Midwest Troopers March Against Reds!

Stormtroopers from Milwaukee and Minneapolis joined with Chicago ST men for a full day of activities on 15 April. Midwest Regional Leader Cedric N. Syrdahl called the day “one of the greatest and most significant days in the history of the Party in Chicago.”

After a briefing at the Party headquarters in Cicero, two groups of ST men headed towards downtown Chicago, where various Communist groups had planned a “smash the Nazis!” rally. Upon arriving at the rally site, the troopers were amused to see that the Red rally had fizzled, and that only a handful of curious onlookers were present to see and hear three crazed Bolsheviks scream at them about smashing the “Nazis” and building the “workers’ revolution.”

After picketing there for a while, the troopers moved on to the Federal Building where an impromptu White Power demonstration was held.

That afternoon, a series of WHITE POWER newspaper sales were held simultaneously at three different busy locations on the city’s Southwest side, during which nearly two hundred dollars was collected. After the sales were finished, the ST men from the three different locations joined together for a two-mile march through White neighborhoods. Many enthusiastic Whites joined in at the end of the Stormtroop column, and eagerly carried the White Power picket

signs that had been used earlier in the day.

The day's public activities culminated with a tour through more White neighborhoods in the Chicago Unit's White Power bus.

An in-depth report on the activities was broadcast several days later on NBC-TV. In the broadcast, the professionalism and discipline of the Party was emphasized. The ST stood out in sharp contrast to the rag-tag "Nazis" of a local splinter group.

The Chicago Unit reports it has benefited greatly as a result of the publicity and public support which the days' activities gained for the Party.

Congress Theme Announced!

National Headquarters has announced that the theme of this year's congress will be "Forge the Revolutionary Hard Core!" Special emphasis will be placed in the congress on building the revolutionary elite needed to lead a successful National Socialist revolution on the North American continent.

In keeping with this concept, admittance to the Ninth Continental Congress of the National Socialist White People's Party will be strictly limited to long-time Party members and activists.

In addition to Registered Delegates, a small number of Official Observers will be allowed to attend certain select sessions of the congress. Those comrades who are chosen as delegates and observers will be informed of further congress details by 15 July.

Orange County Organizational Progress

Comrades of the newly formed Orange County Unit (formerly called Los Angeles Unit II) report much progress during the first two weeks of April. Among other activities, the unit held a special closed meeting on 2 April, conducted two literature distributions and spoke to an audience of high school students. Additionally, the unit operates a White Power Message. Those interested in contacting the Orange County Unit may do so at the following address:

Note From the Membership Secretary

Are you giving all you can to the Cause? Most likely since you first became an Official Supporter, your financial situation has improved. Due to inflation alone, most people have received raises. Does your O.S. pledge reflect this or is it the same as when you first joined?

Many comrades, as their situations improve, continually increase their monthly pledge. This helps the Party meet its increasing expenses, because it, too, is affected by inflation.

Ask yourself this question: Is the Party's struggle worth the sacrifice required in order to see it succeed?

If your answer to this question is "yes," then you know what you should do.

**Milwaukee, Chicago ST
Confront Reds**

On 1 April, ST men from Chicago travelled to Milwaukee to assist Milwaukee Unit I in a day of activity. After selling the paper briefly at Mitchell Field Airport, the troopers went to a bookstore run by the Revolutionary Communist Party. The RCP has boasted several times that it has driven the "Nazis" from the streets of Milwaukee.

The ST passed back and forth in front of the RCP front door as a motley gang of Reds gathered across the street to shout insults at the National Socialists — from a safe distance. They were assisted by their comrades inside the bookstore, who made a great display of shaking baseball bats, clubs, etc., in an effort to scare the ST men away.

The picket concluded without incident.

ACTIVITIES IN BRIEF

● The Commander was interviewed for three hours on WGST-Radio, Atlanta, Ga., on 6 April. After being interviewed by the moderator, the Commander answered questions phoned in by the listening audience.

● WHITE POWER editor Martin Kerr spoke over WVAM-Radio in Altoona, Pa., on 13 April. Comrade Kerr gave special emphasis to deflating the Six Million lie, and answered general questions about the Party's beliefs put to him by callers.

● An effective way to spread the good word is to place an ad for WHITE POWER in another

publication. Reproduced here are two ads Party supporters in Maine and New Jersey have placed recently. The Maine ad appeared in the *Bangor Daily News* and the *Maine Campus*. The ad placed by the New Jersey comrades appeared in *The Voice*, a German-American publication.

● Reproduced here are some letters-to-the-editor on the "holocaust" by two New England comrades that were printed recently.

'Extermination camps'

East Holden

To the Editor:

I would like to reply to the editorial, "The spring clubbing," in the editorial section of the *Bangor Daily News* (March 20).

In this editorial the author states that Adolf Hitler exterminated 6 million Jews. This story of the so-called "extermination camps" is one of the most monumental lies of the 20th century. There is not one document from official German sources relating to the extermination of the Jews — and I challenge the author to cite one document to the contrary.

The whole myth has been created from unsubstantiated statements from people who could not possibly know the facts; did any one person or group of persons stand and count this number or any other figure? The one statement relating to the 6 million comes from a Dr. Hoettl who was a double agent for the Americans and the Russians and while he worked for Eichmann during the war he never told his American employees of this policy to exterminate the Jews; his statement that Eichmann told him that 6 million Jews were exterminated — a charge Eichmann denied — is the sole authority for the charge that 6 million were executed in these "extermination camps."

The Auschwitz crematorium where much of this "holocaust" is supposed to have taken place, does not exist and the basis for this mass crematorium myth is a statement by a Dr. Bendel. He states that the crematorium was burned up in full view of the camp, a statement no other person has corroborated.

This whole myth has been based on unsubstantiated statements.

It is true that there was starvation in the camps in the last part of the war and this was caused by two factors: the British and American bombing raids which destroyed all the roads and rail lines in the east. Indeed a whole German army was starving because there were no roads or rail lines left to supply them, even an attempt to supply them by cargo planes failed; and a major typhus epidemic.

Scheduled docudrama is called unfair

To the Editor of The Standard-Times:

Northwestern university Prof. Arthur Butz, who has written a book, "Hoax of the Twentieth Century" proving that the Nazis did not murder six million Jews during World War II, as is commonly believed, addressed an audience in Milwaukee on this subject.

Speaking to an overflow crowd of several hundred, Professor Butz said that "only 400,000 people died in the camps from all causes. Only a minority of these were Jews."

Therefore, I think NBC is wrong in proclaiming their upcoming movie, "Holocaust," is "fact," when actually it is far from that. There have been numerous books convincingly downgrading the extermination theory, some written by inmates who were there. A couple that come to mind are "Did Six Million Really Die?" by R. Harwood and "Auschwitz: Truth or Lie?" by T. Christopherson.

In spite of all this, the people will be subjected to more World War II hate propaganda on another infamous docudrama series. It is unfair to Americans of German descent. It is unfair to Americans who want less violence on TV. It is unfair to American mentality by trying to brainwash us with this gruesome fairy tale.

● Three local units — Chicago, Milwaukee I and Orange County — report that they conducted **WHITE POWER** distributions in the first two weeks of April.

● The Milwaukee NSWO unit reports a busy month in April. In addition to a number of internal functions, NSWO members conducted a vigorous sticker campaign in White neighborhoods, painted picket signs for an upcoming "Holocaust" demonstration, and raised \$28 for the Three-Year Plan.

● Paper sales were held in Alexandria, Va., and Chicago during the first half of April. National Headquarters staff members were joined by non-staff personnel for an out-of-uniform paper sale in Alexandria's "Old

Town" on 1 April. The paper sale held in Chicago on 8 April netted the unit there \$85, in sales of newspapers and bumper stickers.
