Commander Replies To Kahane's Hot Air

The October, 1972 issue of *Playboy* magazine carried a long interview with Rabbi Meir Kahane, the kosher king-pin of the Jewish Defense League, a rather comical group of gefilte goons whose favorite slogan is, "Jews are smarter!"

Kahane's basic message in the interview was that hard times would soon visit American Jewry and they'd better get ready for the ordeal. (The NSWPP has been saying the same thing for quite some time.) Kahane made it apparent to the reader that the rise of a strong National Socialist movement in America, in response to the unsolved racial, political, and economic problems of the country, is a very real possibility.

He then turned to the Party itself, and threatened to murder the Commander and other Party officials, claiming that "not to assassinate such a person would be one of the most immoral courses I could imagine."

Invited by *Playboy* to provide a letter of response, the Commander sent the following reply, which is reproduced here from the January issue.

Swastika Constitutional, Says CCLU

Comrade Fred Sherwood of Bridgeport, Conn., reports a new success in the Party's campaign to legally assert its rights in the sphere of local organizing, demonstrations, etc.

The attempt by local politicians and public officials to arbitrarily suppress National Socialist activities and deny National Socialists the elementary rights guaranteed in the Constitution was declared indefensible by the Connecticut Civil Liberties Union.

For years, the hypocritical servants of the system have allowed open treason to be flaunted in the faces of Americans without a whimper of protest, while denying National Socialists their right to appear in public wearing the Swastika in support of America and the White race.

On 9 December, a vigil was held for Rudolf Hess in front of the United States Court House in Bridgeport. The demonstration was organized by Comrade Sherwood. Team Leader Richard Biederman led a contingent of National Socialists from Philadelphia who also participated in the Bridgeport demonstration.

Rabbi Kahane is right when he says there is no Jewish future in this country. America's future is white, Aryan and eventually—according to the immutable laws of historical development—National Socialist. Nothing can alter this fact. The rabbi would therefore be well advised to abandon his paranoid threats of violence against those Americans of Aryan background who choose to believe in National Socialism. He would also be well advised to remember that two can play the same game—as our Arab friends proved in Munich. Should the rabbi persist in his mania for violence, he might well trigger a response that would strike at the lives and fortunes of American Jews everywhere. *Heil Hitler!*

Right To Wear Swastika Backed

The National Socialist White People's Party of Bridgeport has a constitutional right to display the swastika, says the Connecticut Civil Liberties Union (CCLU).

The CCLU said in its monthly newsletter that it received a letter from the Bridgeport group requesting an opinion on whether its members had the right to wear swastika armbands.

"The CCLU informed the group that attempts by the state or local officials to prevent them from wearing the armband would infringe upon constitutional guarantees of free speech protected by the First Amendment," the CCLU said.

The CCLU said its position on the matter is that a uniform, flag or armband represents symbolic speech and is fully protected regardless of how offensive it might be to others.

"We are not dealing here with questions of the 'goodness' of what the symbolic speech represents, for we believe that in a free society those are qualities which can be cultivated only through education and example, not through legal compulsion," the CCLU said. "It is the listener or the viewer who must separate good from the bad, the true from the false. The government cannot do it for him or her."

Recent months have seen an increase in activism in New England, both in the streets (left) and in the courts. The Bridgeport NSWPP and several Philadelphia comrades conducted the Hess vigil above.

Chicago National Socialists Hold Rudolf Hess Vigil

A vigil for Rudolf Hess was also held in Chicago on 9 December, in front of the Chicago *Tribune* building.

Comrade Michael Szipronat reports that the demonstration was very well received by the public. The vigil was held exactly where the Santa Claus parade was to pass, and so received wide public attention.

One obnoxious Jew, inflamed by the open display of National Socialism, attempted to cause a scene. A crowd began to gather as the hysterical hebe stamped, shouted, and screamed, running back and forth and gesticulating wildly as he worked himself up into a frenzy of Talmudic hatred, raving about the mythical "Six Million Barbecued Jews". Finally he screeched, "You *goyim* will pay for this when the Messiah comes!"

Group Leader Cedric Syrdahl had been taking the kike's performance all in stride, long experience having taught him to expect this sort of silliness during public activities. But this bit of arrogance was a bit too much. Syrdahl stepped forward and replied, "The 'Messiah' came once, and you Christ-killers crucified Him!" The Jew shrank back, looking for support from the crowd. But the faces around him showed only grim approval, and the vicious little rat quickly scuttled away on his bandy legs.

From the Possible to the Probable

As the year 1972 comes to a close there are many successes and accomplishments which National Socialists can review with pride. It has been an active year. A cynical society, discouraged by its all-too-apparent shortcomings and pessimistic about the future, is beginning to take a serious look at these National Socialists who, though greatly outnumbered and widely ridiculed, demonstrate an exuberant optimism of word and deed which only the ushers of a New Age could possess.

The old democratic system is every day showing more signs of its spiritual infirmity and impending collapse. It is by no means dead, *but it is dying!* We National Socialists will do everything possible to hasten the despatch of the putrescent corpse which has so long denied the well-being and progress of our race.

We act with the knowledge that time is on our side. We plan with the awareness that time is on the side of those who make the most of it.

Commander Rockwell stated in *WHITE POWER* (Chapter 16) that the Party would become really effective, and hence receive the fear as well as the hatred of our opponents, once it began to REACH the White masses and then began to ORGANIZE them into "a force to be reckoned with."

This process has begun, although it is still on a limited scale. The newspaper comments reprinted on the next two pages are noteworthy because they contain little of the usual derision and sarcasm. They're serious in tone, and they offer the reader not the question, "Could it happen here?", but "*Is it happening here?*" The final answer lies in the heart and will of each National Socialist.

The American Nazis

CHARLES STAFFORD

Kochl, Homan, Kirshtein, Homan

WASHINGTON — Over the river from the Lincoln Memorial, on a back street in Arlington, they wait.

Matt Koehl, Robert Homan, William Kirshtein. A handful of others.

They wear black trousers, heavy black work shoes, khaki shirts, red arm bands blazoned with black swastikas.

They are American Nazis, intellectual disciples of Adolf Hitler, political descendants of George Lincoln Rockwell.

They love the white Aryan race, despise Jews and "niggers."

They wait for a time, a nightmare time, that they see coming: a time when an American people, dismayed by racial warfare, disenchanted with the weaknesses of an eternally compromising governmental system, disillusioned with the failure of the two-party system to produce dynamic leadership, call them to power... call them to set things right in America through the genius of Hitler's National Socialism... call them to deal through strength with those founts of all of America's social ills, Jews and blacks.

It happened once — in Germany in 1933.

Could it really happen here? "It has already begun," said Koehl, the American fuhrer.

Like Hitler, he is a small man with hair and mustache as black as the German eagle. His voice thunders upward from a surprising depth. Officially, he is the commander of the National Socialist White People's Party.

"We have faith in the great majority of white Americans, and we believe there will come a time when they will be searching for alternatives, that they will reject the present two-party system, that the system will break down," he said.

"At that time our people will be turning into radical answers, and I think the Communists will be out there offering them an answer which is very radical, and we will be offering them a radical answer. I am confident the majority will turn to us.

"We are working toward that point. Right today people are too comfortable, they are too secure, conditions haven't ripened to the proper point.

"There is still some semblance of law and order, even though we are seeing growing anarchy in our streets. Even though the economy is a little bit shaky, it is still holding together. Although there are racial outbreaks, it has not reached a point of general race way.

"Until it does, we are going to be continuing to gather about us people who are racial idealists, people who can look beyond the present time to see what is coming and who are very much concerned by what they see."

When is it coming?

The 37-year-old Koehl, a man

They wear black trousers, heavy black shoes, khaki shirts, red armbands with black swastikas

with time to wait, is reluctant to predict. But listen:

"Well, we've seen what has happened in the country in the last 10 years," he said. "Our people have gone from an attitude of optimism and self-confidence to one of uncertainty and skepticism. This has happened in just 10 years.

"Now it's been a very slow evolution, just like the hands on a clock. You never see the hands move, but you know they are moving.

"This clock of history has not stopped. Among our people there is uncertainty now. This is going to turn into a revolutionary ferment as conditions continue to worsen. This process will continue until we can become the kind of serious power factor capable of replacing the present so-called Wallace movement.

"I believe that by 1980 we can

Matt Koehl
... the fuhrer

be in a position similar to that of the Wallace movement in 1968 in terms of the support we are able to gather together.

"Now that is eight years from now. That doesn't mean we will be in power at that time. But conditions will have ripened and our own internal growth will have reached a point where we can address ourselves to those conditions."

The party will come to power peacefully, legally, at the ballot box, Hitler did, said Koehl. So will Koehl.

But afterwards some changes will have to be made.

"One of the first things we are going to have to do is to have a constitutional convention to straighten things out again in this country," Koehl said. "We have gotten off the track since the original Constitution was written back in 1787 or '89."

"There have been a lot of

amendments tacked on to the original document which have changed the original meaning. For example, in the original Constitution it stated that the Negro was just three-fifths of a person.

Article 1, section 2. Amendments were thrown in after the Civil War, at bayonet point before a prostrate South, which made blacks citizens.

"One of the first things we are going to do is disenfranchise blacks and nonwhites, and by constitutional process, and we are going to reaffirm the original purpose of the Constitution in making only white people citizens.

"There are a number of other places I think we could make modifications. I would like to see a strong executive department. We believe in the leadership principle. Now today there are very few men, if any, in government who have any attitude at all of responsibility, of personal responsibility, for the job they are doing.

"Every man is going to be responsible for the job they are doing. Every man is going to be responsible for the work with which he is entrusted. That has got to be made a constitutional principle.

"The legislative branch will fulfill its basic purpose of drafting legislation. However, I feel that what we want is government of and by the best. We don't want government like today that has degenerated into a cheap popularity contest."

Seig Heil?

No. It's "White Power" now. "Our goal," said Koehl, "is to establish white power in America. We believe this is essentially a white people's country, with white people in the majority and that white people ought to run it.

"Our whole idea, National Socialism, is based on race. That is the way we evaluate any problem, whether it be social, political, economic, cultural. What is good for the (White) Race?"

All of America's problems, even pollution, have racial origin, he said.

"To deal with them," he said, "requires a separation of the races and a clear-cut understanding that this is a white man's country.

Boasting, not busing, is the National Socialist White People's Party answer.

"The white man was responsible for bringing the black man to these shores in the first place," said Koehl, "and I think he is responsible for returning these people to their original homeland in Africa. It is the only practical and humane solution in the long run."

tion in the long run."

Jews are not members of the white Aryan majority of the United States and have no place in Koehl's America of tomorrow.

"The blacks, who were brought here against their will, simply don't fit," said Koehl. "But organized Jewry, speaking for the majority of Jews in the United States, has declared war on the white majority."

"They have been engaging in attempts to undermine its racial integrity, and they have promoted Communist treason, Communist subversion. They have been very prominent in the Marxist movement in this country and the New Left movement."

"Some are engaged in other activities detrimental to the best interests of this country and of our race, about 90 per cent of the lawyers who have been involved in so-called civil rights cases have been Jews. About 70 per cent of the so-called whites in the so-called civil rights movement have been Jews."

And also, said Homan, the 25-year-old party secretary, there is the Jewish knack for rising up through the social strata and controlling areas like the news media — television, in particular, but also magazines and newspapers — and their effect on culture and the arts.

He searched for an example.

"Say the population of Japan was 3 per cent white and that 3 per cent began to have the same control there that the Jews have here," Homan said.

"We would call that colonialism, like we have done in Rhodesia. That's colonialism when it's done in Rhodesia by whites over blacks, but when Jews do it, all of a sudden it's a great tribute to their business excellence."

The Jews, said Koehl, are over represented in movements directed against the best interests of the United States and he white race.

"If Jews, just like any other people, have committed treason against the United States and tried to destroy it, or if they have engaged in attempts, very malicious and deliberate attempts, to destroy the white race, I believe in capital punishment," he said.

"They should be gassed, or

whatever it requires to carry out the capital punishment, once they have been charged, tried and found guilty.

"We don't want to hurt any innocent persons, and if we can find any Jews who have not been engaged in these things, then we will find a spot where they're causing too much trouble they can go to. Not Israel. Elsewhere there right now. Perhaps we can find an island somewhere and put a big international Navy around it."

Possibly James Cohen would be spared to live on that island.

James Cohen is a Washington attorney for the American Civil Liberties Union. He is represent-

"And yet we, a very small force, took over their speakers' platform, occupied it for over an hour, completely disrupted their schedule, prevented Jane Fonda from speaking, and all this with these few men. It was their quantity in courage, spirit, that made the difference."

But the party is growing, he said, and the surge back from a low point that followed the assassination of founder George Lincoln Rockwell in 1967 has come with the emergence of the busing issue. Fifty per cent growth, Koehl said.

"A lot of conservatives try to pretend busing isn't a racial issue, but it is," he said. "It's just one more step, like integrated

'They wait for a time, a nightmare time, that they see coming...'

ing the National Socialist White People's Party in a drawn-out suit over the Arlington school board's refusal to permit the party to use a public school auditorium for a rally.

"There are some very important legal issues involved," said Cohen.

"I don't see anything wrong with a Jew representing the National Socialists in court," said Koehl. "I think it is perhaps an opportunity for them to do some good in this world. Any Jew who would represent a Nazi in court can't be all bad."

How many Nazis are there?

"I'm not going to tell you," he said. "We are attracting the hardcore people we want and need. Let me point out that we are a revolutionary organization in pre-revolutionary times. Therefore, by the very nature of things, we haven't reached our fullest size in terms of numbers. But we measure our strength in terms of quality.

"There were something like a total of 22 men involved in our Flamingo Park operation during the Republican convention in Miami. There was a crowd there of between 2,000 and 3,000 persons."

public housing or integrated work crews through quota systems. It's insane, but there is a method in the madness of those who are pushing it."

The party, said Koehl, has branches in Los Angeles, Chicago, Detroit, Cleveland, Akron, Philadelphia, Baltimore, York, Pa., Broward County, Fla., Jacksonville, Bridgeport, Conn., Cincinnati, Phoenix, Seattle, Tracy, Calif.

Last April, there was a rally in a motel in Trenton, N.J., where members of several white supremacy groups honored the 33rd birthday of Adolf Hitler and sang the "George Lincoln Rockwell Battle Song." Did the Nazis participate?

"We are a separate organization," said Koehl. "We try to maintain a friendly attitude toward other sincere pro-white groups, but we are convinced our way of proceeding is the best way.

"There are a lot of sneaky Nazis running around this country. That's why it might surprise you if all the sneaky Nazis in this country suddenly shed their camouflage. We would increase by at least 10 fold overnight, maybe 100 fold.

EXPOSING THE HATERS

By DAVID BORAC

August marked the fifth anniversary of the killing of George Lincoln Rockwell, Nazi Party head, as he was bringing home his laundry. History has seen more glorious ways for "leaders" to die than at the hands of a disgruntled party member with one's wash at his side. Nevertheless, in five years since Rockwell's death, several changes have taken place in the Nazi strategy that have proved rather successful.

To begin with, the Nazis changed their official name from the American Nazi Party to the National Socialist White People's Party (NSWPP). Secondly, the new head of the party Matt Koehl began to carefully use current events to his advantage. Taking advantage of each of the problems and crises that gripped America the Nazis carefully strove to an image of a peaceful, political group. There is, course,

no doubt that they have successfully gained sympathizers because of their stands against busing, against school integration and for populist causes of various kinds.

But they remain the same Nazis, particularly in their hatred of the Jew and their racist concepts of history. Thus, on the fifth anniversary of the unlamented passing of Rockwell, the Nazis printed the following quote from him in their internal newsletter, the NS Bulletin.

"I am a white man, a brother to all other white men and I mean to stand with all of them and, if necessary, lead them in the battle to survive against the unspeakable menace of the colored millions of the earth rising to slaughter and rape against the white man—and led by the scheming Jew!

"The battle of our times, if there is to be any battle—is for the survival of the White race!"

This article about the Party has been syndicated to newspapers across the country, and has appeared so far in Philadelphia, Florida, and Charlotte, N.C. David Borac is a Jewish Defense League kike who writes a weekly column about "haters" such as the NSWPP.

EXPOSING THE HATERS

By DAVID BORAC

THE AMERICAN NAZI PARTY

(The American Nazi party, which has been parading under the name National Socialist White People's Party (NSWPP) and has acquired a new "commander" Matt Koehl (following the death of George Rockwell at the hands of one of his members) has made significant progress in recent weeks. Two radio stations (KTAO-broadcasting weekly Nazi programs known as "The Future Calls." Some of the topics include: Back to Africa (a plan to ship Blacks to Africa); Blacks Hired Whites Fired (dealing with unemployment among whites); Jewish involvement in American Political Affairs (to quote the Nazi, "a blistering analysis of the corrupt political system saddling America and its Jewish king makers").

The most striking thing about the Nazi growth is the apparent money that is now available to them. A new headquarters addition that doubles the working space at the Nazi's Arlington Virginia office has added a special conference room and new editorial offices for the Nazi's White Power newspaper. In addition, the Nazis have aided men to their paid national staff. These people include Robert Homan, new National Secretary of the NSWPP; Floyd Juillard, a new Senior Duty Officer and in charge of National Socialist publications and Dennis Fix who according to the Nazis has a "noteworthy record of racial activism behind him." Nix is a cartoonist who will be drawing a cartoon feature called "The Stormtrooper" in White Power.

A footnote should be added here. Nix was once a stalwart of the National States Rights Party (NSRP) another vicious Nazi-type group operating out of Marietta, Georgia. Nix comes from Granite City, in the St. Louis area and a picture in the NSRP paper Thunderbolt (October, 1971 issue) shows Nix with a group of NSRP leaders including top man J.B. Stoner. This may indicate a realization by the fascist elements within the United States that the Nazis have become the main force on the Radical Right.

In any event, the fact that Nazis have the money now to hire more staffers; to provide regular publications; to add office space raises the question where the

money is coming from. The answer is a clear one: The Arabs.

There is increasing evidence that the Nazis and certain Arab diplomats, in Washington (Arlington is a suburb of the nation's capitol) have been in contact and the Arabs have been giving money to the Nazis for the purpose of aiding their anti-Jewish campaign. The Arab reasoning is simple: The strongest economic and political prop for Israel is the American Jewish community and anything that can be done to weaken that community will be a blow to Israel. Hence, the aid to the Nazis which is merely one more link in the chain of Arab-Fascist relations in Europe, and Latin America.

The Nazis have been extremely busy, too, in many areas of the country fishing in troubled racial and economic waters. Thus, in the Kensington region of Philadelphia, racial tension has grown particularly in the Penn Treat Junior High, as the result of Nazi efforts led by one Charles Kress. Taking advantage of the tension between whites and blacks in the schools the Nazis have leaped into the fray and offered themselves as an alternative. Among the successful leaflets they have been distributing is one that reads: "Had Enough Whitey?"

"How much longer are you going to let the liberals, with their sick twisted clichés about 'human dignity', 'racial equality' and the rest of their overworked repertoire, cram the Blacks down your throat...The only reason a small minority of Blacks sparked by Jews and White renegades are able to rampage with impunity is that decent White men are too disorganized, too brainwashed by liberal liberal propagandists and too cowed by physical violence to fight back...it's time for you to join an organization of White men and women who are also ready to take up arms in defense of their race..."

On July 25th the Nazis arrived with their White Power bus to the "Singin on the Mountain" festival that attracts thousands yearly to Grabfather Mountain in North Carolina. Fifty two Nazis spent the entire day distributing thousands of leaflets and selling their paper.

A more infuriating rally was held on July 2 on the grounds of the Washington Monument as 36

helmeted Nazis in uniforms and swastikas tood in military formation as Nazi leaders attacked Jews in open and vicious fashion.

The Nazi impact was acknowledge in a 15-page report issued in July by the New York State Department of Education. The report charges that it was Nazi literature that helped spark rioting by whites against blacks in the Geneva, New York schools. The report quoted a leaflet that was handed out that read: "Uptight about schools...or just about the Niggers?"

There is no doubt that under Koehl and aided by deteriorating conditions in the United States, the Nazis are saying the kinds of things that many millions of Americans are thinking. The fact that JDL members who protested the Nazis in the Kensington section of Philadelphia were attacked by neighborhood whites shows that there is grass roots support for the Nazis that too many groups have tended to overlook. The fact that the July issue of White Power carried an article on the history of populism in the United States and how Nazism "continues" that tradition is a clear indication that the Nazi hope to appeal to the same people who backed Wallace to such a strong degree.

Thanks to radio and television people who, for drama and shock value are ready to have anyone on the Nazis have also continued to get publicity over the airwaves. Thus, Nazi Delaware Valley organizer Richard Biederman appeared on the two-hour Tom Pritchett radio show in Wilmington while Los Angeles Nazi Joe Tommasi was on the widely heard "Talk Back" program in his city.

As of this writing the full report on the Nazi convention which was held in September was not in. It

certainly may be expected to have been the largest gathering they have yet been able to put together. It should serve as yet another warning for Jews of the storm that is approaching.

Arab money? No, Borac is way off the beam. Most of our financing comes from the dollar-and-cent contributions of White working folks who are tired of the Judaeo-liberal system.

National Secretary Speaks over Washington D.C. Radio

On 3 December the National Secretary, Robert Homan, appeared on the Buzz Burkey radio program, "Dialogue".

Lt. Homan had been invited after a radio poll indicated that the majority of Mr. Burkey's listeners wanted to hear the National Socialist viewpoint. The National Secretary first described the Party and its program briefly, and then for the next two hours answered call-in questions. Although the usual number of "gassed" Jews called in to relate their tearful experiences at the hands of the nasty Nazis at Auschwitz, many callers, including a few Blacks, affirmed the negative role the Jew has played in American history.

Expecting an irrational, ranting bigot, Mr. Burkey and many of his listeners were surprised by the logic of the National Socialist world view and the array of facts and figures presented concerning the Jewish and Black problems in this country.

The reaction of the Jews to Lt. Homan's appearance was so great that Mr. Burkey, now the chastised liberal, literally apologized for the program the next week. A "Jewish authority" was supposed to appear at that time to refute "Nazi hate", but never appeared.

A Note of Thanks

The response to the Fall Building Campaign was greater this year than ever before. Your generous contributions to the Commander's appeal are enabling the Party to undertake many new projects it could not otherwise pursue.

The response to the Legal Fund has also been gratifying. Thanks to the legal steps the Party was able to take due to an improved financial situation, the charges against five National Socialists who were arrested last August 31 for defending the Baltimore headquarters against attack have been dropped.

Unlike the Fall Building Campaign, the Legal Fund will remain a year-round appeal. We still have several court cases, including the costly court fight going on in the United States Court of Appeals for the Fourth Circuit in which we're contesting Judge Lewis' decision denying the use of public school facilities and auditoriums to National Socialists in Arlington.

The Commander is personally contesting the anti-Swastika statute in Miami Beach and faces the possibility of 90 days in jail and \$500 fine if his appeal is denied. As before, the outcome of these and several other cases the Party is involved in depends upon the direct support we receive from the rank-and-file.

New Staff Changes in Arlington

Commander Koehl has announced several inter-department transfers in the National Headquarters staff. Group Leader Floyd Juillard, formerly in charge of NS Publications, will become the Party business manager.

Mr. Juillard will be succeeded in the publications department by Stormtrooper Joseph Bishop, a long-time Party activist from Seattle. ST Bishop has served on the staff at National Headquarters for the past 18 months, and has assisted GL Juillard with the publications and mailings. A veteran of many demonstrations and confrontations with our racial enemies, ST Bishop holds the Medal of Merit for participating in the Battle of Flamingo Park in Miami during the Republican Convention last August. As a part of the famous Operation Beachead, Commander Koehl led a 22-man contingent in an assault on a Communist sound platform in Red-held Flamingo Park, and held it for almost two hours against repeated assaults.

The WHITE POWER newspaper will be edited from now on by Party Comrade Harold Covington, a native of North Carolina. Comrade Covington has been with the NSWPP since April of 1972. He has served in the United States Army, but was discharged in September, 1972, for his National Socialist activities while stationed in Hawaii. He spent one month in Los Angeles with Lt. Joe Tommasi before coming to the WHITE POWER staff in Arlington. Covington will replace TL William Grimstad, who is currently on leave. Grimstad will return to National Headquarters in several months to head up a new NS recordings department.

Party Business Manager Transferred to Florida

Team Leader Richard Saunders, former Party business manager, has left Arlington with his wife and two sons for his home state of Florida. Saunders, who was with the National Headquarters staff for two years, will be active in local organizing in the Sunshine State, a growing area for National Socialist activism.

Commander Koehl and the entire Arlington unit would like to commend TL Saunders on the outstanding performance of his duties which characterized his stay at NHQ. We wish him the best of luck in his new NS endeavors.

In Appreciation

Stormtrooper Joseph Bishop would like to express his thanks and his appreciation for the many cards and inquiries regarding his recent shooting accident. On November 28, ST Bishop was returning a Party weapon to its rack when the firearm, an M-1 carbine, discharged and shot him through the stomach. The carbine had been in use several hours before in a confrontation with three drunken Jews in front of the National Headquarters building.

ST Bishop has now fully recovered from his injury, and extends his gratitude for all the expressions of concern and sympathy received by the Party and himself during his hospitalization.
