# BULLETIN

OFFICIAL INTERNAL ORGAN OF THE  
**National Socialist White Peoples Party** AND THE **National Socialist Youth Movement**

Number 288

August 1982 YL-94

*"All those who cut themselves off from our Movement, who cling to the Old Order, die away and are doomed. But those who listen to . . . [our] message . . . who devote themselves to our eternal Movement, are called to a new humanity. Do you now appreciate the depth of the National Socialist movement? Can there be anything greater or more all-comprehending? Those who see in National Socialism nothing more than a political movement know scarcely anything of it. It is more even than a religion: It is the will to create mankind anew."*

—Adolf Hitler

## Forward to the New Order!

A Special North American Assembly of the World Union of National Socialists was convened in Arlington over the Fourth of July weekend, for the purpose of setting into motion a number of profound and wide-reaching changes in the structure and orientation of the Movement on this continent. This assembly was without a doubt the most important event in the history of the Movement in America since the founding of the NSWPP in 1959 by George Lincoln Rockwell. It was attended by several dozen key Party officers and selected activists from across the United States and Canada.

The changes which Commander Koehl announced at the assembly will be made public in conjunction with the upcoming 1982 Fall Building Campaign, and will be elaborated on in depth in future Movement publications. Although we cannot disclose these changes at this time, we can reveal that they involve a number of important Party projects which have been in the planning and preparatory stages for many years.

The following are the highlights of major addresses by Movement officers, which explain why the forthcoming reorientation and restructuring of the Movement are vitally necessary.

### The Collapse of the West

The first speaker was the World Union Deputy for Europe, Povl H. Riis-Knudsen, who spoke on the inevitability of the collapse of Western civilization — and why this is something that we National Socialists should rejoice over.

In many respects civilizations resemble living organisms. They are born, they mature, they grow old and they die. And although their allotted life-span may be lengthened or shortened to some degree, all civilizations sooner or later reach a point of no return. This is true of the civilizations which preceded the West (such as the Egyptian and the Classical), and it is true of the West itself. Since the defeat of National Socialist Germany in 1945, Western civilization has been heading toward its death at an ever-increasing speed. Today the final collapse is only a short way off. It is no longer possible to "save" or "revive" the West. The spiritual, racial and political decay which it has succumbed to in its old age is simply too advanced.

But this is not a cause for mourning. From its inception, Western civilization has been built on non-Aryan spiritual foundations. The basic philosophic premises of the West, and the ideologies which have sprung from them, all revolve around the false concept of human equality. This concept is detached from reality. It is contrary to the laws of Nature. *And it has brought our Race to the brink of destruction.*

The survival of Western civilization is not the important thing. The West is finished. What is important is that our Race survives. Nothing else counts. Culture and technology can always be reinvented, but if our Race is destroyed, it will be gone forever.

We National Socialists should be glad that the West is dying, and we should pray that it dies a speedy death and that it doesn't take the Aryan race

with it, by way of a nuclear holocaust or some other racial or environmental catastrophe.

### Survival of the Idea

The next address was given by National Organizer Martin Kerr, who spoke on the importance of the survival of the National Socialist Idea in the post-Western period.

The odds of the National Socialist movement coming to power before the collapse of the West are very slim, at best. At the present time our Movement is weak, our enemies are strong and the flow of history is against us.

But if the struggle for political power is realistically beyond us at this time, that does not mean that our Movement has no purpose, no meaning and no worthwhile, achievable goals. It simply means that we must reorient ourselves and channel our energies in a different direction.

Specifically, the proper goal of the Movement at this time is to see to it that the National Socialist Idea survives the collapse, so that it may form a solid foundation on which our descendants may create a new Aryan culture.

This, then, is the great task that lies before us.

### Race and Religion

On the afternoon of 4 July, Commander Koehl made a major presentation to the assembled comrades on the subject of race and religion.

Traditionally, our Movement has avoided getting involved in religious and spiritual questions, because all too often religious disputes have only served to keep White people divided from one another. Instead, we have addressed ourselves almost entirely to political issues, and have sought to put them in their proper racial framework.

As time goes by, however, it becomes clearer and clearer that the *real* problems facing our Race are in the final analysis not political or even racial in nature. Our Race is not suffering so much from a lack of political options or even from a lack of racial knowledge as much as it is beset by a spiritual cancer which has sapped its intellectual, moral and physical courage. The fundamental problems which we face are spiritual in nature and hence we must seek spiritual solutions to them.

Furthermore, in the new order which we wish to build — as in any healthy society — there is no sharp separation between the religious and the political facets of life. In an organic community, spiritual and political values complement and reinforce one another. The idea of the separation of church and state is not a healthy one, and the fact that present-day America is based on this notion

is one more indication that the ruling System is diseased and anti-natural.

Ultimately, the National Socialist movement must present itself to those White people seeking a change in society not merely as a political alternative to the present System, but rather as a racial faith.

### Conclusion

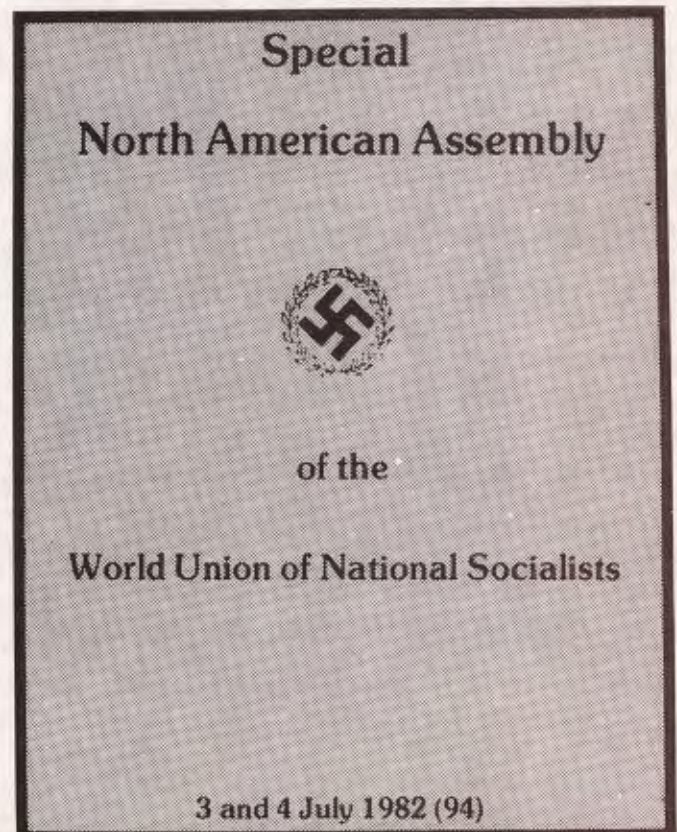

It is the recognition of these three facts which necessitate a radical and immediate alteration in the organizational structure and the public outreach of the Movement:

- *Western civilization is headed for an imminent collapse;*

- *Since we will, in all likelihood, be unable to seize political power before this collapse, our primary goal at this time should be to see to it that the National Socialist Idea and the National Socialist movement survive the collapse; and*

- *Since the fundamental sickness afflicting our Race is a spiritual one, we must offer a spiritual cure for it.*

These are the most important considerations which have gone into the changes in the Movement which will be made public in the following months.

## SELECTING THE RIGHT WEAPON FOR THE RIGHT TARGET

Every army has a wide variety of weapons in its arsenal. Different kinds of armaments are needed because a weapon which is highly effective against one type of target may be completely useless against another type. Machine guns, for example, are effective against human targets but they are worthless against tanks and other heavily armored vehicles. A heat-seeking missile may be useful in shooting down a jet fighter but it is of little value if it is employed against infantry units.

The Party is a *political army* which uses *propaganda weapons* to achieve its ends. As with a military force engaged in actual combat, the political warfare which we are involved in requires that we carefully select the propaganda weapons which we use against specific targets.

An effective but sometimes overlooked weapon in our arsenal is the one-page leaflet. The primary purpose of the leaflet is to attract people to the Movement who are already in basic sympathy with our beliefs. A secondary purpose is to build sympathy and support for National Socialism by influencing White people who are politically uncommitted. Still another purpose is to win new recruits for the Party by causing those who are opposed to us to question and rethink their positions on key issues.

While some leaflets are designed for general distribution, others are written to appeal to Whites with specific interests. In order to obtain the maximum effect from the distribution of leaflets, it is necessary to carefully select the right propaganda weapon for the right target.

The following is a list of leaflets currently available from NS Publications, along with suggested targets for their distribution.

**THE BIG LIE** — Good for distribution to those interested in the Second World War, or who have been infected by anti-NS propaganda. 20 copies for \$1.

**BRITISH PAPERS INDICATE F.D.R. SOUGHT WAR WITH HITLER** — Good for people who generally agree with us but who are still hesitant about supporting National Socialism because they have been influenced by anti-NS propaganda about the Second World War. Good for anyone with a special interest in the Second World War. 100/\$3; 500/\$10.

**BUILD A NEW ORDER** — Primarily for college students but good for high school students as well (in particular, seniors). Less effective for distribution to the general public. 50/\$2; 300/\$10.

**BUSINESS CARDS** — Designed for general distribution. 100/\$1; 500/\$4.

**BUY ARYAN** — Excellent for distribution to housewives and owners of small businesses. Also effective for general distribution at shopping malls and other areas where White people go to buy things. 50/\$2; 300/\$10.

**FREEDOM FOR RUDOLF HESS** — Designed for those concerned about human rights or who have a special interest in the Second World War. Not very effective for general distribution. 100/\$3; 500/\$10.

**THE FRANKLIN PROPHECY** — Good for students, teachers, conservatives and anyone with a special interest in American history. 50/\$2; 300/\$10.

**HE MAY BE YOUR EQUAL—BUT HE SURE ISN'T OURS!** — Excellent for distribution to those who already have a well-developed sense of racial awareness. Excellent for anyone who has to live, work or go to school with Blacks. Good for general distribution as well. 100/\$3; 500/\$10.

**THE MENACHEM BEGIN STORY** — Especially designed for distribution to anyone concerned about developments in the Middle East, whether they are pro-Israel, anti-Israel or undecided. Good for liberals interested in human rights issues. Moderately effective for general distribution. 50/\$2; 300/\$10.

**ON CRIME AND PUNISHMENT** — Good for distribution to the victims of crime and their families and friends. Acceptable for general distribution. 100/\$3; 500/\$10.

**RACIAL COMRADES OF THE LEFT!** — Written for leftists (both communist and non-communist), especially those active in socialist organizations. Very poor for general distribution. 50/\$2.

**REMEMBER THE LIBERTY!** — Excellent for U.S. navy personnel (active or inactive) and other members of the U.S. armed forces. Good for distribution to those concerned with the Middle East, whatever their political orientation. Good for rightwingers. May be used for general distribution. 50/\$2; 300/\$10.

**THREE JEWISH CONTRIBUTIONS TO WESTERN CIVILIZATION** — Excellent for those concerned about the possibility of a nuclear holocaust. Excellent for distribution to those already aware of the Jewish menace. Good for general distribution, especially to young people. 100/\$3; 500/\$10.

**WHY DOES THE SYSTEM HATE NATIONAL SOCIALISM?** — Designed for high school students. May also be distributed to anyone with a special interest in the Second World War. Ineffective for general distribution. 50/\$2; 300/\$10.

(Continued on the next page)

The whole concept of selecting the right propaganda weapon for the right target should be extended beyond just the use of leaflets. For example, right now U.S. public opinion is swinging away from sympathy for Israel because of the Zionist holocaust in Lebanon. Public attention is riveted on Israeli aggression, and millions of previously apathetic White people are now intensely interested in the growing debate over the wisdom of U.S. support for the Jewish gangster state in Palestine.

This is the *perfect* opportunity for the mass distribution of not just MENACHEM BEGIN or REMEM-

BER THE LIBERTY! leaflets, but of *all* Party materials dealing with the Middle East question, including WHITE POWER 102 ("What Price Israel?"), DUMP ISRAEL bumper stickers (5/\$1; 25/\$3) and NO U.S. TROOPS FOR ISRAEL! ministickers (50/\$2; 100/\$3 500/\$10).

Every National Socialist is obligated to spread the Movement's message in whatever way he or she can. The effective distribution of printed propaganda materials is a method which every comrade can utilize to recruit and build support for the Party among the great masses of our racial brothers and sisters.
