Party Officers Visit Midwest

Commander Koehl and Party Executive Officer Robert Lloyd visited the Midwest in late May to meet with National Socialists in Chicago, Detroit and Akron. The two spoke on the role of local activism in building the Movement at this phase of development, and the specific plans of the Party for the summer months ahead.

It was also disclosed that the membership of a former Midwest co-ordinator of the Party had been suspended following the discovery that his father is Jewish. A nationally circulated article about former Midwest co-ordinator Frank Collin had been published several weeks earlier alleging that his father was an immigrant Jew who had changed his name from Max Cohn. The suspension was ordered only after this story had been carefully checked and authenticated by records of the Department of Immigration and Naturalization. Collin's membership has since been completely terminated and he is no longer a member of the Party.

New National Socialist Bookstore in L.A.

The latest in a growing chain of National Socialist bookstores has opened in Los Angeles at 4375 North Peck Road (El Monte, an L.A. suburb). The NS Bookstore of Los Angeles is open each day from 10:00 a.m. to 10:00 p.m. to sell White Power newspapers and other National Socialist literature to the public. In addition, the bookstore serves as a safe location for the Los Angeles White Power Message: Area code 213, 443-9455.

Latest Issue of WHITE POWER Now Off the Press

Issue no. 13 of White Power is now off the press and in the mail to all subscribers. In addition, bundles have already been disbursed for selling door-to-door and on the streets in several cities where sales have been particularly successful.

Each and every National Socialist is asked to make it his personal responsibility to sell no less than twenty copies of this latest issue. These can easily be sold in one short afternoon by either taking them door-to-door or by standing on a busy street corner and offering them to passers-by. Remember, Party newspapers are put to the best possible advantage when sold, rather than given away, since the person who's willing to part with 25¢ to find out what we have to say is certain to be more receptive to our ideas than the person who just takes a copy to be polite. And the most vital interests of the Movement are served each time a Party newspaper is gotten into the hands of a person who's willing to explore a new revolutionary idea, or a person who's looking for an alternative to the race-mixing materialist/capitalist System which is destroying our civilization and people. Every day, new thousands of these people are being born from the desperation and decay which is setting into our national body. Elected officials at all levels of government are turning people away in legions from "democratic" solutions by their very aggravation of the hardships facing our race.

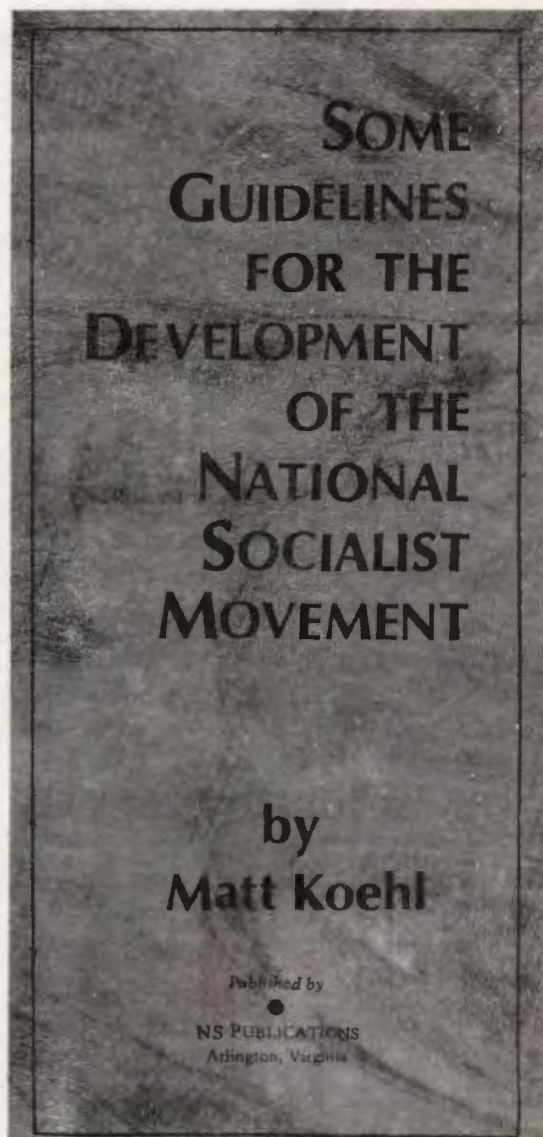

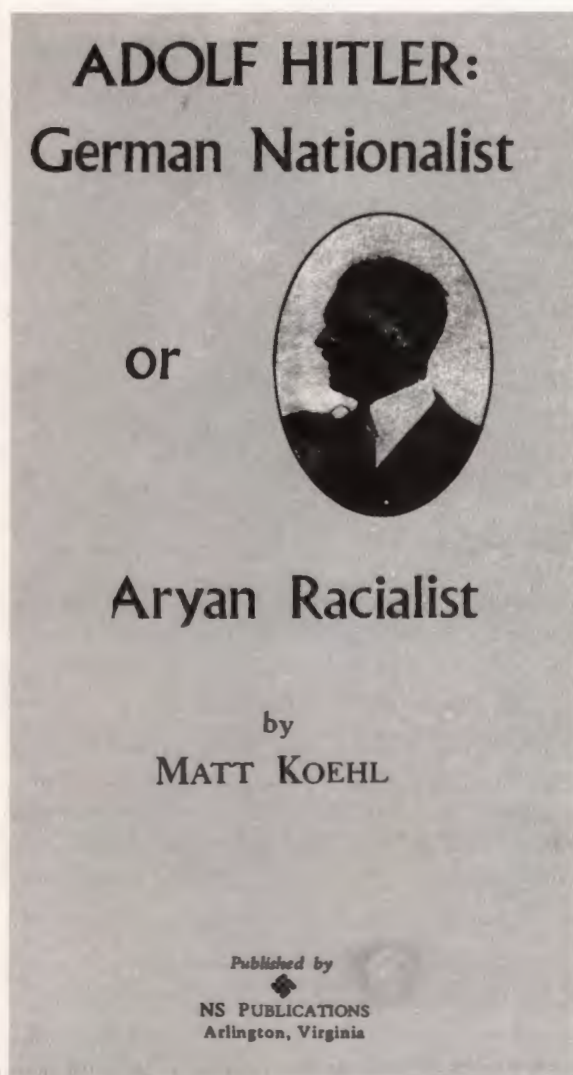

It is the responsibility of the National Socialist to make our message known to these growing multitudes of disaffected White workers and students.

Do your part today and every day!

Three New Pamphlets from NS Publications

"Some Guidelines for the Development of the National Socialist Movement" by Matt Koehl. Reprinted from *NATIONAL SOCIALIST WORLD*, Commander Koehl's statement provides a key to understanding the long-range goals behind the present course of National Socialist development. Included are valuable insights into the most widespread ideological misconceptions about National Socialism and a key statement on the doctrine of Adolf Hitler. 50¢ each.

"Adolf Hitler: German Nationalist or Aryan Racist?" by Matt Koehl. This probing study answers once and for all the question of whether Hitler was a German phenomenon or whether he propounded the doctrine of National Socialism for Aryan people of all nationalities. A great deal of source and reference material is cited in support of the article's conclusion. 50¢ each.

"Lincoln Rockwell: A National Socialist Life" by William L. Pierce. A Concise biography of the man who began rebuilding the Movement after the catastrophe of 1945: his early life, his conversion to National Socialism, his difficulties during the first years of struggle, his plan for the future of the Movement, and his death. \$1

Rally Marks Commemorative Event July 5

National Socialists are invited to the nation's capital on July 5 to commemorate the 10th anniversary of Commander Rockwell's historic rally on the Mall. It was this rally, and the riot which erupted from it, which, ten years earlier had put the young organization in the national limelight. Commander Rockwell left us a vivid account of the day's conflict in the opening chapter of his autobiography *This Time the World*.

Make your plans for coming to Arlington in time to join us for this stirring event. Schedule your arrival for no later than noon, Sunday, July 5.

National Socialist Congress Is Capital Event

The most important annual event for National Socialists is the Party Congress, held over the Labor Day weekend. Early plans should be made by all members and official supporters to be in Arlington for this three day meeting.

Watch for details in future issues of the Bulletin regarding registration, accommodations, transportation, etc.

New Splinter Group Afflicts the Movement

It has become almost a conventional occurrence now for Nazi clubs to pop up periodically in different parts of the country as a result of the increasing acceptance of the NS creed among many Aryan members of our nation. More often than not, these small groups are incorporated into the Party body and develop into valuable assets to the Movement.

But some times these factions are comprised of individuals whose association with the Movement has stemmed from an "I wanna be the leader" egotism, rather than a devotion to the ideals of self-sacrifice and initiative which characterizes our true comrades. Such egomaniacs find it easier and more convenient to claim leadership to have been bestowed upon them by Destiny, rather than to work for and aspire to leadership by throwing themselves wholeheartedly into the ranks of the Party for the rigorous work of building the Movement. Uncountable organizations and individuals of this type have sprouted up and faded away since Commander Rockwell started the long, hard fight back in 1959.

Loyal National Socialists should be apprised of the latest manifestation of bogus National Socialism. This time it's making its appearance in Chicago, where local National Socialists are the objects of efforts to recruit for a new organization which is self-billed as the true inheritor of Commander Rockwell's life work. What is particularly notable (and comical) about this latest splinter operation is its leader, the aforementioned son of Max Cohn, a Jew! Now that his Jewishness has been detected and his association with the Movement terminated, Frank Collin has suddenly discovered that he was ordained to carry forth the teachings of Adolf Hitler. It is more than regrettable that this self-aggrandized little Jew worked within the ranks of the Movement, undetected as a kike, long enough to develop a clique of childish sycophants to support his political hobbying.

If you were ever in contact with this individual, you will probably receive his first literature and solicitation for funds in the near future. It can be predicted that somewhere along the way a smear will be directed at Party operations in Arlington by this person in an effort to syphon off support and activism from the Movement and into his venture. Those National Socialists who've watched the comings and goings of splinter groups over the last years will know just how much stock to put in the claims of this new, Jew party.
