## **The Congress: A Reaffirmation of Faith!**

Over 150 delegates from 33 states attended the Third Annual North American Congress of the National Socialist White People's Party held in Northern Virginia 4-5 September.

On the theme “Win Revolutionary Victories with Hitler and Rockwell,” Commander Koehl addressed the opening session by stressing the importance of a complete dedication to the principles of Adolf Hitler and Lincoln Rockwell. He said that before one could even claim to be a National Socialist, he must first recognize the importance of these men, and especially understand the role of Lincoln Rockwell in the revival of the Movement. He further commented on the enormous task facing us in America. “If National Socialism came to power in any other area of the world,” he declared, “the resources of this nation, now in the hands of our racial enemies, would be used against it. Only here in America can we hope to spark the flames of a National Socialist world revival!”

The Commander then discussed the National Socialist world-view. He pointed out that we National Socialists have the only philosophy with a true revolutionary world-view, describing both Capitalism and Communism as throwbacks to the 19th century. “National Socialism, on the other hand, is based on racial idealism and is in a political sphere all its own,” he said.

William Kirstein concluded the morning session with a speech on “Lincoln Rockwell's Contribution to National Socialism.” In his remarks, he pointed out that were it not for Lincoln Rockwell, there would be no NS movement today. “Were it not for him,” he explained, “National Socialism would have died out in the burning ashes of Berlin to live only as a memory in the hearts and minds of the faithful.”

The afternoon session began with local reports followed by an address by Commander Koehl on the “Pan-Aryan Role of National Socialism.” In his remarks he pointed out that our “nationalism” is not defined by geographic boundaries, but by race! He said that nothing less than a White world-view could stem the tide of the ever-advancing forces of Jewish Marxism and racial death.

Opening the evening session, William Kirstein spoke on “Advancing to Revolutionary Action,” emphasizing the importance of direct action and confrontation with the enemy. He also pointed out that National Socialists, unlike the reactionary “right,” look beyond the next election and George Wallace. “We've got to flush all the front men of the System and always think in terms of preparing for the coming revolution,” he said. He concluded by discussing some practical organizational problems, including the establishment of White Power Messages and bookstores.

The evening session was then concluded with a showing of the immortal NS film classic, “Triumph of the Will.”

On Sunday morning, Joseph Tommasi addressed himself to "The Special Mission of the Party." Blasting institutional politics as well as right-wing reactionaries, he proclaimed that only the National Socialist movement was capable of winning fighting young activists. William Kirstein then spoke on the "Struggle Against Deviationism," pointing out that the most important fight the Party will ever wage is not against our racial enemies (for the struggle against them only makes us stronger for inevitable victory), but against those who appear as our friends, and then set about to destroy the Party from within! "One such individual was among us last year," he said. "Such swine deserve our deepest contempt, far beyond anything we feel against any race-traitor!!"

After adjourning for an outdoor rally that afternoon, the Congress reconvened in the evening for formal ceremonies, which began with the playing of the Badenweiler March. Special ceremonies, including a consecration of the Nuremberg martyrs and a special memorial tribute to Lincoln Rockwell were followed by the Commander's concluding address.

In his remarks the Commander reaffirmed Party principles as laid forth by Lincoln Rockwell and stated that the Congress showed, once again, the inner vitality and strength of the Movement. In further illustration of this strength, he pointed out that while other groups represent the fat and waste of the American body politic, the Party represents solid muscle, the best of our race! He then called on all National Socialists present to leave the historic assembly with renewed spirit to fight harder for even greater victories!

### 101 Stormtroops March!!

On the afternoon of September 5 in the largest show of force in the Party's history, over ONE HUNDRED Stormtroopers marched through Washington, D.C. past the White House, and on to L'Enfant Park where the afternoon rally was held.

The troopers assembled across from the Lincoln Memorial where they were greeted by large numbers of tourists and newsmen who were waiting to witness the historic event.

After a brief inspection and address from Commander Koehl, the column moved up Constitution Avenue to the surprise and awe of hundreds of out-of-town motorists! The troopers turned up 17th Street past the Executive Office Building to Pennsylvania Avenue, and the residence of Mr. Nixon. Police cars patrolled nervously back and forth, and authorities, surprisingly outnumbered by more than three to one, stood by helplessly as the ST marched past the White House! Capt. William Kirstein, pointing to the building, shouted "There's where that race-mixing swine lives! Let's give it to him! We want..." "WHITE POWER," the troops responded! "We want . . . WHITE POWER, we want . . . WHITE POWER!!"

The ST arrives!

The march then turned down 15th Street and continued up Constitution Avenue to L'Enfant Park, the site of the rally. Speakers at the rally included Commander Koehl, Dan Dexter, Joseph Tommasi and Douglas Kaye. William Kirstein acted as chairman. In his remarks, the Commander spoke of the forced busing of White children to blackboard jungles all over the country. "These insane criminals trying to foist racial death on us have got to be stopped — by any means that may be necessary!" he proclaimed. He then described the Party's intentions of sending school buses South filled with Party organizers urging Whites to boycott busing! Dan Dexter spoke on three important

aspects of National Socialism. In reviewing some of what was discussed at earlier sessions of the Congress, he pointed out that National Socialism's "nationalism" is race centered and transcends arbitrary geographic boundaries. "National Socialism, then is nationalism in its highest expression," he said, "a loyalty and commitment to one's own racial interests." Addressing himself to the many students listening, he showed that the spiritual dedication and will to power that motivates each National Socialist was the Movement's assurance of inevitable victory! Finally, he declared that because the Party views man as a part of nature and therefore subject to her laws, only it can right the wrongs created by those who falsely assume man as a conqueror of nature.

Joseph Tommasi, also speaking to the youth, told them that they represent the future! "You may think it's a lot of fun tripping out now on drugs, but the day will come when you'll either straighten up and be with us, or be DEAD — totally eaten up by drugs or killed by some nigger!" he exclaimed.

Douglas Kaye then exposed the phoney "New Left" as a front for big business and money interests. "We're the only true revolutionaries," he said, "so Jerry Rubin and Abbie Hoffman get you to throw a brick — so what? These Jew coward never get involved themselves, and laught at you all the way to the bank!"

The meeting was concluded by William Kirstein who discussed highlights of the Party program, and then strongly urged all White's present to join the Movement and fight for White Power!

### Congress Photos and Recording to be Available

Special glossy photographs of the Third Annual North American Congress will soon be available from Party Headquarters. Taken by a professional photographer, these unique pictures will not only make valuable souvenirs for those who attended the Congress, but will also provide fascinating glimpses of this historic occasion for all those National Socialist comrades who were unable to attend. ALSO, special recording of the various speeches made during both the indoor sessions and the outdoor rally will be available soon. These recordings will be invaluable instruction aids for those seeking to bring new people into the movement, as well as provide hours of enjoyment for those who wish to relive this most historical meeting. Watch future issues of the NS Bulletin for further details.

### Commander Koehl Scorches South!

As schools in the South opened and busing began in earnest, Whites began clamoring for leadership as political hacks abandoned their precious children to the mercy of blackboard jungles. In response, Commander Koehl is leading a contingent of Party activists to help organize White resistance in that area of the country, making headlines everywhere he's gone!

A full report will appear separately with a future issue of the NS Bulletin!

### Party Organizer Nets Publicity

The article below shows what can be accomplished by onlt a few National Socialists in a given area. Mr. Gerald Smith of San Diego has formed the nucleus of a Stormtroop team, and has gained much local attention for his street activities.

LEMON GROVE — He greets his visitors with a 22 pistol strapped to his side and whetters them to a cluttered bedroom filled with trappings of the Nazi era.

This is the headquarters of the National Socialist White People's Party (NSWPP) in San Diego County. It is run by a 22-year-old former Marine who holds the job of area coordinator for NSWPP activities.

Smith, a ruddy-faced man with short-cropped blond hair and the sturdy look of a street fighter, has been stirring things up for his party by leading

vehement press releases, leading demonstrations against anti-war groups and producing anti-Negro, anti-Communist and anti-Jew literature.

His latest effort was a dire warning that his right-wing organization will retaliate if Abbie Hoffman, the hippie leader, carries out his threat to wage demonstrations when Republicans hold their 1972 national convention in San Diego next August.

The statement by Smith, who in private shows gutter language and displays considerable mastery of hate-inspired invective.

"As patriotic White Americans," he wrote, "we are sick

and tired of the spectacle of stupid, dazed, dirty, Viet Cong flag-waving across in our country's streets. The 'establishment' is too rotten and yellow to do anything about these traitors, but we aren't!"

Declaring that his party could play the violence game as well as Hoffman, he continued: "I am hereby announcing, with full intentions of backing this up, that we will attack Hoffman's group if they show up on the streets of San Diego, and furthermore that I will personally beat the brains out of Jew-Communist-sucking Hoffman if I get my hands on him."

In his windup, Smith accused Hoffman of treason and pro-

claimed his party's willingness to take matters into their own hands if the "establishment" didn't act.

"We say death to traitors. It's time for old-fashioned American justice."

Smith conceded his organization is small, with only about 20 "supporters" in San Diego County. To him, numbers are unimportant.

"I certainly can't match his (Hoffman's) numbers," said Smith, an unemployed bachelor who lives with his parents and a sister. "Given 10 or 40 disciplined people, you can make a complete mess out of a hard

U help is needed, Smith can rely on assistance from the larger NSWPP unit in El Monte. The San Diego County chapter has been functioning officially since June 13 when Matt Koehl, national commander of NSWPP, presided at an organizational meeting held at Don Diego Veterans of Foreign Wars Hall.

It surfaced for the first time publicly when across Jane Fonda and other anti-Vietnam War activists staged a rally at Ross Auditorium in San Diego and again June 14 in a counter-demonstration at the Naval Electronics Laboratory where war protesters were marching.

Another public appearance is

scheduled Saturday when the NSWPP plans to demonstrate against a group called Serve the People in Ocean Beach.

### Nazis Set To Recruit Local Men

Editor's Note: This is the eighth in a continuing series of articles on right-wing activity in the Milford and Shelton Connecticut area. This week's installment is an interview with Mr. S., a neo-Nazi who has opened up the NS Bookstore at 77 Plaza, Bridgeport, overlooking the Connecticut River.

BY KEVIN KEATS O'NEILL

"If it was up to me, and I have enough people, and it's possible, and I got the right angle" Mr. S. will begin recruiting for the National Socialist White People's Party here in Milford as part of his drive to expand out of the third-party bookstore he now owns and all over the state.

To begin with, his party is not to be confused with the National Renaissance Party. "We don't recognize their ideas. We're not right, we're not left—we're just" National Socialists—a supposed to both Communism and capitalism and to drive of Zionism.

The name of the NSWPP was changed by "Commander Backward"—leader George Lincoln Backward—from "let all the organizations had enough" and "pass a long way." The murder of Lincoln in 1967 was a subject S. was "not in too deep on" but the perpetrator, marine aviator John Palmer, was a Communist, he said.

But his own bookkeeping hasn't yet given out the exact number. He has some apprehensions, some hesitation. I really can't give an accurate figure.

There is a National Socialist Youth Movement for those aged 15 to 21, a Regular Supporter classification for those over 21, and a member must pass "a written examination on National Socialism."

No Ball-Buff

"The party just doesn't accept any rifle-ruff." There are also the "Barringtons"—"It's not too big on that" but they are trained bootleggers whose primary weapon is their fists.

"We want people to do what we want them to do, not what they want to do." Generally, "we don't carry guns when we're out on the street" but "in cases where it's legal to carry guns, we carry it." S. carried a case of it in his black leather belt which was part of his full leather-and-metal-armed uniform.

There are county chapters in New York and especially New Jersey. There are a "a line up in Chicago" and it was a very loud in Newark that finally passed Mr. S. into Jersey.

"I had heard about the party even before Commander Backward" he mentioned. It was interpreted, "when he died, 'I've got on a big deal that he got shot,' and included the party's address. Soon afterwards, the ballist got him to jail."

Mr. Keats is the current National Commander. It has "not been locally." The party is "primarily against Communism. That's where the Jewish question comes in. The fact of history which nobody can deny and can be proven" says the Jews and Communists.

## Notes From NS Publications

1. The following titles have been discontinued:

- "The Merchant of Venice" by Shakespeare
- "Oliver Twist" by Dickens

2. "In Hoc Signo Vincas" has become a best-selling item since the North American Congress. For those of your friends who fail to see the singular importance of the Party, this booklet is a must!

3. Those who desire recognition for their contributions should remember to include their full name and address with their remittance

### WHERE THE ACTION IS!

23 October: McIntire is at it again! This time the slogan of his march is "Mao killed more Christians than Hitler killed Jews." The old faker seems to think this now associates Communism and National Socialism.

We're going to set him and his "flock" STRAIGHT!

Party troops will assemble in front of National Headquarters at 10:00 a.m. For further information, contact Capt. Kirstein at (703) 524-2175.
