

20 % Off !!!

To our Friends and Supporters:

Enclosed is a copy of the advertisement which will be used by the New York publishing house to sell my book, "This Time The World" to the general public at ten dollars per volume.

As the author, I can get a limited number of copies at a reduced price, provided they are ordered right away. We are therefor able to offer the book to our private list at twenty-percent off, --\$8.00 per copy.

The Jews have already done everything possible to prevent sale and publication of this deadly book, and those who know the ways of these lovers of free-speech will know that it will be practically impossible to buy a copy of "This Time The World" in a book store.

(over)

For this reason, as well as the 20% saving, we strongly urge our friends and correspondants to insure THEIR copy of "This Time The World!", as well as copies for Christmas presents, etc, by ordering it from us NOW, so we can reserve it from the press-run.

In recognition of the support and loyalty of those who have made this movement possible, I will personally inscribe a note to each of our friends and autograph each book ordered through us.

Please remember, we MUST have your order in the next few days after you receive this offer, in order to get the twenty per cent reduction in price.

Fill out the coupon below, (not the one in the enclosed piece from the Publisher), and mail it along with a check, money-order or cash. You will receive your copy of "This Time The World" before general publication, postpaid and personally inscribed to you.
