LOCAL SUPPORTER UNITS

In keeping with the NSWPP Phase Two Program of organization, we are now forming local chapters for Party supporters. The idea of these chapters are the preparation of White people to carry out large-scale political campaigns.

If you are interested in seeing the success of National Socialism in your community write to this head-quarters for information. We will provide you with instructions on how to form an effective political force with a minimum effort.

This information will be available only to our supporters in Southern California.

HQ REMODELING

We still need paneling and paint to finish the work on our head-quarters as described in the last Bulletin. If you care to donate to this important project call 442-9021 TODAY.

WE NEED A CAR

In past weeks we have had to call off several activities for lack of transportation. Various supporters have promised us a car, but as of this date we haven't recieved one. Therefore, we are appealing now for a good transportation car in this Bulletin.

USC FRATERNITY HEARS NATIONAL SOCIALIST VIEWS

Lt. Kirstein addressed an over-flow crowd at Tau Kappa Epsilon Fraternity at the University of Southern California on 18 March. During the 45 minute speech Lt. Kirstein presented many documents proving the Jewishness of Communism and the Black Revolution. After the speech there was an additional hour of questions and answers as to the goals of the NSWPP.

On the following day, the USC newspaper carried a front page story which we have reproduced on the next page.

William Kirstein speaks to fraternity

Nazi advocates total white rule

William Kirstein could have been mistaken for one of the brothers as he sat down to dinner at the Tau Kappa Epsilon fraternity house last night. The correct sports coat, button-down collar and boyish smile fit the Monday night meeting, except that on Kirstein's lapel was not the usual fraternal insignia, but a gold-plated swastika.

And for an hour Kirstein did not discuss Greek Week, but the international Jewish-Communist conspiracy, the American Nazi Party's goal of total and absolute geographic separation of the races and white power.

"There are facts too fantastic to believe about the Jewish involvement in the Russian Bolshevik revolution," he said.

"The nature of communism in the Bolshevik movement is Jewish."

He cited an Army report from the U.S. National Archives that was written after the Soviet revolt. It stated that there were over 300 Jews in government positions after the Communists took over, Kirstein said that this explains why Hitler was anti-Semitic. He wrote "Mein Kampf" after investigating the political leaders of the left and their thought processes. The German Nazi went to the ghettos in Vienna to debate and argue the Communist position.

"Hitler became anti-Jewish simply because he understood the Jewish mind and thought processes," he said.

"To say that one loves the Jews and hates communism is as if saying that you love to swim but hate to get wet."

Kirstein claims to have gained an insight, too, into the Jewish mind by publications and the writings of the late George Lincoln Rockwell.

"I wanted to get the truth, not some lies from perverted history books," he said.

The American Nazi Party, which is changing its name to the National Socialist White People's Party, has been stifled in exercising its freedom of speech because of the opposition it has encountered when trying to hold a rally, Kirstein said. He anticipates that the Nazi Party will become a world-wide organization, restricted to only white-dominated countries.

"The Aryan nations must stop fratricidal wars and promote white interests," he said. "We need to protect the Aryan race. We plan on forming a type of NATO alliance among the Aryan nations to look out for white interest."

Kirstein, a lieutenant in the party, revealed the "shocking fact" that the white race is outnumbered ten to one internationally, and that in 20 years it will be outnumbered 49 to 1.

"Unless we stop our insane policies, we will see the white race go down under in 20 years. It will be the death of the white race."

In Kirstein's definition, Jews were not part of the white race, but left-wing, liberal race-mixers.

PARANOID JEWS FLEE NATIONAL SOCIALISM

Los Angeles radio station KABC was attempting to arrange a debate between an American National Socialist and top leaders of the Jewish ADL. On 3 March an announcer called us and said that the proper arrangements had been made with the ADL and asked if Lt. Kirstein would be willing to appear. We, of course jumped at the chance.

However, on 9 March (the day before the scheduled broadcast) the radio station informed us that the ADL had "regretfully" decided not to go ahead with the debate because they felt it would be of no "importance". In other words, the Hebe defenders of free-speech chickened out at the very last moment in true Yiddisher tradition to avoid the "embarrassment" of being verbally gassed in front of a couple of million people.

You Jews can do all the lying to yourselves you want, and you can run and hide until doomsday, but we're STILL going to get you in the end and put a stop to all your Communism and Zionism.

NEW WESTERN DIVISION MANAGEMENT

On 17 February Warrant Officer John Ryan was appointed to the position of Unit Secretary and Treasurer. In one short month Mr. Ryan has put Western Division on sound financial footing. All past bills have been paid in FULL.

Several of the Troopers here hold outside jobs, which pay for all of our "sustaining" expenses (food, etc.). HOWEVER, your donations are still very much needed to pay for literature, printing and all of our other political activities.

NATIONAL SOCIALIST MEETINGS AND CLASSES

We wish to again remind all our supporters that the new time for Party meetings is 8:00 EVERY Friday evening. Special classes in NS ideology are held EACH Saturday evening at 7:30. Both the meetings and the classes are open to the public.

EDITORIAL

"He (the Jew) knows the old parties. They are easily satisfied. Only endow them with a few seats as ministers or with similar posts and they are ready to go along with you. And in especial he knows one thing: they are so innocently stupid. In their case the truth of the old saying is proved afresh every day: 'Those whom the gods wish to destroy, they first strike with blindness.' They have been struck with blindness: therefore it follows that the gods wish to destroy them. Only look at these parties and their leaders, Stresemann and the rest of them. They are indeed not dangerous. They never go to the roots of the evil: they all still think that with forbearance, with humanity, with accommodation they can fight a battle which has not its equal in this world. Through gentleness they think that they must demonstrate to the enemy of the Left that they are ready for appeasement so as to stay the deadly cancerous ulcer through a policy of moderation."

"No! A thousand times NO! Here there are only two possibilities: Either victory or defeat!" *

WHO DO WE ENDORSE FOR PRESIDENT ?

The leaders of our country are not struck "with blindness". They KNOW about the Jewish Bolshevik conspiracy to destroy our country and the White Race, for they are actively participating in it. With the exception of Wallace, all of those contending for the presidency support "Civil Rights" and open-housing, none have the guts to attack the Jews and race-mixing, none are worth even the thoughtful consideration of White Americans, much less their votes.

The future of America and Aryan mankind depends on honest forthright LEADERSHIP. The leadership of men who recognize the enemy for what he is, and who will put the philosophy of racial idealism into practice to secure true peace and order for the world, for all mankind, for all time.

For awhile, many Americans felt Gov. Wallace was the answer, but even he said on one occasion that "racism is evil", and after a recent speech, SHOOK-HANDS with disorderly niggers who had been shouting BLACK-POWER at him! Whether Gov. Wallace is trying to "outsmart" our enemies, and intends to "turn the tables" later on is yet to be seen.

The National Socialist White People's Party feels Adolf Hitler sums it up in the last sentence of the above quotation when he says, "Here there are only two possibilities: Either victory or defeat!"

We, therefore, support NOTHING LESS than total victory, and no one else less than Matt Koehl, the National leader of this party.
