# BULLETIN

OFFICIAL INTERNAL ORGAN OF THE  
**National Socialist White Peoples Party** AND THE **National Socialist Youth Movement**

No. 35

1 February, 1969 YF 80

*"On principle the movement must so educate its members that they do not view the struggle as something idly cooked up, but as the thing that they themselves are striving for. Therefore they must not fear the hostility of their enemies, but must feel that it is the presupposition for their own right to exist."*

(MEIN KAMPF, Vol. One, Chap. XII)

## WHITE POWER MESSAGE IN LOS ANGELES

The second in a planned network of nation-wide White Power Message units began broadcasts in Los Angeles, California, on 25 January. At this time there is only one set for the whole Los Angeles area, but plans are under way to expand the service to five sets very soon.

All messages for the service are prepared at National Headquarters and programmed by the local party representative. Some of the messages will deal with issues of strictly local interest as they are brought to the attention of National Headquarters. The preparation of messages in Arlington will provide a vital continuity in Party propaganda.

Members and Supporters who are requested to provide extra support for the White Power Message service in their localities are asked to please make a generous pledge when called upon by the White Power Message representative.

The number of the White Power Message in Los Angeles is (213) 444-0438.

## NEW MACE PRODUCTS AVAILABLE

Early last month the Party's supplier for Chemical Mace, the disabling self-defense gas was put under intense pressure by federal authorities to cut off sales to NS Arms. Since then NS Arms has found another supplier for an even better product.

The new product is called Chemical Billy. This new product contains 1.1% *more* phenylchloromethylketon (purified form of tear gas) than Mace. Civil rights groups have complained vigorously about the use of Chemical Billy by police departments.

Chemical Billy is available only in the 6-inch size cannister which contains 80 half-second bursts. (A half-second burst is enough to bring even the biggest Buck to his knees.) Its pressurized stream will reach out 20 feet to an attacker.

A volume purchase has permitted a significant reduction in the price of Chemical Billy: \$8.95 per cannister, \$10.95 with holster.

A different product has been selected to replace the pen-sized container of Mace. This is called the Bodyguard. It has been selected because of its amazing potency and its ability to strike an attacker at greater distances than Mace. The Bodyguard can be carried easily in the shirt pocket. The reduced price of Bodyguard is \$4.95 each.

Members and Supporters should arm each member of their family with a cannister of Chemical Billy or the Bodyguard.

Persons who have placed orders for Chemical Mace will receive Chemical Billy or the Bodyguard and a partial refund within a few days. Those who will not accept this substitution should notify NS Arms, Box 34, Triangle, Virginia, 22172, immediately so that a refund can be made.

## NEW LEAFLETS A REGULAR FEATURE

Following the "Special Rights for Black Savages?" leaflet published last summer, the Party has produced several other important leaflets in recent months. The most recent of these has been a special leaflet for general distribution on the Middle East crisis urging the U.S. government to cut off military aid to the Zionist murderers in Israel. Other leaflets have included "Had Enough Pig?" a leaflet for White policemen, "Had Enough Whitey?" and "What Kind of Gutless Creep are You, Whitey?" both for distribution in the many schools where Blacks are disrupting studies.

Continue distributions of the "Stop the Slaughter" leaflets in the coming months. We must make people aware of our position on the Middle East, especially as the likelihood of American involvement becomes more of a threat. Several new leaflets will be published on this subject. In the meantime the special groups indicated in last month's Bulletin should be the target of "Stop the Slaughter" leaflets.

These and all leaflets published by the Party will be sold through NS Publications at the reasonable price of \$5.00 per 500, only \$.01 each in bulk quantity. Stock up on leaflets today so you can spread the word in your locality when these issues become prominent.

## PARTY PUBLICATIONS DELAY

There has been a delay in the publication of both White Power No. 7 and the sixth issue of National Socialist World. These delays are not caused by a shortage of publishable material, but rather by an acute shortage of personnel to keep pace with the growth of Party activity.

In November National Leader Koehl issued an appeal for financial help so that the necessary talent to publish Party periodicals could be paid for. Some Party Members and Supporters responded dutifully, but others failed to help. Those who did not contribute to the Priority No. Two program, the regular publication of Party periodicals, were perhaps of the attitude that they would rather "see what the Party could do" before contributing their valuable money for what might turn out to be an unsuccessful program. What these people fail to realize is that a revolutionary movement must have the unconditional commitment of all its adherents in order to accomplish the task of building an organization. Once a movement is successful, or once a program has been achieved, people are much more willing to assist. But that's easy. There is no self-sacrifice in latching on to a "sure thing."

We ask those National Socialists who have not yet done their utmost for this new effort to join those who have. In the meantime, our undermanned staff at National Headquarters will soon issue both White Power and National Socialist World which are now late, and use your contributions to assure their regular publication in the future.

## PARTY PROPAGANDA FOR WHITES ONLY

Let us repeat that the response to the Activity Report program has been a heart-warming success. From all across the country hundreds and hundreds of activity reports have reached us. Even some people who hardly ever write have proudly turned in accounts of their local activities.

Some people, however, have reported an activity which the Party discourages: sending Party literature to Jews and Negroes and putting stickers and leaflets up where they'll be seen by only Jews and Negroes.

"Blowing the minds" of our enemies at this stage of the game accomplishes very little. Its net effect is a waste of valuable propaganda. Jews and Negroes will be painfully aware of our presence when our multitudes are in the streets. In the meantime, Party propaganda should be used judiciously for the enlightenment of our own people.

## ACTIVITY OF THE MONTH

Have you made calls to your local radio talk shows recently? Last month's activity reports indicated that almost no one has been keeping up with this valuable (and free) method for expounding the Party viewpoint.

In almost every community there is at least one radio station which sponsors an open forum talk program which includes telephone participation by the audience. The National Socialist viewpoint can be worked into any issue under discussion, and once a controversial National Socialist idea has been stated, it will inevitably dominate the rest of the program. If an idea has been carefully thought through and is well stated, there will be some people who'll call in and say they agree with it. The more people who do this, the less the Jews will be able to control their rage. Last October one Member reported using a talk show to make a plea for the release of Rudolf Hess. During the rest of the program, there were so many callers who agreed that Hess should be released that a local Rabbi, unable to control himself, called up to rave about the six million. The Rabbi got so furious that he made a complete fool of himself.

The Middle East crisis is the suggested topic for the talk shows this month. This is an extra-touchy subject with the Jews. Anyone who threatens to disrupt the Jews' press campaign for getting the U. S. involved in the war on behalf of Israel will bring them to near hysteria. Use the talk shows to point out the following: the Arabs are turning to the Soviets for aid only because the United States has taken a hostile attitude toward them and instead is furnishing the Israelis with enormous amounts of free military aid. The Jews have never been punished for their act of war against the United States in attacking the neutral U. S. Ship Liberty, killing 30 American sailors, during the June War. The United States has responded to this clear cut act of war by promising to send 50 more jets to the Jewish aggressors.

If you don't already know of a talk show in your area, call all the stations and ask if they have one. In some rural areas, radio stations will accept collect calls from participants who are not in the toll-free dialing range of the station.

Call the talk show regularly—at least once a week. Report this activity giving the call letters of the station, the day and time the program is on and the result of your call.
