## ST Counters Nationwide Red Demonstrations

On 6 November, ST demonstrations in four major U.S. cities across the country showed the Reds there were two-fisted White men left in America who wouldn't tolerate their treason.

In Washington, D.C., four teams of ST men led by Commander Koehl marched up Pennsylvania Avenue to meet the Red marchers head-on! Tension mounted as our men came closer and closer to the point of the enemy columns. As police stood by, Commander Koehl led an assault on a group carrying Viet Cong flags and stopped the whole demonstration cold!

Over 15 of our men were arrested on a dubious charge of "parading without a permit." Three of the troopers under 18 were detained but later released to their parents despite attempts of authorities to make them plead guilty. All others were freed on \$50 collateral.

In Cleveland a large contingent of ST marched downtown to confront the Reds and see if they could grab some Viet Cong flags. When they got there, a mob of human fungi gathered to yell obscenities. When there was finally enough of them, they screwed up their courage and attacked, only to find that there are NEVER enough creeps to stop National Socialists. All of them fled with their faces bloodied and their eyes stinging from large doses of tear gas!

Both actions in Washington and Cleveland received national attention.

In Los Angeles, over 30 troops marched in opposition to the Red treason. Although a large group of JDL members came down to "stop the Nazis," they soon whimpered away at the sight of uniformed National Socialists marching straight toward them! While there were no incidents, the Los Angeles demonstration received a great deal of local coverage.

In Seattle, Stormtroopers gathered to oppose Red marches just as their fellow comrades did in other parts of the country. Under the leadership of Roy Armstrong, the troopers showed the kind of heroism that is commonplace in the ST!

The moment of truth. Stormtroopers stop the Red march in Washington.

**Before the fight in Cleveland . . .**

**Brownshirts on the march in L.A.**

In all, the only opposition to all of the commies, queers and liberation lesbians that made up the nationwide Red marches were the Stormtroopers of the National Socialist White People's Party, proving once again that *only the Party* has the ability to decisively oppose the enemies of our race and nation!

#### Commander Koehl Tours Southeast

During the last week in October, the Commander visited a number of communities in the Carolinas and Georgia. He met with a number of new people and made two important radio appearances. The response he got was quite encouraging.

Appearing on a radio program in one North Carolina community, Commander Koehl emphasized that both Republicans and Democrats were spending all their time chasing after the bloc minority votes and forgetting about the needs and wishes of the White majority. "Whites vote both ways and cancel each other out," he said. He then stated that the NSWPP stood uncompromisingly for the return of this lost power to the White majority. The announcer remarked, "Well that sounds good to me. How do people go about joining your organization?" The Commander was then able to outline membership procedure and give the Party's address out over the air.

At another small radio station, Commander Koehl was interviewed by a liberal announcer. When he was asked why we use the Swastika, the Commander simply pointed out that it has been the racial symbol of our people for thousands of years. "Besides," he said, "both you and I know that if we used some other symbol or name, we'd only be fooling the people, and I think they've had the wool pulled over their eyes long enough, don't you?" As the interview continued, the announcer became more and more friendly. Again the Commander was able to repeat the Party's address over the air.

#### Commander Interviewed on Vancouver Radio

On Wednesday evening, 10 November, Commander Koehl was given a live interview via telephone by Mr. Pat Burns of CJOR radio, Vancouver, Canada. The discussion began with the subject of race, when Burns predictably began to intimate that National Socialists want to exploit all the Blacks. Commander Koehl replied that the Blacks were a separate racial group and that in matters of intellectual, technological and cultural achievements, were inferior to Whites. When Burns retorted with the usual "George Washington Carver" argument, the Commander replied, "If one considers inventing peanut butter a great achievement, then he indeed deserved credit. If however, a White man had done it, I doubt if you'd have heard the name."

Switching the subject, Burns read off a list of politicians' names and asked what the Commander thought of them. "We need to find some pig-pen and herd all of these swine in to feed out of a trough," Commander Koehl replied.

Later on, Burns tried to blame World War Two on Hitler. "Hitler needed peace to make his programs for Germany a reality. It is a historic fact that he was willing to renounce all German claims to the Polish Corridor in return for access rights to East Prussia. Britain and France claimed full backing for the Poles if they rejected Hitler's proposals out of hand. When this resulted in war, the British and French governments welched on their deal," was the Commander's statement.

Commander Koehl handled the now-flustered Burns very ably, despite some of his Jew-like discourtesies (e.g., "I know you can lie and say yes or no . . ." etc.). Consequently, the interview was cut off after only one-half hour so that callers would not be permitted to ask questions. It was all a complete victory for the Party, and many new inquiries have been coming in from Vancouver as a result.

## Commander and National Organizer on WAMU

In a closed-circuit broadcast, the Commander and Capt. Kirstein were interviewed on WAMU-AM on the evening of 7 November. The interviewer, a dubious kike named Steven Kaplan (nicknamed by his compatriots as "the walking mouth") conducted himself in a typically Jewish fashion, glossing over all that the Commander and Captain said as though Black crime and Jew domination of anti-White treason were "figments of their imaginations."

A few interesting calls came in from curious students and a remarkable percentage were favorable. Later on, a large group of Hebes gathered out front to try and assault the National Socialists as they came out. Only a strong contingent of police prevented the team of ST accompanying the Party Officers from giving the kosher cruds a bad beating. Later, these same Jews claimed that our men had guns and chains and this was why they had to carry knives and other such items!

## A Word to the Wise . . .

From time to time it is necessary to caution members and supporters about the activities of certain deviationist and anti-Party groups who seek to cash in on the growing success of the NSWPP with dead-end, egotist operations. Sometimes these characters suffer from a pathetic "peacock" complex. In other instances, they simply think they can weaken and undermine the Party. The following are a few to watch out for:

- 1) "White Legion Books" with an address in Arlington, Va., has been circulating a list containing the titles of many books stolen from the Party by an individual expelled last year.
- 2) A "National Socialist American Worker's Party" in Southern California, comprised of rejects, dead-beats and gasbags who could never make the grade as National Socialists.
- 3) A "National Party" has been formed and has tried to siphon off support from Party members in Louisiana with a "we-can-never-win-with-the-Swastika" approach and a complete rejection of Lincoln Rockwell's teachings in *In Hoc Signo Vinces*.

Needless to say, all these pathetic splinter attempts will fail as they have time and again in the past, while the true ~~Party of National Socialism~~ goes on to new and greater revolutionary victories!

## National Socialism Taught in Universities

Because loose-structured "experimental" colleges are the current fad in many liberal-democratic institutions of "higher learning," some have instituted courses on National Socialism. As our philosophy becomes an increasingly viable force on the political scene in America, these courses will become more prevalent.

One we've heard of (at San Diego State University in California) is called "Introduction to National Socialism."

All comrades attending school who desire to instruct a class in National Socialism under similar "free university" programs are strongly urged to do so, but be sure to check with National Headquarters first.

## Fall Building Campaign Nears Completion

We'd like to thank all those comrades who did their share by contributing to the Fall Building campaign. The extra income has enabled the Party to meet many expenses which would have otherwise been impossible. There are, however, a number of people who have not yet responded. All you need do is double your monthly contribution just once or sign up additional supporters. If you haven't been able to participate in the Campaign yet, please do so. Dollar for dollar, it's the best investment you can make — like buying insurance for a better America, a *White America*. The Campaign will officially end on December 21, so let us hear from you.

### Detroit Stormtroopers Sell Record Number of Newspapers

Last month, two Stormtroopers from Detroit sold a record number of newspapers in the shortest period of time. Over 60 papers were sold by troopers David Evans and John Sedlak within a half-hour period following a meeting of an ineffectual anti-busing group called the Roseville Action Group.

This action shows, better than any other way, that local Whites are beginning to look for a militant alternative to race-mixing and irresponsible federal judges.

### Trip to Europe Contest Deadline Extended

The deadline for the White Power Pilgrimage Contest has been extended from December 21 to January 15. That's right! Now you have until January 15 to get in your entry forms.

Remember, this isn't at all like the usual "Reader's Digest type" contest in which you don't have a chance in a blue moon to win. The number of entries received so far is small — *way too small*. That makes your chances to win extremely good — especially the more times you enter. Surprisingly few members and supporters have taken advantage of this unique opportunity to win a free trip to Europe.

You can get subscriptions to White Power for your entry in several ways:

- a) Give them as Yuletide gifts
- b) Sell them by door-to-door or street solicitation.
- c) Send us three names chosen from the phone book or names of friends, neighbors, classmates or acquaintances at work plus \$9 and your name.

This is really a chance you can't afford to miss! If you win, we'll give you two round-trip tickets to Europe. You can take your wife or friend and go when and where you like. You'll find it easy and exciting to visit Berlin, Munich and Braunau via Eurorail from centrally-located Luxemburg.

Right now, a very few have all the odds in their favor. Don't you miss out. Get in your entry blank this week!

### **WHERE THE ACTION IS!**

22 — 24 December

A special round-the-clock vigil will be held in Washington, D.C. demanding the immediate release of Rudolf Hess. Hess will be spending his 31st Christmas behind bars for his bold flight to Britain in an attempt to end the fratricidal insanity of World War II.

All Party comrades on the Eastern Seaboard are invited to come to Washington and stand with us. For further information, contact Capt. Kirstein at National Headquarters. We urge local organizers to hold similar vigils in their respective cities around the world.
