

FREEDOM OF THE PRESS

FOR WHOM?

The Bay Area Press has represented the American Nazi Party as being "secret" and "underground". And yet, every large paper in this area refuses to publish such simple advertisements as "American Nazi Party programs - free. Post Office Box #5066, San Francisco, California". If the aims, ideals, and methods of the American Nazi Party are still unknown to the people of this area, who is responsible?

The Party would like to make its principles known to the general public, and it has several spokesmen who are willing, at any time, to discuss the party program with groups or individuals. It has free literature which is currently in the process of distribution to the public. Is it fair, then, to refer to this Party as "secret" or "underground"?

"Let the people know the facts, and they will make the proper decisions." Do you agree that the people are entitled to become acquainted with the program of a legally constituted political party which is making a bid for public recognition?

On what grounds can the local newspapers, in good conscience, refuse to publish our advertisements in their classified columns? No reason was given our representative at the time the ads were rejected.
