

BULLETIN

OFFICIAL INTERNAL ORGAN OF THE
National Socialist White Peoples Party AND THE National Socialist Youth Movement

Number 287

June-July 1982 YL-94

“National Socialism is the only movement which has gained sufficient self-knowledge and insight to be able to understand this movement away from liberal artificiality and short-sightedness and toward the eternal wisdom of Nature. Our all-out belief in race, our insistence on the natural laws in society, economics and every other field of human activity are, in every case, the conscious, scientific application of Nature’s iron laws, instead of the short-sighted perversions of these laws, as pushed by the arrogant, peanut-brained liberals and Marxists.”

—Lincoln Rockwell

National Organizer on Denver Radio

National Organizer Martin Kerr was interviewed over Denver radio station KOA on the morning of 29 June. The call-in talk show Comrade Kerr spoke on has a huge listening audience and is syndicated in over a dozen Western states.

National Socialism is radically different from all of the dominant ideologies which exist today because it is based on the laws of Nature — that is, on facts and reality — and not on some abstract idea, Comrade Kerr began.

He specifically contrasted National Socialism with the following doctrines:

- Liberal Christianity, which is based on the idea of spiritual equality;
- Democracy, which is based on the idea of political equality;
- Marxism, which is based on the idea of economic equality; and
- Multiracialism, which is based on the idea of racial equality.

All of these doctrines are false, Comrade Kerr told the listening audience, because they are based on the false concept of equality. The concept of human equality is merely an idea which Man has thought up — an idea divorced from reality. In the real world, in the natural world, there is no equality. *Equality is an idea, but inequality is a fact.*

In recognizing this and making it the basis for an or-

ganic, Nature-based human society, National Socialism rests on the soundest of foundations, while those ideologies (such as the ones mentioned earlier) which base themselves on false ideas, wishful thinking, superstitions and fairy tales are built on intellectual quicksand.

Thus National Socialism — the application of the laws of Nature to human affairs — is destined for eventual victory, and the ideologies which oppose it are destined for ultimate defeat. The laws of Nature cannot be ignored forever, Comrade Kerr warned, and those individuals and societies which seek to do so are courting disaster and ruin.

A lively question and answer session with the listening audience followed Comrade Kerr’s remarks.

National Socialist Receives 7% In Indiana Race for School Board

Party Comrade Clayton Roots received some 222 votes in an unsuccessful bid for the Mount Vernon, Ind., school board on 4 May. That was about seven percent of the total number of votes cast. Comrade Roots came in last in the five-man race.

Comrade Roots ran a low-key, non-partisan race. Although he did not run as an open National Socialist, his association with the Party was widely known and was featured in news media accounts of the race, which carried such headlines as “Candidate’s Nazi Leanings Questioned” along with a photograph of Comrade Roots and the other candidates.

The results of the race are consistent with those

polled by Party candidates over the years who did run as open National Socialists, and they indicate that a significant base of support and grass-roots sympathy for the Movement exists, even if these silent sympathizers and supporters aren't about to put on a Swastika armband.

WUNS Meeting Held in London

A meeting of Associate Members of the World Union of National Socialists from Great Britain was held in London on 26 June, for the purpose of discussing the possibilities of the formation of a WUNS affiliate in the United Kingdom. The private gathering was chaired by Povl H. Riis-Knudsen, the World Union Deputy for Europe. Members of the Irish WUNS affiliate, the National Socialist Federation of Ireland, were also present.

Indianapolis Unit Launches WHITE POWER Subscription Drive

In addition to their normal free distribution of WHITE POWER throughout the White community, members of the Indianapolis Unit have undertaken a campaign this summer to boost the number of WHITE POWER subscriptions in their city.

Individuals known to be sympathetic to the Movement in some way are being contacted by the unit. If these people are willing to put up half of the \$10 subscription fee, the unit will pay the other half. It is hoped that these new subscribers will renew their subscriptions when they expire, and that some of them can be recruited into the Party as Official Supporters and members of the Indianapolis Unit.

Other local units and activists who wish further details on this campaign should contact the Indianapolis Unit, at the following address:

National Socialists Make Surprise Appearance At Meeting Called to Discuss How to Fight the Party

National Organizer Martin Kerr, accompanied by a delegation of Party comrades, made a surprise appearance at a meeting called by the Montgomery County (Md.) Civic Association on 10 May. The announced purpose of the meeting was to discuss ways to combat the rise in "White racist hate incidents." Montgomery County has been the site of increased Party activity in the past months, during which many thousands of back issues of WHITE POWER have been distributed.

The meeting began with remarks from a gaggle of Jews, Blacks and System flunkies, representing such

anti-White organizations as the Jewish Anti-Defamation League and the NAACP. The speakers stressed the need for united action on the part of anti-racists against the "Nazis" and the Klan. They also emphasized the alleged link between the distribution of White racist printed material (which is perfectly legal) and acts of illegal violence and harassment directed against non-Whites — a link which simply does not exist.

The boring and factually incorrect remarks of the featured panel finally gave way to a question and answer session with the audience, which proved to be more boring and detached from the real world than what had preceded it — that is, until the Jewish moderator finally got around to giving National Organizer Kerr a chance to speak. As the National Socialists were dressed in civilian clothes and not ST uniform, the panel and the audience were unaware that there were members of the dreaded "Nazi" enemy in their very midst until Comrade Kerr began to inject a little truth and common sense into the proceedings.

Comrade Kerr started by blasting the speakers for attempting to link the Party to acts of synagogue defacement and the like, since the police and the various anti-NS groups present were well aware that the Movement has not been involved in such activity. Following this, Comrade Kerr lashed out at the panel and the audience for their total lack of concern over acts of racial harassment and violence directed against White people by non-Whites. Such anti-White incidents are far more numerous and serious than the relatively minor problems stemming from the distribution of WHITE POWER or the burning of a cross by the Klan.

Finally, Comrade Kerr verbally attacked the representatives of the organizations present as being the real instigators of the rise of racial tension and violence. Since the day it was founded the Party has warned that racial hatred and racial warfare would be the inevitable results of multiracialism. Now that the chickens are coming home to roost, the advocates of multiracial insanity and forced mixing are attempting to blame the Party for the very problems which it has been warning against for over 23 years. Rather, Comrade Kerr concluded, those groups which push integration, affirmative action, the lie of racial equality and so forth are the real sources of the racial problems the U.S. faces today.

Comrade Kerr's comments left the audience temporarily open-mouthed and stunned. A couple of the panel members tried to interrupt him and dispute the National Socialist viewpoint, however, and after a few minutes the meeting had largely degenerated into a discussion on whether or not National Socialists should be allowed to express their opinions in public forums such as this.

Cleveland Comrades Hold World Peace Day Gathering

The Cleveland Unit hosted a special meeting commemorating World Peace Day on 9 May. Party comrades and interested White people from Northeast Ohio attended the event. Unit Organizer Jimmy Clendennen addressed the group on achieving world peace through White unity and National Socialism. Those participating in the gathering described it as productive and inspirational.

Score: The Party—550; the System—Zero

Most of the time, the police act in a fair and decent manner towards the Party and towards Party activists. But not always. The following account is taken from the May activity report filed by Comrade K.J., of the Chicago area:

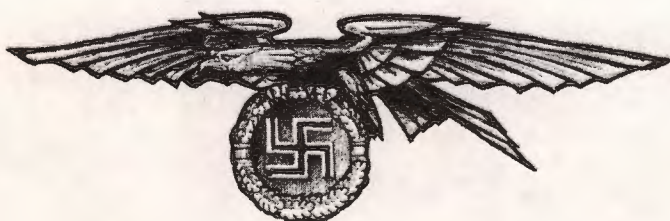

At the end of the month my wife and her sister and I went on a WHITE POWER distribution in Westchester, Ill. We left home with about 600 papers, and when we had about 50 left we noticed that the Westchester Police Department was keeping an eye on us. My wife and her sister were on one side of the street and I was on the other when a patrol car rolled up next to me.

Since I matched the description given the police of the person passing out literature I was taken to the street where the residents had complained to the police about us. A number of the residents were waiting there to identify me, but when the time came no one was willing to point the finger at me — not that it made any difference, because I hadn't broken any law.

The police decided to give me a ride back to my car, still wondering what charges could be brought against me. When we arrived at my car, another patrol car arrived. My car was searched (illegally) and they found one copy of WHITE POWER. At this the police called in some reinforcements to help them handle this difficult situation, and when three other squad cars arrived, I was severely yelled at.

The only non-White officer suggested arresting me for "soliciting without a license," but nothing came of this. I was given a police escort to the station where I was called a "Nazi pig" and then released.

The outcome was 550 Party papers distributed and a lot of wasted time for the Westchester police.

THE TURNER DIARIES

Andrew Macdonald

Race war & nuclear terror in America

Andrew Macdonald's startling book set in the 1980's, is a compelling tale of white revolution and urban guerrilla war in the streets of America. After the government has confiscated all the guns and subjected the people to another big dose of racial "equality," Earl Turner and his comrades in the Organization strike back in a way which will warm the heart of every red-blooded reader. In a terrifyingly realistic scenario, sabotage and assassination mount to a climax of cataclysmic intensity and worldwide scope. *The Turner Diaries* has a powerful impact at both the philosophical and the gut level.

QUESTION CORNER

Q: Once upon a time WHITE POWER came out every month and the NS BULLETIN came out twice a month. Why can't the Movement get its publications out on a regular basis anymore? Is it a matter of insufficient funds? When (if ever) will this situation be corrected?

A: The infrequency of the Movement's periodicals and the lack of a regular publication schedule are matters of great concern to National Headquarters. Most of our supporters have contact with us only through the mail, and when they don't receive the Party paper or newsletter, for long periods of time they become discouraged and lose interest in the Movement, which in turn causes them to withhold their vitally-needed support.

For the last two years, and especially over the last nine months, Party expenses have been exceeding Party income. This situation cannot help but have a negative effect on every aspect of our operations.

The key reason, however, for the serious lag in our publications schedule is a lack of adequate manpower at National Headquarters. In the past, we have had two or three full-time staff members working on the paper and the NS BULLETIN. At the present, we have only one person working part time in that department.

The slowness and irregularity of Party periodicals will continue until dedicated, qualified National Socialists step forward to do the work that needs to be done. Until that time, we will have to limp along as we have been doing. Accordingly, we ask for the patience and forbearance of all Party members and supporters.
