

**NS****BULLETIN****OFFICIAL INTERNAL ORGAN OF THE  
National Socialist White Peoples Party AND THE National Socialist Youth Movement**

No. 52

15 October, 1969 YF 80

*"The National Socialist movement, which envisions the National Socialist folkish state as the aim of its activity, cannot doubt that all future institutions of this state some day to be must grow out of the movement itself. It is the greatest error to believe that suddenly, once we have power, we can undertake a definite reorganization out of the void, unless we previously possess a certain basic stock of men who above all have been educated with regard to loyalty."*

**MEIN KAMPF, Vol. Two, Chap. XII****Executive Officer Visits Midwest**

An invitation to appear on radio and television programs in Cleveland, Ohio provided the opportunity for Party Executive Officer Robert Lloyd to visit groups and individual National Socialists in the Midwest during the first week of October.

Mr. Lloyd appeared opposite interviewers Alan Douglas, a Jew, and John Bandy, a Negro, on a program taped for television broadcast in Cleveland, Detroit, Pittsburgh, Boston and San Francisco. Later that night, Mr. Lloyd opposed the Jew, Alan Douglas, in a live two-hour debate followed by telephone participation from the audience which reached over 4,000,000 listeners.

The television sequence with Mr. Lloyd opposing the two interviewers could be considered moderately successful, while the radio broadcast was markedly favorable for the Party.

It must be borne in mind that in all Jewish sponsored presentations, it is not the intent of the programmers to permit an honest discussion of the goals and tenets of National Socialism, but rather to besmirch and discredit National Socialism in the eyes of the audience. This point must be considered before an appearance on a Jew sponsored program, and only when it is a fair certainty that getting some valid points about the Party's program across to the public should an appearance be made.

The efforts of the interviewer to degrade and ridicule National Socialism during the radio broadcast were remarkably unsuccessful. The preponderance of White, non-Jewish callers responding during the call-in period were in favor of the Party's viewpoint. This was an overwhelming disappointment for the Jewish interviewer who was anticipating a siege of hysterically anti-National Socialist callers to finish off the job of discrediting National Socialism which he had instigated. With typical Jewish arrogance, he tried to drown out whatever pro-NS callers had to say with insults like "sick" "deranged" "lunatics" and "perverted" before cutting them off. Hostile callers were naturally given ample time to vent their insults in chorus with the interviewer.

Following the day of television and radio interviewing, Mr. Lloyd spent several days traveling to Detroit, Chicago, back to Cleveland and Akron, Ohio, meeting with groups and individuals to discuss the future development of the Movement. In his discussions with other National Socialists, he emphasized the point that revolutions, good or bad, don't "just happen," but are made through years of painstaking, deliberate work. This means that every person dedicated to our Cause must look upon Party activism as a second occupation, a more essential occupation, in fact, than the daily winning of their families' bread. Only through rigid dedication to the proposition activism can we hope to uproot the present decadent order and replace it with the National Socialist state ideal as described in Vol. Two, Chap. II of MEIN KAMPF.

### **Party Information Officer Addresses Students**

Dr. William L. Pierce, Information Officer of the NSWPP, addressed two separate groups of students at Washington area universities in early October. On October 6, Dr. Pierce spoke on "The National Socialist Racial Doctrine" to an audience of 200 at the University of Maryland. The response of this audience was overwhelmingly favorable. Following his talk, many students stayed behind to get Party literature and have their questions answered individually.

On the following day, Dr. Pierce appeared on a panel discussing "Political Extremism" at American University. Here the response to National Socialism was not as strong as it had been the previous day at the University of Maryland, possibly owing to the fact that American University is 37% Jewish.

### **Progress of Fall Building Campaign**

Response to the Party's drive to double in size during the next few months has been satisfactory so far. With just a few weeks of the Fall Building Campaign underway, an encouraging number of pledges have been returned to National Headquarters.

Commander Koehl expresses his gratitude to those who have voluntarily raised their monthly pledges especially those who have pledged a monthly tithe. Those who are going to sign up new supporters for the campaign are urged to send in the applications of their new recruits without delay.

Although the response has been quite good so far, there are still a number of Official Supporters and a few Members who have not yet returned their pledge cards. We expect all of these cards in by early November. If you haven't filled in your card yet, use the enclosed return envelope to send it to National Headquarters. Do it today!

### **New Literature Ready for Colleges**

The latest issue of the *Liberator*, publication of the National Socialist Liberation Front, is now ready for distribution in colleges and universities. Another NSLF leaflet, "Why Does the System Hate National Socialism?" has also been prepared for circulation on campuses. A sample of each is enclosed.

You are urged to order a bundle of each publication for distribution in the college nearest you. Hurry so you can get them distributed before everyone starts thinking about the Christmas holidays. Order the *Liberator* at \$5 per 250 and \$5 per 500 for "Why Does the System Hate National Socialism?" Make checks and money orders payable to NS Publications. Don't forget to add 10% for postage.

### **In Jail**

You may want to write to a Party member who's been jailed in connection with the repeated stink bombing of several Washington area theaters which showed movies degrading our race. He is Michael J. Gauss, No. 158716, Min. Sec. Fac., Box 12, Lorton, Virginia.

## Activism Counts!

The few following passages from Activity Reports demonstrate ideas which have been used by National Socialists around the country in doing their part to advance the Cause.

"I sold my last six copies of WHITE POWER last Saturday in 25 minutes. High school kids can't seem to get their money out fast enough when I show them our newspaper.

I plan to quit my job to sell WHITE POWER full-time. Another Member here in L.A. is thinking of doing it full-time too. I hope so because that way we'll be able to work together to minimize the danger. I hope to be the first full-time WHITE POWER salesman in L.A.

There are hundreds of good places around here to sell them. I especially like Burbank Mall, Brand Blvd., Sunset Blvd., Hollywood Blvd., and the UCLA campus, to name just a few. We need quotations on orders of 5,000 and 10,000 papers. Please rush."

\* \* \*

[From a high school sophomore] "We don't have much money for large quantities of literature up here, but what we do buy is put to good use. We supplement the literature distributed at school by giving talks on National Socialism. I give an oral report at least every other week for one or another class. I often use Party literature as the topic for my talks, but I always make it a point to get the Party viewpoint across no matter what restrictions the teachers put on subject matter. In history, I gave a 20 minute report on the real causes of World War II.

I think these talks have pin-pointed me as the source of NS literature which has been secretly distributed to the locker rooms in late afternoon. Soon I plan to start wearing a White Power button in school and later possibly an armband."

\* \* \*

"In the paint store where I work we sell an aerosol can of glue which is very handy for making a poster out of any Party leaflet. A quick spray with the glue and I can slap a leaflet up anywhere. Another spray with aerosol varnish, over the leaflet, and it will stay put come wind, rain or snow. Anything, other than a sharp scraper will not take it off.

"I only put them up on the fronts of vacated stores and sometimes on metal light posts. No point in making store owners and city maintenance men mad at us."

"My activity this last month has been leasing a little store front for installing the WHITE POWER MESSAGE. Now that I've got the lease wrapped up, we're getting ready to have the WPM installed next Monday.

"We'll also be using the store front as a National Socialist bookstore, but we won't be able to keep it open except at night and on weekends because all of us here have jobs."

## Activity of the Month Showing Results

An increase in the number of Official Supporter applications received from people in the construction

industry marks success for October's Activity of the Month. And large quantities of the leaflet "Who's for the WHITE Working Man" were shipped to points around the country early this month.

Be prepared for further dissension among White and Black workers, especially in the construction field. Don't wait for a labor-race crisis to hit your area before you order leaflets for distribution. Have them stocked up ready to spread the National Socialist message as soon as the next confrontation between Whites and Blacks occurs.

A special word is called to your attention about the approach used in proselytizing among workers—or any of our White brothers for that matter.

Some of the very best Party activists who've been spreading the word diligently and faithfully for a long time have fallen into the habit of exhibiting hostility to those who don't immediately accept our views. It is only natural that a person who frequently meets with rebuff and ridicule in his efforts to point people toward the truth might tend to develop a chip on his shoulder. But it must be borne in mind that the Jews have put our people through the most extensive brain-washing campaign in the history of the world, and we can't hold it against them that they haven't had the foresight and wisdom to see what has happened to them. This does not alter the fact that our people are basically still sound and capable of being saved.

Those who are most vigorous in spreading the word to others must guard against any hostile impulses which would alienate potential converts. Although there may be great cause to take a "you-can-like-it-or-lump-it" attitude with people on whom the Jews' brainwashing has been most successful, it will accomplish nothing. The great success of our German comrades in the 1920's and 30's in recruiting legions from the ranks of the Communists stemmed from their patience in showing their fellowmen the deadly error of following Marxism, and gradually they brought tens and hundreds of thousands over to the Swastika. We must show the same missionary spirit when dealing with our fellowmen today. Just as sure as a chip on your shoulder will drive a potential recruit away from the Movement, an earnest and brotherly attitude will eventually bring him closer to us.

This does not mean that we will not fight when we are attacked. We must be prepared to defend our ideas not only intellectually, but with physical force whenever the latter is called for.

The task of saving our racial kindred from destruction is the highest motive to which a person can devote his life at this time. Each of us having done so must guard against any temperamental impulses which would reverse the latent sympathy for our Movement which ultimately dwells in nearly all members of our Race.
