BULLETIN

OFFICIAL INTERNAL ORGAN OF THE
National Socialist White Peoples Party AND THE **National Socialist Youth Movement**

Number 275

April 1981 YL-93

"To this System we say: 'We are no longer deceived by your lies. We shall fight no more of your bloody wars. Instead, we are going to make war on you yourself. And if we must die, then it will be in a revolution here at home, and not one of your wars abroad!' And if this be treason, then we are happily prepared to make the most of it."

Indianapolis Mayor Seeks to Fire NS Police Officers and Firemen

Indianapolis Mayor William H. Hudnut announced in late March that he would fire any Indianapolis police officer or fireman who belonged to the "American Nazi Party." Hudnut's outrageous pronouncement came in the wake of an investigation which disclosed that a number of policemen and fire department personnel were Party activists.

This investigation itself was the result of a disclosure made during a routine internal inquiry by the Indianapolis police department, following a shooting incident that left one person dead. The incident occurred when a police officer who was associated with the Party confronted an armed, Black burglary suspect in the line of duty. When the suspect drew a pistol on the officer, the officer drew his own weapon and shot the suspect dead.

The internal investigation into the facts surrounding the shooting exonerated the patrolman of any wrongdoing at all. It also revealed, however, that the officer involved in the incident had attended Party functions in the past. This disclosure caused anti-NS mayor Hudnut and a gaggle of flunkies to begin a witchhunt throughout the police and fire departments to discover if any other public employees were NS activists. The search revealed that several persons in both departments were indeed affiliated with the NSWPP.

Hudnut has vowed that he will discharge all of these city employees solely because of their NS political beliefs—*regardless of whether or not it can be shown that their association with the Party has in any way affected their performance!* He has further stated that if the courts attempt to prohibit him from doing this, he is willing to take the case all the way to the Supreme Court.

Although his witchhunt against White racial dissidents brought him immediate and glowing praise from local Communist, Jewish and Black groups, a number of honest liberals—including some in the American Civil Liberties Union—were aghast at Hudnut's intentions. For their part, Indianapolis Party comrades are determined to keep both their jobs and their National Socialist faith. The officer involved in the shooting (who, incidentally, is not himself a member of the Party) has retained counsel and is also willing to carry the fight to the

Supreme Court if necessary.

This whole affair has generated a tremendous amount of local publicity for the Party. Much of this publicity, however, has been blatantly hostile and distorted. ("Nazi Party Stockpiling Arms in State?" read the headline of one sensationalist news article.)

Local Party spokesman Clayton Roots, a member of the Indianapolis fire department, has informed National Headquarters that the city's efforts to harass Party comrades will not hinder the schedule of activities planned by the Indianapolis Unit for this spring and summer.

Further details on this case will be revealed in upcoming issues of the NS BULLETIN and WHITE POWER. Those wishing to contact the Indianapolis Unit should write to:

National Socialists Mark Birth of Commander Rockwell

National Socialists from across the Midwest joined with Commander Koehl on 7 March to commemorate the birth of Lincoln Rockwell and the founding of the Party.

The day started off with the yearly march and wreath-laying ceremony in Bloomington, Ill., where Commander Rockwell was born. Contingents from Party units in Cleveland, Chicago, Indianapolis and Milwaukee took part in this event, which received local news coverage.

That evening a special meeting honoring Lincoln Rockwell was held in the Party's Midwest Headquarters in Cicero. Commander Koehl paid tribute to Lincoln Rockwell for recognizing the historical significance of Adolf Hitler and National Socialism. He further praised him for his courage and warrior spirit, as well as his steadfastness and refusal to give up, no matter how hopeless things looked. Commander Koehl also compared and contrasted the style of Commander Rockwell as an agitator and a propagandist with the substance of his beliefs.

In other remarks, Commander Koehl derided those deluded individuals who think that Ronald Reagan will solve the serious problems facing our Race on this continent. He also emphasized the importance of the Two-Year Plan in the development of the Party, and urged as many comrades as possible to attend the leadership school in Chicago over the fourth of July weekend, which is being held in connection with the Plan.

The Commander went on to stress the importance of personal involvement on the part of each individual comrade in the Movement's growth. He concluded by noting that we are standing on the brink of a whole new age, unique in human development and that future generations will look back upon us as their forefathers.

Don't Help the Jews. . .

. . . discredit the Party in the eyes of the broad masses of White people.

For reasons already explained at length elsewhere, Party policy *absolutely forbids* Party personnel from vandalizing stores, religious centers and private residences of Jews, Blacks, race-mixers, etc. Any Party member, probationary member or Official Supporter, or any full or probationary member of the Stormtroops, the National Socialist Women's Organization or the National Socialist Youth Movement, who engages in activities of this nature will be summarily expelled from the Party and its auxiliary formations.

Not by acts of petty harassment and vandalism, but rather only by building a powerful White people's movement through winning the hearts and minds of our racial brothers and sisters to National Socialism will our Cause be successful.

Any comrade who feels unable to adhere to Party discipline in this matter should tender his or her resignation to National Headquarters immediately.

ACTIVITIES IN BRIEF

- Activists from the Chicago Unit attended an anti-nuclear rally in downtown Chicago on 28 March, to make National Socialist opposition to nuclear power known to the public. The NS presence was not gladly received by the Marxist organizers of the event. The only incident occurred, however, when one brave Red grabbed a stack of leaflets being distributed by the Party comrades. With two National Socialists in hot pursuit, the Red decided that discretion was the better part of valor in this case and ran to nearby police officers for protection. The Party's attendance at this event was duly noted on the evening news.
- Comrades in Northern California report receiving some news media coverage after conducting a special distribution of the Party's "On Crime and Punishment" leaflet to 150 sheriff's deputies and 30 police officers. The comrades simply asked the law enforcement agencies in their community if they would distribute the Party's statement on crime and punishment to each of their officers. The agencies agreed and local activists then supplied them with the number of leaflets needed.
- Comrades from units in Arlington, Charlottesville (Va.), Cleveland, Chicago, Milwaukee, Salem (Ore.) and the Northern New Jersey-New York City area also report conducting organized literature distributions during March.
- Comrades from a number of Midwest locales pitched in to help White separatist Gerald Carlson in his campaign for Michigan's fourth congressional district during March. Besides those comrades who lived in the district itself and those who helped out from nearby Detroit, National Socialists from the Cleveland and Chicago units joined in the effort. (Mr. Carlson—who is not a member of the NSWPP—was defeated in his primary bid on 24 March. He came in fourth in a field of seven candidates, receiving 1.6 percent of the total vote.)
- National Organizer Martin Kerr was interviewed over radio station KNT (Seattle, Wash.) on 25 March.
- The WUNS headquarters in Europe reports that 10,000 copies of *The Future Calls* by Commander Koehl have been printed to date in four languages (Danish, English, French and German). Additionally, a Spanish-language edition is now in preparation. (*The Future Calls* is available from NS Publications in Cicero for \$1.)
- German World Union of National Socialists member Ernst Balke was sentenced to one year in prison by the Bonn treason regime in March. Comrade Balke was found guilty of the "crime" of distributing NS propaganda materials in Occupied West Germany.
- A number of comrades had letters to the editor published in March. Comrade J.S. of Chicago had a letter printed in his college newspaper describing the plight of Rudolf Hess and castigating Amnesty International for not coming to Comrade Hess' defense. National Organizer Martin Kerr had a letter to the *Washington Star* printed on 19 March. Comrade Kerr's letter dealt with the dwindling White birthrate in the U.S. and the prospect of this country becoming over 50 percent non-White in the coming century. A lengthy letter from Comrade Kerr was also printed in the racist journal *Instauration* in March, which explained the differences between real National Socialists and Hollywood-style "Nazis." This letter is reproduced on page 3 of this bulletin.

Nazis vs. Hollywood Nazis

A clarification from a subscriber:

All too often the National Socialist movement in America has presented itself to the public in such a manner that has only served to perpetuate the myth served up by the mass media that "Nazism" is nothing more than some sort of extreme, aggressive German national chauvinism based on race hatred. Unfortunately, certain segments of the National Socialist movement have repeatedly confused the outward trappings of the German National Socialist movement with the actual substance of the National Socialist world view. That the enemies of the NS movement -- be they Zionist, capitalist or Communist -- deliberately misinterpret what it stands for is understandable. But for those who claim to be "in the movement" to help perpetuate the false, distorted, Hollywood image of National Socialism is inexcusable!

These "Hollywood Nazis" -- as they are so aptly termed -- are simply too intellectually shallow to comprehend the true essence of National Socialism. They think that to advance the cause of National Socialism they must parade around in public in brown shirts and armbands (preferably in front of television cameras), incite hatred against all non-Aryans and get drunk every April 20 to celebrate the birth of Adolf Hitler.

Other would-be National Socialists, while realizing the "Hollywood Nazi" stereotype is false and misleading, believe they can use this distorted image to obtain media publicity that they would not otherwise receive, and they gear up their activities accordingly.

The result of the antics of such self-styled

"Nazis" has been to make the entire NS movement in the U.S. a gross caricature of real National Socialism. The kosher media masters are only too glad to lavish extensive air time and column inches on these "Hollywood Nazis."

Note the manner in which the "American Nazi Party" is portrayed by the illusion moguls of filmdom. (The term "American Nazi Party" itself is a generic name used by the media when referring to any National Socialist organization; it is not the actual name of any specific group.) Television shows such as *Lou Grant*, *Hawaii Five-O* and *Medical Center*, among others, have used "American Nazis" as villains on occasion. The remarkable thing about these shows is the accuracy with which they depict a certain type of American "National Socialist" outfit. The producers found no reason to distort the image further -- it was just fine the way their researchers found it, thank you. Take the documentary film *California Reich*, which focused on a grouplet of "American Nazis" in San Francisco. The film was nominated for an Academy Award when first released, and was later shown by the Public Broadcasting System over the unusually feeble and ineffective protests of the Anti-Defamation League of B'nai B'rith.

Virtually all Americans think that the shenanigans of these high-media-profile "Nazis" is all there is to National Socialism. They are mistaken. There are legitimate, serious National Socialists on this continent. There are not a lot, and we don't get a lot of news media play. But we are here, and we are silently and successfully working towards our goals.

We have not confused the inner substance of National Socialism with its outer form. We recognize that the *National Socialist world view* -- the substance -- is based on the eternal laws of nature and is unchangable. At the same time we realize the *National Socialist movement* -- the form -- is purely a matter of expediency (in so far as such expediency does not flatly contradict the basic principles of our world view.)

One of our major goals is to turn the National Socialist movement in this country into a movement that can find acceptance and a substantial following, among the mainstream of white Americans.

We want to see the NS movement cease to be a curious, misunderstood fringe element on the American political scene, and become a power factor which can exercise a positive influence on the destiny and future of our race. Thus, we oppose all actions and posturings by "Nazi" activist groups which tend to reinforce the hostile, distorted caricature of National Socialism, which is so pleasing to Jews -- and antagonistic to white people. Public agitation of this sort is anti-historical, anti-political and contrary to the principles of organic growth and development.

It is possible for National Socialism to be a successful movement in the U.S. This potential will only be realized, however, to the degree that it is able to truly transcend its narrow national origins and sink its roots deeply among the Aryan population of North America.

Notes from NS Publications

1. *The Revolutionary Nature of National Socialism* by Matt Koehl is now available in booklet form, with a striking red, white and black cover. In this essay, first published in THE NATIONAL SOCIALIST, Commander Koehl discusses the relationship between the National Socialist movement and Western Civilization. He also discusses where the true allegiance of each National Socialist comrade resides in this era of national, racial and moral decay. Price: \$1.50

2. The minimum order from NS Publications is now \$5. Mail orders less than this will not be accepted. Postage and handling on all items remains 10 percent.

3. Illinois residents must add six percent sales tax on all orders purchased from NS Publications in Cicero.

4. The prices for Swastika mini-stickers were inadvertently left out of the NS Publications page in WHITE POWERS number 97 and 98. The prices for these stickers are: 50/\$2; 100/\$3; 500/\$10.

5. *The Turner Diaries* by Andrew Macdonald. A fictional account of an NS White people's revolution in America in the 1990s. Highly recommended. Price: \$4.95

THE REVOLUTIONARY NATURE OF NATIONAL SOCIALISM

by Matt Koehl

TWO-YEAR PLAN NOTES

Study National Socialism!

A key aspect of the Two-Year Plan is strengthening the ideological uniformity of the Party. In the past, many people in the Movement have considered National Socialism to be some sort of loose, vaguely-defined philosophy, open to a variety of interpretations and colorations, dependent on the particular outlook of each individual comrade. Thus some comrades incorrectly saw the Party primarily as a right-wing, anti-Communist vehicle while others viewed the Movement simply as an outlet for their anger and frustrations against non-Whites or the System in general.

In truth, National Socialism is a world view with a very specific, well-defined set of underlying beliefs and values. And growing out of these basic tenets are a wide range of policies—political, social, economic, spiritual and racial—which are likewise specific and well-defined. *National Socialism is a total world view, encompassing every aspect of human existence.*

While there is a certain flexibility in the interpretation and application of our basic principles and beliefs, such flexibility may be found only within very strict guidelines.

How does one go about determining what is correct National Socialist policy in any given field? Quite simply, *by studying National Socialism.*

The Party plans to produce a home-study course on National Socialism, which will allow every comrade to learn the correct basics of the National Socialist world view and its policies for himself or herself. Until this program is ready, however, there are a number of texts that each comrade should study to deepen his knowledge of National Socialism.

1. *The Program of the National Socialist White People's Party.* Absolutely essential. [Every comrade should know this backwards and forwards.]

2. The ideological section of *WHITE POWER*, such as NS definitions, questions and answers on various topics and Commander Koehl's editorials.

3. *THE NATIONAL SOCIALIST* magazine. While more difficult than *WHITE POWER*, this journal discusses different aspects of the NS world view in depth. Especially significant articles from *THE NATIONAL SOCIALIST*, such as Matt Koehl's *The Revolutionary Nature of National Socialism*, will be reprinted in booklet form. Pay special attention to them.

4. *Mein Kampf*. We list this last not because it is less important than the other items mentioned here, but because it is the most difficult, especially for newcomers to the Movement. When all is said and done, this is the cornerstone of the National Socialist world view. Those just beginning to study National Socialism should pay particular attention to the chapters "Nation and Race" and "The State."

National Headquarters is very pleased to learn that a number of local units are now conducting NS study groups. The Cleveland and Chicago units have study groups which meet weekly, and the Charlottesville and Milwaukee units report conducting ideological instruction in connection with their regular monthly meetings.

The Chicago comrades have produced a study manual for their own use, consisting primarily of reprints from *WHITE POWER*. Although not entirely complete, we recommend this manual to other study groups and individual comrades until such time as National Headquarters is able to produce the home study course now being planned.

Copies of this manual may be obtained by sending a contribution (to cover printing and postage) to the Chicago Unit:
