WHITE

POWER

NATIONAL LEADER VISITS L.A.

NEW HQ LEADER

Major Koehl won the day in his first California trip. His main purpose was fund raising so the Party can open our New National Hq. complex in Arlington. He has nearly reached the goal.

He also appointed Lt. Kirstein to lead in California. His Leadership solved problems caused by some who tried to capitalize on the Commander's Martyrdom. All agree, "MAJOR KOEHL CAN DO THE JOB."

Local Leader

Since the death of our Commander, We National Socialists have truly united in the struggle for White Revolution. We have already completed the first phase of the fight. Now we must build a corps of leaders with knowledge and ability to lead our people when they're ready for action.

We proved in Chicago that we can win mass support, but without the necessary leaders who'll take on responsibility, We'll never organize mass support for affirmative action.

Here in Los Angeles our potential is great. As revolution and black hell-raising increase, our people will want to do something about it, but they'll be without leaders. Only then will they be ready for us, and we must be prepared!

With leaders we'll organize this vast power, put National Socialists in office, and then start reforms as laid out in the program.

SUSTAINING HQ

To train leaders, and activists, we must maintain this headquarters. Therefore, I want National Socialists who emulate self-sacrifice, personal strength, maturity, and a desire to work to live here and work at other jobs to bring in money so we can run this headquarters properly. Non-Members will fill out an application, notarize it, and bring it to H.Q. with the necessary money. An interview will follow and those accepted will move in as soon as possible.

I know that through dedication and cooperation, we'll be able maintain things out here and grow, and through these things the enemies of our people will realize NOTHING CAN STOP US, and that their days are numbered! ●

Dear Friend,

Major Koehl could not have made a finer selection for the new Party Leader in California than he did. Lt. Kirstein is more than capable to handle the job. This says a lot, because Lt. Kirstein is inheriting a number of serious problems from me. Most of these can be solved quickly if you give him your whole hearted support.

Lt. Kirstein graduated with top Honors from Billy James Hoggis' College of Anti-Communism. After completing this political kindergarten he became active with the Party here in Los Angeles. Just as soon as he was old enough he joined full time, though this was a great material sacrifice. He has served the Party in El Monte, Dallas, Chicago, Arlington, Pennsylvania, Glendale, San Francisco,

Fresno and traveled all around the Country with the Commander. Among the highlights of his career thus far he broke up the NAACP Convention in Los Angeles in 1966. He also made national news for his role in helping to smash treason in Washington last October 21st. He "stars" in the film, MAKING OF A STORM TROOPER" which will premier Saturday just after the FIRST WHITE POWER RALLY OF THE YEAR, January 6th.

I have the utmost confidence in Lt. Kirstein. I pledge him my full support. Please, won't YOU do the same.

HEIL HITLER!

Ralph L. Foch

SWINE REMEMBER HQ., DON'T YOU FORGET!

Last weekend, enemy terrorists fired on this headquarters building several times with shot guns. The picture here shows the sign on the main door after the attack.

As these traitors and swine get more desperate in their attempts to stop us, they'll do more than fire shot-guns, or throw paint. We just hope they'll get real brave sometime, 'cause when they do they'll find out we've got guns and can use 'em!

AMERICAN

NAZI PARTY

VERY
IMPORTANT 

*Come & Meet
The New Leader of
Your HQ*

at the **SAT. Jan. 6** MEETING

PARTY RALLY

8:00 pm 4375 N. PECK
EL MONTE; Ph. 442-9021
