PROBE JEW-COMMIE RING IN MIAMI

Survey Shows That Communist Press Is Jew Controlled

SPECIAL—Although Americans are almost unanimous in their antipathy for Communism, it is a deplorable fact that the general public remains pathetically ignorant of the true nature of Communism. This is not so much a reflection upon the public's intelligence as it is upon the so-called free press and radio, which by tacit understanding have either suppressed or glossed over certain embarrassing facts concerning the identity of those behind the Communist conspiracy.

This makes for an extremely difficult situation because it is obvious that Communism cannot be eradicated unless, and until, we can come to grips with it. And to come to grips with it we must know who the enemy is; we must, in short, be able to name and identify those who propagate the virus of treason and subversion.

Unfortunately this poses a very difficult problem because the unhappy truth is that Communism in the United States is primarily Jewish in character. That is to say, Jews constitute the backbone of the Communist movement and

U.S. Jews To Raise \$100 Millions For Israel

NEW YORK—At a conference attended by 1200 Jewish leaders in New York last month the United Jewish Appeal approved a U.S. fund-raising goal of \$99,521,275.00 for 1955. This is \$94 million less than the amount raised last year, and is approximately \$20 million short of planned expenditures for 1955. The \$20 million shortage will be made up by the West German government, which two years ago was blackmailed into an agreement to pay international Jewry a total of \$822 millions in "reparations" over a ten year period. The major part of United Jewish Appeal's \$120 million budget this year will go to Israel.

HOLLYWOOD'S COMMUNIST-BUILT MEDICAL CENTER

According to testimony before the California Un-American Activities Committee last month, the Wilshire-Carthey Medical Center shown above was built with Communist funds. A witness before the Committee also described the Center as being ... "loaded with Communist Party doctors". A check showed at least eleven of the 72 doctors in the Center to be either Communists or members of Communist-front organizations.

Since the Medical Center is situated on Hollywood's fabulous "Miracle Mile" in the heart of the Wilshire-Fairfax district, it is

obvious that relatively few underprivileged working people would ever find their way there for treatment. This may seem incongruous to some, who mistakenly regard Communism as a working class or proletarian movement. But to those who have learned to regard Communism as a Jewish-led conspiracy there is no incongruity at all—especially when it is known that an estimated 60% of the population in the Wilshire-Fairfax area is Jewish. Add to that the fact that virtually all the doctors in the above Medical Center are Jewish and the picture is complete. . .

Jewish Doctors Exposed As Reds By State Investigating Committee

LOS ANGELES—Last month the California Senate's Un-American Activities Committee uncovered what is without doubt one of the most sensational Communist rings in the state's recent history. Disclosure of the ring's activities came during a five-day public hearing by the Committee in Los Angeles.

Perhaps the most unusual aspect of the case was the composition of the ring, which consisted entirely of physicians and doctors. Altogether a total of 29 doctors were named in public testimony as Communist Party members. Of these, 23 were identified as MD's, two as osteopathic physicians, three as dentists and one as an optometrist. With one or two possible exceptions all were Jewish.

The following Medical Doctors were named as Communist Party members: M. Abowitz, Hyman Engelberg, H. Koppelman, W. Kempler, L. Bigelman, Jacob Druckman, M. Feder, Joseph Hittelman, S. Marcus, S. Druckman, S. Sperling, G. Rosenbloom, F. Bissel, M. Lester, M. London, F. Reynolds, T. Perry, O. Elkins, W. Gordon, A. Pennes, J. Flasher, P. Cobbs, **OSTEOPATHIC PHYSICIANS:** Saul Matlin, Jack Nedelman. **DENTISTS:** Max Schoen, Max Sosin, Louis Schonfield. Mostly Irishmen.

Testimony before the Committee revealed that the Communist doctors, although representing only a minority of the medical profession in Los Angeles, actually attempted to take over the Los Angeles County Medical Association in 1949—a maneuver which impelled the Association to request the present investigation by the Un-American Activities Committee.

Probably the most startling fact turned up by the investigation was the disclosure that Communist money had actually been used to construct an elaborate Medical Center in the very heart of the swank Wilshire-Fairfax district in Hollywood. Testimony before the Committee indicated that the modernistic, five-story Wilshire-

Velde Committee Moves Into Miami For New Red Hunt

MIAMI—Although you did not read about it in your daily newspaper, the House Committee on Un-American Activities last month conducted an extremely significant investigation into Communism in the Miami area. The Committee, headed by Rep. Velde of Illinois, heard a key witness, a former Communist by the name of Edwin Waller, name 34 individuals in the Miami vicinity as Communist Party members. Among those named was Charles Smolkoff, a former CIO official who was described as the head of the Communist Party in the area.

Although the Associated Press and other wire services have censored the story from the very beginning, the present investigation is an outgrowth of a situation which has been developing in Miami for almost a year. The mat-

Charge "Anti-Semitism" In Ladejinsky Firing

WASHINGTON, D.C.—Organized Jewish groups have thrown up a smoke screen around the firing of agricultural attache, Wolf Ladejinsky, earlier this month (alleging "anti-Semitism to be involved") but the fact is that Ladejinsky's background fully justifies suspicion. A Russian-Jew who came to this country in 1922, Ladejinsky reportedly has belonged to two Communist-front organizations. For several years he was also an employee of the Soviet trading corporation, AMTORG. And in 1939 he visited Russia. . .

The question of anti-Semitism was injected when both the Anti-Defamation League of B'nai B'rith and the American Jewish Committee went into hysterics over a letter released by the Agricultural Department describing Communists of Jewish origin as being ... "the worst kind of traitors".

P.S. With White House approval another governmental agency, Harold Stassen's F.O.A., has re-hired Ladejinsky—at a raise in salary.

THE ONLY "ISM" WE ADVOCATE IS AMERICANISM!

Editor's Report

IT WAS less than a year ago that the CHICAGO TRIBUNE reprinted a secret Communist directive in which Party members were instructed as to the immediate objectives of the Communist Party. Foremost among those objectives were: (1) the destruction of Senator McCarthy, and (2) the emasculation of the House Committee on Un-American Activities. To achieve the latter goal the directive suggested the Un-American Activities Committee should cease its "red-baiting" investigation of Communism and concentrate instead on the various "hate groups" whom the Party alleged were spreading "anti-Semitism" throughout the country.

Fantastic though it may seem, both objectives have already in large measure been attained. The Party goal, so far as McCarthy is concerned, has undoubtedly been achieved. And from all indications the enemies of the Un-American Activities Committee have been at least partially successful in diverting its attention away from the investigation of Communist treason. . .

The Committee's "report" on "neo-fascist and hate groups" of last month is a case in point. For a number of reasons that document stands out as the most unique in the Committee's entire history. To appreciate why this is so it should be noted that the normal policy of the Committee is to hold hearings, and THEN issue a report on its findings. But in this instance no hearings were held. Nor were the individuals named in the "report" given the opportunity to appear before the Committee, although Communists are always given such an opportunity.

To add further to the picture it should be noted that the Un-American Activities Committee, as such, did not prepare the "report" which bears its imprimatur. Instead it was compiled by paid staff employees of the Committee. . .

For our part we feel it is unfortunate that the Committee allowed itself to be maneuvered into releasing an unsubstantiated smear report of this type. For it should be emphasized that although there is some truth in the "report", there is a lot in it which is not truth. The "report" does expose a small group calling itself the National Renaissance Party as a fascist organization. But it then proceeds by innuendo to link this minuscule organization, which styles itself as "the only fascist organization in America", to a number of right wing conservatives who are not fascists and who have no sympathy with fascism. As a matter of fact some of the individuals named in that so-called "report" have been the Committee's strongest and most loyal supporters down through the years. And they were given no

Jewish Doctors Exposed As Reds By State Investigating Committee

Carthay Circle Medical Building at 6333 Wilshire Blvd. was not only built with Communist funds, but also served as a concentration point for Communist doctors in the Los Angeles area. One witness—himself a former Communist Party member—described the Medical Center as being "loaded with Communist Party doctors".

Verification of his testimony was not difficult to establish. A check revealed the building to be occupied by 72 doctors and dentists, virtually all of whom are Jewish. In addition the building is teneted by several commercial establishments, including a pharmacy, a physical therapy service and a clinical laboratory. So far as can be determined, no Gentiles occupy the building at all. . .

Of the 72 doctors with offices in the building, a total of 5 have been identified as Communist Party members in sworn testimony before official governmental agencies. At least 6 others have similarly been named as members of Communist front organizations, or as being in some way identified with them. All of which would seem to bear out the contention that the Wilshire-Carthay Medical Center is indeed a dangerous concentration point for Communist activity in the Los Angeles area.

DANGEROUS INROADS

From the foregoing it is clear that the Communists have made dangerous inroads into the medical profession in Southern California. And it is important to note that the danger not only involves patients and others who might come under the influence of Communist doctors. Also to be considered is the damage suffered by the medical profession as a whole by this Communist infiltration. For although the loyalty of the majority of the profession is beyond question, the fact remains that the Communists have been amazingly successful in recruiting doctors and physicians into their ranks.

MINOR MYSTERY

The question naturally arises as to why they have been successful. On the surface this in itself is a minor mystery, since by no stretch of the imagination can the medical profession be identified with the working class. Nor is it an underpaid occupation. Doctors simply don't qualify as proletarians.

Furthermore, Communism would seem to have little to offer the average doctor in the way of position or prestige which he does not already enjoy. What attraction, then, does Communism have for the scores of Los Angeles doctors whose affiliation with the Communist Party is a matter of public record?

NOT PROLETARIAN

To answer that question intelligently we must give some attention to the basic character of the Communist Party as it has existed in this country from the very beginning. In the United States the Communist Party has never really had any appeal for the so-called working class of people. When-

ever Communists are uncovered they almost invariably turn out to be professional people, teachers, scientists, actors, writers and others generally identified with the "intelligentsia". Communism is not, and has never been, a proletarian movement in the United States. This is the first important thing to take into account in analyzing the character of the Communist conspiracy.

The second thing to remember is that no evaluation of domestic Communism can be undertaken without giving proper emphasis to the fact that all, or nearly all, of those involved in the Communist conspiracy are Jews.

The evidence of this is incontrovertible, and for proof we need only cite the record of the last 10 years. With the exception of Alger Hiss and William Remington (both convicted of perjury) every important disclosure of Communist treason has involved individuals of Jewish origin. This was true of the Amerasia case; it was true of the Judith Coplin case; it was true of the Rosenberg case and the Harry Dexter White incident; it has been true of every other situation where Communist treason has been exposed.

JEWISH SPIES

To complete the record it should be noted that ten of the eleven Communist spies convicted in this country to date have been Jews and that most, though no quite all, of the hundred-odd Communist leaders convicted under the Smith Act have been of the same racial origin. Numerous other instances could likewise be given—as for example Fort Monmouth, where 38 of the 42 discharged security risks were of the "persecuted race". Or we could mention the case of Irving Peress. . .

The inescapable truth is that Communism in this country is a Jewish-led conspiracy. Communism cannot be understood or dealt with until that cardinal fact is understood. On the other hand, once this explanation is accepted many of the apparent mysteries and inconsistencies surrounding Communism tend to disappear.

JEWISH CONSPIRACY

If we think of Communism as a Jewish-led conspiracy we can begin to comprehend why scores of Hollywood's well-paid doctors have joined the Party. We can understand why they built a Medical Center in the heart of the swank Wilshire-Fairfax district in Hollywood, an area which is populated predominantly by wealthy Jews. We can also appreciate why so many Jewish lawyers, scientists, movie actors and others of similar privilege and station are attracted to Communism.

The thing to remember is that Communism does not appeal to them because it is a workers' or proletarian movement; it appeals to them because it is a Jewish movement. That is why most of the 29 Communist doctors exposed by the California Un-American Activities Committee last month turned out to be Jews. . .

WASHINGTON

It is important that patriots everywhere be alerted to the following vital issues which will confront the Congress this year:

THE BRICKER AMENDMENT, designed to preserve the integrity of the Constitution by curbing the treaty-making powers of the executive branch, will be among the most important of the measures to come before the new Congress. Basically the Bricker Amendment was conceived to plug an exceedingly dangerous loophole in the Constitution. This is the now famous Article VI, which specifies that any treaty entered into by the United States shall become... "the supreme law of the land". The danger lies in the fact that a president, with the concurrence of a simple Senate majority, can bind us to international treaties which take precedence over the Constitution itself. The disgraceful "Status of Force" treaty, under which tens of thousands of American servicemen serving overseas may be brought to trial in foreign courts (and sentenced to foreign prisons) is but one example of how Americans can be deprived of their Constitutional rights by treaty law.

To rectify this flaw in the Constitution it is important that every loyal patriot support the Bricker Amendment to the utmost of their ability.

A BILL is also being introduced by Rep. Usher Burdick of North Dakota which deserves the active support of every patriot. It calls for American withdrawal from the United Nations. . .

THE HARLAN appointment is another matter deserving of attention. Harlan, a Negro-loving, Jew-catering liberal of the Warren-Frankfurter stripe, has no business sitting on the Supreme Court at a time when the segregation issue is reaching a crisis state. His appointment should be blocked even if it necessitates a Senate filibuster.

HAWAIIAN STATEHOOD may also be an issue this year. The objections to Hawaiian statehood can be summed up as follows:

Hawaii consists of 20 small islands, 11 of which are uninhabited. They are about as far removed from the United States as is England. With respect to race and national origin they are even further removed, since Hawaii is populated mainly by Asiatics. Only 68,000 of its 450,000 inhabitants are white. Americans neither need nor want a 49th Oriental state! Hawaiian statehood should be blocked!

EISENHOWER'S "little F.E.P.C." is a matter Congress should at all costs take up this year. Although Congress has consistently refused to enact an F.E.P.C. law down through the years, Eisenhower has furtively created one on his own initiative. Technically it is known as the "Committee on Government Contracts". Eisenhower's tactic is to compel all government contractors and subcontractors not only to hire, but to upgrade and promote, Negroes and other minority groups under threat of having their contracts cancelled. . .

Jewish Control of Red Press Exposed

(Continued from Page One)

Jews Monopolize All Communist Newspapers

have done so since the Bolshevik Revolution in 1917.

It is not hard to prove that Communism is a Jewish movement, but it is difficult, if not impossible, to get the evidence to the public. The problem, in other words, is one of censorship. And complicating that problem is the fact this censorship cannot be traced to any single factor, but is due to a combination of circumstances.

Important among these is the reluctance of newspaper publishers to offend their Jewish advertisers by linking Jews and Communism together. The sensibilities of the various Christian religious groups must also be taken into account. Many Christians traditionally look upon Jews as a holy race and they bitterly resent the implication that the hordes of eastern European Jews in our midst are in any way associated with Communism.

OTHER FACTORS

There are, of course, other important factors militating against the free flow of news, chief of which is the Jewish ownership of all three of the nation's major radio-TV networks. Considerable influence is also exerted by professional Jewish propaganda agencies such as the Anti-Defamation League of B'nai B'rith and the American Jewish Committee, all of which are exceedingly active in suppressing all information tending to equate Jews with Communism.

In combination these factors serve as a powerful deterrent to those who might be inclined to discuss the Communist-Jewish problem frankly, but who at the same time wish to avoid the appearance of "anti-Semitism". And make no mistake about it, anyone who reveals the tie-in between organized Jewry and Communism will instantly be accused of "racism" and "anti-Semitism". . .

FORBIDDEN SUBJECT

These facts explain why the relationship between Jewry and Communism has become a forbidden subject so far as the American press is concerned. The end result, of course, is a censorship as rigid as any ever imposed anywhere. That, in brief, is why the American public has been kept in ignorance concerning the identity of the Communist traitors who at this moment plot the overthrow of the United States government.

On the other hand, once the veil of censorship is lifted there is no lack of evidence to support the contention that Communism is a Jewish-led movement. On the contrary the evidence is so abundant that our real problem is to winnow it down into a brief and yet balanced presentation.

Perhaps the best index of the Jewishness of the U.S. Commu-

In the United States the Communist Party controls outright some 122 magazines, papers and periodicals of every description and category. But of these only three are daily newspapers. These three major propaganda outlets of

nist movement is the degree to which Jews monopolize the Communist press and other organs of propaganda. Actually this is the key to the whole picture, because the Communist Party in this country is primarily an instrument of propaganda, and in the main the people who run the Party press also dominate the Party apparatus.

It is, of course, impossible for us to analyze every Communist publication in America in an article of this size, but what we can do is to examine the major propaganda organs of the Party. Listed below are the principal propaganda outlets of the Communist Party in the U.S.A. Let us take them one by one in order to determine just who does control them.

COMMUNIST DAILIES

First of all it should be noted that although the House Committee on Un-American Activities lists 122 Communist newspapers and publications in the U.S., there are three, and only three, DAILY Communist newspapers. These are the three most important Communist papers in the country and all three are Jewish controlled, as the following indicates:

THE DAILY WORKER is the best known of the Communist papers and is widely regarded as the most authoritative. It is controlled directly by the Party apparatus. When the Justice Department began rounding up the Party's leadership in 1949 the DAILY WORKER'S editor-in-chief, John Gates, was among the first dozen indicted. Along with 10 other members of the National Committee of the Communist Party he was subsequently sentenced in the

JOHN GATES

the Communist Party are shown above. To the left is the DAILY WORKER, best known of the Communist dailies. In the center is the MORNING FREIHEIT, printed in Yiddish and the largest Communist newspaper in America. To the extreme right is the

famed trial before Judge Harold Medina. Gates, whose Jew name is Israel Regenstreif, is now serving time in a federal penitentiary for conspiring to overthrow the U.S. government. The present managing editor of the DAILY WORKER is Alan Max. . .

THE MORNING FREIHEIT, printed in Yiddish, is the largest and possibly the most influential of all the Communist dailies. Its editor is Paul Novick. The paper is published by the Morning Freiheit Association of which Ben

BEN GOLD

Gold is president. Gold, who is also prominent as a labor leader, holds the dubious distinction of being the first individual to be convicted under the Taft-Hartley law for falsely swearing to a non-Communist affidavit.

Although the MORNING FREIHEIT has the largest circulation of any official daily Communist newspaper in the U.S., it is doubtful if one American out of 500 ever heard of it. This, better than anything else, exemplifies how the blanket of censorship is lowered whenever the Jewish connection with Communism enters the picture. As a matter of fact the censorship is so complete that most newspaper editors are unaware of the paper's existence. And if you find it difficult to understand why your local editor does not even know the name of the country's largest Communist daily newspaper, keep in mind that the conspiracy of silence envelopes him almost as completely as it does you. . .

THE DAILY PEOPLE'S WORLD is the country's third Communist daily newspaper. It is described by the Un-American Activities Committee's "Guide to Subversive

DAILY PEOPLE'S WORLD, the Party's official West Coast newspaper. As indicated below, all three of these key publications are Jewish controlled. So, for that matter, is the remainder of the Communist press. . .

Organizations and Publications" as . . . "the official organ of the Communist Party on the West Coast". Editor of the paper is Al Richmond, an alien Jew who is currently awaiting deportation after being convicted under the Smith Act. Associate editor of People's World is Adam Lapin; business manager is Harry Kramer. The paper's advertising editor, Nat Yanish, is scheduled for deportation. All Jews. . .

AL RICHMOND

Thus, from even this brief analysis it is evident that the Communist Party's principal propaganda organs are Jewish controlled. And if space permitted we could cite similar evidence to show that the overwhelming majority of the other 122 Communist publications listed by the Un-American Activities Committee are likewise under Jewish hegemony.

PARTY MAGAZINES

Take, for example, the Party's key cultural magazine, MASSES & MAINSTREAM, whose Jewish editorial staff includes at least four wealthy Broadway and Hollywood playwrights. Or take the Party's chief theoretical organ, POLITICAL AFFAIRS (formerly THE COMMUNIST), whose editors are Max Weiss, V. J. Jerome, Alex

V. J. JEROME

BITTLEMAN

Bittleman, Abner Berry and Jack Stachel—all Jews except Berry.

(Continued on Page 4, Column 1)

Communist Press

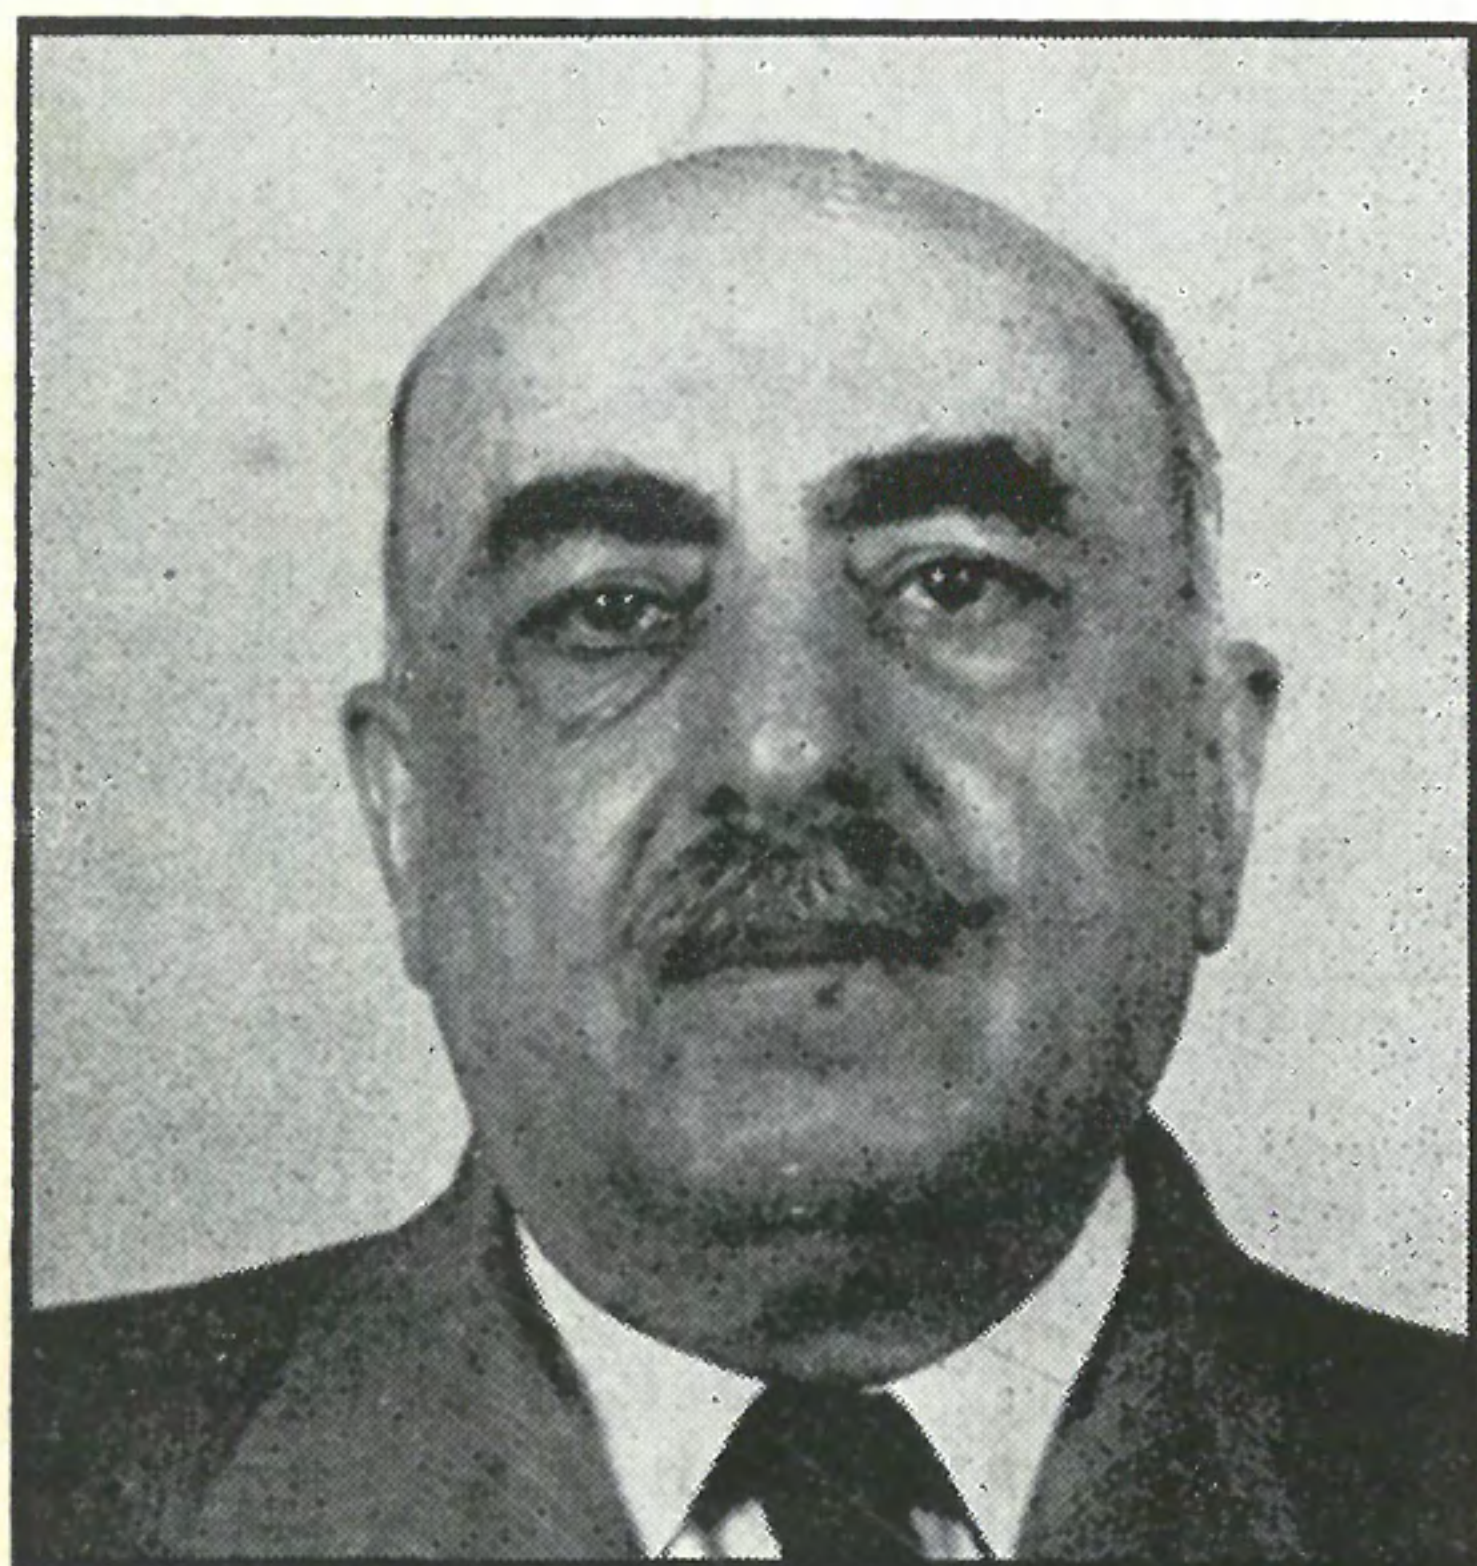

Continued From Page 3

(Jerome, Bittleman and Stachel are now in prison for plotting the overthrow of the U.S. government).

RED PUBLISHERS

As a final clincher it should be noted that the two principal Communist publishing houses in the U.S. are also Jewish. The country's largest Communist publishing house is the New Century Publishers, Inc., with offices at 832 Broadway, New York. Its incorporators are Joseph Felshin, Isidore Greenbaum and Betty Greenbaum. New Century Publishers lists some 320 publications in its catalogue. . .

The second largest Communist publishing house is International Publishers, of whom Alex Trachtenberg is president. Trachtenberg, an alien Jew, is now serving

ALEXANDER TRACHTENBERG

Alex Trachtenberg, like most other prominent officials in the Communist Party, is now serving a prison sentence for conspiring to overthrow the U.S. government. And like the overwhelming majority of these Communist leaders, Trachtenberg is Jewish. a prison sentence on a Smith Act conviction.

And so it goes. We have listed here a half dozen or so of the Party's main propaganda outlets; were we to list the hundred most important the result would be exactly the same. The plain and unvarnished fact is that every really important Communist publication and publishing firm in the United States is in Jewish hands. That fact can be suppressed, but it can never be refuted. . .

Miami Investigations

Continued From Page 1

ter first attracted public attention last May when a raid on Miami's Jewish Cultural Center revealed it to be a Communist headquarters.

Following that revelation a Dade county grand jury conducted an investigation which resulted in the sentencing of 26 Communist Jews to one year in jail on contempt charges. Subsequently, however, the Florida Supreme Court set the convictions aside, thereby upholding the suspects' privilege to take refuge in the fifth amendment. A few days later the Un-

Press Report

NEW YORK—The security firings at Fort Monmouth continue to make news in the Jewish press. Last month the **NATIONAL JEWISH POST** quoted a defense lawyer for the suspended scientists at Monmouth as saying that . . . "suspensions and declassifications are continuing right down to the present time, with the numerical superiority still Jewish . . ." The article further stated that . . . "of the 600 scientists at Monmouth, 125 are Jews, 60 of whom have been suspended." The Jewish press, of course, labels this as an indication of "anti-Semitism", but in fact the situation is an excellent index of the Jewishness of Communism. Whenever Communists are exposed, Jews are always implicated. And whenever that happens, they always raise the cry of "anti-Semitism" . . .

SPECIAL—Albert Einstein, who has been cited as a member of at least 16 Communist-front organizations by the Un-American Activities Committee, has again been honored by Soviet Russia. Soviet authorities in East Germany have decreed that Einstein's house in East Berlin will be turned into a museum . . . Einstein, an alien Jew who entered this country as a refugee in 1932, occupies a key position in the Institute of Advanced Studies at Princeton, where alongside another famed Jewish security risk, Robt. Oppenheimer, he continues to play a vital role in our atomic energy program.

NEW YORK—Rabbi Benjamin Schultz, whose "American Jewish League Against Communism" has attracted considerable attention in some quarters, was officially repudiated by a coalition of the country's leading Jewish organizations last month. In a memoranda released by the authoritative Jewish "National Community Relations Advisory Council (NCRAC), Schultz was charged with having . . . "repeatedly embarrassed his fellow rabbis by his many irresponsible actions". The memoranda stated that ". . . Rabbi Schultz in no way represents any section of the American Jewish community, and the major organizations repudiate and condemn his repeated resort to vilification and slander of reputable Americans on the pretext of combating Communism". The statement repudiating Schultz (who has already lost his synagogue because of his anti-Communist stand) was endorsed by the American Jewish Committee, the Anti-Defamation League of B'nai B'rith, Jewish War Veterans, American Hebrew Congregations and other major Jewish organizations. . .

NEW YORK—The **NATIONAL JEWISH POST** reports that Victor Lerner, director of the "Joint Defense Appeal", died of a heart ailment last month. The Joint Defense Appeal, described as "the financial arm of the American Jewish Committee and the Anti-Defamation League of B'nai B'rith", has raised \$28,000,000 since 1947 "to combat prejudice and discrimination" according to the **POST** article. (It should be noted, however, that in addition to these funds, the Anti-Defamation League also receives grants from its parent organization, B'nai B'rith, to carry on its vast propaganda and gumshoe operations.)

American Activities Committee appeared on the scene.

For the most part the Committee's findings appear to have paralleled those of the Dade county grand jury, but the investigation did serve to focus attention once again upon the difficulties encountered by investigative bodies in surmounting the barrier of censorship which is invariably lowered whenever the Jewish relation to Communism is exposed. For there is no question but that the story has been suppressed by the three major wire services—upon which the nation's newspaper editors rely as their chief source of news.

BLANKET OF CENSORSHIP

Several times during the past months the **AMERICAN NATIONALIST** has remarked upon the strange blanket of censorship which has enveloped the Miami investigations. As we pointed out in previous issues, the story of those investigations and the subsequent conviction of the 26 Communist suspects was one deserving of front page coverage by every newspaper in America. As a matter of fact the story did rate front page coverage in the **MIAMI HERALD** and other Florida newspapers. But the wire services apparently saw to it that newspapers outside the Miami area

either did not receive the news, or else got a garbled account of it. In any event the story has received no coverage by the nation's press.

Among those named as Communist Party members before the Committee were: F. Diez, Leah Adler Benemovsky, P. Feldman, F. Jehn, Rose (Wachsmann) Kirkpatrick, J. Lackner, Irving Lebold, L. Ornitz, David Prensky, P. Scheffsky, M. Shantzek, L. Sheiner, Chas. Smolikoff, B. Smolikoff, Max Strauss, G. Trencher, R. Trencher, W. Zuckerman, L. Feldman.

The reason it did not receive coverage is, of course, attributable to the fact that a majority of the suspects exposed in the investigations were Jewish. All of the 26 Communists sentenced to jail for contempt of the Dade county grand jury some months back were Jewish; a majority of the 34 Communists named before the Un-American Activities Committee last month were of the same race.

This, as we have repeatedly emphasized, is almost always sufficient grounds for censorship so far as the wire services are concerned. Americans may not know it, but the Jewish relationship to Communism is the one subject they are not permitted to know about or discuss. Communism is something everyone is supposed to be opposed to in general terms, but it's considered "anti-Semitic" and "un-American" to get down to cases by naming those behind the Communist conspiracy. That, whether you like it or not, is why the wire services suppress all news tending to identify Communism as a Jewish movement. . .

There are those who will ridicule that premise, but the fact remains that the Miami investigations did involve Jews almost exclusively, and it is also a fact that not one word of the investigations has been reported over the radio or in the press outside the Miami area. That may not be censorship, but it will do until the Commissars take over. . .

opportunity whatever to deny the staff's amateurish smear charges.

As for the Un-American Activities Committee itself, we have personally always been behind it 100%. We still are. And we not only oppose Communism, but feel (as do other Nationalist patriots) that fascism, nazism, socialism and all other imported "isms" are un-American. And if the facts warrant an investigation, let's have one. But let's have an investigation by the Committee, not a crude, irresponsible smear by the Committee's hired help, some of whom are obviously more interested in exposing "anti-Semitism" than in fighting subversion.
