WORLD UNION OF NATIONAL SOCIALISTS

P.O. BOX 5066, SAN FRANCISCO, CALIFORNIA

Dear Member or Associate

As suppression of true information about our party policies and activities is the primary deterrent to our expansion and advancement, we have initiated an advertising program which, among other things, includes an "IQ Test Questionnaire" of which a sample is enclosed. Twenty thousand of these copies have now been prepared for distribution, and we believe that if this item eventually floods the San Francisco Bay Area, it will help to promote our cause.

At the present time, this unit of the party urgently needs certain services and materials. All services and materials are now, and must continue to be, of first quality. To disseminate the literature mentioned above, we need distributors - distributors in as many diversified areas as possible. If you would be willing to help, by passing out questionnaires similar to the one enclosed, please request the number you would like, 5 to 500 or more; but please make each one count! Take an afternoon or evening or two, go to your main street or shopping center, your industrial area, or anywhere many people are coming and going. Offer a copy to each person who appears eligible - that is, responsible, sensible, and particularly, tolerant. Our immediate objective is to collect those who are currently of our opinion. We realize that, since a certain percentage will already favor our policies, the more people we contact, the greater will be the number who will associate themselves with our organization as a result of this campaign. We can prepare and distribute the "convincing" literature later.

If each of you could also mail to a personal friend or acquaintance - a good prospect, that is - 2 to 10 of these "IQ Tests", either anonymously or with request from you to complete it and mail it to us, you would be furthering our efforts considerably, for when the questionnaires are received here from individuals new to the organization, we return immediately to them copies of the party program and other high-standard literature. The recipients then have admitted their basic agreement with our policies; thereafter it is only a matter of admitting to themselves that they have been Nazis all the time. If you need questionnaires for distribution in your local area, please request the number you require.

Please make every one count, however! Remember that owners in front of whose establishments you may happen to be standing while making distribution of these questionnaires could disapprove if they were aware that you represent our organization. If you remain anonymous, they probably won't take the trouble to care. So you can, if you prefer, be "someone who has just been given \$5 to pass these out". Or acknowledge your action, if you wish, as a party activity; it's not unlawful.

We also need clerical assistants: those who can prepare typed or electronic stencils or operate offset print equipment, stencil duplicators, or other mechanical equipment; typists; envelope stuffers, sealers, and stampers, etc., as well as errand runners. Any volunteers for the work of the organization? At present we have the necessary equipment - just need the assistance. But later we will need more, larger equipment, as the interest and workload continue to increase. Any service you may be able to perform, which we have neglected to mention, may be directed to our attention.

Funds to finance these materials and services are not provided by Party Headquarters, but are dependent solely on the contributions of supporters in the area. Without these generous contributions, the entire unit is at a standstill, including the department responsible for mailing of information to interested parties and new prospects. We therefore wish to thank you heartily for your response, which has once again permitted us to perform this welcome service to so many requesting it.

Heil Hitler!
