BULLETIN

OFFICIAL INTERNAL ORGAN OF THE
National Socialist White Peoples Party AND THE **National Socialist Youth Movement**

No. 61

1 March, 1970 YF-81

"But winning over the bourgeois voting cattle can never be the aim of this movement. If it were, it would burden itself with a dead weight which by its whole nature would paralyze our power to recruit from the broad masses. For regardless of the theoretical beauty of the idea of leading together the broadest masses from below and from above within the framework of the movement, there is the opposing fact that by psychological propagandizing of bourgeois masses in general meetings, it may be possible to create moods and even to spread insight, but not to do away with qualities of character or, better expressed, vices, whose development and origin embrace centuries."

MEIN KAMPF, Vol. One, Chap. XII

White Power Message for Miami

America's "sun and fun capital," Miami, Florida is the latest city to acquire the White Power Message. The availability of funds made it possible to set up this program in Miami, where iron-clad Jewish rule restricts Party activity to a greater degree than in most U.S. cities.

Because of the enormous control by Jews over the life and livelihood of Miamians, there were no Party supporters of that area able to negotiate with the telephone company for the service. (Most states, Florida included, have laws which require that the telephone company make public upon request the name of the person ordering the service for automatic answering devices such as the WPM.) So, when the funds for the project had been raised, Robert A. Lloyd, the Party's Executive Officer, traveled to Miami to make the necessary arrangements. By having a Party staff member handle all negotiations with the telephone company and set up the location from which the service will operate, the possibility of exposure and subsequent reprisals against Party supporters by local Jewish militants was eliminated.

It is expected that the kosher community of Miami will soon launch an attack against the White Power Message in an effort to prevent Party activities from gaining a foothold there. It has been their pattern in other communities to try silencing the White Power Message through illegal injunctions which their lawyers ram through the courts. In several cases they have been successful in having the WPM terminated because the Party has been without vital legal assistance. In the event these same methods are used by the Jews in Miami, the Party has already made preparations for an all-out fight to establish the right of free speech and self-defense for Aryans in America—even in Miami.

The Miami White Power Message went into service on February 28. The number there is 371-0333.

Notice: The White Power Message is unsurpassed for developing local interest in National Socialism and bringing new supporters into the Party. This is the best way to develop a base of NS adherents for increasing the effectiveness of activities in your community.

The White Power Message is almost like having a mini-radio station in each city. The response has been so immediate that within just several days of its commencement, the service invariably operates at 100% capacity—that's 5,000 messages per answering unit each week! Almost right

away, an audience of enthusiastic callers is spawned, as the number is spread by word-of-mouth. Apparently, people cannot resist discussing these controversial, suppressed ideas and suggesting that other acquaintances find out what we have to say. It is almost unbelievable—and very gratifying—to see how fast an audience of callers can be generated.

The White Power Message *can* be started in your locality. If you will garner the necessary funds, we'll get it started even if there is no secure location presently available, or anyone there who can be identified as the applicant for the service. As soon as the funds have been raised, we'll schedule a Party representative to visit your area to get the White Power Message into operation, as was done in Miami.

About \$350 is required to make the installation by this process, which includes:

- (1) Purchase of the message unit.
- (2) Rent for a small office—first and last month's rent usually required.
- (3) Deposit to the telephone company—refundable if bills are kept paid.
- (4) Telephone installations charges and first month's bill for service.

The only other thing that is required to get started is the place for the Party representative to stay while in your area making the arrangements. When the White Power Message is set up this way, about \$60 per month is required to sustain its operation. This can usually be raised through pledges within the locality for the maintenance for the service. Remember, wherever the WPM goes into service, a whole new avalanche of inquirers begin contacting Party Headquarters for information, some of them anxious to join and help. If you really want to enlarge the size of your local, activist group, the White Power Message is the best way to get quick results.

Party Leaders Meet With Florida National Socialists

Party Commander, Matt Koehl, and Robert A. Lloyd met with Tampa area National Socialists while the latter was en route to Miami for installation of the White Power Message. The two spoke before the group on Feb. 20. Commander Koehl spoke on a number of current political developments and how they relate to the National Socialist movement, including the recent efforts of Southern congressmen to "universalize" integration laws in the U.S. A glaring example is the proposal by Senator Stennis to make schools in non-integrated regions of the country into the same dangerous cesspools which those in many black-belt districts have become since the government has forced integration. The Commander pointed out that these Southern politicians will only widen the rift between White people and Whites in other parts of the country when White students and parents get a taste of what these cowardly legislators have perpetrated on their communities. The ensuing backlash in these areas will be no more effective in reversing the government's anti-White policies than it has been in the South. These tactics are typical of spineless politicians who would rather look for a sneaky, back-door maneuver to make their constituents think they are looking out for their interests, instead of assuming a manly "stand and fight" position which would soon rally support from Whites from coast to coast. But now the Southern politicians have had the thrill of "getting even" with the Northern politicians, and the dirty work they have accomplished has saved the Jews much damaging public exposure which they would have otherwise been subjected to in having so many schools desegregated.

Commander Koehl also pointed out that National Socialists are not "right-wingers" as we are often misconceived. There are essential, irreconcilable differences between the two points of view, which can best be epitomized as follows: right-wingers, even the most extreme cases, are advocates of reforming the present system—merely patching it up with some new legislation, and, at best, passing laws which might (temporarily) give Whites the upper hand. But this would still be the same basically rotten system, based on the same decadent, materialistic, anti-racial values, only with a stronger orientation towards *laizzez-faire*. As appealing as propaganda of the right wing may sound when compared to the depraved outgoings of the present System, a right-wing government might sound plausible to the average White man. But in truth, a conservative regime is just as dangerous to the *long-range* interests of our race as the left. In the final analysis, the only difference in the left and right lies in the way in which they would divide up the spoils of society: the left divides wealth up equally among all; the right concentrates wealth in the hands of a few. The basic dogma of both is nevertheless, money.

National Socialism stands for a new order based on a whole different set of values. The very foundation of the National Socialist state is inseparably bound to one concept: Race. Today, vested capital is the basis upon which all policy for society is founded. This is categorically true of every government in the world today. On the other hand, policy of the National Socialist state will always be based on the considerations of long-range value to the race. National Socialists will always oppose a purely materialistic motivation for society, which in the final analysis, is anti-Aryan. People of our racial community will be educated to learn that their value to society lies *not* in the amount of capital which they can generate during their life-time, but rather in themselves—in the contribution they can make towards the overall improvement of our species.

Mr. Lloyd spoke about the ferment which is beginning to grow among the broad masses of White Americans. He indicated that it would be reasonable to expect a mass response to the ideas of National Socialism within the next five years. Within that time, the Party must make substantial headway in concluding its Phase Two priorities: the building of an invulnerable, central Party organism, composed of tested National Socialist comrades who will comprise much of the leadership of the Movement during the years of revolution. He pointed to the priorities at hand—enlarging the Party's base of support and building cadres of National Socialist activists in every White community across the country. Internally, the Party is still in a stage of developing and refining its propaganda facilities. The major emphasis devoted to this aspect of Party growth has been that of written propaganda. The next area in propaganda development which the Party will step into will be spoken propaganda: rallies, speeches, lectures, debates, etc. Written propaganda was focused upon primarily in order to imbue the clearest possible understanding of the true NS doctrine to the largest body of Party adherents, who will one day be responsible for leadership of the Movement. Spoken propaganda has been undertaken so far in only the most limited way, mainly through the White Power Message, in order that written propaganda could be fully developed.

He reminded the group of their responsibilities: to take National Socialism to the widest possible circle of their fellow White men, to fill every spare minute with some meaningful activity for the Cause, to develop an ever-greater understanding of the doctrine in themselves, and to cultivate their skills for enlightening others. The most important single function is always that of bringing new blood into the Movement. Mr. Lloyd emphasized the necessity of putting Party views before *new* people, people who have had no prior initiation into the world of political realities, and who are untainted by crackpot "right-wing" ideas. The best NS raw material are those serious-minded idealists in our society who are duly aroused to the failings of the System in meeting the crises facing our people.

Students and young men and women trying to start a family are frequently the best prospects for National Socialist recruiting. He termed as "nearly useless" the cranks who've been haunting the circuit of "patriotic organizations" for the last two decades; unfortunately, these people are often the easiest to recruit and the most eager to join. Their affiliation with the Movement is often discouraged since, in many cases, they would rather complain about problems rather than start doing something about them.

The meeting was closed after arrangements were made for the installation of the White Power Message in Tampa. A fund was created so that the installation can proceed in the near future.

Party Information Officer Lectures Students

William L. Pierce, NSWPP Information Officer, addressed an audience of some 300 University of Maryland students on Feb. 23. Dr. Pierce's speech entitled "Race and Revolution" was received with unexpected enthusiasm by the students.

His speech struck at the core of the government's predicament: the inability of American politicians to deal forcefully with any forms of aggression against society. The government of the United States *will* fall, as its revolutionary opponents have long predicted, but not because it is "repressive" or "racist" as the Black and Jewish radicals allege. Any fool can see that it is neither of these. The government of this country, like that of Tzarist Russia, of France and Germany will fall because of the weakness of its leaders. In spite of the great power still at the government's disposal, it has become too senile and corrupt to defend itself any longer. The System running this country must finally be forced to make way for a healthy, strong order which will serve the racial interests of the peoples who are responsible for its former prestige, strength and prosperity.

He pointed to the impossibility of this government's efforts to serve the interests of a multi-racial society, since the interest of one race will always be in fundamental conflict with those of another. This government's desperate efforts to bring about harmony and "equality" by forcing more interracial contact through government programs aimed at massive integration of employment and recreation is having the opposite effect of fostering more racial identification. Its programs are, in effect, drawing the lines more deeply for the racial revolution ahead.

Three distinct revolutionary fronts are emerging in the U.S. today: (1) the hard-core, militant Blacks, the least inhibited members of society who have come to learn that they can improve their lot through violent revolt with little risk of punishment from the System. (2) The new left, mainly a Jewish revolutionary front made up of about half Jews (nearly all of the leadership) and half young Whites, mostly students, with almost no Negro involvement, characterized by a "revolution for the hell of it" bolshevik mentality. (3) The National Socialist Movement, composed of Aryan racial idealists.

The National Socialist Movement seeks revolution, not as an end in itself, but as a means of pulling down the old order to make way for a new, healthy society and a government whose purpose will be to provide the framework and leadership for Aryan racial improvement.

Dr. Pierce invited those present to join with us in achieving this task.

L.A. National Socialists Clash with Reds

On February 21, five picketing National Socialists were attacked by opposing demonstrators: supporters of the red Chicago Seven. The fight occurred outside the Old Federal Building in Los Angeles as about 250 Jew types protested the Chicago trial of their cohorts.

The Party demonstrators defended themselves with their fists and aerosol tear gas and soon had the attackers in retreat. One National Socialist, however, suffered a broken arm in the melee.

Demonstration Scheduled for April 4

National Socialists are invited to Arlington to participate in an anti-White House demonstration in Washington on Saturday, April 4. The protest will focus upon Nixon's no-win Vietnam policy and his betrayal of the many thousands of White soldiers who've given their lives for this political war game.

Those who would like to take part in this protest should arrive in Arlington by Friday night or *early* Saturday morning and meet at Party Headquarters at 9:00 a.m.

Adolf Hitler's Final Address

Enclosed is a sample copy of the Leader's last address to the Aryan world, which he delivered on January 30, 1945.

Extra copies of this historic speech are available for 25¢ each or five for \$1. Order from NS Publications—Box 5505—Arlington, Virginia 22205.
