"But if, through indolence or cowardice, this battle is not fought, just let people look at the nations five hundred years hence. They will find but few men left in God's image, without blaspheming against the Almighty."

MEIN KAMPF, I:10

## Commander Takes to the Road!

On 5 December Commander Koehl spoke before a gathering of members and supporters in Baltimore. In his address, the Commander described the decadence that exists in America and Western civilization today. He drove home the necessity for action on the part of all National Socialists, and emphasized the special importance of our effort here in the United States. At the conclusion of the meeting, a gleaming crucible was lit before the Swastika banner, and the Party Battle Song was sung with a deeply moving spirit known only to National Socialists.

On the 12th, the Commander appeared on the Ted Payne Show on WJAS radio in Pittsburgh. During the hour-long "call-in" program, he explained the necessity of building a White America. He showed the difference between us and other so-called patriots who are nothing but materialists and reactionaries. He also exposed the New Left as being merely an arm of the System financed by big-money interests. At the last minute, Commander Koehl pulled out a photocopy of a letter which had come into his possession thanking Ted Payne "for the opportunity of meeting to discuss concerns of the Pittsburgh Jewish community." The letter was signed by one Alvin L. Kushner of the Community Relations Committee of the United Jewish Federation! Payne was visibly shook up as the Commander then proceeded to completely demolish his 'objective' pose and expose him as the pro-Jewish phony he is.

Afterwards, a meeting of local National Socialists was held. Robert Evans, a young activist and local co-ordinator gave an outstanding report on activity at his school and the Pittsburgh area in general. In his local high school he has distributed literature, held meetings, and spoken before classes in spite of harassment from officials. In one case, when his Jew vice-principal threatened to suspend him and he could find no help from other sources, he simply called the ACLU in!

Both the radio appearance and the local meeting were a great success.

The following day--13 December--saw another outstanding meeting in Cleveland. The Commander spoke of new and greater successes in store for the Movement. For the benefit of the many new people present he explained what constitutes political power in the United States today. He showed how White people have no real voice in the present power-structure, and why a revolution is necessary to completely overthrow the alien Jewish System and replace it with a new order based on White power.

National Organizer Bill Kirstein spoke on the Leadership Principle and its fundamental importance in the National Socialist movement. He said that aspiring leaders must have a firm grasp of the Fuehrer's teachings and model their lives accordingly.

Richard Biederman of the National Headquarters Staff gave a report on a recent showing in Washington of the NS film, "Triumph of the Will." He explained how this inspiring documentary completely refutes all the Jewish-liberal-Marxist propaganda about how 'evil' Adolf Hitler was, and shows instead how much he was loved and honored by all decent Germans. As an example, he told how the Fuehrer would ride in an open car among his people--something Mr. Nixon wouldn't dare do among his!

Casey Kalembe, local organizer and manager of the Cleveland bookstore, told about the court battle being fought to keep the Lorain Avenue location. Local Jews have brought pressure on the landlord to try to cancel the lease. A Jew judge will hear the case.

On 17 December the Commander flew to Chicago for an appearance on the Howard Miller show on WLS-TV, the large ABC network outlet in the Midwest. The Commander stated that the political program of the Party was based on the proposition that this is essentially a White country and that White people should run their own destiny. He then proceeded to answer standard questions from both the host and callers to the program. During the show, Party materials were prominently displayed on the screen and a complete recent White Power Message scoring liberal race-mixing hypocrisy was played.

The next day--the 18th--the Commander spoke to students at Macomb Community College in Mt. Clemens, Mich., a Detroit suburb. He told the very attentive audience that our country had been turned into one big bargain basement. He said our society was in a mess because it was more interested in selling electric toothbrushes and fur-lined toilet seats than in the quality of people. He stated that America's sickness was produced by a combination of capitalist greed, democratic irresponsibility and bourgeois cowardice. The Commander then denounced increased U.S. involvement in the Middle East, and showed how this was an inevitable result of Jewish control over the foreign and domestic policies of the United States. A lively question-and-answer period followed, during which the Commander was able to elaborate on various aspects of the Party program.

Later that evening, the Commander spoke before a gathering of local members and supporters.

#### L.A. Troopers 'Do Their Thing'

Jews and other biological dregs always find they get more than they bargained for when they mess around with Stormtroopers. What happened to a number of them in Los Angeles earlier this month is a good case-in-point.

On 17 December, Lt. Joe Tommasi and Trooper Dan Stewart were distributing Party material on Sunset Blvd. in the heart of Hollywood when a big, fat kike brought his Cadillac to a screeching stop, jumped out, and ran up screaming obscenities. With TV cameras grinding away, the Jew thought he was putting on quite a show.

Then Lt. Tommasi ran up shouting at the Jew, and the Hebe attacked him. Next, a left upper-cut stunned the swine, and a hard, smashing right sent Humpty-Dumpty CRASHING against a parked car, shattering the glass on the driver's side. And that was all for Mr. Jew! His face looked like a squashed tomato, with his nose broken in two places.

In another incident, three Troopers went out to get some chow after a great local meeting one night recently. The following report from Trooper John Lau tells what happened:

"On 12 December, Bill Gould, Jim Coffman and I were involved in a fight with three Mexicans as we were getting something to eat. The three Mexicans were standing on the sidewalk shouting obscenities at us. We ignored them, so they threw a beer bottle and missed.

"The three of us started toward them and they produced a length of chain which they swung around. Coffman then stepped forward to grab the chain and got hit across the back with it. He ignored this entirely and started beating the hell out of this guy, drawing blood. At the same time, the other two swine were fighting each other over the second beer bottle, and broke it on the edge of the curb. They came toward me and I said, "Rotten racial garbage, that's what you are--the scum of the earth!" He then threw the jagged piece of glass at me and hit Bill instead. Then Bill and I started clobbering both those creeps.

"People were all over the place watching. We kicked those swine so bad it was funny! A car full of passing Mexicans stopped, but took off as three police cars pulled up. We had two of the swine arrested for 'being drunk in public,' 'disorderly conduct,' and 'creating a disturbance.'

"We then went back to eating--UNINTERRUPTED!"

While authorities in some local areas try to harass us and disrupt our activities, the police in a number of other cities are working closely with our Stormtroopers. In one instance, a number of officers showed up for inspection one morning with White Power buttons and Swastika stick pins. In another case, a headquarters duty officer arrested and handcuffed a creep suspected of rock-throwing. Police arrived, and the crud was taken off to jail!

#### NS Youth Spreads the Word

The following report comes from an NSYM comrade in Auburn, Wash.:

"At assemblies, I always use the White Power salute during the National Anthem and when saluting the flag (in front of 2,000 other students). During school I always wear my Party pin along with a White Power button. Quite a few students and teachers ask why I wear that 'Nazi thing.' I always explain why!

"Last week one of my teachers (who is a Jew) called home and complained about me 'preaching Nazism.' My folks stole all my Party literature they could find, and requested my teachers to report to them if I participated in any more NS activism. I will continue to participate in discussions, distribution of leaflets, etc."

Many young National Socialist comrades have had trouble with their parents while serving the Cause. Sometimes it is because of a genuine concern for the 'well-being' of their offspring--a basically commendable attitude born of a sincere striving towards good parenthood. More often, however, these parents are just parroting the "don't-rock-the-boat; what-will-the-neighbors-say" philosophy.

Both categories of the 'older generation' must understand that National Socialist youth become what they are either because parents have alienated their own children with their cheap, shallow materialist values, or because their kids are simply applying in practice ideas their folks have only given lip service to--concepts such as 'honor,' 'love of country and culture' and 'patriotism,' the logical extension of which is 'love of RACE.'
