

IMPORTANT NOTICE TO ALL WHITE POWER SUBSCRIBERS

Enclosed is the latest issue of the NS BULLETIN. We trust that you will find it both interesting and informative—and that you will decide to continue receiving it on a regular basis.

In evaluating the requirements of the National Socialist movement at this time, we have discovered that there is a critical need for a program of NS instruction and development. Such a program is even more urgent than any elaborate campaign of mass propaganda, offering but limited prospects for immediate success.

What this boils down to in terms of our publications is this: We need an *internally-oriented* medium which will serve this vital purpose of instruction and education, and which will be available to *every-one* in the Movement. By the same token, we *do not* require a periodical tabloid at this time for our work of public outreach. A general introductory broadside, updated from time to time, will serve perfectly well right now—with corresponding savings to the Movement.

Accordingly, *we are discontinuing WHITE POWER as a subscription publication.* * Replacing it as the regular periodical publication of the Movement will be the NS BULLETIN.

For 18 years, the NS BULLETIN has consistently and faithfully provided news and information of the National Socialist movement. Appearing regularly since January 1967 it is, in fact, the oldest continuous National Socialist publication in the English language. And it is uniquely suited to its new function.

Up until now the NS BULLETIN has been available only to registered supporters, and has served primarily as a vehicle for the transmission of internal information to adherents of the Movement.

With this issue, we shall begin expanding our readership. We shall also begin dealing with a variety of contemporary topics, and offer editorials, special columns and other features which will enable a proper understanding of those issues and forces affecting our destiny. There is a whole lot of exclusive, inside material that we are anxious to share with you. In the coming months, we shall be doing just that—and always from a strictly National Socialist point of view.

Present subscribers to WHITE POWER will be receiving an equal number of issues of the BULLETIN against their unexpired subscriptions. After that, the NS BULLETIN will be available free only to those who become *registered supporters* of the NEW ORDER. If you are not already a registered supporter, you may become one by simply completing and returning the enclosed application form with your first month's pledge. *It costs just pennies a day.*

If, for any reason, your personal situation does not permit you to complete a Registered Supporter form, but you would still like to receive this unique and informative publication with inside news of the Movement of Adolf Hitler, you may do so by filling out the enclosed subscription blank and returning it with your remittance.

It should be noted that those who have made special contributions to the NEW ORDER since January 1983 will be given credit toward their RS pledges or NS BULLETIN subscriptions, as they specify.

We want to emphasize that the NEW ORDER is *not* for spectators, voyeurs or the casually interested. Ours is a sacred Cause—the *greatest Cause of all time*—and it is only for those who are willing to take part and act and do.

If you are serious, but are not as yet a registered supporter, we invite you to become one today. If for any reason, your personal situation does not permit you to become a registered supporter at this time, then we invite you to become a subscriber to the NS BULLETIN.

Whatever you decide, let us hear from you *today*.

The Publications Department
NEW ORDER

*We shall continue to make WHITE POWER available in introductory format on a non-subscription basis.
