor welfare so they are dependent on government handouts, in order to buy off revolution. But it will not give the poor work as that would make them self-sufficient and no longer in need of the dole.

And the middle-class pays for this welfare to the poor, and it pays for the immensely greater welfare to the rich that comes in the form of tax shelters, loop-holes, credits, deductions and subsidies to their favorite projects. More than 25% of every tax dollar now goes to paying off just the interest on the \$2.5 trillion national debt. Middle class White America knows it is being sucked dry by government spending that is completely out of control. Ameri-

cans know that now both spouses must work to live at the same standard of living they had as kids when only the father worked--- all to support an evil system which they do not control and which exploits them.

This country is ready to explode, and the NDF has the match. All we have to do is get our message out to the people. We need your help to do that. In 1992, we will be running candidates for office in Knoxville, including the Congressional seat here. We need your financial support and we need your enthusiastic activism. We need people to distribute our leaflets, to sell our newspapers, to fly our posters, to make our telephone surveys. There is a role for each one of you in our Movement, and each of you who joins brings us one step closer to victory. We will turn Knoxville upside down, and then the White Nationalist movement will radiate outward from here across the country. All we have to do-- is do it!

# LETTERS

Dear Sirs,

I have gotten many wonderful papers from you, which I spread amongst my students and colleagues. I am the Professor of Sociology and Director of the Institute of Social Sciences at Radom University. This year I teach about 400 students of economics and engineering. All of them have been assigned the duty to translate many of your articles and write their own commentary. Thanks to you, I have wonderful material to work with. I am also the Secretary General of the Patriotic Union "Grunwald", which is an anti-Zionist organization. We also publish some anti-Zionist books, papers and bulletins. The bulletins are periodicals which treat actual affairs; altogether we publish about 100,000 copies. Right now we are trying to publish more books, but we are having some financial troubles. I have enclosed a booklet with songs for you....

The situation is very difficult here because Poland has been under Jewish control since World War II, but the future must bring change. Looking forward, I thank you very much indeed for everything that you have done for Poland and my students, and I wish you our traditional: A Merry Christmas and Happy New Year,

All the best to you, your family and friends...

Professor Mieczyslaw Trzeciak,  
Grunwald, Poland

Editor - Grunwald is the Polish equivalent of Pamyat, the Russian nationalist organization upon which we have previously reported.

Dear Gary,

Thank you for sending me your materials. You are putting out a good newsletter here, and I am pleased to see that you believe in action as well as publishing.... I have studied the National Democratic Front's Program of Democratic Nationalism and I have several comments: Many patriots will object to your call for a graduated income tax... And what about the Money Question? Will the NDF regime simply print whatever cash bills it needs? If so, what need is there of an income tax? This is serious problem I see with the Program as it now stands. There is no indication that you have given any thought to the problem of "money creation." Perhaps a future edition of the Program can address these points.

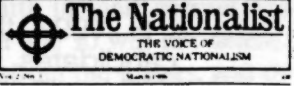

Thanks, John Tiffany,  
Washington D.C.

Editor - We care not what the patriots think as we are nationalists - our Race is our nation; unlike conservative patriots we are not attached to the self-interest ethic or to the land, but only to our Race and what serves it. A nationalistic order is based on racial freedom and social justice - the progressive income tax is the only way to the latter in a system where the means of production are not owned by the government. Money will be created as Abraham Lincoln (greenbacks) and Adolph Hitler created it, i.e. it will be printed according to need and will be backed by faith in the government as opposed

to faith in the banks as is presently the case. The banks will be nationalized and we will not borrow from either foreign or domestic financial institutions to fund the money supply. If we print too much then there will be inflation, and if we print too little there will be deflation, so it should not be difficult to zero in on the correct amount over time. The budget must be balanced, except in extreme emergency, otherwise it will invite inflationary spiral and/ or depression - thus the need to tax to provide money to be spent in the balanced budget process. The taxing process will also give the best fix on how much real new wealth the economy is producing - the more real wealth, the more that is available for government projects. Money must be based on production and not on gold or fictitious bank assets which have no relation to the real wealth of the nation.

# SHORT BURSTS

## It Speaks for Itself

In 1987 the Federal Savings and Loan Insurance Corp. filed suit against Congressman John Duncan, Jr. (R-TN) and 15 other bankers who ran the Knox Federal Savings and Loan into the ground. The suit charged that Knox officials (Duncan, his father and his brother Joe were directors) mismanaged the thrift and conspired to surrender control to C.H. Butcher, who is now in jail for bank fraud, in order to pay off Joe Duncan's debts to Butcher banks. The suit was settled in November for \$500,000, Congressman Duncan's share being \$50,000. In a classic case of Newspeak, Duncan declared that there was "no finding or admission of any wrongdoing or liability on my part." Then why pay the money? Duncan claims that he and his banking family are too poor to afford the attorney fees. There is a phrase in the law that applies to Duncan's action: "res ipsa loquitur" which means "it speaks for itself." Perhaps Duncan lacks the sense of honor to defend himself against these supposedly false charges, or perhaps the charges are not false. In either case, Duncan is not fit to be a leader.

## Subsidy to Feminists

Now that *Ms.* magazine has folded, some very surprising facts are coming out. In the 17 years of its publication, *Ms.* never made a profit. It had been steadily declining in subscriptions and advertising revenue throughout the 1980's, and finally the capitalist publishing house that owned it said enough. But why did the capitalists subsidize

this propaganda organ for 17 years? For two reasons: 1) the feminist movement was led by Jews (Gloria Steinem, Betty Friedan, Bella Abzug, etc.) and the publishing house was owned by Jews, and 2) the interests of capitalism converged with interests of feminism. The feminists wanted women out of the home and in the workplace (not a surprising desire for Jewish lesbians), and the capitalists wanted tens of millions of women in the workplace as well, to provide an overabundance of labor. Where labor is in great supply, the capitalists can slash wages and still get plenty of takers for their offers of employment. And that is exactly what happened. There have been at least six million Whites unemployed in every year since 1975. According to a Census Bureau study released in late 1985, it now takes the combined income of both young spouses to live at the same level that each had as children when only the father worked. In other words, real wages have been cut in half over the past 25 years. As a side benefit for the Jews, the fabric of the White family structure and social order has been torn apart by feminism and individualism. The weaker the host population, the stronger the Jews become as they prey on the divisions within the host.

## Arrow Cross Reemerges

According to *Time* magazine (Nov. 27, 1989), the U.S. is so concerned about the reemergence of the nationalist and anti-Semitic Arrow Cross movement in Hungary that Mark Palmer, U.S. Ambassador to Hungary, has warned the Hun-

garians that "there will be no place for extremism of any kind." "Extremism" is the System's codeword for genuine nationalism. Real freedom is a very dicey business for the capitalists and Jews, as it always happens that the people turn on them. So the U.S. is making it clear that it does not want the Hungarians to think they are free to do anything they like. If they tolerate anti-Semitism (which is illegal in all Communist states), the U.S. will consider Hungary an enemy, which should give you an idea as to who really rules in the U.S.A. Incidentally, Jewish-owned *Time* awarded Palmer "high marks" for serving Jewish interests rather than American interests, and it labeled the Hungarian nationalists "verminous creatures" so we can keep the good guys and bad guys straight in our minds.

## Declining Standards

The Carnegie Foundation for the Advancement of Teaching polled 5450 college professors in November of 1989 and found that 75% considered their students "seriously unprepared in basic skills." More than two-thirds felt that the high schools were failing to prepare their pupils for college. This is just the latest in mountains of evidence that educational standards in the U.S. have dramatically declined, particularly since 1969 when SAT scores began to fall. The study, entitled "The Condition of the Professoriate: Attitudes and Trends, 1989," concluded that "Public Education, despite six years of reform, is still producing inadequately prepared students." How much longer can this go on?

# White Workers Rise

**In the first American Revolution** the cry of the colonist was, "Taxation without representation is tyranny." What now constitutes representation in the U.S.? Certainly, it is not the individual's vote. The president is elected by the electoral college, not the vote of the citizen. The majority of the people do not vote because they recognize that they have no real choice. In the last Presidential election only 49% of the people voted. Bush received 51% of that 49% which means that he was supported by only 1/4 of the people. And most of those who did vote Bush were actually voting against Dukakis.

**In Congressional elections** the picture is even more dismal. On the average, only 38% of eligible citizens bother to vote. And these tend to be the wealthiest 38% as they have vested interests to protect. For the rest, the vote means nothing. What gets candidates elected is the money of the special-interest lobbies and the power of the media. This is where the real political power lies.

**Who controls the real power?** Certainly not the White working majority of America. Yet, who shoulders the bulk of the tax burden? That's right, the White working people. The White worker has no special-interest group to protect him. The Jews, the Blacks, and the capitalists scream "racism" in the controlled media when the White man tries to organize. Only White groups are "racist" in the U.S. - Jewish and Black groups are perfectly legitimate in this corrupt and hypocritical system.

**Once again the people** of America live under the shadow of a tyrannical government. The people who fought for America, the people who built America, the people who paid for America with their "blood, sweat and tears" have no power. Over and over again the voice of the White working American has fallen on deaf ears. But the voice can still be heard, and grows stronger day by day. It is the voice of White unity, the voice of strength. It is the voice of the NDF which cries out,

## "White Workers of America - Rise!"

**Your plutocratic government has betrayed you.  
We of the National Democratic Front will:**

- 1) Replace capitalist owned "Big Business" with worker owned cooperatives.
- 2) Redistribute the wealth by eliminating special tax treatment and subsidies for the rich.
- 3) Outlaw special-interest groups and their lobbies.
- 4) Make medical facilities and treatment available to all, not just the rich.
- 5) Rewrite the legal code so that all can use and understand it, thereby making lawyers superfluous.
- 6) Eliminate the violent criminal population.
- 7) Replace the ethic of self-interest with the White Nationalist ethic of service and sacrifice for our people.
- 8) Create a separate White racial-nation on the soil of America with a common culture and a common language.
