OFFICIAL INTERNAL ORGAN OF THE
National Socialist White Peoples Party AND THE **National Socialist Youth Movement**

No. 79

1 February 1971 YF-82

"The so-called 'intelligentsia' always looks down with a really limitless condescension on anyone who has not been dragged through the obligatory schools and had the necessary knowledge pumped into him. The question has never been: What are the man's abilities? but: What has he learned? To these 'educated' people the biggest blockhead, if he is wrapped in enough diplomas, is worth more than the brightest boy who happens to lack these precious wrappings."

MEIN KAMPF, I:9

Organizational Meeting Held in Baltimore

Commander Koehl spoke at an organizational meeting of National Socialists in Baltimore on 23 January. The Commander was accompanied by National Organizer William Kirstein and Party Business Manager Richard Saunders.

The Commander described the effects of rising unemployment on the White working man and showed the potential this represented for the National Socialist movement, especially in the larger industrial areas. He declared that America's chronic economic difficulties were an inevitable result of the materialistic greed engendered by stock-market democracy, and called for a revolutionary alternative based on racial idealism.

The Commander also analyzed the power struggle in America today. He emphasized that real power was held by organized Jewry and its allies, and declared the real enemy of White Power was Jew power. He said Black Power was little more than a rhetorical term and would be nothing more as long as there was an Aryan majority in the United States.

Other speakers at the meeting spoke on the Leadership Principle, and contrasted the pessimistic, defeatist syndrome of right-wing organizations with the dynamic, activist attitude of the National Socialist movement--a fundamental difference, which placed the Party in the forefront of the fight for White Power.

Commander speaking in Baltimore

The meeting ended with the singing of the Party Battle song before a Swastika banner lit up by a burning crucible! (Every true National Socialist should know the words of the Battle Song by heart. These meaningful words, written by Commander Lincoln Rockwell, are available from National Headquarters upon request.)

National Organizer Railroaded!

A jury of seven Blacks and five Whites on 5 February found National Organizer Bill Kirstein guilty of assault stemming from activities on 3 October (See NS Bulletin #71), when he moved to prevent an anti-NS policeman from severely injuring Troop Leader Richard Biederman.

The prosecution presented only one witness--the offending officer himself--and its case lasted only 20 minutes. The rest of the time--over two days--was taken by the testimony of defense witnesses, including two not associated with the Party, but who saw and took photos of the policeman assaulting Troop Leader Biederman.

During the major portion of its deliberations, the jury was deadlocked. But when the jurors finally re-entered the courtroom, the "foreman"--the stupidest, blackest one of all--rose from his seat and mumbled incoherently, "We find the defendant guilty." In an unusual move, sentence was passed immediately.

A maximum fine of \$500 was imposed plus six-month's suspended jail time plus three-year's probation!

The judge refused point-blank to allow more than several weeks--by 5 March--in which to pay the entire amount. After that time, if the fine isn't paid, National Organizer Kirstein will be thrown to the tender mercy of the Black savages who make up 99% of the D. C. jail!

Because of some rather heavy expenses the Party has incurred in recent months, and with a substantial portion of Party funds already tied up on several important projects, it will be very difficult to raise the necessary sum. The only thing we can do is ask every National Socialist comrade to join in a special effort to keep Bill Kirstein out of jail.

Commander Meets New York Supporters

On 30 January Commander Koehl met with local supporters in Brooklyn. He discussed the special problems confronting National Socialists operating in New York City, which is the world center of Jewish power today.

The Commander also outlined a variety of tactics and techniques that could be applied in building a stronger local base of operations in the future.

A New York Supporter Writes

The war we National Socialists are waging has many fronts. There is the fight in the streets. There is the fight in the courts. There is the fight on the job and in the classroom. There is the fight that young comrades wage to uphold their sacred beliefs in the face of painful hostility at home.

But there is also the fight that National Socialist parents wage to keep their families healthy, strong and untainted by the daily spewings of Jewish-liberal propaganda. A supporter from New York described his fight in a recent report:

"My home is a National Socialist shrine, and it is getting to be known as such. I am raising my two boys in the spirit of National Socialism. I am subjected to much abuse and ridicule, and my family and I are living in constant danger. But I will not give in and what's more, I am steadily on the offensive--talking, explaining, challenging and setting a good example."

Parents in the Movement have a special obligation to raise their children properly and see to it they grow up to be healthy, viable assets to their racial community. They should also set a good example to other parents they may know who are not yet in our ranks, so that all who are awakened and involved in our fight can work toward building a racially aware new generation!

Warning: Fly-by-Night!

Members and supporters are asked to be on the alert for any attempts to solicit money from them by an individual from Ontario whose welfare payments were recently terminated there.

The individual in question, oozing charm, poses as a leader of the National Socialist White People's Party and has already taken several unsuspecting persons for considerable sums. The victims, thinking they are helping the Party, are usually asked to send money to a post office box in Toronto, where it is pocketed by the con man or an accomplice. (At the present time, the Party maintains no p.o. box in Toronto.)

Those approached by this con artist should contact National Headquarters immediately, so appropriate action can be taken.

Official Supporter Cards

All Official Supporters in good standing received their cards with NS Bulletin #78. If you have yet to receive your card, it is very likely that your monthly pledge has not been paid up to date.

Some may think that their minimal two- or three-dollar contributions don't amount to much, and that if they miss these monthly donations, it won't have much of an overall consequence. But it should be fully understood that these small pledges are the life blood of this Movement, and that those of you who haven't been helping out are limiting our potential!

Don't jeopardize your status, or your right to receive the NS Bulletin. If you are behind on your pledge, get in touch with us right away!
