"The crown of the national state's entire work of education and training must be to burn the racial sense and racial feeling into the instinct and the intellect, the heart and brain of the youth entrusted to it. No boy and no girl must leave school without having been led to an ultimate realization of the necessity and essence of blood purity."

THE MILWAUKEE JOURNAL Friday, February 11, 1977

### Sandra Enders

Mrs. Enders, 19, a member of the National Socialist White People's Party, dropped out of high school because, she said, "It was impossible to obtain an education in the integrated environment of Washington High School."

The job of a board member, she said, is to "be aware of what's going on."

For Mrs. Enders, the reason for running is to oppose integration.

"The main issue is integration. It's time the white majority had a mouth

Sandy Enders

piece on the School Board to speak for them, to say no to all this insanity."

At Washington, she claims, "teaching standards were very, very much lowered because of blacks in the school. School was not safe; education was impaired."

"I have a baby son, and I don't want him to go to an integrated school at all. I want him to get an education, not racial harmony."

Mrs. Enders said she believes blacks "aren't civilized enough to try; they don't have the brains to do it. They just cannot comprehend."

"I don't believe blacks and whites should mix; it will produce interracial marriages and then there will be a bunch of mongrels running around that have no culture whatsoever."

Mrs. Enders said she would resist and "do anything in my power to prevent integration. If it means going to jail, fine."

From the results of the February 15, 1977 Milwaukee School Board Primary, the White people of Milwaukee, fed-up with high crime, rising taxes, government corruption and federal race-mixing schemes are turning to the National Socialist White People's Party.

Last year at this time, the National Socialist White People's Party made its first bid for an elective office in Wisconsin. National Socialist candidate Arthur Jones, 28, running openly as a National Socialist in a field of seven for the office of mayor, placed a respectable 4th place with 4,765 votes.

This year, two National Socialists running in a 12-candidate primary race for the Milwaukee School Board, Mrs. Sandra Enders and Mrs. Sandra Osvatic, each received more votes than did Mr. Jones.

While last year's campaign was a much more expensive campaign featuring TV and radio announcements in addition to door-to-door canvassing and newspaper advertisements, this year's campaign was limited to literature drops and newspaper ads. Also, the campaign was a last minute affair which began January 14, whereas the other candidates began their campaigns December 15.

In the February 1976 Mayoral Primary race, only 32 percent of the 380,000 registered voters in the city turned out to vote giving Mr. Jones his 4,765 votes. This vote so shocked the Liberals, the Blacks and the Jews, that it was reported coast-to-coast on the NBC network.

### Sandra Osvatic

Mrs. Osvatic, 41, another member of the National Socialist White People's Party, graduated from North Division High School in 1953.

She is seeking election to oppose racial integration.

"I do not believe in race mixing," she said. "When you mix races, you only create a situation where whites get an inferior education because they have to go down to the level of blacks, and blacks are inferior to whites."

"The board right now are idiots; they're doing absolutely nothing but trying to mix up the races. They should tell the courts that they are outside of their jurisdiction. If I were

Sandra Osvatic

on the board, I would say, 'You can't do that.' I would go to jail for the cause. I have been fighting schools since my oldest daughter was in kindergarten."

Mrs. Osvatic said her role as a board member would be to "get the proper books to children in the school rooms. I'm running because I'm interested in the children's education. I am interested in the blacks as well as the whites, but I want blacks to have a separate education."

She said her educational philosophy would be neither conservative nor liberal.

"I am just the type of person who wants action," she said. "I do not want any pussy footing around with race mixing, because it has nothing to do with education."

Mrs. Osvatic said her bitterness about schools stems from problems with her children's education in Milwaukee.

"I was forced to teach my youngest child at home," she said, "because he was getting an inferior education; he couldn't read. Where are the good books? We need good books in the schools, not all these lies."

## Milwaukee School Board Primary

... Don't let voter apathy give the pro-busing Liberals a victory in this primary. Fight back! Vote for the pro-white, anti-busing team: OSVATIC & ENDERS Feb. 15. ...

SANDRA OSVATIC

Sandra Osvatic, is a 41-year-old life-long resident of Milwaukee. She is a 1953 graduate of North Division High School and studied art at a number of art institutes across the nation.

As a mother of three children — all of whom attended Milwaukee Public Schools, she has a natural interest in the education of children.

In 1975, seeing her youngest son was getting a poor education, she withdrew him from the public school system and now teaches him at home in complete defiance of local, state, and federal educational commissars.

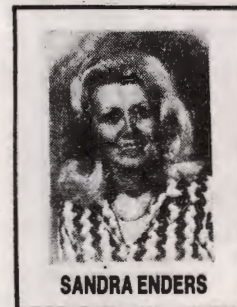

She is totally opposed to the nonsense of forced busing and forced integration of the schools. Since 1974 she has been politically active with the National Socialist White People's Party affiliate — the National Socialist Women's Organization — which she now leads.

### WHERE THEY STAND

1. No forced busing or forced integration
2. Local control of the schools — let each racial community determine the kind of education desired for its students
3. Greater use of existing schools as a means of reducing the property tax load — It is senseless and wasteful to close good schools in order to "racially balance," them
4. A return to the Basics in Education — the "three R's," should be stressed in education
5. Greater parental influence in the selection and purchase of textbooks used in school — we can no longer trust the, "experts," to do that job for us

Let's keep federal hands off of Milwaukee Public Schools.

SANDRA ENDERS

Sandra Enders, 20, is running for the Milwaukee School Board for one very understandable reason: the future education of her new-born son.

As a young mother, she is concerned that when her child is ready for school, there won't be a decent school for him to attend in the city or that he will be bused to school miles from his home into some unsafe area.

As a former student of Washington High School she was able to observe the shortcomings of racial integration. She wants to spare her son and your children what she saw and experienced.

So if you want a real fighter for the rights of white parents on the Milwaukee School Board vote for Sandra Enders Feb. 15.

For the past few years, Sandra Enders has been an activist with the National Socialist White People's Party — she is currently the secretary of the affiliated National Socialist Women's Organization.

## Nazism Rejected

If Tuesday's primary elections in Milwaukee settled anything, they decided for certain that the general election campaign for positions on the School Board will be more reasoned with the absence of Nazi Party candidates from the April ballot.

Both Nazi Party candidates were eliminated — though one only narrowly — in the primary balloting, leaving a field of liberal and conservative candidates, if one must assign labels to candidates for public office.

No one has denied the right of the Nazi Party here to run its candidates for local office. The party fielded a candidate in the last mayoral election and had two women on the School Board ballot Tuesday.

But clearly, the general electorate has chosen not to be taken in by candidacies of a supposedly conservative, but obviously white supremacist nature. The party's description of its candidates as "pro-white" should be evidence enough of an appeal to an instinct more basic to some than opposition to integration alone.

It will be tempting for some to point to how close one of the Nazi Party candidates came to nomination. However, that would be simplistic, given the size of the field and the method by which School Board directors are elected in Milwaukee — all from a single list, except in cases of filling vacancies.

Ideally, the Milwaukee electorate will be able to make its choices in April based on individual attitudes toward education and the stand each candidate takes on school desegregation.

In the end, the election should turn on issues based on fact, not prejudice.

the Milwaukee School Board.

What wasn't foreseen, that no doubt cost the Party several hundred votes, was the senseless killing of five people in New Rochelle, New York, by a lunatic described by the press as a "Nazi." This story broke on 14 February, *one day before the election*. The *Milwaukee Journal* of 14 February and the *Milwaukee Sentinel* of 15 February ran the story on the front page and the Jew-owned TV networks made it the lead story on national network news coast-to-coast.

It was this unfortunate incident that cost us the primary election. Otherwise, *both* Mrs. Enders and Mrs. Osvatic would have placed ahead of the Black candidate, Andrew Haines, and the racial alien from India of all places, Amjareet Basra.

### The Frank Cowan Incident

In response to the bad publicity garnered from the Frank Cowan incident, in particular, to an article in the 28 February issue of *Time* magazine and to a segment on the TV show *60 Minutes*, both of which insinuated a close relationship between that type of individual and this Party, the following two letters were issued by NHQ. (Although *60 Minutes* refused to air our reply, *Time*

This year, only 39,427 people voted — *just 10 percent of the city's registered voters* — yet the official vote tallied up on 18 February revealed Mrs. Sandra Enders had received 7,710 votes and Mrs. Sandra Osvatic 6,304 votes! This means that of the 39,000 who voted in this primary, *1 out of every 4 voters* voted for a National Socialist candidate.

Thus for the *Milwaukee Sentinel* to write an editorial in its 17 February issue (See article at left) that the White voters of Milwaukee "rejected Nazism" in this primary is, upon examination of the facts above, a deliberate lie written by some professional pinhead whose job it is to distort the truth. And the truth is this: while the Liberals and the Conservatives in effect cancelled each other out, the National Socialist White People's Party *increased its vote tremendously over the previous year!*

Far from having rejected National Socialism, support for the pro-White, pro-American, anti-Communist stance of the Party rose from 1-in-20 in 1974 to 1-in-4 in 1977. What was rejected by the 90 percent of the people who didn't vote in this primary was race-mixing liberalism and the spineless conservatism which composes the positions of the members of

Gentlemen:

Your gratuitous remarks about this organization in connection with the Frank Cowan episode were grossly distorted and highly misleading. To suggest that there is any connection between that type of individual and this Party represents the most despicable sort of journalistic demagoguery. Not only does it cloud the issue, but it tends to prevent the kind of understanding necessary to avert similar tragedies in the future.

There are, after all, many Cowans and potential Cowans in our society. They are not the creation of this organization-- which adheres to a program of complete and strict legality. Rather, they are spawned by an irresponsible, violence-catering media which, instead of portraying National Socialism accurately and truthfully, has preferred to create a "Nazi monster" stereotype -- which some unstable minds will obviously find appealing. The end result can only be what happened in New Rochelle.

Sincerely yours,

All Party comrades are urged to take note: The Frank Cowan incident is a good example of the type of publicity WE DON'T WANT! This is the Party of Adolf Hitler, the Party of the elite, and our propaganda and publicity should reflect that image — NOT the image of ignorant bigots, social dropouts and mental defectives. We are in Phase II and not Phase I. All people who can not act accordingly will be expelled!

On 22 January, a Milwaukee ST detachment joined forces with local activists in Minneapolis. The combined teams of ST picketed a Socialist Workers Party bookstore, thundering chants of "WHITE POWER!" and "ROCKWELL LIVES!" Satisfied that the Communists had another day ruined by the presence of National Socialists, the Stormtroopers shifted to downtown Minneapolis, where two hundred WHITE POWER newspapers were distributed.

Gentlemen:

Your distorted attempt to lump us together with various freaks, cretins, criminals and psychopaths who claim to be National Socialists represents the vilest form of yellow journalism.

Instead of presenting an accurate picture of our Movement, what you depicted was a media stereotype replete with staged and unauthorized events of the kind leading to the expulsion of those involved.

As a revolutionary party we attract all sorts, both good and bad. This we cannot control. However, as a standing policy, we demand high standards and continuously weed out the bad. To identify our Party with such marginal types is simply a gross parody on National Socialism.

## Nazi Ranks Thinning

By NANCY CHECKET  
Sun Staff Writer  
First of two parts

ARLINGTON — "Join hands with the heroes in America, Britain, Iceland, Denmark and other White countries who have raised the holy Swastika banner and defended it with their blood.

"It has risen from the ashes of Berlin, and never shall it be hauled down again."

This was the vision of the late George Lincoln Rockwell, founder and first commander of the American Nazi Party, who had dedicated his life to spreading the fascist philosophy of Adolph Hitler in America.

He was cut down by an assassin's bullet in 1967.

His words, stirring to some but racist to many others, have failed to hoist the symbol of the Third Reich any higher than a two-story brick house in north Arlington.

In the years since Rockwell's death, it is hardly even noticeable that the controversial group operates its national headquarters out of Arlington, at 2507 N. Franklin Road.

Party member Wayne Hill receives visitors in a front office of the party-owned house. He sports khaki colored trousers and shirt with a black swastika emblazoned on his shirt sleeve.

Hill, in a recent interview, said that party membership has been decreasing in the past few years. He explained that there is not enough manpower in Arlington to actively work in the community.

Instead, Nazi headquarters serves as an administrative office, charged with printing party newspapers, bulletins, and pamphlets.

Hill mentioned that the county will eventually want their help to keep blacks out and other non-white groups. At this time they are heavily concentrating manpower in the Chicago area where they say they are badly needed to keep white neighborhoods from being destroyed.

There is no way to find out specifically how many party members there are in Arlington. The party is a very secretive group, and for security reasons refuses to give out the number. Members say they don't even know how many people belong to the party.

Upon visiting headquarters several times, it would seem fair to speculate

that there are less than 20 American Nazis in Arlington, or at least active party members.

It is also a secret where the group's barracks or living quarters are located. Because of the group's militaristic nature certain aspects of a spartan life are taken on.

The barracks consist of four apartment units in an unknown location in Arlington, one for single males and three for married members.

Present commander of the party, Matt Koehl, would not consent to an interview at the time of publication. He has been the organization's official

leader since Rockwell's death.

The party ultimately wants to achieve a white America. It is helpful to know that Jews are not considered white people and certainly blacks, Orientals, Italians, and Greeks would be expelled from the country if the group ever had power.

Hill said, "Non-whites only came here to reap benefits from the hard labor of white Americans. They are spongers and leechers."

The organization consists of the party itself, a "choice branch," according to members, whose par-

ticipants must defend public speakers, distribute literature, and picket enemies. In general, they are similar to a political action group.

There is a national socialist youth movement group for males under 18 years of age. Members are taught party values and dedication to party causes.

The newest section of the organization is the National Socialist Women's Organization. Its members are to assist wherever needed in the party's structure at a given time.

Members with outside jobs give a portion of their salary to the party. Hill is one of the few members who works for the party full-time and lives in the barracks.

He was born in Florida and said college was "too bolshevik" for his taste, so he attended only half a semester.

The young Nazi member said he was led to a form of racism when he compared art, and found that the good music, literature and painting was created by whites and the "garbage" by Jews.

He added that he lived in an area near blacks and "saw how they lived, like total animals."

"They took their garbage and piled it by back doors, it just impressed me with their savageness."

The majority of party members are from lower-middle class backgrounds, with a high school education at most. According to party officials, many members have a fascination with guns and for military trappings.

From some accounts, many members once served time in jail for various crimes, but Hill said this is erroneous and he knew of only one Arlington member who had been jailed.

Hill said though, that the party gets a lot of financial contributions from people who have been in jail.

Randy Shirk, 21, one year younger than the average party member, has been in Arlington as a stormtrooper, a type of Nazi military ranking, for the past year and a half.

He found out about the group five years ago through a newspaper article. "Before that I had the basic ideas and beliefs of the party."

Shirk comes from a less than modest background. "My parents barely keep their heads above water," he said. He has always believed in the supremacy of the white race, but doesn't quite know where he picked up the philosophy.

## 'Defenders Of Racisim'

By NANCY CHECKET  
Sun Staff Writer  
Second of two parts.

ARLINGTON — The American Nazi Party is not blossoming in Arlington the national headquarters for the party, but it appears that they are gaining ground in San Francisco, the Golden Gate City.

Richard Johanson, a party affiliate who was visiting Arlington headquarters last week, ran for the San Francisco Board of Education in November and received one out of every 10 votes cast.

Johanson ran as the white people's candidate, and promised "hiring and promoting teachers on the basis of ability and performance rather than some insane minority-quota system," if elected.

He is in the process of obtaining membership to the party. To become a member of the Nazis' National Socialist White Peoples Party, interested persons fill out a lengthy application. If the application is accepted, a six-month probation period follows, with a quota of activities to be accomplished. One out of every 10 applicants is accepted for party membership.

Johnson said his interest in the party stems from a realization that "there is gross decadence in the 20th Century world," and there is one small group to blame: the Jewish people.

He blames the downfall of Christianity, and

# Nazi Pieces Called 'Hateful, Intolerant'

To the Editor:

It is unfortunate that the Sun decided to palm off on its readers such a highly biased and distorted account of the National Socialist White People's Party in a recent series of articles and editorial. After our organization had acceded to a request for an interview with one of your reporters - following assurances that any coverage would be fair, objective, and impartial - we were treated to an example of journalism so hateful, malicious, twisted and intolerant, that the net result can only be to render this community a distinct disservice.

To give several examples:

(1) You chose to create the myth that the N.S.W.P.P. is anti-Catholic, disregarding the fact that Hitler, Goring, Goebbels, and many other prominent National Socialist were, and are Catholic. As for the N.S.W.P.P., approximately 50 percent of our membership is Catholic.

(2) You fostered the notion that the N.S.W.P.P. is anti-Greek and anti-Italian - not bothering to inquire as to the truth of this. Had you wished to do so, you would have been told that the N.S.W.P.P. has several supporters of those nationalities in Arlington alone.

While ours in an American organization, vitally concerned about this great nation and the people who built it, you chose to ignore the many practical alternatives we have proposed to pressing contemporary problems, and engaged instead in cheap, Nazi-baiting demagoguery by dredging up those tired, overworked, long-discredited canards which emanated with the hate propaganda of World War II. Unfortunately, while most of us have long since rejected the notion that those evil huns ate Belgian babies for breakfast in the first great crusade to save the world for democracy, there are still some who cling to latter-day TV stereotypes about fiendish Nazi monsters who built gas ovens and made lampshades out of people, and who reduced nice Jewish boys to neat little bars of soap - which presumably every Aryan German wanted to bathe with!

All of this, of course, is pure hogwash and an insult to the intelligence of anyone with even a grain of common sense. But apparently you find value in pandering to the moron level and keeping the old mythology alive.

Had you been interested in an honest understanding of our organization, rather than a clumsy attempt to foster ill will, hate, and suspicion where none had existed, you might have found it rather edifying. You might have discovered, for example, that our participation in a crime-prevention effort in the vicinity of our headquarters has resulted in a notable decrease in several categories of crime. You would have found out that we

have received several citations for patriotic activity from a very prominent civic group. And far from being the pariahs of the community which you imagine, you would have discovered that we enjoy excellent relations with your neighbors.

Regarding your assertion that our ranks were "thinning," we found it both incredible and amusing, since as a matter of official policy we do not release membership figures. However, if you find it reassuring to whistle in the dark about the irrepressible phenomenon represented by National Socialism in America today, well then, please continue. But let us assure you of one thing: Long after the Northern Virginia Sun under its present management has disappeared from this community, we will still be here.

rampant drug use on Jews and said the final aim of the Jewish people to conquer the universe.

Johnson's viewpoint is based upon the great volume of Nazi literature and philosophies upon which the party was founded. The American Nazi Party's members consider themselves to be on a racial mission. He claims that white Americans must gain a realization that they are part of the greatest race ever to walk on the face of this earth.

"National Socialism...will face...the threat to Aryan survival by

mobilizing the White people..."

"For it will be the task of National Socialism to assign a definite purpose and mission to our unformed nation, just as it will be the task of our Movement to face squarely the threat to Aryan survival by mobilizing the White people of America into one powerful fighting front which will stand above all ethnic, religious, regional and occupational differences with separate them," said Koehl in "America: A Racial Mission."

Adolf Hitler is the "spiritual" leader of the party. In Arlington the organization sponsors a birthday celebration for Hitler each year.

Party members consider Hitler the defender of the Christian faith against "Asiatic hordes." The late George Lincoln Rockwell, founder of the American Nazi party, once said, "Is

life so sweet, is comfort so precious and a job in a Jewish counting house so sacred that we are afraid to grasp the mighty hand of Adolf Hitler reaching down to us out of the glorious past?"

Rockwell did many bizarre things to attract public attention to the group. He was a pro at writing racist propaganda. One of Rockwell's better known publications was a satire of "The Diary of Ann Frank," which he renamed "The Diary of Ann Fink."

In this small booklet he

places cruel satirical captions under some of the most horrendous photographs ever taken of Nazi concentration camps.

Koehl, on the other hand, is much quieter than Rockwell and according to officials, "doesn't go in for the kind of publicity Rockwell loved."

Large pictures of Hitler adorn the walls of the party's headquarters at 2507 N. Franklin St. Party officials ignore the reality of the World War II German concentration camps where piles of bodies littered the yards at Dachau and where the ovens in which millions of Jews met their deaths were finally cooled at Auschwitz and Treblinka by Allied forces.

The American Nazis prefer to think of Hitler as the savior of the white race who is slandered by the "liberal press."

### Three Year Plan Past Half-way Point

During the first month of 1977, the Three Year Plan passed the half-way point in time. As of 31 January, a grand total of \$43,091.39 was raised, or 48½ percent of our goal. Although this sum represents a considerable effort on the part of all those who contributed, we are still lagging behind.

All comrades are urged to remember that we must raise an average of \$3,000 a month to meet the deadline of \$88,888 by 20 April, 1978, or about *SIX TIMES* what we raised in the last month. (Only \$463 was contributed to the Plan in January — understandable as it falls right after Christmas and the Fall Building Campaign.) For every period we fall short, we must strive harder in the months ahead.

If you look at the map above, you will notice that contributions came from National Socialists nationwide — from Alaska to Florida, from Maine to California. However, the participation is sporadic — many states that should have come through (especially those with organized units) did not produce a single contributor. This is damaging to the spirit of the project. We want to demonstrate that we are all working together, that all National Socialists from across the U.S. and Canada are pitching in and doing their share, instead of a few people in a few locations.

Listed below are the initials and amount of contribution of each comrade who gave a donation in January.

## ELISABETH SCHMIDT

National Headquarters was extremely sorry to learn of the death on 25 January of Official Supporter Elisabeth Schmidt, 48, of New York City. Mrs. Schmidt, who was born in West Prussia and was a member of the Russian language department at Columbia University, passed away unexpectedly from cancer while on a trip to Lower California. In the 15 years she was associated with the Party, she never wavered in her loyalty and could always be counted on to help. During many a difficult time, she regularly went beyond the call of duty and consistently advanced this Cause in ways that few can fully appreciate today. She will be greatly missed by all who knew her, but never forgotten by the Movement in which she had undying faith.

### Anti-National Socialist Officials Thwart Party Candidate in Pasadena

Anti-National Socialist officials in Pasadena, Cal., successfully prevented a Party candidate from running for office in the 8 March school board election (see clippings below). Los Angeles North Unit Secretary Doug Winkleman was disqualified on a technicality, which in normal circumstances would not have presented a problem.

All the necessary petitions, nominating papers and declaration of candidacy were filed well in advance of the 5:00 p.m., 7 January deadline. However, the declaration of candidacy was unsigned. On his way to sign the document, Comrade Winkleman developed car trouble, which caused him to be late. He phoned in and told the election officials that he would be late, but that he would appear. When he arrived, 10 minutes past the deadline, the officials accepted the papers and the \$25 filing fee, but told him that the final decision on the acceptability of his candidacy would rest with the superintendent of schools.

The Party was notified the next monday that our candidate would not be allowed to appear on the ballot, as he had missed the deadline. It just so happens that the superintendent is Ramon Cortines, a Mexican mongrel with a long record of anti-White and anti-National Socialist bias. In fact, he was the one who had Comrade Winkleman thrown out of high school in the spring of 1975, for no other reason than he was a National Socialist. On 17 January, District Leader Martin Kerr and Comrade Winkle-

man appealed to Cortines in person in an effort to get him to reverse his decision, but he refused.

If any benefit is gained from this affair, it should be to remind any potential Party candidate to be sure to meet every petty requirement and deadline necessary when filing for office. There is nothing we can do right now about the System bureaucrats that are in power, but we can deny them any easy excuse for thwarting our efforts!

## 17 Pasadena candidates file

Seventeen candidates have met the filing deadline for Pasadena city and school board primary elections March 8, but a candidate calling himself a "White power organizer" may have missed that deadline, officials reported Friday.

Also, two of the three city director incumbents, Donald Yokaitis and Henry Wilfong, will be opposed in the city primary.

The school district received filing papers for Douglas Winkelman, who listed himself as a "white power organizer," but the papers were unsigned and notarized, a school official said.

Winkelman filed for Office No. 5, and gave his address as 679 Earlham St., Pasadena.

Winkelman's application, a school spokesman said, will be given to the county registrar's office, and that office will determine whether the

## Nazi official loses school candidate bid

By DAN MEYERS  
Staff Writer

Pasadena Unified School District Supt. Ramon Cortines has denied the appeal of a National Socialist White People's (Nazi) party official who sought to be accepted as a candidate for school board Seat 5.

At a meeting in his school district office, Cortines repeated his statement to would-be candidate Douglas Winkelman that Winkelman had missed the filing deadline and so must be disqualified as a Board of Education candidate.

Because Winkelman's nominating petition and declaration of candidacy were not signed or notarized before the deadline — 5 p.m. on Jan. 7 — Cortines said, his candidacy cannot be accepted.

Winkelman listed his occupation on filing papers as "white power organizer."

Nazi spokesman Martin Kerr confirmed that on Monday Cortines refused to budge. Kerr identified Winkelman as secretary of the Los Angeles Nazi chapter.

Kerr charged that, while Winkelman had missed the letter of the law when he missed the filing deadline, the spirit of the law is being denied in "a clear violation of our rights."

papers, and so missed the 5 p.m. deadline. The Nazi party spokesman said Winkelman will meet with Cortines Monday to ask the superintendent to reconsider. He said legal action was possible.

"Are we being excluded because we are a minority party?" Kerr asked. "Would board President Henry Myers be excluded if he had been late?"

## 'White power organizer' barred from Pasadena race

A candidate who listed his occupation as "white power organizer" has been disqualified in his bid for a Pasadena Unified School District seat because his application was incomplete by filing deadline, according to district Supt. Ramon Cortines.

Cortines told the Star-News that on Monday he wrote a letter to Douglas Winkelman, stating that "we are sorry we cannot accept your candidacy" for school board Seat 5 because the nominating petition and statement of declaration of candidacy were not signed or notarized.

Those papers, unsigned, were presented to the district last Friday before the filing deadline of 5 p.m.

However, Winkelman did not appear to sign the documents, Cortines said, so he was disqualified after district officials consulted with the registrar of voters and checked the Pasadena city charter.

Cortines said Winkelman's \$25 filing fee would be returned.

Winkelman was unavailable for comment Monday evening. The address listed on his filing papers, on Earlham Street, has previously been identified by Pasadena police as the residence of several members of the National Socialist White People's (Nazi) party. Residents at the address said Monday night, however, that Winkelman no longer lives there.

## Nazi will appeal ban from election

A candidate who describes himself as a "white power organizer" is appealing his disqualifications from the race for Pasadena Unified School District board Seat 5, according to Martin Kerr, an area leader of the National Socialist White People's (Nazi) party.

The candidate, Douglas Winkelman, failed to complete his Board of Education filing papers by the 5 p.m. deadline Jan. 7, said Supt. Ramon Cortines, who told Winkelman, "We are sorry we cannot accept your candidacy."

Winkelman had submitted the \$25 filing fee, his nominating petition and a declaration of candidacy, but the petition and declaration were not signed or notarized.

Kerr said Winkelman was delayed by an automobile breakdown en route to the district to sign his

## Trial of Texas Comrades Postponed

The trial of two Houston-Galveston area comrades, who were charged with "disorderly conduct" in the 24 July picket of a pornographic theater, was postponed on 8 February. The arresting officer did not show up in court, so the prosecution was granted a continuance of several weeks. The outcome of the case will be reported in future issues of the *NS Bulletin*.

The phony charge stems from the complaints of the Jew owner of the so-called "Academy Adult Theater" in downtown Houston, who became quite enraged at the sight of uniformed National Socialists in front of his theater chanting "BAN JEW SMUT!" (see *NS Bulletin* No. 209 for details). The Hebrew claimed that the activists were "interfering with his business" and "disturbing customers." However, since the establishment shows nothing but vile, obscene movies, witnesses have been too embarrassed to appear in court.

The American Civil Liberties Union is representing the National Socialists as a test case, as they feel that the city's disorderly conduct law is too vague and infringes on the rights of the citizens. If, as expected, the defendants are found guilty in the municipal court, the conviction will be appealed by the ACLU on the county or district level where it is likely to be overturned as unconstitutional.

## WHERE THE ACTION IS!

The Eighth Congress of the National Socialist White People's Party will be held over the Labor Day weekend, 3-5 September 1977. The location will be announced in a coming issue of the *NS Bulletin*. This notice is given well in advance to enable everyone to keep that weekend open and plan to attend.
