THE TWO SIDES OF THE SAME COIN

The birth of German national socialism imponderably delayed the triumph of the World Jewish Marxist revolution also the doctrine of the swastika and it's anti-communist fight showed to the world the existence of a powerful collaboration between government so diametrically oppose yet strong enough to blind the american white soldier into fight against his german and european blood and cultural brother. A collaboration dirty enough to send entire nations to war to save communist Jew Russia.

Today nothing has changed the so called end of communism in Russia and eastern Europe has been and orchestrated lie to keep the billions of people in those area's from learning about nationalism, we must never forget that communism and capitalist democracy are the two sides of the same jewish coin. The Jews win with the cure and sickness at the same time.

National socialism is not a doctrine of racism, but a doctrine about concept of race and culture, a doctrine that stands with and for deffending Gods devine creations also national socialism does not teaches to hate for hate creates cancers and ulcers. The Jews and their satanic ~~ipax~~ plan are anti-god and anti-natural laws for when the races are mixed not only is ethneciticity destroyed but thousands of years of cultural history are also destroyed, and the results are mongrolized. People's and cultures which are not one thing nor another, confused and without a cultural back-bone the product of mongrolization are foolish tools of the jews, those who do and believe what the Jew media and governments tell them, ~~podo~~, science-fiction, fashions, the idea that morality is a myth, feminism and many evil lies are all Jew created.

This message is to have humanity open their eyes and get prepared to the Holi-war against the Jewish cancer, nationalist brother and sister unite to the forces of the central national socialist of workers of Latin America in which the U.S.A and Canada are also included.

Angel D. Mondejar
President CONSLA.
