Truth is the most powerful propaganda.-- J.F.C. Fuller

Black Gangs Seeking Out White Victims Anti-White Violence Becomes Epidemic

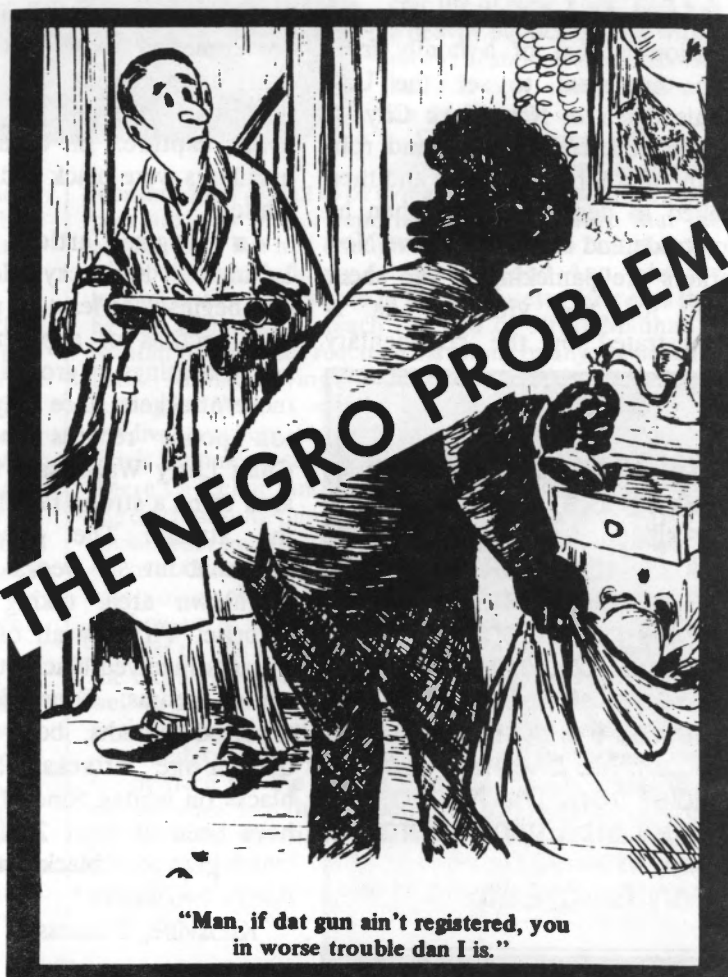

The case of the White jogger in Central Park in New York City who was raped and sodomized by a gang of Blacks who then beat and maimed her, finally leaving her for dead, gained a lot of national attention, but this case is only the tip of the iceberg of anti-White violence. Black on White violence has reached epidemic proportions nationwide, yet most of what we hear from the media is condemnation of the relatively little violence that is directed at Blacks by Whites. Indeed, right now the multiracialists are trying to get a law passed by Congress that would give extra punishment for "racist" acts of violence where the perpetrators are White and victims are colored. It would not apply and would never be used in the reverse case where the victim is White and the perpetrators are Black because that is not "racist." It is another demonstration of the sickening hypocrisy of the System when it comes to race, and another reason for its overthrow.

FOR THE FUN OF IT

The truth is that all over the country gangs of young Blacks rove outside of their neighborhoods to

seek out White victims for the fun of raping them, robbing them or beating them. This massive crime wave

against innocent Whites has not been focused upon by the media, and this is intentional, just as it was

when the media ignored the Zebra killings where Black Muslims murdered over 400 Whites in California in the late '60s and early '70s. Most White people still do not understand how much the Blacks hate them and blame them for all their travails, and the media and the System want to keep it that way.

In New York City the Whites have no illusions about the Blacks or the Hispanics when it comes to violent crime and they are as careful as they can be. This is why the colored gangs prey on White out-of-towners so often. Those from out of town in any major city do not know which are the "bad areas" (as real estate agents call them) where the coloreds live or are most likely to roam; so they fall victim to anti-White violence out of all proportion to their numbers. The most recent case of this sort to gain attention is that of a family from Utah that went to see the U.S. Tennis Open in New York City. A gang of coloreds attacked and robbed the mother in a subway and then stabbed to death her son when he tried to defend her. Even native New Yorkers are panicking at the sheer extent of the violence as is demonstrated by the commentary

Gary Gallo, Editor

from U.S. News & World Report reproduced on page 3. Whites have almost completely abandoned Detroit and the same will occur in New York City even though it is still the financial capital of the world.

BLACK HATRED

But Black hatred of Whites and violence against Whites is not a problem confined just to large cities, it is everywhere. For example, a recent article from the New Orleans **Times-Picayune** begins: "Roving youth gangs, armed with bottles, bats and chains, have attacked French Quarter pedestrians at least four times in the past week, killing one man and badly injuring at least five others, police and victims said.... In all the attacks, victims said, no words were exchanged with their assailants. Groups of teenaged young men - sometimes as few as four, sometimes more than twenty - attacked small groups of men and fled quickly to avoid capture. In each case, the assailants were black and the victims white."

An August article from the Lexington, Kentucky **Herald-Leader** begins: "At least 26 people have been victims of apparently unprovoked beatings by groups of three or more attackers since July 1, Lexington police records show. Police Chief Larry Walsh said there appeared to be a strong racial element in the attacks. The group assaults began about six weeks ago in the downtown area, taking police by surprise. Virtually all of the group assaults involved black attackers and white victims. Forty-four of 59 reported assaults, both group and one-on-one attacks, have been blacks on whites. Since July 1, there have been at least 22 incidents in which groups of blacks have attacked one or two whites."

Knoxville, Tennessee is less than

15% Black yet Black gangs prey on White victims, mostly students from the University of Tennessee, in the downtown area even though few Blacks live in that part of the city. Many students now completely avoid the park next to the University because of the Blacks who roam in the park to attack Whites.

BLACK COPS-MORE THUGS

The **Detroit Free Press** recently ran an article entitled "Rude cops were worse than the crime, women say" which described how two White women, immediately after being attacked and robbed in a Detroit parking lot, attempted to report the crime to a Police Precinct run by Black cops. The Black cops were not interested and said exactly that, the Black cops did not ask them if they were hurt, did not ask them if they had been raped and ignored them for 80 minutes. What Whites are going to find out, the hard way, is that there is little difference between Black criminals and Black cops - both are armed thugs.

THE LAUGHING WILL END

In the Central Park jogger case the Blacks laughed at the judge while he gave them the maximum sentence knowing that they will be on the streets again in a few years. Prison time is a badge of honor for lower class Blacks. Twenty-five per cent of all Black males are convicted felons with prison records. They know that the criminal justice system is now a joke. They will not be laughing under the NDF as they are condemned to death.

Until we separate the races completely into independent nations as is advocated by the National Democratic Front in its Program, racial injustice, hatred and violent conflict will only continue to increase until there are no Whites left in the cities.

The heartbreak that is New York

BY JOHN LEO

Before we get to the murder and mayhem of New York City and the current debate over whether the city will survive (or simply become the world's largest Detroit), consider a few statistics.

The city has 830,000 people on welfare, a total bigger than the population of all but 10 American cities. It has an army of derelicts and increasingly dangerous street people. Every day 366 cars are stolen and 200,000 people jump the turnstiles to get into the subway free. There are more than 2 million warrants out for defendants and others who were supposed to show up in the nonfunctioning criminal-justice system but didn't. The nonfunctioning public-school system employs more educational bureaucrats than all of Western Europe. The city has 500,000 drug abusers, almost the population of Boston. In some neighborhoods, one fourth of all residents are intravenous-drug addicts. Use of dirty needles for IV drugs, plus the large gay population, makes New York the AIDS capital of America. The city has a persistent and largely disordered underclass, and the illegitimacy rate in central Harlem is 80 percent and still rising. Each year 10,000 infants are "born toxic," most of them crack babies who will cost \$220,000 each in remedial attention before kindergarten. No one has any idea how the city will pay the enormous tab for crack babies and AIDS patients. Even if the economy were healthy, one of the city's movers and shakers says privately, the AIDS bill alone would be enough to break the city.

Now, the bad news. Then there is the violence, which is now conducted at a level that would have been unimaginable a generation ago. In 1952, the city had 8,757 robberies. Last year it had 93,387—a stickup every 6 minutes. (The rate could be much higher, since many New Yorkers don't bother to report robberies and muggings any more.) Twenty-one cabbies were murdered this year, girls were raped and then thrown off rooftops, a boy was tied up and set afire, and four small children were shot to death in drug wars within three weeks. With the murder rate headed toward six per day, Mayor David Dinkins was moved to say that we are statistically safer in New York than the residents of Dodge City in the 1880s—not much comfort.

With all the numbing violence, the city still soldiers on. The greatest strength of New Yorkers, I think, is also their greatest weakness: The willingness to put up with almost any outrage. For the past two years, for instance, I have walked my daughter to school across four of the safest and most staid blocks in Manhattan, and almost every morning the gutters of those frequently cleaned streets are a continuous trail of glass fragments from broken car windows. This means that the cars on these blocks are broken into all the time, and the owners have learned

to live with it. In any other city, this would quickly produce a posse of concerned car owners with baseball bats. But in New York, it's accepted as part of everyday life. Perhaps these drivers have charge accounts with their local auto-glass dealer and earn discounts for volume buying. But it's a crazy kind of tolerance.

The news from the front is that this tolerance is breaking down, in large part because the violence has finally reached the well-off and the comfortable. The mother of journalist Pete Hamill has been mugged three times. So has the wife of Felix Rohatyn, the prominent financier. Viveca Lindfors, the actress, was slashed in the face in our neighborhood. A year ago we had a fairly mild wilding incident on the block—a mob of 60 or 70 feral children burst out of the subway and flooded the street, bludgeoning pedestrians and yanking at necklaces and purses. A few weeks ago, a man was shot to death at a pay phone near his home in Greenwich Village for no apparent reason, allegedly by a drunken derelict. Not all murders are equal in the psychic life of New York. This was a heavily publicized case with a moral: Random, pointless violence is now everywhere and no one is safe.

Since the spring, polls have shown that 60 percent of New

Yorkers don't expect to be living here in five years. Newspapers are now full of reportage and conjecture that the middle class has had enough and is ready to bolt the city. The bolters include my friends Eric and Ann, who are leaving to live somewhere in Massachusetts. Eric says that he has managed to reach the age of 50 in Manhattan without the violence reaching his family or anyone he cares about, but that staying here now means defying the odds of getting hit. With a computer and a fax machine, he says, he can live anywhere. One couple does not make a trend, but Eric's comment catches the current mood pretty well. There's a feeling among hard-core New Yorkers who love the city that something resembling a total breakdown of the social order may be under way and that New York may not make it. Often the discussions come down to talk about the safety of our children in an era when many kids have started to show up at school in bulletproof vests.

Most of this talk amounts to a vote of no confidence in the city's first black mayor. David Dinkins is soft-spoken, well-to-do, courtly. During Nelson Mandela's visit, he was positively regal. But he is beginning to be perceived as a detached, ceremonial figure with no gut feel about crime, no stomach for the task of bringing the white and black middle class together to confront a largely black crime wave. Blacks who have suffered a lifetime of racial slights or overt racism will hardly be eager to embrace the newly panicked whites. But something like this will have to happen because things are starting to spiral out of control. ■

BONNIE TIMMONS FOR USNEWS

Capitalism: The Big Fix

By Tom Panvini

America has become a country of addicts. Everywhere in our society people are addicted to something. We have drug addicts, alcohol addicts, food addicts, gambling addicts, etc. etc. etc. Individuals are just self-destructing all around us.

The general term applied to addiction is obsessive compulsive disorder (O.C.D.) The system tells us that O.C.D. is the manifestation of social environment and in some cases, genetically determined. It is also the result of the lack of satisfaction of deep rooted psychological needs.

Studies have shown that O.C.D. is as prevalent among the rich as it is among the poor. In each case a sense of low self-esteem coupled with a feeling of alienation from external social environment provides

the psychological basis for addiction. In short, the individual lacks identity. He does not know who he is or where he fits in.

Yes, the world of addiction is a lonely one in which the individual deludes himself into thinking that a quick fix will solve his problems. And to get that fix the person is willing not only to destroy himself, but to destroy others in the process. It is not surprising that addiction is spreading so rapidly in society. Especially, in our multiracial metropolitan cities. Multiracialism strips us of our psychological need for racial and cultural identity - our need to identify with something greater than ourselves.

Capitalism serves only to provide us with the "Big Fix". All we need is a materialistic toy and everything

will be alright. That is until we get bored with it and then we need another toy. In this "dog eat dog" society of self-interest, "He who dies with the most toys wins." What we destroy in the quest for material acquisition is of little consequence even if it is our race, our culture, ourselves.

The disease of capitalism is a deadly one, but it is not incurable. There is an antidote. It's called Democratic Nationalism. The National Democratic Front will, through the political process, create a separate White racial nation on the soil of America. The NDF will restore and preserve White racial pride and identity in this land, and will create a nation dedicated to the whole of its people and their social welfare. TP

Jews on the Horns of a Dilemma over Iraq

According to an article from the Times-Post News Service entitled "U.S. policy worries Israel's friends", the Jewish Lobby in America has been pushing for U.S. conflict with Iraq since the Iran-Iraq War ended in 1988, but is now afraid that Israel will suffer in the end because of the way the alliances are shaping up. Obviously, the Jews did not realize that that the U.S. would seek Arab allies in a war against Iraq. Apparently, the Jews thought that America was going to launch an invasion of Iraq from the tiny Diego Garcia island in the Indian Ocean - our only base in the region - or rather they did not think the thing through clearly at all, and now it is backfiring.

The Bush Administration has offered to forgive \$7 billion owed to the U.S. by Egypt and has offered to

sell to our ally Saudi Arabia about \$20 billion worth of high-tech military equipment. And what's worse, Syria is now an American ally, so even if Iraq is defeated, Israel will be surrounded by much stronger other Arab nations, all of whom are potential enemies. The Jews are now scrambling to kill aid to the Arabs in the Congress even though refusal of aid to our allies is a difficult case to make in wartime. Nevertheless, the Bush Administration has already pared down its request of \$20 billion in military sales to the Saudis to \$10 billion under Jewish and Congressional pressure. Perhaps Bush asked for \$20 billion knowing that he would have to compromise by cutting the request in half.

Up until now there have been few cracks in the alliance between the Jews and the White capitalist ruling

class in America which was first forged under Franklin Delano Roosevelt. But the WASPs despise the Jews almost as much as the Jews despise the WASPs. The WASPs especially resent the arrogance of the Jews now that the latter think they have it all. The White capitalists are willing to sell out their own race for money, but they do not like having their noses rubbed in it, and the Jews just cannot help themselves. As Nietzsche said, the Jews are cringing in defeat and arrogant in victory. Jewish stupidity in regard to this Iraq business has given the WASPs the opportunity to stick it to the Jews, and the White capitalists have taken full advantage. But war with Iraq will turn out to be just as awful in its consequences for the rich Whites as for the overconfident Jews. GG

60% of Whites vote Duke

On October 6, 1990 60% of the White voters of Louisiana marked their ballots for "White rights" candidate David Duke. But the fate of the White race in America is now so intertwined with that of the colored races that 60% was not enough for Duke to win the election.

Because 27% of all

David Duke

registered voters in Louisiana are Black, Duke needed 70% of the White vote to defeat incumbent Bennett Johnstson

for a U.S. Senate seat. The total vote was 54% for Johnston to 44% for Duke. But the very fact that the great majority of Whites voted for what the System called a "racist" is a bad omen for the multiracialist cause.

AWAKE AMERICA!

The White people in America are beginning to wake up. Duke's polls in Louisiana ran no higher than they did in the rest of the country and that has the Jews and Establishment very concerned. The polls showed Duke shortly before the election with just a 24% approval rating and then nearly twice that percentage went out to vote for him. This is very disconcerting news for the enemies of the White Race. From now on in elections pro-White candidates will run stronger and stronger until we get the 70% support that we

need to completely restructure this country.

And perhaps it is better that we need such huge White support to win. Revolutionary changes, if they are to endure, will require such complete White solidarity. Only such a complete union of the White people can bring a new dawn.

New Nation Books

(New and Used)

We sell the books on politics and history that have been suppressed by the System - the books you cannot find on your library shelves or at your bookshop because the powers that be will not allow it in the "land of the free." Many of these books from America's underground press are finely bound hardbacks written by famous historians such as David Irving, David Hogan, and Harry Elmer Barnes - books that the Establishment publishers would not print because they are "too hot to handle."

Come and visit our bookshop and reading room at 4613 Old Broadway in Fountain City, Knoxville, TN 37918; phone (615) 689-7376.

SHORT BURSTS

Things Heat Up in SA

The Whites in South Africa are finally resorting to terrorism, though it is not yet on the scale of Black terrorism. Of 34 incidents of terrorism in June, 7 were attributed to White groups such as the White Wolves, the White Liberation Army, and the Order of Death. The police say they have Afrikaner nationalist organizations thoroughly infiltrated, but that these terrorist groups are very small cells that are unconnected with one another and that are not centrally directed or coordinated. Such independent small unit guerrilla activity became the hallmark of the Boers in their struggle against English domination, and we will see more and more of it as frustration with the government grows and the situation becomes revolutionary. "I see terrorism, White and Black, and nobody will have the power to stop it," says Eugene Terre Blanche, leader of the Afrikaner Resistance Movement.

More Freedom of Speech

The president of Stanford University, Donald Kennedy, has announced new regulations that forbid a Stanford student to use "speech or other expression that is intended to insult or stigmatize an individual or a small number of individuals on the basis of their sex, race, color, handicap, religion, sexual orientation or national origin and ethnic origin." Hail freedom!

White Man's Disease

For those who thought that the Soviet basketball victory over the U.S. in the last Olympics was a fluke

- the U.S.S.R knocked out the U.S. in the 1990 Goodwill Games 92-85. No, the Whites on the Russian team still cannot jump (as they suffer from what the Blacks call "White man's disease"), or run fast or move quickly but they play excellent "White" basketball, i.e. they pass and move off the ball and play as a team, whereas the Black teams of the U.S. play one-on-one.

The Capitalist Way

Earlier this year the Northrop Corporation and its chief engineer Howard Hyde were convicted of falsifying tests on the Marine fighter-bomber the Harrier. One of the tests falsified was on sensors that stabilize the plane. Now the Marine Corps is grounding Harriers because of faulty sensors. As yet none of the Harriers in Saudi Arabia has been grounded. Every one of America's major defense contractors has been charged with some form of fraud, theft, bribery or corruption yet we still put the lives of our young soldiers in the hands of profit-making companies who put the "bottom line" first. Such is the capitalist way. And we wonder why our equipment fails and things go so poorly when the shooting starts. Under the NDF defense contractors will be nationalized and there will be no "military-industrial complex" to lobby us into wars and unnecessary spending.

Racialism on the Rise in France

There are now five million North Africans living in France. According to a poll sponsored by the French government, 76% of the French believe there are too many Arabs in

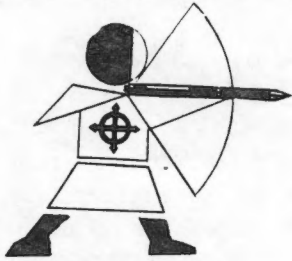

their country and 24% say there are too many Jews. The results of the poll bode well for Jean Marie Le Pen's National Front and are discouraging for the Socialist government.

Bank Failures Rising

In the last issue of *The Nationalist* we described the precarious state of our banking structure. Now more evidence has come out that demonstrates that the banks are in desperate shape. The second largest bank in the U.S., Chase Manhattan Corp., has just laid off 5000 employees. The Congressional Budget Office released its analysis in regard to bank failures and predicted that even without a recession between 600 and 700 banks would fail over the next 3 1/2 years. Recession would bankrupt the FDIC insurance fund. Normally the government would save a big bank, such as Chase Manhattan, that gets into trouble. But with so many failures the government may not have the resources to save the top banks and then the whole system collapses.

College for the Rich

In the 1980's college tuition grew much faster than college aid. Federal financial aid declined 3% and state aid grew such that there was only a 10% real increase in aid over the decade, but tuition increased by 40% in real terms (adjusted for inflation) over the same period. This means that many bright White kids of moderate means are denied a college education, and that the social classes in the U.S. are becoming more and more stratified.

LETTERS

Dear Editor:

I'd like to bring to public attention a little known case of unconstitutional religious discrimination by the federal government. In almost all federal prisons the Jewish inmates are provided with Kosher meals from an outside catering service, at an approximate cost of \$6.00 per day. But the food budget for other inmates is only \$2.00 per day. Kosher meals are prepared in some prisons by inmate cooks using standard ingredients that meet kosher requirements within, or close to, the standard food budget, so there is no real need for such extreme price discrimination. It makes a mockery of the Constitution for the government to establish a class of super-prisoners based on religion.

Sincerely,
Adam Starchild
Kentucky

Dear Mr. Gallo,

I was present at the Populist Convention in Winston-Salem and heard your excellent speech. It is true when you said that "Churchianity" is an impediment to our progress. The Church is only interested in itself not in White survival. It thinks more of a Bishop TuTu than a Copernicus or a Galileo! Furthermore, "religion" seems only to be interested in personal relationships and not in Man's accomplishments - Art, Science, Philosophy, etc.

You are absolutely correct when you say that there is no real difference between Communism and Capitalism, but you could have gone even further and brought out the point that they both employ as the basis of their economic systems iden-

tical monetary systems (The Two Brigands by Gideon Traiboll "The Sun" Winter No.9 1953/1954.)

Under the insane money system we have it is absolutely impossible to get one copper penny into the system except as an interest carrying bank loan. There are no greenbacks, no free coinage of silver, and even the silver certificate has long since been eliminated. Hence the endless screaming for a "balanced budget" which given the rules of our social debt system is totally impossible.

Traiboll points out that Communism is merely the logical extension of Capitalism. He is also right in pointing out the drivel about "public" and "private" ownership as the Money Power controls not only all "private" industry but the U.S. government itself. The international plutocrats own "your" government....

I thank you for the issues of **The Nationalist**.

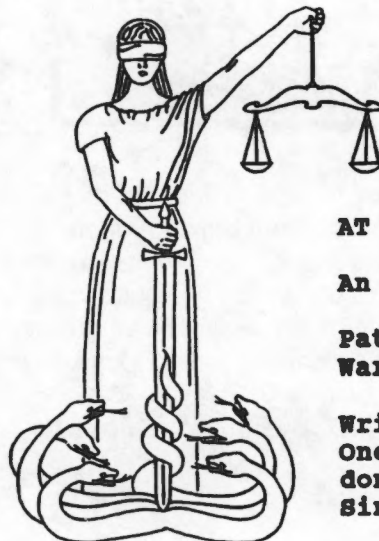

Yours sincerely,
Leif M. de Kruiff
New Jersey

Dear Gary,

I am quite excited to hear about your HQ and bookstore enterprise. To put it colloquially - will such a thing blow the minds of some people. Best of luck and I hope it will be famous/infamous around the country.

I would like to make a brief comment about the NDF's activities with respect to Mandela's visit. The lesson to be learned from these activities, I believe is that we must guard ourselves from the manipulation and deceit of the political police as much as possible. I propose that at all our public activities we equip ourselves by taking along a videographer to record as much of our movements as we are able. Incidents like the one in D.C. would blow over quickly and embarrassingly to the police if we had a film to pull out of our pockets. Videography is a modern weapon that we can and should use in public confrontation.

Yours,
Elizabeth Szvetcz

Why White Nationalism?

According to **Time** magazine, April 9, 1990, in the cover story "Beyond the Melting Pot": "Already one American in four defines himself or herself as Hispanic or non-white. If current trends in immigration and birth rates persist, the Hispanic population will have further increased an estimated 21%, the Asian presence about 22%, Blacks almost 12% and Whites a little more than 2% when the 20th Century ends. By 2020 the number of U.S. residents who are Hispanic or non-white will have more than doubled, to nearly 115 million, while the white population will not be increasing at all.... By 2056 whites may be a minority group."

Yes, Whites will become a minority group and how will they be treated by the non-White majority? Will the non-White majority allow them to form a powerful minority political organization? Will they give poor Whites welfare, food stamps and allow them to suck it up on the dole? Or will they cast our descendants into a kind of slavery - to pay for the "sins of the past," of course. Or perhaps, after years of being taught that Whites were the "haters and persecutors of mankind," they will simply slaughter our descendants as they have done to the Whites in Africa.

Multiracialism and increased non-White immigration are the policies not just of the United States. Multiracialism is now promoted by almost every White government in the world: Canada, Australia, Britain, Italy, Germany, the Soviet Union, etc., etc. And any White who disagrees with this spectacle of human lemmings rushing to the sea is condemned and persecuted as a "racist." Yet, all other races have nations to protect their racial and cultural integrity. Israel is for the Jews, Japan for the Japanese, Kenya for the Blacks and so on. Only the

Whites can have no country that will protect their identity and ensure their survival as a people - for that would be "racist." In their grand hypocrisy the Capitalists and the Communists and the Jews have one set of standards for White people and another set for the other races. As the White world slips further into the dark abyss of multiracialism and multiculturalism will not our culture and our Race cease to exist? We have already become a people without a country - we have been stripped of our racial and cultural identity and soon we will be subsumed within the multiracial mass! Is this what you want for your children and their children? No? **Then it is time to fight!**
