

JOLT THE JEWS!

Amazing Propaganda Device allows you to EXPOSE JEWISH CONSPIRACY without exposing yourself!

THESE LITTLE STICKERS are designed to do something YOU can no longer do in this "free country" - - - - - stand up in public and tell your fellow Americans the simple truth about THE JEWS and what they are doing to our beloved Republic.

Great men, from Henry Ford to Lindbergh have risked their very lives trying to alert their fellow citizens, only to bow inevitably before that brutal, secret power which the Bible calls "fear of the Jews".

No debate is allowed, no effort is ever made to dispute the mountains of facts which prove the monstrous guilt of these traitors, no common "rights" are allowed to the hapless would-be exposer, by these worshippers of Free-speech. Those who have tasted the tender variety of "brother-hood" and "tolerance" afforded anyone foolhardy enough to challenge the right of the Jews to own and run America knows that the blessed day when America really WAS a land of free speech has been gone for thirty years. Even the old-fashioned remedy for tyranny, -the pamphlet, has been hounded and driven almost to the sewers by these arrogant Jews, who never tire of telling us how they are the original inventors of the principles which built our great Country, even though only a tiny handful ever risked the dangers of our frontiers to BUILD a nation, much preferring to remain behind as parasites in the bodies of more settled, comfortable nations until the rich, warm blood of America was flowing and ready for their fangs.

When the freedom of honest debate is ruthlessly crushed, and even the holding of opinions hostile to our Jewish masters is punished by personal persecution, those who realize the terrible, desperate need to inform America before it is too late must take advantage of ANY loop-holes left by the enemy.

Such a loop-hole exists!

There is one common meeting ground of humanity, the humblest of all places, and yet a place whence all must repair regularly. This one

place, thanks be to Providence, has not yet been made subject to the constant surveillance of our Jewish "Big Brothers". Here a man may sit in absolute privacy for a few moments, -his thoughts utterly his own.

Were this man to be faced, only inches from his eyes, with one of the stickers saying, for instance, "COMMUNISM IS JEWISH!" he could not but ponder a subject which he is NEVER allowed even to consider as long as he is drowned in the twenty-four hour flood of Jewish TV, Jewish newspapers, Jewish movies, Jewish magazines, Jewish books, Jewish plays, etc, etc etc. He couldn't HELP but reflect on the parade of Jewish communists through the courts in spite of all the conspirators do in the way of name-changing to hide this. And, best of all, NEXT time he saw or heard of a Red Spy Ring, he would remember the little red sticker in front of his eyes, and would begin to SEE what's going on in America, for the first time.

Other millions of Americans, already alert to the Jewish danger but, like most of us, too aware of the Jewish power of social and financial ruin to do or say anything about it, would be encouraged to ACT to save their Country when they saw this evidence that SOMEBODY was DOING something about it, --that they were not ALONE.

Get a supply of these powerful little weapons, and put them where they will do the most good! If you are careful about it, you can reach hundreds, -maybe even thousands of Americans every DAY, --AND NO JEWISH SPIES WILL KNOW WHO IS EXPOSING THEM, --WHOM TO PERSECUTE AND TERRORIZE WITH THEIR PHONEY "BROTHERLY LOVE!"

It's fun to think about! Forget the humble measures to which we are reduced in this supposed land of freedom, -and enjoy the consternation you know you have caused in enemy headquarters as they begin to get the reports of these awful, terrible, TRUTH-TELLING little stickers going up everywhere. They can scrape them off, damn them, even threaten the unknown "villains" who are thus exposing their nasty game. BUT THEY CAN'T HAVE ONE OF THEIR GESTAPO AGENTS MOUNT GUARD IN EVERY ONE OF THE LAST PLACES AMERICANS MAY STILL FLEE FOR ABSOLUTE PRIVACY. You can do your "dirty" work of publishing the truth to quite a few citizens, even in this humble way, -and there isn't a DAMNED thing they can do about it short of an all-out campaign which would make laughing-stocks of them.

Don't waste another opportunity!
