National Socialist White Peoples Party AND THE National Socialist Youth Movement

No. 38

15 March, 1969 YF 80

"...loyalty must not be an outward thing, but find its most eminent expression in achievement. Anyone who creates something really valuable for his people thus gives evidence of an equally valuable loyalty, while another, who merely displays hypocritical loyalty, but in reality performs no useful services for his people, is an enemy to any true loyalty."

White Power Message for Two More Cities

The NSWPP's White Power Message is now scheduled for installation in two more main cities. Within a week service will be installed by Party Members in Chicago and Cincinnati. The number for the White Power Message in Chicago will be (312) 235-7272. In Cincinnati, Ohio, the number is (513) 821-6831. Members and Supporters in these two localities are urged to send extra contributions to Headquarters so that the White Power Message can be expanded in these cities.

Contributions are being sought for support of the White Power Message in New York City. These contributions, like all others for the White Power Message service, should be sent to National Headquarters.

In a number of localities across the country, supporters have offered financial contributions for support of the White Power Message in their cities. The only thing holding up installation in these cities is lack of a suitable location for the unit. If you have space available or know of someone who has space available in his home or office in which the White Power Message unit can be installed, please notify National Headquarters without delay.

At the same time successes were being scored for the White Power Message in Cincinnati and Chicago, two other localities where the White Power Message has already been installed were dealt temporary setbacks. In Racine, Wis., service has been temporarily suspended until a better location for the service can be arranged. In Los Angeles, meanwhile, Jews put such enormous pressure on the Attorney General of the State that he petitioned the court for special injunction against the White Power Message. At the same time, a Negro representative to the California legislature introduced a law to ban the White Power Message in California. Suspension of the Party's message service in California will be a hollow victory for the Jews. Supporters of the White Power Message in California are now preparing to go into court to have the service reinstated. As soon as this is done, the Jews will have exhausted their most potent weapon against the message service. Even while the case is being fought in court, more contributions are being taken up to further expand the L.A. service.

Please keep National Headquarters closely informed of any locations or funds which you can make available for the service.

Make Plans Now for Student Conference

Persons planning to attend the April 6 and 7 conference of the National Socialist Liberation Front in Arlington should immediately make plans to be present. This conference is being called to plan National Socialist activities in high schools and on college campuses during this year's spring session. All high school and college readers of the NS Bulletin are requested to be present with as many of their fellow students as they can bring. In addition, all non-students who plan to work or are working with students at the present time are invited to be on hand.

There will be no charge for attending the conference. Those who will need room and board during the conference will be taken care of.

If you can arrive in Arlington Saturday morning there will be an opportunity for you to participate in several literature distributions in the Washington area. This will be valuable experience for your distributions on college campuses.

Fill out and return *via air mail* the enclosed questionnaire letting us know your time of arrival in Arlington.

Commander's Burial Denied in Lower Court

The burial of Commander Rockwell's remains in a national cemetery with National Socialist honors was recently denied in the Federal Court of Northern Virginia. The following press release was issued in response to the lower court's denial of the NSWPP's petition for National Socialist rites in Culpeper National Cemetery.

The National Socialist White People's Party rejects Judge Lewis' politically motivated decision to deny Commander Lincoln Rockwell a burial in Culpeper National Cemetery. It was pointed out to Judge Lewis that the simple National Socialist rites which would accompany the Commander's burial, in accord with his National Socialist faith, had numerous precedents in the burial of Shriners, Knights of Columbus, and other members of fraternal or religious groups. Lewis has apparently decided that adherents to unpopular creeds are not entitled to the same rights as are members of more popular groups. This decision is especially shoddy, coming on the heels of a decision to bury an avowed Communist enemy of America, Robert Thompson, in Arlington National Cemetery.

The National Socialist White People's Party will now explore other legal avenues in an attempt to give Commander Rockwell a burial in accord with his wishes and his rights as a decorated and distinguished veteran of two wars.

Preparations are now being made for appeal of the case to the United States Supreme Court.

Supreme Court Decision Aids NSYM

For a long time the only students who could organize politically were those in colleges and universities. A recent Supreme Court decision has opened the door for the first legal political organizing in high schools. The High Court's decision, obviously drafted to promote the anarchy and hell-raising of the left, stated in part the following: "...he [a high school student] may express his opinions, even on controversial subjects like the conflict in Vietnam, if he does so without materially and substantially interfering with appropriate discipline in the operation of the school and without colliding with the rights of others." The decision also protected the right of a student to wear an armband or button of political significance as a form of protest.

All high school students should immediately avail themselves of the right to wear their White Power buttons in school. One NSYM member, Mr. Mike Landa of Ely, Minn., has already taken advantage of the Supreme Court's ruling to wear his Swastika armband to school. This bold step by Mr. Landa resulted in harassment from teachers and even some threats from some students, but it also resulted in his signing up two new Official Supporters the first day—with many other students expressing an interest in National Socialism and joining the Party.

It is not necessary that you immediately wear an armband to start a youth movement in your high school; a White Power button will suffice to arouse student interest. An introduction to the Party can then be made by one of the several student leaflets available. It is suggested that you have a supply of White Power buttons and Party literature on hand to pass out to those who express an interest. Students who want to help the Cause but are afraid to come out in open support should be organized into a National Socialist underground for putting leaflets in lockers, putting up stickers and sabotaging all attempted activities of Blacks and Jews.

White Power buttons can be ordered from NS Publications—Box 5505, Arlington, Va., 22205, for 25 cents each, 5 for \$1.00, or 100 for \$15.00. Order buttons and leaflets and start a National Socialist campaign in your school today.
